Nothing But Pure®

Quality Defined

Zero Compromises.
Pure Results.

WHY PURE ENCAPSULATIONS®

Quality defined is the unique intersection of **creative collaboration**, **scientific rigor**, and **unwavering standards** to produce the safe and effective **free-from** products you depend on.

CLINICAL TRIALS

Investment in Science

Scientific research is a top priority for Pure Encapsulations. Only those compounds whose potency and clinical value have been validated through science or research go to market.

“This company’s dedication to science goes way beyond its own individual needs... it benefits the entire industry.”
-Nutritional Business Journal®, March 2016

In the past few years, more than 30 product-specific clinical studies have been published in leading peer-reviewed journals, which attests to the caliber of our academic research with top institutions, including:

Stanford University

MICHIGAN STATE UNIVERSITY

EFFICACY

Collaboration at Every Step

Our strength lies in our collaborations, unified in purpose, toward a more vibrant future of nutritional wellness. We partner with leaders in the most important nutritional health areas: genomics, mental health and emotional well-being, weight management, immunology, and more. A few of our distinguished medical partners include:

Caroline J. Cederquist, M.D.,*
a board-certified bariatric physician who specializes in nutrition and metabolism

Felice L. Gersh, M.D.,*
an award-winning integrative gynecologist focused on women’s health

Izabella Wentz, Pharm.D., FASCP,*
a nationally acclaimed thyroid specialist and licensed pharmacist

James Greenblatt, M.D.,*
a dually-certified child and adult psychiatrist and a pioneer in integrative psychiatry

Nathan Morris, M.D.,*
a certified functional medicine practitioner and a leader in the field of nutritional genomics

*Our Medical Advisors are retained consultants for Pure Encapsulations.

TRUST IN MANUFACTURING

Unwavering Standards

Exacting production standards and an insistence on transparency require an unrivaled confidence in quality assurance and hypoallergenic products.

Highest-Quality Ingredients

- Raw materials are tested for identity, potency, microbial contaminants, heavy metals (including mercury, arsenic, cadmium and lead), 32 solvent residues, and allergens
- Herbal ingredients are tested for 70 different pesticide compounds
- Essential fatty acids and fish/krill oils are tested for dioxins, furans, PCBs, and other agents
- Suppliers undergo rigorous qualification procedures and audits

Details Make the Difference

- All manufacturing takes place in temperature, humidity, and dust-controlled rooms
- Our comprehensive allergen SOPs prevent ingredient cross-contamination
- Production employees receive extensive, ongoing training on the safe handling of raw materials and finished products
- Each piece of equipment is completely dismantled, sterilized, and inspected before every production run
- Machine operators inspect the capsules every 15 to 20 minutes, and quality assurance specialists inspect them every 60 to 90 minutes
- Stability procedures are employed for retained potency throughout shelf life

Pure Encapsulations is NSF-GMP registered in the U.S., GMP certified in Canada and exceeds the standards of the United States Pharmacopeia (USP) for supplement manufacturing.

HYPOALLERGENIC PRODUCTS

Transparency From Start to Finish

Our hypoallergenic supplements are meticulously manufactured and tested to ensure they are **FREE FROM:**

- Wheat and gluten
- Egg
- Peanuts
- Trans fats and hydrogenated oils
- GMOs
- Magnesium stearate
- Coatings and shellacs
- Artificial colors, flavors and sweeteners
- Unnecessary binders, fillers and preservatives

GMO Policy

All ingredients, including those derived from corn, are GMO-free.^{††}

Certified Gluten-Free

We have received gluten-free certification from The Gluten-Free Certification Organization (GFCO).

^{††}All Pure Encapsulations ingredients, including those derived from corn are GMO free. This means that we have obtained statements from our suppliers certifying that the ingredients do not contain GMO. For some nutrients of particular concern, we have done PCR testing to confirm the absence of genetically modified material.
