Sustainable Goodness.

At Pure Encapsulations®, we are committed to doing business in a way that improves the wellness of others and the planet. We want to champion a sustainable future by following through on our initiatives with measurable action that creates positive results for the planet.

Learn more about our sustainability goals and current achievements on page 13.

GOODNESS ENCAPSULATED

At Pure Encapsulations, we know **it's what's inside that counts**. That's why we've spent more than 30 years researching, innovating and developing our comprehensive line of premium supplements, made with high-quality, pure ingredients, backed by verifiable science to complement your plan of care. **Together, we'll get your patients everything they need and nothing they don't** —that's goodness encapsulated.

PURE DIFFERENCE

What makes us different is the promise of goodness that goes into each of our supplements. Our supplement formulations are developed in collaboration with our nutritional experts and made with only high-quality ingredients sourced from trusted suppliers. We then carefully manufacture and test them to ensure they are **FREE FROM** unnecessary additives and many common allergens.

Access over 400 uniquely formulated products made with **high-quality, pure ingredients** backed by verifiable science to complement your plan of care.

GOOD FROM START TO FINISH

What makes us different isn't just what goes into our supplements—what we leave out matters too.

Pure Encapsulations products are **FREE FROM:**

Wheat, Soy,
Dairy*, Eggs

Tree Nuts,
Peanuts & Sesame

Gluten

Artificial Colors,
Flavors &
Sweeteners

Coatings
& Shellacs

GMOs^{††}

Unnecessary
Binders, Fillers
& Preservatives

Magnesium
Stearate

Trans Fat &
Hydrogenated Oils

GMP CERTIFIED
NSF/ANSI 455-2
Dietary Supplements

QUALITY PROMISE

We ensure the integrity of every product with the promise of premium-sourced ingredients, verifiable science and significant testing by accredited and cGMP-compliant laboratories of our raw materials and final products to verify their potency and purity. We have a comprehensive Allergen SOP (Standard Operating Procedure) that prevents ingredient cross-contamination by flagging allergen-containing ingredients, so you can feel confident knowing only the best of the best ever makes it into your patients' hands.

1. Among U.S. healthcare professionals surveyed who recommend specific professional supplement brands, Nutrition Business Journal® Practitioner Survey 2016, 2020, 2023.

PRACTITIONER RESOURCES, LIVE AND ON-DEMAND LEARNING

At Pure Encapsulations, we're not only committed to the development of high-quality supplements; we're also dedicated to providing resources at your fingertips to help guide and validate your plan of care.

Our practitioner resources are developed in collaboration with medical experts. We offer patient education materials and clinical protocols in addition to live and on-demand learning opportunities to support your practice and optimize your supplement recommendations.

COMMITMENT TO SCIENCE

Pure Encapsulations is a leader in nutrition science with a longstanding commitment to scientific innovation. For almost two decades, we have supported clinical research by directly funding clinical trials, donating product and placebo and offering technical expertise to investigators.

We are honored to participate in the advancement of nutrition science by partnering with world-renowned scientists from Weill Cornell Medicine, University College of London, Columbia University and many others.

Like our research partners, we are committed to bringing the most efficacious, safe and highly studied products to you and your patients. Our contributions have successfully led to novel innovations and improvements in product safety and efficacy.

Stay connected through our resources page for webinars and blogs at <https://www.pureencapsulationspro.com/education/practitioner-resources>

ONGOING INVESTIGATOR-INITIATED RESEARCH STUDIES

DRUG-NUTRIENT INTERACTION CHECKER*

LESS NOISE. MORE CLINICAL RELEVANCE.

Enter the name of an over-the-counter or prescription medication to instantly receive information on potential interactions or depletions between the medication and vitamins, minerals, herbs and other active ingredients in dietary supplements.

Our Drug-Nutrient Interaction Checker (DNI):

- Is easy to understand and kept up to date
- Provides insights on whether to avoid, monitor or consult with a healthcare practitioner
- Has scientifically supported, clinically relevant information
- Includes a patient-friendly description of each interaction
- Includes high-quality product suggestions based on verifiable science

Unlike other DNI checkers, we provide a unique experience by **reducing noise** and **delivering clinically relevant interactions** that can:

HAPPEN IN REAL LIFE.

Most interactions are hypothetical. Many are studied in vitro (in a test tube or cell culture) without validation in human studies. We take a rigorous, clinical evidence-focused approach to deliver those interactions that could happen in realistic clinical situations.

OCCUR AT TYPICAL DOSES.

All interactions are dose-dependent. Many indicated interactions are based on unrealistically high doses or would require intravenous administration of a dietary supplement to occur. Our tool excludes these irrelevant situations, delivering alerts that pertain to doses commonly used in dietary supplements.

AFFECT THE BODY IN A SIGNIFICANT WAY.

Many interactions have insignificant effects on the body that are not cause for concern. We alert you to meaningful interactions that may have an impact on drug efficacy, safety, risks and key clinical parameters.

Start supporting your patients with our Drug-Nutrient Interaction Checker today!

PureEncapsulationsPro.com/drug-nutrient-interactions

*The Drug-Nutrient Interaction Checker is for educational and general wellness information purposes only and is not intended to provide any diagnosis, cure, mitigation, prevention or recommendation for medical treatment of any disease. LEGEND

Every ingredient we put into our products, even if it's just a trace amount, is listed on the label. If there's an ingredient sourced from a possible allergen, we call that out, too. When you see these icons, you can be confident that the product is manufactured and tested to be FREE FROM GMOs^{††}, dairy, gluten or soy allergens and is vegetarian or vegan.

CERTIFIED GLUTEN-FREE

Certified gluten-free from The Gluten-Free Certification Organization (GFCO). This internationally recognized, trusted symbol signifies that a product meets the highest standards in quality for gluten-free certification.

SOY-FREE

For products with the potential to contain soy, in addition to sourcing allergen-free ingredients and employing strict manufacturing controls, we test each batch down to 2 ppm to ensure the product is free from soy and soy derivatives.

GMO

All Pure Encapsulations ingredients, including those derived from corn, are GMO-free. We obtain statements from each of our suppliers certifying that the ingredients do not contain GMOs. For some nutrients, we conduct PCR testing to confirm the absence of genetically modified material.

DAIRY-FREE

For products with the potential to contain dairy, in addition to sourcing allergen-free ingredients and employing strict manufacturing controls, we test each batch down to 1 ppm to ensure the product is free from lactose, milk or milk derivatives, including milk protein.

VEGAN

Guaranteed to contain no animal, dairy or egg products or derivatives.

VEGETARIAN

Guaranteed to contain no animal products.

CAPSULE SIZE

(shown at approx. actual size)

SOFTGEL SIZE

(shown at approx. actual size)

Capsule information is located at the top of each supplement facts panel.

Always refer to the product label for complete supplement facts.

Certified Gluten-Free by the Gluten-Free Certification Organization, gluten.org

PURE GIVING

GLOBAL LINKS

We're proud to support Global Links and the great work they do. Every day, they support health improvement initiatives in resource-poor communities and promote environmental stewardship in the U.S. healthcare system. Global Links' collaborative efforts include redirecting viable surplus materials to provide a socially and environmentally responsible alternative instead of landfills, sharing expertise and technical knowledge, and educating partners, volunteers and the community on issues of global health and environmental stewardship.

Please visit GlobalLinks.org for more information or how to donate.

SOS CHILDREN'S VILLAGES

We have the honor of supporting SOS Children's Villages — the world's largest nonprofit organization dedicated to protecting and supporting orphaned, abandoned and other vulnerable children. For over 70 years, SOS has worked to build and strengthen families for children in need while equipping them with the tools to reach their full potential. At SOS Villages, children who lack parental care are welcomed into a loving and stable home, where they are integrated into a family environment, encouraged by their SOS mother and provided with essential services like quality education, healthcare and support to heal from trauma and loss.

Learn more about how to support SOS's mission and life-changing work at sos-usa.org

GLOBAL MEDICAL

We are proud supporters of Global Medical, the first non-profit medical group that provides care to refugees, disaster survivors and the poor while also researching the underlying causes of radicalization, violence and PTSD in an effort to end the cycles of poverty and violence. These individuals will receive personalized support protocols that include Pure Encapsulations products.

For more information about Global Medical's mission, visit gmedical.org

TREES FOR THE FUTURE

Around the world, modern and industrialized farming practices are destroying the environment—and, at the same time, failing to provide reliable income and nourishment for the farmers we all depend on to survive. Trees for the Future (TREES), recognizes that unsustainable land use is the root cause of our most pressing challenges. TREES confronts these challenges by serving the people at the heart of our global food systems: farmers and their families. Their signature methodology, the Forest Garden Approach, helps farmers transform their land with thousands of fast-growing, ecologically appropriate trees and dozens of other crops, creating new possibilities for themselves and their communities.

Visit trees.org to see how you can help the planet and change lives.

Sustainable Goodness.

At Pure Encapsulations, our commitment began with a pure purpose, to improve the wellness of others. Today, this heartfelt commitment extends to the planet. We're striving for recyclable packaging by the end of 2025 and for 100% net zero greenhouse gas (GHG) emissions by 2050.

OUR SUSTAINABILITY GOALS BY 2025

Recyclable packaging

Reduction of GHG emissions up to 20%

Reduction of virgin plastic packaging use by 33%

100% Renewable electricity

HOW WE'RE GETTING THERE

- By removing our plastic neckband bottle packaging, **we reduce over 3.5* metric tons of plastic waste annually**
- Our iconic white bottles are recyclable and go directly into your **standard curbside recycling bins** where available
- We partner with **TerraCycle®**, an international leader in innovative sustainability solutions, to recycle our hard-to-recycle packaging
- We leverage **FSC-certified paper** in all marketing materials
- We have **removed single use plastics** in our offices

THE TERRACYCLE RECYCLING PROGRAM

Bottle by bottle, we're on the way to a more sustainable planet. Thanks to our recycling program with TerraCycle, our hard-to-recycle packaging items can now be recycled. Join our sustainable journey by registering and recycling with TerraCycle.

+CAL+® with Ipriflavone

COMPREHENSIVE BONE SUPPORT FORMULA
WITH IPRIFLAVONE†

This broad-spectrum combination of minerals and vitamins is formulated to aid in the formation and strengthening of the skeletal system. It provides a highly bioavailable form of calcium, a mineral essential not only for the maintenance of the functional integrity of the nervous, muscular and skeletal systems, but also cell membrane and capillary impermeability. This formula also provides substances that nutritionally support and enhance the absorption of calcium and the incorporation of calcium into bone, and provides nutrients essential to healthy bone structure and formation. Ipriflavone, an advanced addition to this formula, is a synthetic derivative of naturally occurring isoflavones. It supports healthy bone maintenance by promoting secretion of the hormone calcitonin, and maintaining healthy osteoclast activity. Ipriflavone also supports type I collagen and the formation of mineralized bone matrix. Vitamin K enhances bone formation by carboxylating osteocalcin. This enables osteocalcin to bind to calcium and promote healthy bone mineralization.†

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10.7 mcg (428 IU)
Vitamin K (as vitamin K ₁)	184 mcg
Calcium (as calcium citrate/malate)	400 mg
Magnesium (as magnesium aspartate)	49 mg
Zinc (as zinc picolinate)	12 mg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.1 mg
Vitamin K ₂ (as menaquinone-7)	30 mcg
Boron (as boron glycinate)	0.85 mg
Ipriflavone	214 mg
Silica (from bamboo)	9 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken by pregnant or lactating women. Vitamin K may be contraindicated with Coumadin (Warfarin). If you are taking blood-thinning medication, consult your health professional before use.

5-HTP 50 mg (5-Hydroxytryptophan)

SUPPORTS BRAIN SEROTONIN LEVELS TO SUPPORT
EMOTIONAL WELL-BEING, HEALTHY EATING BEHAVIOR
AND HEALTHY SLEEP†

5-Hydroxytryptophan (5-HTP) is an intermediate in the natural synthesis of the essential amino acid, tryptophan, to serotonin. The enzyme tryptophan hydroxylase adds a hydroxyl group (OH) to tryptophan, forming the 5-HTP intermediate. In the body, it converts to serotonin with the removal of a carboxyl group (COOH) by a second enzyme. Serotonin is an important neurotransmitter involved in the regulation of endocrine and brain activity responsible for emotion, appetite and sleep/wake cycles. In clinical studies, administration of 5-HTP supported serotonin production. The 5-HTP supplied in this supplement is derived from the *Griffonia simplicifolia* plant.†

1 capsule, 1-4 times daily, before meals.

Each (size 3) vegetarian capsule contains:

5-Hydroxytryptophan	50 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Not to be taken by pregnant or lactating women. Do not use concurrently with antidepressants.

7-KETO® DHEA 25 mg

UNIQUE DHEA METABOLITE; SUPPORTS THERMOGENESIS AND HEALTHY BODY COMPOSITION†

7-KETO® DHEA, a safe and natural metabolite of DHEA, was the subject of research for over a decade at the University of Wisconsin in Madison. 7-Keto® exhibits a functional profile that is distinct from other forms of DHEA. Researchers discovered that 7-Keto® supports various physiological processes without converting to testosterone or estrogen. This minimizes the potential for androgenic and estrogenic activity. Preclinical data suggest that 7-Keto® is several times more potent than DHEA in stimulating the thermogenic enzymes of the liver. This thermogenic effect may contribute to increased basal metabolism, supporting a healthy lean/adipose ratio. 7-Keto® supports healthy weight management[†] as part of a healthy lifestyle with a reduced-calorie diet and regular exercise. In a double-blind study involving 30 overweight adults, 7-Keto® supported healthy body composition and BMI when combined with exercise.[†]

7-KETO® DHEA is also known as DHEA-Acetate-7-one, 3-acetoxy-androst-5-ene-7, 17-dione, or 3-acetyl-7-oxo dehydroepiandrosterone.

1 capsule, 1-4 times daily, with meals.

Each (size 3) vegetarian capsule contains:

7-Keto® DHEA (7-oxo-dehydroepiandrosterone-3β-acetate) 25 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

7-Keto® & logo are trademarks of Lonza or its affiliates. 7-Keto® brand 7-oxo-dehydroepiandrosterone-3β-acetate.

Not to be taken by pregnant or lactating women.

†Provides weight management support as part of a healthy lifestyle with a reduced-calorie diet and regular exercise.

Açaí 600

FRUIT BLEND FOR ANTIOXIDANT SUPPORT[†]

Açaí berry extract (*Euterpe oleracea*), native to Brazil, offers an exceptional nutritional composition of vitamins, minerals, fiber, essential fatty acids, amino acids and anthocyanins. Pure Encapsulations' açaí berry is harvested by hand in order to preserve the integrity of the palm tree and the delicate rain forest ecosystem. Berries are also hand sorted and selected for quality. In this formula, açaí is combined with blueberry, pomegranate, cranberry and raspberry for additional support.[‡]

1 capsule, 1-2 times daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Açaí (<i>Euterpe oleracea</i>) berry extract (whole fruit)	600 mg
Blueberry (<i>Vaccinium angustifolium</i>) extract (fruit)	15 mg
Pomegranate (<i>Punica granatum</i>) extract (fruit) (standardized to contain 40% punicosides)	25 mg
Cranberry (<i>Vaccinium macrocarpon</i>) concentrate (fruit)	10 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), cranberry fiber, cranberry seed oil, guar gum, sunflower lecithin	

CranMax[®] is a registered trademark of Pharmachem Laboratories, LLC.

A.C. Formula II

SUPPORTS INTESTINAL MICROBIAL BALANCE[†]

This combination of herbal extracts, caprylic acid and calcium undecylenate, promotes a healthy environment for microflora in the colon and intestinal tract. Undecylenic acid and caprylic acid are fatty acids that promote a favorable environment for beneficial microflora. Calcium and magnesium act as buffers and may also help slow the dispersion and release of undecylenic acid and caprylic acid to support activity throughout the gastrointestinal tract. Grapefruit seed extract and berberine sulfate support microbial balance. Research suggests that they promote a healthy G.I. environment when exposed to a wide range of bacterial biotypes.[‡]

2 capsules, 1-3 times daily, just before meals, with 6-8 oz water.

Two (size 00) vegetarian capsules contain:

Calcium (as calcium undecylenate and calcium caprylate)	44 mg
Magnesium (as magnesium caprylate)	17 mg
Caprylic acid (as calcium and magnesium caprylate)	400 mg
Bromelain (from pineapple stem) (2400 GDU/g)	250 mg
Undecylenic acid	125 mg
Grapefruit (<i>Citrus x paradisi</i>) extract (seed and fruit)	100 mg
Berberine sulfate	50 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

Not to be taken by pregnant or lactating women.

A.I. Enzymes

BALANCED PLANT ENZYME FORMULA PROVIDES BROAD-SPECTRUM JOINT, MUSCLE AND DIGESTIVE SUPPORT[†]

A.I. Enzymes provides a superior combination of natural vegetarian-based enzymes precisely balanced for broad-spectrum support of digestive function, or to help maintain healthy joints and muscles. This formula contains enhanced levels of protease, amylase and lipase derived from the digestion of a nutrient source by *Aspergillus oryzae* and *Aspergillus niger*. Bromelain (from pineapple) and papain (from papaya) broaden the protease profile of this formula. The flavonoid rutin supports immune-mediator balance and antioxidant defenses. Taken between meals, A.I. Enzymes promotes healthy levels of kinins and fibrin, thereby helping to maintain normal muscle and joint function. Taken with meals, the plant enzymes help replace naturally occurring enzymes that are destroyed in highly processed and cooked foods. This plant enzyme blend promotes the breakdown of protein, carbohydrates and fat.[‡]

2 capsules, 1-3 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Bromelain (from pineapple stem) (2,400 GDU/gram)	240 mg
Papain (from papaya fruit) (800 TU/mg)	240 mg
Amylase (20,000 DU) [‡]	200 mg
Protease (60,000 HUT) [‡]	100 mg
Lipase (5,000 FIP) [‡]	100 mg
Rutin	120 mg
Other ingredients: vegetarian capsule (cellulose, water)	

[‡]FCC (food chemical codex) units

Not to be taken by pregnant or lactating women.

A.I. Formula®

SUPPORTS HEALTHY CYTOKINE BALANCE, PROVIDING POTENTIAL SUPPORT FOR MUSCULOSKELETAL AND INTESTINAL COMFORT[†]

A.I. Formula® is a broad-spectrum, synergistic combination of concentrated extracts that maintain healthy leukotriene, thromboxane, kinin and fibrin production.[†]

1 capsule, 1-2 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Quercetin	175 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	150 mg
Bromelain (from pineapple stem) (2,400 GDU/gram)	200 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken by pregnant or lactating women.

Acerola/Flavonoid

CORN-FREE, PLANT-BASED VITAMIN C AND BIOFLAVONOIDS; PROVIDES ANTIOXIDANT SUPPORT[†]

This corn-free vitamin C and bioflavonoid blend contains 32% vitamin C sourced from natural acerola extract combined with the bioflavonoids quercetin, naringin and rutin for antioxidant support. Vitamin C is an important dietary antioxidant that supports the immune system, in part by maintaining healthy mast cell function and lymphocyte formation. The bioflavonoids quercetin, rutin and naringin are free radical scavengers that complement the roles of vitamin C.[†]

2 capsules, 1-4 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Vitamin C (from 938 mg acerola (<i>Malpighia glabra</i>) extract (fruit))	300 mg
Quercetin	50 mg
Naringin	50 mg
Rutin	50 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Acetyl-L-Carnitine 250 mg

SUPPORTS COGNITIVE FUNCTION AND BRAIN HEALTH[†]

Acetyl-L-carnitine is the acetylated form of L-carnitine, and the two compounds share similar energy and metabolism promoting properties. Found naturally in the body, acetyl-L-carnitine supports the availability of acetyl-CoA, an important energy generating metabolite. In addition, it supports healthy mitochondrial function and cell membrane stability. A multicenter trial of 481 volunteers indicated memory, behavioral and emotional support with acetyl-L-carnitine supplementation. In an evaluation of 28 elderly individuals using acetyl-L-carnitine or placebo, the supplemented group experienced enhanced emotional well-being.[†]

1-4 capsules daily, between meals.

Each (size 1) vegetarian capsule contains:

Acetyl-L-Carnitine HCl	250 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Adenosyl/Hydroxy B₁₂

BLEND OF UNMETHYLATED B₁₂ FORMS TO SUPPORT ENERGY METABOLISM AND NEUROLOGICAL HEALTH†

Hydroxycobalamin is a precursor form of vitamin B₁₂ converted in the body to both methylcobalamin and adenosylcobalamin. It is similar to cyanocobalamin without the cyanide moiety. Adenosylcobalamin is an activated form similar to methylcobalamin. While methylcobalamin is found in the cytosol of cells and predominates in blood and other fluids, adenosylcobalamin is the major form of vitamin B₁₂ stored in the mitochondria of cellular tissues. It is a key cofactor in carbohydrate metabolism for the enzyme methylmalonyl-CoA mutase used to produce succinyl-CoA. Optimal levels also support healthy synthesis of neuronal myelin.†

1 capsule, 1-3 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Vitamin B₁₂ 2,000 mcg
(as adenosylcobalamin and 50% hydroxycobalamin)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Adenosyl/Hydroxy B ₁₂	Quantity	Order Code
	90	AHB9

Adenosyl/Hydroxy B₁₂ liquid

LIQUID BLEND OF UNMETHYLATED B₁₂ FORMS TO SUPPORT ENERGY METABOLISM AND NEUROLOGICAL HEALTH†

- Convenient liquid formula without flavorings or sweeteners

1 ml (1 full dropper), 1-3 times daily, with meals.

1 ml (0.03 fl oz) (1 full dropper) contains:

Vitamin B₁₂ 1,000 mcg
(formulated as adenosylcobalamin and 50% hydroxycobalamin)

Other ingredients: purified water, natural glycerin, citric acid, potassium sorbate

AdipoLean II

PROMOTES ADIPONECTIN EXPRESSION TO SUPPORT NUTRIENT UTILIZATION AND HEALTHY WEIGHT MANAGEMENT††

AdipoLean II offers a combination of the clinically researched LOWAT® blend of Ayurvedic herbal extracts combined with Oligonol®, a lychee and green tea complex containing low molecular weight polyphenols for enhanced efficacy. Research indicates that both LOWAT® and Oligonol® help maintain healthy adiponectin expression, offering support for healthy insulin function, glucose uptake and fat utilization. LOWAT® (LI10903F) is a proprietary blend of Piper betle leaf extract and *Dolichos biflorus* seed extract combined in a specific ratio. Both herbs have been traditionally used to support healthy glucose metabolism and lipid metabolism. In vitro and animal research determined that this combination and ratio provided maximal efficacy. Research indicates that LOWAT® targets fat breakdown and helps maintain healthy weight management†, at least in part due to boosting adiponectin and moderating ghrelin production. In an eight-week, randomized, double-blind, placebo-controlled trial involving 50 overweight subjects following a standard 2,000-calorie-per-day diet, supplementation with 300 mg of the LOWAT® blend three times daily promoted healthy lean mass ratio and an average weight loss of 9.4 pounds, compared to 3.9 pounds in the placebo group (p=0.00005). Supplementation also resulted in an increase in serum adiponectin levels by 15.35% (p=0.0076) and a decrease in serum ghrelin levels by 20.85% (p=0.0066). Ghrelin is a peptide hormone associated with appetite. The mechanisms of action for Oligonol® include support for healthy insulin function, adiponectin synthesis and lipolysis. In a double-blind, placebo-controlled study involving 19 individuals, Oligonol® supported healthy visceral fat composition.†

1 capsule, 3 times daily, 30 minutes before meals.

Each (size 1) vegetarian capsule contains:

LOWAT® proprietary blend of catjang cowpea 300 mg
(*Dolichos biflorus*) extract (seed) and betel (*Piper betle*) extract (leaf)

Oligonol® proprietary blend of lychee (*Litchi chinensis*) 17 mg
extract (fruit) and green tea (*Camellia sinensis*) extract (leaf)
(standardized to contain 10% total monomeric phenols)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

LOWAT® is exclusively distributed by Lonza or its affiliates.

Oligonol® is a registered trademark of the Amino Up Chemical Company, Sapporo, Japan.

†Provides weight management support as part of a healthy lifestyle with a reduced-calorie diet and regular exercise.

ADR Formula®

COMPREHENSIVE ADRENAL SUPPORT FORMULA[†]

This formula combines whole adrenal and adrenal cortex with a blend of herbs and nutrients to support the function of the adrenal glands. Whole adrenal and adrenal cortex nutritionally support the proper functioning of the adrenal glands. Both *Eleutherococcus senticosus* and *Panax ginseng* have adaptogenic properties to help balance physiological functions in the body, including adrenal gland function. Licorice extract helps to maintain healthy cortisol metabolism, while calcium pantothenate promotes healthy adrenal gland activity. *Eleutherococcus senticosus* and *Panax ginseng* also support a healthy stress response and immune function.[†]

1 capsule daily, between meals.

Each (size 00) vegetarian capsule contains:

Pantothenic acid (as calcium pantothenate) (B ₅)	100 mg
Asian ginseng (<i>Panax ginseng</i>) extract (root) (standardized to contain 5% total ginsenosides)	200 mg
Eleuthero (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	100 mg
Licorice (<i>Glycyrrhiza glabra</i>) extract (root) (standardized to contain 20% glycyrrhizic acid)	100 mg
Whole adrenal (bovine)	150 mg
Adrenal cortex (bovine)	75 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken by pregnant or lactating women.

Aller-Essentials

SUPPORTS HEALTHY IMMUNE RESPONSE TO ENVIRONMENTAL FACTORS[†]

Aller-Essentials contains a blend of nutrients and herbal extracts designed to maintain healthy seasonal immune function. EpiCor® *Saccharomyces cerevisiae* fermentate contains numerous immune-enhancing bioactive metabolites designed to support both innate and adaptive immune response. Research suggests that it enhances natural killer cell activation, B cell and T cell function, and salivary IgA levels. In a double-blind, placebo-controlled trial involving 96 subjects, EpiCor® supported nasal comfort during a 12-week period in the spring. Additionally, it supported salivary IgA levels, an important first-line defense produced by the mucosal tissue. In a randomized double-blind trial involving 75 individuals, *Tinospora cordifolia* provided significant support for a healthy immune response by maintaining normal nasal function as well as healthy neutrophil and eosinophil activity. A randomized double-blind, placebo-controlled trial involving apple polyphenols reveals support for maintaining a healthy nasal lining and nasal function. Quercetin, hesperidin and vitamin C provide additional support for stabilizing mast cells.[†]

2 capsules, 1-2 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	250 mg
Indian tinospora (<i>Tinospora cordifolia</i>) extract (aerial parts)	450 mg
EpiCor® dried yeast fermentate complex (from <i>Saccharomyces cerevisiae</i>)	250 mg
Quercetin	125 mg
Hesperidin methyl chalcone	100 mg
Apple (<i>Malus pumila</i>) extract (whole fruit) (standardized to contain 75% polyphenols)	50 mg
Other ingredients: vegetarian capsule (cellulose, water), maltodextrin, ascorbyl palmitate

Alpha Lipoic Acid 100 mg

WATER AND LIPID SOLUBLE ANTIOXIDANT; SUPPORTS HEALTHY GLUCOSE METABOLISM AND NERVE HEALTH*

Alpha lipoic acid is both water and fat soluble, allowing it to function in almost any part of the body as an antioxidant. A key component of the metabolic process, alpha lipoic acid produces energy in muscles and directs calories into energy production. In addition, it helps maintain healthy glucose metabolism, supports the nervous system and provides nutritional support for healthy liver function. In one study, alpha lipoic acid decreased serum lactate and pyruvate and promoted healthy glucose metabolism in lean and overweight individuals. Alpha lipoic acid supported nerve health in subjects who participated in a randomized, double-blind, placebo-controlled, multicenter trial. The ability of alpha lipoic acid to modulate nitric oxide metabolite activity and to promote healthy microcirculation accounted for its ability to promote nerve cell health in two separate studies.†

1 capsule, 1-4 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Amino-NR

NATURAL RATIO AMINO ACID COMPLEX TO SUPPORT DAILY WELLNESS AND ATHLETIC ACTIVITY†

Amino-NR is an amino acid dietary supplement that supports athletic activity, immune function, and daily wellness. Dietary amino acids provide important support for athletic training by promoting muscle performance and recovery. From trained athletes to the elderly, dietary amino acids also play an important role in immune health, primarily attributed to support for healthy glutamine and glutathione levels. Alpha lipoic acid and adenosylcobalamin provide additional support for mitochondrial function and energy. Adenosylcobalamin is the form of vitamin B₁₂ active in mitochondria, promoting mitochondrial energy (ATP) production, in part, by supporting MCM enzyme activity, which declines with age. Animal studies suggest it specifically enhances mitochondrial bioenergetics, promotes type IIA fast twitch muscle fiber size during aging, and stabilizes neuro-muscular junctions. Vitamin B₆ acts as a cofactor for healthy amino acid and energy metabolism.†

3 capsules, 1-2 times daily, between meals.

Three (size 00) vegetarian capsules contain:

Calories	10
Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	3.3 mg
Vitamin B ₁₂ (as adenosylcobalamin)	1,000 mcg
Alpha lipoic acid	50 mg
L-Histidine (free-form)	77 mg
L-Isoleucine (free-form)	117 mg
L-Leucine (free-form)	207 mg
L-Lysine HCl monohydrate (free-form)	225 mg

Without fructose

FREE-FORM AMINO ACID POWDER; SUPPORT FOR DAILY WELLNESS AND ATHLETIC ACTIVITY†

- Offers a comprehensive blend of free-form amino acids, provided in the ratios found naturally in high biological value (BV) protein sources
- Maintains daily wellness with amino acid building blocks to support protein synthesis†
- Supports athletic training, including muscle performance, energy production and recovery†
- Enhances healthy neurotransmitter synthesis with amino acid precursors to support cognitive function and positive mood†
- Promotes immune function, in part, by supporting healthy glutamine and glutathione levels†

1 scoop daily, mixed with 8 oz of water or juice, between meals.

Serving size: 1 scoop (1 teaspoon, approximately 4 g)

Servings per container: approximately 60

Each scoop contains:

Calories	15
Total carbohydrate	<1 g
Vitamin B ₆ (as pyridoxal 5' phosphate)	2 mg
L-Histidine (from L-histidine HCl)	80 mg
L-Isoleucine (free-form)	200 mg
L-Leucine (free-form)	345 mg
L-Lysine (from L-lysine HCl)	250 mg
L-Methionine (free-form)	200 mg
L-Phenylalanine (free-form)	175 mg

AntiOxidant Formula

BROAD-SPECTRUM ANTIOXIDANT SUPPORT†

Free radicals are atoms, ions or molecules with one or more unpaired electrons that bind to and destroy cellular compounds. Dietary antioxidants disarm free radicals through a number of different mechanisms. Foremost, they bind to the free electrons, "pairing up" with them, creating an innocuous cellular compound that the body can eliminate as waste. The antioxidants in this formula also support and enhance the body's natural defense mechanisms against free radicals: the enzymes superoxide dismutase, catalase, and glutathione peroxidase.†

1 capsule, 1-2 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Vitamin A (as beta carotene)	3,000 mcg
Vitamin E (as d-alpha tocopherol succinate)	67 mg
Riboflavin (vitamin B ₂)	25 mg
Zinc (as zinc picolinate)	5 mg
Selenium (as selenomethionine)	100 mcg
N-Acetyl-L-cysteine (NAC) (free-form)	100 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	100 mg
Proprietary mixed carotenoid blend (as lutein, lycopene and zeaxanthin)	500 mcg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Arabinogalactan

PREBIOTIC FIBER FOR IMMUNE SUPPORT†

Arabinogalactan (AG) is a fermentable prebiotic fiber found in high concentrations in North American larch trees. It is also a constituent of Echinacea. AG has potential to support immune cells involved with the body's first line of defense. AG may also promote healthy production of cytokines, which mediate cell-to-cell communication between cells involved in the immune response. A randomized, 4-week clinical trial in healthy adults suggested that AG also potentiates the complement system, another mechanism of defense in the body. Preliminary data suggest that AG also enhances the growth of friendly intestinal bacteria, including Lactobacilli and Bifidobacteria.†

1 capsule, 3 times daily, between meals.

L-Arginine

SUPPORTS NITRIC OXIDE PRODUCTION AND HEALTHY BLOOD FLOW[†]

L-Arginine supports nitric oxide formation, important for healthy dilation of blood vessels, circulation and blood flow. In trials, L-arginine has demonstrated the potential to support endothelial function in blood vessels, platelet function, exercise tolerance and sexual function. Because of its effect on nitric oxide production, L-arginine is theoretically best avoided by individuals with migraines, depression, autoimmune disorders and kidney or liver disease. L-Arginine is contraindicated for individuals with the herpes virus.[†]

2 capsules, 1-3 times daily, between meals.

Two (size 00) vegetarian capsules contain:

Calories	5
L-Arginine HCl (free-form)	1,400 mg

Ascorbic Acid capsules

VITAMIN C SUPPORTS A WIDE RANGE OF PHYSIOLOGICAL FUNCTIONS, INCLUDING IMMUNE FUNCTION, ANTIOXIDANT DEFENSE AND VASCULAR INTEGRITY[†]

Vitamin C, one of the most well-known sources of dietary antioxidants, offers a wide range of support for the human body. It is an antioxidant and free radical scavenger. It supports the body's defense system by promoting white blood cell function and activity, interferon levels, antibody responses, and secretion of thymic hormones. It is essential for the formation and maintenance of intercellular ground substance and collagen. Vitamin C aids in the absorption of iron and the metabolism of folate. It maintains healthy mast cell function and supports lymphocyte formation. Vitamin C is also required for the synthesis of carnitine and steroids.[†]

1 capsule, 1-4 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Vitamin C (as ascorbic acid)	1,000 mg

Ascorbyl Palmitate

FAT-SOLUBLE VITAMIN C; ANTIOXIDANT SUPPORT[†]

Ascorbyl palmitate is a fat-soluble derivative of ascorbic acid. Unlike the water-soluble form, ascorbyl palmitate is able to enter the lipid cell membrane. Vitamin C is an important antioxidant and free radical scavenger that plays well-established roles in immune function. These functions include maintaining healthy mast cell function and lymphocyte formation. Vitamin C is also essential for the formation and maintenance of collagen. It also aids in the absorption of iron and the formation of red blood cells.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Vitamin C (from 450 mg ascorbyl palmitate)	190 mg

Ashwagandha

SUPPORT FOR OCCASIONAL STRESS[†]

Ashwagandha, *Withania somnifera*, is an adaptogenic herb that belongs to the pepper family. It has an extensive, 4,000-year history of traditional use and is one of the most revered and widely used Ayurvedic herbs. Withanolides are key constituents of this herb and play an important role in ashwagandha's overall ability to promote physical and mental health. In animal studies, ashwagandha has been shown to support the activity of lymphocytes and macrophages, moderate occasional stress, enhance memory and cognitive function, provide neuroprotection by scavenging free radicals, and support thyroid function. A small, human clinical trial demonstrated the ability of ashwagandha to support healthy glucose and lipid metabolism.¹

1 capsule daily, with or between meals.

Each (size 00) vegetarian capsule contains:

KSM-66 Ashwagandha® 500 mg
(*Withania somnifera*) extract (root)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

KSM-66 Ashwagandha® is a registered trademark of Ixoreal Biomed Inc.

Astaxanthin

STABLE, FAT-SOLUBLE ANTIOXIDANT; SKIN, JOINT AND EYE HEALTH[†]

Derived from *Haematococcus pluvialis* microalgae cultivated under pristine conditions, esterified astaxanthin is a stable, fat-soluble antioxidant from the carotenoid family. Astaxanthin protects the phospholipid membranes of cells from oxidative damage. In studies, it has demonstrated the ability to cross the blood-brain barrier and protect the retina, suggesting its potential for supporting the brain and nervous system from free radical damage. Initial trials with astaxanthin suggest that it may support the skin's natural antioxidant defenses against free radicals induced by sun exposure. In a human clinical evaluation, supplementation with astaxanthin provided enhanced antioxidant protection for the skin. Research suggests that astaxanthin may support athletic performance, as well as joint function and comfort after strenuous exercise. Additional studies suggest astaxanthin's immune, cellular and cardiovascular support potential.¹

1 capsule, 1-3 times daily, with meals.

Each (size 7.5) softgel capsule contains:

Astaxanthin (from *Haematococcus pluvialis* microalgae) 4 mg

Athletic Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX FOR EXERCISE PERFORMANCE AND TRAINING[†]

Indications:

- Support for athletic training and physical performance[†]
- Promotes energy, stamina and helps lessen muscle fatigue[†]

Vitamin/Mineral Distinctions:

- Potassium phosphate combined with calcium and magnesium for healthy muscle function[†]
- Copper, manganese, selenium and zinc for healthy tendons, ligaments and joints[†]

Special Features:

EnergizeATP Factors[†]

- Supports stamina and buffers lactic acid with highly pure creatine monohydrate; research indicates the potential to increase optimal work output in activities such as weight-lifting and sprinting.[†]

MuscleRestore Complex[†]

- Supports muscle recovery and comfort with NAC, alpha lipoic acid and L-carnosine.[†]

PowerProtect Antioxidants[†]

- In a randomized, double-blind, placebo-controlled trial, 400 mg PowerGrape[®] promoted plasma antioxidant capacity during competition and supported performance in athletes. Protects muscles from oxidative stress with green tea and superfruit polyphenols.[†]

2 capsules, twice daily, with meals.

Two (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	1,000 mcg
Vitamin C (as ascorbic acid)	83 mg
Vitamin D (as cholecalciferol) (D ₃)	8.3 mcg (333 IU)
Vitamin E (as d-alpha tocopherol succinate)	22 mg
Vitamin K (as vitamin K ₁)	33 mcg
Thiamin (as thiamin HCl) (B ₁)	8 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	11.1 mg
Niacin (as niacin and 67% niacinamide)	25 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	6.65 mg
Folate (as Metafolin [®] , L-5-MTHF)	222 mcg DFE (133 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	333 mcg
Biotin	266 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	16.5 mg
Choline (as choline bitartrate)	6.6 mg
Calcium (as calcium citrate)	66.5 mg
Iodine (as potassium iodide)	66.5 mcg
Magnesium (as magnesium citrate)	66.5 mg
Zinc (as zinc citrate)	5 mg
Selenium (as selenomethionine)	66.5 mcg
Copper (as copper glycinate)	650 mcg

Manganese (as manganese citrate)	650 mcg
Chromium (as chromium polynicotinate)	66.5 mcg
Potassium (as potassium phosphate)	33 mg
Boron (as boron glycinate)	650 mcg
Vanadium (as bis-glycinato oxo vanadium)	33 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	160 mcg

Inositol	16.5 mg

Athletic Pure Pack

Daily Packet

With Metafolin® L-5-MTHF

Indications:

- Supports energy, muscle recovery and immune function for healthy athletic activity[†]

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Vitamin C to support nitric oxide activity and immune function[†]
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate, for healthy red blood cell function[†]
- Trace minerals, including manganese and copper, for healthy connective tissue integrity[†]

Special Features:

- Omega-3 fatty acids to support healthy cytokine balance[†]
- 1,200 mg BCAA, 375 mg creatine monohydrate, 145 mg CoQ₁₀ and 50 mg alpha lipoic acid to support metabolic acid buffering, ATP synthesis, and muscular adaptations to resistance and endurance training[†]
- Grape seed and superfruits help to moderate oxidative stress during training[†]
- 850 mg l-glutamine for healthy muscle preservation and immune function[†]
- Convenient, once-daily packet

Each Packet Contains:

Athletic Nutrients 3 vegetarian capsules »See page 33

- Multivitamin/mineral complex for exercise performance and training[†]

EPA/DHA essentials 1 softgel capsule »See page 77

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

BCAA capsules 2 vegetarian capsules »See page 39

- Branched chain amino acids to support lean muscle mass and exercise recovery[†]

Ascorbic Acid capsules 1 vegetarian capsule »See page 31

- Potent antioxidant providing optimal nutritional support to all physiological functions[†]

CoQ₁₀ 1 vegetarian capsule »See page 58

- Natural, fermented, trans-isomer CoQ₁₀

l-Glutamine 1 vegetarian capsule »See page 89

- Muscle mass and gastrointestinal tract support[†]

Take 1 packet daily (9 capsules), with a meal.

Nine capsules contain:

Calories	10
Total fat	1 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	1,500 mcg
Vitamin C (as ascorbic acid)	1,125 mg
Vitamin D (as cholecalciferol) (D ₃)	12.5 mcg (500 IU)
Vitamin E (as d-alpha tocopherol succinate and natural tocopherols)	34 mg
Vitamin K (as vitamin K ₁)	50 mcg
Thiamin (as thiamin HCl) (B ₁)	12.5 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	16.7 mg
Niacin (as niacin and 67% niacinamide)	38 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10 mg
Folate (as Metafolin®, L-5-MTHF)	333 mcg DFE (200 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	10 mg
Calcium (as calcium citrate)	100 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	100 mg
Zinc (as zinc citrate)	7.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	1 mg
Chromium (as chromium polynicotinate)	100 mcg
Potassium (as potassium phosphate)	50 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	240 mcg
Inositol	25 mg
Creatine monohydrate	375 mg
Coenzyme Q ₁₀	145 mg
Alpha ketoglutarate	25 mg
N-Acetyl-l-cysteine (free-form)	75 mg
Alpha lipoic acid (thioctic acid)	50 mg
l-Carnosine	25 mg
l-Glutamine (free-form)	850 mg
Branched chain amino acids	1,200 mg
Providing:	
l-Leucine (free-form)	600 mg
l-Isoleucine (free-form)	300 mg
l-Valine (free-form)	300 mg

PowerGrape® grape (<i>Vitis vinifera</i>) extract (whole fruit)	100 mg
Superfruit antioxidant blend (from acai berry, pomegranate fruit, acerola fruit, and quercetin)	30 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (decaffeinated) (standardized to contain 70% epigallocatechin gallate (EGCG))	25 mg
Fish oil concentrate (from anchovies, sardines, mackerel)	1,000 mg
Providing:	
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg
Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

PowerGrape® is a registered trademark of Naturex.

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

Kaneka Q10® is a U.S. registered trademark of Kaneka Corporation.

Contains fish (anchovies, sardines, mackerel)

Take with food. If you have liver problems, consult your healthcare practitioner before use. Vitamin K may be contraindicated with Coumadin (Warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood-thinning medication, consult your health professional before use.

Multivitamins

Athletic Pure Pack	Quantity	Order Code
	30 packets	APP3B3

B-Complex liquid

CONVENIENT LIQUID DELIVERY FORM; SUPPORTS ENERGY METABOLISM AND NERVOUS SYSTEM FUNCTION*

This balanced combination of functionally interrelated B vitamins provides wide ranging benefits. As a complex, the B vitamin group is essential for the proper functioning of the nervous system and perhaps the most important nutritional factor for healthy nerve cells. The B vitamins also play a role in the conversion of carbohydrates into energy and in the metabolism of fats and protein. They also support the integrity of the skin, hair and liver.†

1 teaspoon (5 ml) daily, with a meal. Shake well before use.

Serving size: 5 ml (0.17 fl oz) (1 teaspoon)

Servings per container: 28

5 ml (0.17 fl oz) (1 teaspoon) contain:

Thiamin (as thiamin HCl) (B ₁)	3.5 mg
Riboflavin (as riboflavin 5' phosphate) (activated B ₂)	3 mg
Niacin (formulated with niacinamide)	10 mg
Vitamin B ₆ (as pyridoxine HCl)	4 mg
Vitamin B ₁₂ (formulated with methylcobalamin)	500 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg

Other ingredients: purified water, natural vegetable glycerin, apple juice concentrate, strawberry juice concentrate, natural lemonade and orange flavors, citric acid, xanthan gum, potassium sorbate, purified stevia leaf extract

B-Complex Plus

With Metafolin® L-5-MTHF

BROAD-SPECTRUM B VITAMIN SUPPORT†

This balanced combination of functionally interrelated B vitamins provides wide ranging benefits, including methylation, nerve support and cellular energy support.†

- Universally supportive, comprehensive B-complex†
- Methylated folate (400 mcg)
- Methylated vitamin B₁₂ (400 mcg)
- Energy synthesis†

1 capsule, 1-2 times daily, with meals.

Each (size 1) vegetarian capsule contains:

Thiamin (as thiamin HCl) (B ₁)	100 mg
Riboflavin (as vitamin B ₂ and 60% riboflavin 5' phosphate (activated B ₂))	12.7 mg
Niacin (as niacinamide and 8% inositol hexaniacinate (no-flush niacin))	108 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	16.7 mg
Folate (as Metafolin®, L-5-MTHF) 667 mcg DFE (400 mcg L-5-MTHF)	
Vitamin B ₁₂ (as methylcobalamin)	400 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

B₆ Complex

With Metafolin® L-5-MTHF

BROAD-SPECTRUM B VITAMIN SUPPORT WITH ENHANCED VITAMIN B₆†

Vitamin B₆ plays an important role in nerve impulse transmissions and healthy functioning of the nervous system. It is offered in this formula as both pyridoxine and the activated form pyridoxal-5-phosphate. Vitamin B₁₂ is offered as a combination of adenosylcobalamin and hydroxycobalamin. Optimal levels of adenosylcobalamin support healthy synthesis of neuronal myelin. Hydroxycobalamin is a precursor form of vitamin B₁₂ converted in the body to both methylcobalamin and adenosylcobalamin. Adenosylcobalamin is an activated form of vitamin B₁₂ and the major form stored in the mitochondria of cellular tissues.†

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Thiamin (as thiamin HCl) (B ₁)	100 mg
Riboflavin (as vitamin B ₂ and 67% riboflavin 5' phosphate (activated B ₂))	15 mg
Niacin (as niacinamide and 9% inositol hexaniacinate (no-flush niacin))	110 mg
Vitamin B ₆ (as pyridoxine HCl and 5% pyridoxal 5' phosphate (activated B ₆))	200 mg
Folate (as Metafolin®, L-5-MTHF) 667 mcg DFE (400 mcg L-5-MTHF)	
Vitamin B ₁₂ (as methylcobalamin, 30% adenosylcobalamin and 30% hydroxycobalamin HCl)	1,000 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	100 mg
Choline (as choline bitartrate)	12 mg
Inositol	25 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

B₁₂ 5,000 liquid

FORMULATED WITH METHYLCOBALAMIN; SUPPORTS RED BLOOD CELL FUNCTION, ENERGY METABOLISM AND NEUROLOGICAL HEALTH*

Research indicates that methylcobalamin, an active form of vitamin B₁₂, supports neurological function and nerve cell health. In studies, methylcobalamin has demonstrated the potential to support healthy cognitive and nerve function, as well as memory and emotional well-being. Vitamin B₁₂ is also an important cofactor for energy production and plays a role in immune system health and healthy homocysteine metabolism.¹

1 ml (one full dropper), with a meal.

Serving size: 1 ml (0.03 fl oz) (one full dropper)
Servings per container: 30

1 ml (0.03 fl oz) (one full dropper) contains:

Vitamin B₁₂ 5,000 mcg

Other ingredients: purified water, apple juice concentrate, natural vegetable glycerin, citric acid, potassium sorbate, purified stevia leaf extract

B ₁₂ 5,000 liquid	Quantity	Order Code
	30 ml (1 fl oz)	B125L

B₁₂ Folate

With Metafolin® L-5-MTHF

SUPPORTS RED BLOOD CELL FUNCTION, ENERGY METABOLISM AND NEUROLOGICAL HEALTH*

Vitamin B₁₂ and folate are interrelated in function. Folate is provided in this formula as Metafolin®, L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring universally metabolized form of folate. The B₁₂ in this formula is provided as methylcobalamin, an active form of the vitamin.¹

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Folate (as Metafolin®, L-5-MTHF) 1,333 mcg DFE (800 mcg L-5-MTHF)

Vitamin B₁₂ (as methylcobalamin) 800 mcg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Bacopa monnieri

TRADITIONAL SUPPORT FOR MENTAL CLARITY AND RELAXATION[†]

Ayurvedic medicine has utilized *Bacopa monnieri* traditionally for centuries to support the nervous system, cognitive capacity and memory. Over the last thirty years, preliminary clinical trials have suggested encouraging results. A three-month trial conducted by Australian scientists suggests that bacopa may support learning, moderate stress and support memory. An animal study suggests the potential for bacopa to support mental function under stress. In a double-blind, randomized, placebo-controlled investigation, bacopa supported memory retention in adult subjects. The effects of this extract may, in part, be explained by antioxidant protection of important processing centers in the brain, including the frontal cortex, striatum and hippocampus. Bacopa may also help to promote healthy synaptic activity and neurotransmission in the brain.[‡]

1 capsule, 1-3 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Bacopa (*Bacopa monnieri*) extract (aerial parts) 200 mg
(standardized to contain 20% bacosides)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Bacopa monnieri	Quantity	Order Code
	180	BA1

Balanced Immune

Formulated with Samuel F. Yanuck, D.C.[†]

SUPPORTS HEALTHY CELLULAR IMMUNE RESPONSE AND CYTOKINE PRODUCTION[†]

- Supports immune balance and tissue integrity, in part by targeting the NLRPs (NOD-like receptor proteins) and NF-κB pathways to modulate cytokine production; NLRPs act as intracellular sensors to oxidative and environmental stressors[‡]
- Promotes numerous enzyme and gene transcription pathways including SIRT1 and Nrf2[‡]
- Promotes the health of joint, G.I. and thyroid tissue that is influenced by immunological factors[‡]

Balanced Immune is designed to support immune balance and tissue integrity, in part by targeting the NLRP and NF-κB pathways to modulate cytokine production. NLRP act as intracellular sensors to oxidative and environmental stressors. Research suggests curcumin and vitamin D support healthy cellular responses by modulating this pathway. The formula also promotes multiple enzyme and gene transcription pathways implicated in nutrient metabolism in the liver, detoxification and cellular protection against oxidative stress. Black ginger and resveratrol promote healthy SIRT1 protein levels. SIRT1 supports cellular homeostasis, plays an important role in insulin secretion and glucose homeostasis, and affects glucose and lipid metabolism in the liver. In a double-blind, placebo-controlled, crossover study, 100 mg of Sirtmax[®] black ginger extract for seven weeks supported healthy glucose metabolism and weight management[‡], while in vitro studies on its active constituents suggest a five-fold increase in SIRT1 activity compared to resveratrol. Sulforaphane and resveratrol support the activity of Nrf2, a transcription factor that supports cellular function by promoting cellular detoxification and protection against oxidative stress.[‡]

1 capsule, 1-2 times daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Meriva [®] turmeric phytosome (<i>Curcuma longa</i> extract (root) and sunflower phospholipid complex) (standardized to contain 18% curcuminoids)	200 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain 600 mcg sulforaphane)	150 mg
Trans-resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root))	100 mg
Sirtmax [®] black ginger (<i>Kaempferia parviflora</i>) extract (root)	50 mg
Quercetin	60 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

Meriva[®] is a trademark of Indena S.p.A.

Phytosome More Bioavailable is a trademark of Indena S.p.A.

BCAA capsules

SUPPORTS LEAN MUSCLE MASS AND EXERCISE RECOVERY†

- Provides branched-chain amino acids, the only amino acids to be delivered directly to skeletal muscle for direct protein synthesis and repair†
- Has a sparing effect on muscle glycogen and helps to maintain muscle function during prolonged bouts of exercise; decreases lactate production†
- Moderates the progression of central nervous system fatigue during exertion, supporting mental performance†

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

Branched chain amino acids (free-form)	1,200 mg
Providing:	
I-Leucine	600 mg
I-Isoleucine	300 mg
I-Valine	300 mg

Other ingredients: vegetarian capsule (cellulose, water)

BCAA capsules	Quantity	Order Code
	250	BCA2
	90	BCA9

BCAA powder

1 scoop daily, mixed with 10 oz of water or juice.

Serving size: 3.3 g (approximately 1 rounded scoop)

Servings per container: approximately 68

One rounded scoop (approximately 3.3 g) contains:

Calories	10
Branched chain amino acids (free-form)	3,000 mg
Providing:	
I-Leucine	1,500 mg
I-Isoleucine	750 mg
I-Valine	750 mg

BCAA powder	Quantity	Order Code
	8 oz (227 g)	BCAP

BenfoMax

FAT-SOLUBLE VITAMIN B₁ (THIAMIN); MAINTAINS HEALTHY ADVANCED GLYCATION END PRODUCT (AGE) ACTIVITY†

- Maintains healthy advanced glycation end product (AGE) activity and glucose metabolism†
- Supports optimal thiamine pyrophosphate activity with the lipid-soluble, enhanced-retention thiamin derivative benfotiamine†
- Promotes healthy transketolase activity, an important enzyme in glucose metabolism, to protect vascular tissues through three biochemical pathways†
- Promotes vascular, retinal, kidney and neuronal health†
- In a randomized crossover trial, benfotiamine supported healthy flow-mediated dilation and endothelial function in response to a heat-treated meal†
- In another randomized controlled study, benfotiamine supported healthy nerve conduction velocity and nerve comfort†
- Research suggests that benfotiamine may maintain healthy renal glomeruli and retinal function, as well as moderate protein kinase C enzyme activity, AGE production and protein glycation†
- Maintains healthy activity of the genomic regulator NF-κB to support cytokine balance†

1 capsule, 1-3 times daily, with meals.

Each (size 3) vegetarian capsule contains:

BenfoPure® benfotiamine 200 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Berberine UltraSorb™

ENHANCED ABSORPTION BERBERINE; SUPPORTS GLUCOSE METABOLISM AND CARDIOMETABOLIC HEALTH*

Berberine UltraSorb™ provides Berberis®, a berberine phytosome with enhanced bioavailability. Several randomized, placebo-controlled clinical studies indicate that berberine promotes healthy insulin receptor function and signaling, thereby supporting glucose metabolism. Berberine supports the activation of AMP kinase (AMPK), a central regulator of cellular energy homeostasis. This master metabolic switch is involved with maintaining healthy cardiovascular function, insulin signaling and glucose metabolism. Berberine also helps to maintain cholesterol levels already within the normal range. Clinical studies show that daily doses of 1,000-1,500 mg of standard berberine supports cardiometabolic parameters, including lipid and triglyceride metabolism and healthy blood flow. In a clinical study, berberine supplementation of 500 mg twice daily for three months provided clinically and statistically significant support for healthy lipid profiles compared to baseline. Berberine may also support endothelial function and colorectal health. A pharmacokinetic study in healthy adults reported that supplementation with 550 mg of Berberis® berberine phytosome was four times more bioavailable compared to standard berberine.¹

1 capsule, 1-2 times daily, with or between meals

One (size 00) capsule contains:

Berberis® berberine - Indena Phytosome™ complex 550 mg
(Berberine and sunflower phospholipid complex)
(standardized to contain 28% berberine)

Other ingredients: Berberis® berberine - Indena Phytosome™ complex (Berberis aristata root extract, pea protein isolate, sunflower lecithin, grape seed extract, cellulose, silicon dioxide), vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Berberis® berberine - Indena Phytosome™ complex are trademarks of Indena S.p.A., Italy

Not to be taken by pregnant or lactating women.

Best-Rest Formula

PROMOTES THE ONSET OF SLEEP AS WELL AS SLEEP QUALITY*

This blend provides support for occasional sleeplessness. It contains the time-tested support of valerian, passionflower, chamomile, lemon balm and hops, which act to calm and relax the central nervous system. Double-blind trials involving valerian, valerian/lemon balm combinations and valerian/hops combinations have indicated the potential to support the onset of sleep as well as healthy sleep quality. Melatonin also facilitates the onset of sleep and sleep efficiency. GABA and L-theanine are included for their ability to promote alpha wave production in the brain, an indication of relaxation.¹

2 capsules, 30-60 minutes before bedtime.

Two (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	3.3 mg
Melatonin	1 mg
GABA (gamma-aminobutyric acid)	300 mg
L-Theanine	50 mg
Valerian (<i>Valeriana officinalis</i>) extract (root) (standardized to contain 0.8% valerenic acids)	400 mg
Lemon balm (<i>Melissa officinalis</i>) extract (leaf) (standardized to contain 5% rosmarinic acid)	150 mg
Hops (<i>Humulus lupulus</i>) extract (aerial parts)	150 mg
Passionflower (<i>Passiflora incarnata</i>) extract (aerial parts) (standardized to contain 3.5% vitexins)	100 mg
Chamomile (<i>Matricaria recutita</i>) extract (flower)	100 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), gum arabic, maltodextrin, ascorbyl palmitate, silica

Suntheanine® is a registered trademark of Taiyo International, Inc.

Consult a healthcare professional if you are experiencing long-term sleep difficulties, before use in children, before use in pregnant or lactating women, those with a medical condition, and those taking medication. Do not drive or operate machinery when taking melatonin. This product may be contraindicated for individuals taking corticosteroids.

Beta-sitosterol

PHYTOSTEROL COMPLEX FOR PROSTATE HEALTH AND URINARY FUNCTION[†]

Plant sterols are a family of compounds similar in structure to cholesterol that have positive effects on prostate health, as demonstrated by multiple clinical trials. In a 6-month randomized, double-blind, placebo-controlled multicenter study with 200 male subjects, it was proposed that a mixed phytosterol complex providing beta-sitosterol supported healthy urinary flow. In an 18-month follow-up trial, beta-sitosterol maintained healthy urinary function.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Beta-sitosterol (from soy phytosterol complex) 60 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Beta Carotene (with mixed carotenoids)

FROM NATURAL D. SALINA; VITAMIN A PRECURSOR FOR ANTIOXIDANT SUPPORT[†]

Beta carotene is an important dietary antioxidant that scavenges free radicals, supports the body's defense system and maintains healthy visual acuity. Beta carotene is also the major dietary precursor of vitamin A. The body converts beta carotene to vitamin A as needed.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 3) softgel capsule contains:

Vitamin A (as beta carotene) 7,500 mcg
(with alpha carotene, zeaxanthin and lutein)
(from *D. salina*, 100% natural)

Other ingredients: gelatin capsule (gelatin, glycerin, water, carob), sunflower oil, olive oil

Betaine HCl Pepsin

PROMOTES HEALTHY DIGESTIVE FUNCTION[†]

Betaine HCl and pepsin are gastric-juice components essential to the digestion of food and absorption of most nutrients. In particular, betaine HCl is necessary for adequate absorption of protein, calcium, vitamin B₁₂ and iron. The low pH of the stomach's hydrochloric acid destroys ingested bacteria and microorganisms. This formula can be beneficial for anyone seeking enhanced digestive function.[†]

1 capsule, 3 times daily, with each meal.

Each (size 00) vegetarian capsule contains:

Betaine HCl 520 mg
Pepsin (1:10,000 potency, lactose free) (porcine) 21 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Discontinue immediately if a burning sensation occurs. Not recommended for people with ulcers or a history of ulcers.

Bilberry 160 mg

SUPPORT FOR HEALTHY VISION AND VASCULAR FUNCTION†

Bilberry extract contains anthocyanidins with visual and vascular-enhancing properties. Bilberry moderates visual fatigue and supports light to dark adjustment through its affinity for the rhodopsin-opsin system, the pigment system that mediates both light and dark vision and visual adaptation to dimly lit spaces. In addition, the extract also promotes the retina's own enzymatic antioxidant defenses. In the vascular system the anthocyanidin extract supports the integrity of vascular walls by increasing vitamin C levels within cells, decreasing the permeabilizing effect of certain proteolytic/lysosomal enzymes, stabilizing cell membranes, and stimulating the synthesis of collagen and connective ground substance tissue.¹

1 capsule, 1-4 times daily, between meals.

Each (size 2) vegetarian capsule contains:

Bilberry (*Vaccinium myrtillus*) extract (fruit) 160 mg
(standardized to contain 25% anthocyanosides)

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Vision Support

Bilberry 160 mg	Quantity	Order Code
	120	BB11

Biotin 8 mg

Biotin is a water-soluble B vitamin that is an essential co-factor for a number of metabolic carboxylation reactions involved in metabolism. Recent studies have expanded biotin's metabolic role, claiming that the vitamin maintains healthy genetic expression of the many enzymes for which it is a cofactor. Clinical studies have indicated that biotin may adjust the cellular arrangement of the nail bed, helping to reinforce the keratin structure, promote strength and thickness and reduce splitting.¹

1 capsule, 1-2 times daily, with a meal.

Each (size 3) vegetarian capsule contains:

Biotin 8,000 mcg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Biotin may interfere with certain blood tests. Wait at least 8 hours between biotin consumption and blood testing. Inform your health professional about all biotin-containing supplements you are taking. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Biotin Complex Hair & Skin

ENHANCED BIOTIN COMPLEX TO SUPPORT HEALTHY HAIR AND SKIN†

Biotin Complex Hair & Skin includes the clinically researched, Lustriva® an inositol-stabilized arginine silicate and magnesium biotin complex for healthy hair and skin support. This unique complex enhances biotin solubility by 40x, compared to standard D-biotin. In a clinical trial, improvements in skin texture, reduced depth of fine lines and fuller, thicker hair were found after 12 weeks, compared to baseline.¹

1 capsule daily, with a meal.

Each (size 2) vegetarian capsule contains:

Biotin (from magnesium biotin) 10,000 mcg
Lustriva® (inositol-stabilized arginine silicate, magnesium biotin) 160 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Lustriva®, including the Lustriva logo, is a registered trademark of Nutrition21, LLC. Lustriva® is patent protected.

Biotin may interfere with certain blood tests. Wait at least 8 hours between biotin consumption and blood testing. Inform your health professional about all biotin-containing supplements you are taking. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Black Cohosh 2.5

MENOPAUSAL SUPPORT AND COMFORT[†]

Black cohosh, *Cimicifuga racemosa*, is well known for promoting comfort during menopause. Black cohosh functions by maintaining healthy levels of luteinizing hormone (LH), allowing for optimal comfort and physical well-being. The herb also exhibits mild estrogenic activity by binding to estrogen receptors. Black Cohosh 2.5 is standardized to contain 2.5% triterpene glycosides.[†]

1 capsule, 1-2 times daily, between meals.

Each (size 0) vegetarian capsule contains:

Black cohosh (*Cimicifuga racemosa*) extract (root) 250 mg
(standardized to provide 2.5% triterpene glycosides)

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Black Currant Seed Oil

CONTAINS 14% GLA FOR SKIN, MUSCULOSKELETAL HEALTH AND PROSTAGLANDIN PRODUCTION[†]

Black currant seed oil contains gamma linolenic acid (GLA), a fatty acid that has multiple physiological roles, including support for joint health, immune function and premenstrual comfort. Studies have shown that GLA promotes healthy prostaglandin E1 (PGE1) production. A six-month clinical trial performed at the University of Massachusetts Medical Center found that GLA was effective in supporting joint comfort. These results aligned with previous clinical trial data showing clinically and statistically significant support for joint health. A randomized, double-blind, placebo-controlled trial performed at the Jean Mayer USDA Human Nutrition Research Center on Aging reported that black currant seed oil supplementation provided immune support in elderly subjects, mainly by supporting prostaglandin (PGE2) production and T-lymphocyte function. Preliminary evidence suggests GLA may also support healthy estrogen balance and premenstrual comfort.[†]

2 softgel capsules, 1-2 times daily, with meals.

Two (size 10) softgel capsules contain:

Calories	10
Total Fat	1 g
Vitamin E (as d-alpha-tocopherol)	13 mg
Black currant (<i>Ribes nigrum</i>) oil (seed)	1,000 mg
Providing:	
18:3 gamma linolenic acid (GLA)	140 mg
Other ingredients: gelatin capsule (gelatin, glycerin, water)	

Black Currant Seed Oil	Quantity	Order Code
	100	BL1

Borage Oil

CONTAINS 20% GLA; SUPPORTS JOINT, IMMUNE, SKIN AND REPRODUCTIVE HEALTH[†]

Studies have indicated that GLA promotes healthy prostaglandin E1 (PGE1) production, which helps support healthy joint function. Researchers at the University of Massachusetts Medical School, Worcester, reported that GLA helps support healthy cytokine activity, a mechanism that may be linked to both immune system support and joint health. A randomized, double-blind, placebo-controlled trial reported statistically significant support for joint health in subjects supplementing with GLA from borage seed oil. PGE1 has also been associated with supporting and soothing the skin when used topically or taken orally.[†]

1 softgel capsule, 1-4 times daily, with or between meals.

Each (size 20) softgel capsule contains:

Calories	10
Total Fat	1 g
Vitamin E (as mixed tocopherols)	1 mg
Borage (<i>Borago officinalis</i>) oil (seed) (cold-pressed)	1,000 mg
(standardized to contain 20% gamma-linolenic acid (GLA))	
Other ingredients: gelatin capsule (gelatin, glycerin, water)	

Borage Oil	Quantity	Order Code

Boron (glycinate)

SUPPORT FOR NUTRIENT UTILIZATION[†]

Boron supports calcium, phosphorous and magnesium metabolism and reduces the loss of these minerals through the urine. Boron also plays a role in the synthesis of estrogen, vitamin D and other steroidal hormones and may support healthy hormonal balance. In addition, boron strengthens the connective structure in bone matrix.[†]

1 capsule, 1-3 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Boron (as boron glycinate)	2 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Boron (glycinate)	Quantity	Order Code
	60	BO6

Boswellia

HERBAL SUPPORT FOR MUSCULOSKELETAL, GASTROINTESTINAL AND CELLULAR HEALTH†

Boswellia serrata is an Ayurvedic herb that has a long history of use for connective tissue and joint support. Boswellic acids, the active terpenoid constituents of boswellia, may maintain healthy 5-lipoxygenase enzyme activity and healthy leukotriene metabolism. In addition, boswellic acids may maintain healthy human leukocyte elastase enzyme activity. As a result of its effect on 5-lipoxygenase, boswellia also plays a key role in supporting colon health.†

1 capsule, 3 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Indian frankincense (*Boswellia serrata*) extract (gum resin) 400 mg
(standardized to contain 60% boswellic acids)

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Not to be taken by pregnant or lactating women.

Boswellia AKBA

SUPPORT FOR MUSCULOSKELETAL, GASTROINTESTINAL AND IMMUNE HEALTH†

5-LOXIN® is a patent-pending boswellia extract providing ten times as much AKBA as typical boswellia extracts. In studies, 5-LOXIN® has demonstrated the potential to support joint motility and comfort, in part by promoting a healthy immune response. It may also play a role in maintaining healthy matrix metalloproteinase (MMP) activity, supporting connective tissue structural composition. A randomized double-blind study involving 102 individuals revealed that AKBA supports gastrointestinal health. AKBA may provide gastrointestinal support by maintaining healthy lipid signaling in the epithelial lining of the digestive tract.†

1 capsule daily, with a meal.

Each (size 0) vegetarian capsule contains:

5-LOXIN® Boswellia serrata extract Indian 100 mg
Frankincense (*Boswellia serrata*) extract (gum resin)

(standardized to contain 30%
3-acetyl-11-keto-beta-boswellic acid (AKBA))

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

5-LOXIN® is a registered trademark of PL Thomas – Laila Nutra, LLC and is used under license. International Patents Pending.

Not to be taken by pregnant or lactating women.

Brain Reset™

Formulated with Samuel F. Yanuck, D.C.†

PROMOTES CONCENTRATION, MENTAL CLARITY AND MEMORY ASSOCIATED WITH BRAIN FOG‡

Brain Reset™ is designed to promote concentration and memory with multi-faceted support for healthy blood flow, immune mediator production, neuroprotection and cognitive function. *Ginkgo biloba* and butcher's broom help sustain the strength and elasticity of blood vessels and capillaries, and may also promote the flow of oxygen and blood to the brain. *Ginkgo biloba* is included in this formula as Virtiva® ginkgo-phosphatidylserine phytosome complex.†

Phytosomes boost resistance to degradation in the digestive tract and promote efficient absorption across membranes for enhanced bioavailability. In a randomized, double-blind, placebo-controlled crossover study, phosphatidylserine-bound ginkgo extract enhanced secondary memory performance and significantly increased speed of memory task performance at 1, 2.5, 4 and 6 hours, compared to standard ginkgo extract or phosphatidylcholine-bound ginkgo extract. In another study, ginkgo extract promoted executive function in women. Preliminary research suggests that ginkgo may also support dopamine levels in the prefrontal cortex of the brain.†

Bacopa extract has over 35 years of clinical research focusing on support for memory and peak cognitive performance. In a randomized, controlled trial involving healthy adults, 320 mg of bacopa extract promoted performance on cognitively demanding tests. In another study, it promoted multi-tasking performance at 1 and 2 hours after administration, and supported positive mood. In a third trial, 90 days of supplementation with Bacopa promoted working memory performance, including spatial working memory accuracy and visual information processing accuracy.†

Riboflavin and feverfew have been studied for their ability to promote cranial comfort, with numerous randomized, double-blind, placebo-controlled trials exploring their supportive effects. Feverfew is thought to act in part by maintaining healthy cytokine, leukotriene and prostaglandin metabolism, as well as promoting healthy cranial vascular muscle function. Luteolin promotes neuronal health through antioxidant, immunomodulating, and mast cell stabilizing actions, helping to moderate the release of immune mediators. In a randomized, double-blind trial involving older men and women, daily supplementation with 3.2 grams of lion's mane powder (equivalent to 800 mg of lion's mane 30% polysaccharides extract) daily for 12 weeks promoted cognitive function, as assessed by the Mini-Mental State Examination questionnaire (MMSE). It may also offer support for relaxation and mood. In vitro and animal research suggest that lion's mane promotes neuronal health by supporting nerve growth factor (NGF) synthesis.†

2 capsules daily, between meals.

Two (size 00) vegetarian capsules contain:

Riboflavin	20 mg
Lion's Mane mushroom (<i>Hericium erinaceus</i>) extract (fruiting body)	400 mg
Bacopa (<i>Bacopa monnieri</i>) extract (aerial parts) (standardized to contain 20% bacosides)	320 mg
Virtiva® ginkgo-phosphatidylserine phytosome (<i>Ginkgo biloba</i> extract (leaf) and sunflower phospholipid complex) (standardized to contain 5% ginkgoflavonglucosides and 12% phosphatidylserine)	120 mg
Butcher's broom (<i>Ruscus aculeatus</i>) extract (root)	150 mg
Feverfew (<i>Tanacetum parthenium</i>) extract (leaf)	150 mg
Luteolin	100 mg
Other ingredients: vegetarian capsule (cellulose, water)	

Virtiva® is a registered trademark of Indena S.p.A., Italy.

†Dr. Yanuck is a retained advisor for Pure Encapsulations.

Not to be taken by pregnant or lactating women.

Bromelain 2400 500 mg

PROTEOLYTIC ENZYME FOR MUSCULOSKELETAL HEALTH AND DIGESTIVE SUPPORT‡

Bromelain is a proteolytic enzyme from the stem of the pineapple plant. Taken with food, as a proteolytic enzyme bromelain aids in the healthy functioning of the digestive system. Taken between meals, bromelain maintains healthy kinin and fibrin production, supporting healthy musculoskeletal function. Research suggests that bromelain may promote muscle and joint comfort by providing support for healthy platelet function.†

1 capsule, 1-4 times daily, with or between meals, as indicated.

Each (size 00) vegetarian capsule contains:

Bromelain (from pineapple stem) (2,400 GDU/gram)	500 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken by pregnant or lactating women.

Buffered Ascorbic Acid capsules

VITAMIN C AS MINERAL ASCORBATES FOR SENSITIVE INDIVIDUALS[†]

Buffered ascorbic acid combines calcium ascorbate, magnesium ascorbate, and potassium ascorbate to create a neutral pH vitamin C. This special form of ascorbic acid lessens possible gastric irritation in sensitive individuals. Vitamin C is an antioxidant and free radical scavenger with a wide range of functions. It supports the body's defense system by promoting white blood cell function and activity, interferon levels, antibody responses, and secretion of thymic hormones. It is also essential for the formation and maintenance of intercellular ground substance and collagen. Vitamin C aids in the absorption of iron, the formation of red blood cells and conversion of folic acid to active folinic acid. It also maintains healthy mast cell function and supports lymphocyte formation. Vitamin C is also required for the synthesis of carnitine and steroids.[†]

1 capsule, 1-4 times daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Vitamin C (as calcium ascorbate, magnesium ascorbate, and potassium ascorbate)	670 mg
Calcium (as calcium ascorbate)	15 mg
Magnesium (as magnesium ascorbate)	37 mg
Potassium (as potassium ascorbate)	20 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

CaffPhenol

WHOLE FRUIT COFFEE EXTRACT EXTRACT AND THEANINE TO PROVIDE BALANCED ENERGY AND COGNITIVE SUPPORT†

At low to moderate doses, caffeine has been shown to target the central nervous system (CNS) and act as cognitive support, promoting alertness, vigilance, attention and reaction time. Research indicates that it promotes the encoding of new information and delays fatigue. In a study of 88 young adults, the ingestion of 200 mg caffeine significantly enhanced problem-solving abilities, although it did not alter working memory or creativity. It is believed to exert its effects on the CNS via the adenosine receptors, promoting neurotransmitter release and dopamine concentration, motor unit firing rates, and comfort. In a study of 15 professional e-gamers, 3 mg/kg body weight caffeine promoted accuracy and decreased reaction time. Numerous studies on athletes suggest that caffeine promotes endurance and performance output likely through these same mechanisms. In an incremental exercise-cycling study conducted in recreationally active men, 4 mg/kg body weight caffeine improved time to exhaustion by 12% and significantly decreased perception of effort and subjective fatigue. L-theanine is a component of green tea that promotes normal brain alpha-wave activity, helping calm the sympathetic nervous system for a relaxing effect without drowsiness. It also has been shown to support positive mood and cognitive function, in part by promoting healthy neurotransmitter function and neuroprotection. In combination studies, L-theanine has been reported to moderate some of the effects of caffeine on the CNS, promoting vascular relaxation and local cognitive processing. CoffeeBerry® is a concentrated whole coffee fruit extract from *Coffea arabica* containing naturally occurring caffeine and polyphenols. Preliminary research suggests coffee fruit polyphenols support healthy vascular endothelial function and BDNF.†

2 capsules daily, with or between meals.

Two (size 3) capsules contain:

CoffeeBerry® coffee (<i>Coffea arabica</i>) extract (whole fruit) (standardized to contain 100 mg caffeine)	143 mg
L-Theanine (Suntheanine®)	200 mg
Other ingredients: vegetarian capsule (cellulose, water)	

CoffeeBerry® is a registered trademark of VDF FutureCeuticals, Inc. Pat. Fcpatent.com

Suntheanine® is a registered trademark of Taiyo International, Inc.

Not to be taken by pregnant or lactating women. Not intended for children or those sensitive to caffeine. The recommended dose of this product contains 100 mg of caffeine, about as much as 1 cup of strong coffee. Monitor other sources of caffeine such as medications, foods or beverages while taking this product. Do not exceed the recommended serving. Do not use in combination with alcohol. If you have any health condition or are taking any medication, consult your health professional before use.

Cal/Mag/D liquid

CALCIUM, MAGNESIUM AND VITAMIN D IN A CONVENIENT LIQUID FORM; SUPPORTS HEALTHY BONE MINERAL COMPOSITION; MAY REDUCE THE RISK OF OSTEOPOROSIS**

- Highly bioavailable mineral citrates
- 2:1 ratio of calcium to magnesium combined with vitamin D₃
- Great-tasting liquid formula

2 teaspoons daily, with a meal.

Serving size: two teaspoons (10 ml/0.33 fl oz)

Servings per container: 48

Two teaspoons (10 ml/0.33 fl oz) contain:

Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Calcium (as calcium citrate)	350 mg
Magnesium (as magnesium citrate)	175 mg

Other ingredients: purified water, xylitol, natural raspberry flavor, citric acid, medium chain triglycerides, xanthan gum, purified stevia leaf extract, potassium sorbate, rosemary leaf extract, natural mixed tocopherols

**When providing adequate calcium throughout life as part of a well balanced diet.

Calcium K/D

HIGH ELEMENTAL CALCIUM PER CAPSULE WITH VITAMINS K AND D; SUPPORTS BONE AND CARDIOVASCULAR HEALTH; MAY REDUCE THE RISK OF OSTEOPOROSIS^{***}

Calcium K/D combines di-calcium malate with vitamins D and K for optimal bone support and may reduce the risk of osteoporosis^{**}. Di-calcium malate provides a high percentage of elemental calcium, fully chelated with the Krebs cycle intermediate malate for optimal absorption. Vitamin D promotes intestinal calcium absorption and reduces urinary calcium loss. A 7-year study involving over 30,000 women indicates that combined calcium and vitamin D supplementation promotes healthy hip bones. Vitamin K enhances bone formation by carboxylating osteocalcin. This enables osteocalcin to bind to calcium and promote healthy bone mineralization. Adequate intake of vitamin K₁ and K₂ may be especially important for optimal carboxylation in aging individuals. By activating matrix Gla-protein (MGP), vitamin K also helps maintain healthy calcium metabolism in vascular tissues, supporting healthy vascular elasticity.[†]

2 capsules, 1-3 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin K (as vitamin K ₁)	100 mcg
Calcium (as di-calcium malate (DimaCal™))	400 mg
Vitamin K ₂ (menaquinone-7)	30 mcg
Other ingredients: vegetarian capsule (cellulose, water)	

Albion™, DimaCal™ and TRAACS™ are trademarks of Albion Laboratories, Inc.

^{**}When providing adequate calcium throughout life as part of a well balanced diet.

Vitamin K may be contraindicated with Coumadin (Warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood-thinning medication, consult your health professional before use.

Calcium with Vitamin D₃

HIGHLY ABSORBABLE CALCIUM COMBINED WITH VITAMIN D₃ TO SUPPORT BONE AND COLON HEALTH; MAY REDUCE THE RISK OF OSTEOPOROSIS**

Several clinical trials reveal the positive effects of combined supplemental calcium and vitamin D for bone health. Vitamin D is important for its ability to promote intestinal calcium and phosphorous absorption, reduce urinary calcium loss and enhance healthy bone composition. In a large trial published in the New England Journal of Medicine involving over 3,000 women, supplementation with calcium and vitamin D daily for one and a half years supported bone composition of the femur. In another study, calcium and vitamin D supplementation promoted calcium utilization and maintained healthy bones in postmenopausal women. Calcium citrate/malate combined with vitamin D moderated the rate of bone loss for a separate group of postmenopausal women, maintaining support for the spine. Calcium and vitamin D also play a role in supporting colon health. Vitamin D is now derived from organic algae, produced in a multi-step process resulting in a vitamin D₃, cholecalciferol with the same molecular structure as lanolin and fish oil derived cholecalciferol.¹

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Calcium (as calcium citrate/malate)	450 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

**When providing adequate calcium throughout life as part of a well balanced diet.

Calcium-D-Glucarate™

SUPPORTS DETOXIFICATION AND CELLULAR HEALTH*

Researchers at the University of Texas M.D. Anderson Cancer Center, Memorial Sloan-Kettering Cancer Center of New York, AMC Cancer Center in Colorado, and Ohio State University have extensively studied D-glucarate. Calcium-D-Glucarate™, a patented form of glucaric acid, is a nutrient with the potential to support healthy detoxification and cellular function. In the gut and liver, phase II detoxification includes an enzymatic process called glucuronidation, in which toxic compounds are bound to glucuronic acids so that they can be eliminated in a safe form from the body via the bile and/or urine. Beta-glucuronidase is a naturally occurring enzyme found in various organs and cells, which can cleave apart these neutral compounds. D-Glucarate has been shown to help modulate beta-glucuronidase enzyme activity, helping the glucuronide conjugates stay intact, so that they can leave the body. D-glucarate may also help to maintain healthy cell structure and function. An animal study suggests the promising role of D-glucarate in supporting healthy lipid metabolism.¹

2 capsules, 1-3 times daily, with meals.

Two (size 0) vegetarian capsules contain:

Calcium-D-glucarate	1,000 mg
Other ingredients: vegetarian capsule (cellulose, water)	

This product contains calcium D-glucarate, the use of which is licensed from Applied Food Sciences, Inc. and protected by U.S. Patent 7,662,863.

Calm Mind

PROMOTES A CALM STATE OF MIND[†]

Calm Mind combines two clinically studied botanical extracts, saffron (affron[®]) and curcumin (Theracurmin[®]), to support a positive mood, a calm state of mind and emotional well being. In a double-blind trial involving 128 adults self-reporting low mood, saffron (affron[®], 28 mg/day) resulted in a significant decrease in negative mood and symptoms related to stress after 4 weeks compared to placebo. Other studies indicate that saffron also supports sleep with continued use. The regulation of mood and emotional state is influenced by the immune system, and emerging research points to an impactful role of immune mediators known as cytokines. Lower plasma levels of certain cytokines, such as IL-6 and TNF- α , are associated with positive mood and emotional wellbeing. In preclinical models, curcumin moderates the production of the cytokines IL-1 β , IL-6, and TNF- α and moderates pro-inflammatory cytokine pathways in the brain. However, the low oral bioavailability of curcumin may limit its ability to support brain function. Theracurmin[®] is 27 times more bioavailable than standard curcumin. In a study of 40 adults (51–84 years of age) Theracurmin[®] containing 90 mg curcumin twice daily for 18 months significantly improved short-term, verbal and visual memory and attention.[‡]

1 capsule, 2 times daily, between meals.

One (size 00) capsule contains:

Theracurmin[®] turmeric (*Curcuma longa* L.) extract (rhizome) 300 mg
(standardized to contain 30% curcumin)

Affron[®] saffron (*Crocus sativus*) extract (stigma) 15 mg
(standardized to contain 3.5% Lepticrosalides™)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

WARNING: If you are pregnant or lactating, have any health condition or taking any medication, consult your healthcare professional before use.

Theracurmin[®] is a registered trademark of Theravalues Corporation used under license by Pure Encapsulations.

Affron[®] & Lepticrosalides™ are trademarks owned by Pharmactive Biotech Products S.L.U.

Caprylic Acid

SUPPORTS HEALTHY MICROBIAL BALANCE[‡]

Caprylic acid, also known as octanoic acid, is a naturally occurring fatty acid that promotes a favorable environment for beneficial microflora. Due to its fat solubility, it is believed to penetrate intestinal mucosal cells to exert its effects.[‡]

2 capsules, 30 minutes before each meal.

Two (size 00) vegetarian capsules contain:

Calcium (as calcium caprylate)	60 mg
Magnesium (as magnesium caprylate)	36 mg
Caprylic acid (as calcium and magnesium caprylate)	800 mg
Other ingredients: vegetarian capsule (cellulose, water)	

Not to be taken by pregnant or lactating women.

CarbCrave Complex

With Sensoril[®]

MODERATES CARBOHYDRATE INTAKE AND HELPS LESSEN APPETITE BY SUPPORTING NEUROTRANSMITTER FUNCTION[‡]

CarbCrave Complex is designed to help lessen appetite and curb excessive carbohydrate intake by supporting neurotransmitters involved in appetite and mood. 5-HTP is a precursor for serotonin, the same neurotransmitter released by the consumption of carbohydrates and associated with enhanced mood. At the same time, DL-phenylalanine supports dopamine and epinephrine production, responsible for the sensation of well-being. Vitamin B₆ is integral as a cofactor for neurotransmitter synthesis. Rhodiola and ashwagandha are believed to encourage the activities of these neurotransmitters while strengthening the body's resistance to stress and fatigue, common triggers for undesirable eating behaviors. Research indicates that Sensoril[®] ashwagandha promotes relaxation and maintains healthy cortisol response. It is these actions that may be responsible for its supportive effects on glucose and fat metabolism. Both chromium picolinate and Relora[®] have demonstrated the potential to promote more healthful patterns of carbohydrate and energy intake in adult subjects. In one study involving 49 volunteers prone to eating under stress, Relora[®] helped reduce stress-related snacking of sweets by 76%. In another trial, chromium picolinate supplementation helped reduce carbohydrate intake and mood fluctuations.[‡] Cravings and appetite are influenced by many factors, only some of which may be affected by the ingredients in this formula.[‡]

2 capsules, 3 times daily, with or before meals.

Two (size 1) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	3.3 mg
Chromium (as chromium picolinate)	200 mcg
5-Hydroxytryptophan	50 mg
DL-Phenylalanine	250 mg

Relora®	175 mg
Patented proprietary blend of: Magnolia (<i>Magnolia officinalis</i>) extract (bark) and phellodendron (<i>Phellodendron amurense</i>) extract (bark)	
Sensoril® ashwagandha (<i>Withania somnifera</i>) extract (root and leaf)	75 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	75 mg
Other ingredients: vegetarian capsule (cellulose, water), modified food and corn starch, ascorbyl palmitate, silicon dioxide	

Relora® & logo are trademarks of Lonza or its affiliates. Relora® brand *Magnolia officinalis* and *Phellodendron amurense*.

Sensoril® is a trademark of Natreon, Inc. and is protected under U.S. Patent 7,318,938.

Not to be taken by pregnant or lactating women. Do not use concurrently with antidepressants.

I-Carnitine

HIGHLY STABILIZED FORM OF L-CARNITINE SUPPORTING CARDIOVASCULAR HEALTH AND RECOVERY FROM EXERCISE[†]

I-Carnitine is an amino acid found abundantly in skeletal and heart muscle. It functions primarily to support fat utilization, and also acts as a carrier of fatty acids into the mitochondria, where they are oxidized and converted to energy. I-Carnitine also facilitates the removal of short and medium chain fatty acids from the mitochondria that accumulate during normal metabolic processes. A randomized double-blind, placebo-controlled trial of I-carnitine involving 101 volunteers indicated that I-carnitine maintained lipid peroxides and healthy cardiac enzymes including lactate dehydrogenase. In combination with other cardiovascular support agents, I-carnitine supported ventricular function and superoxide dismutase enzyme activity in human volunteers. Long-term I-carnitine supplementation indicated positive support for cardiovascular health after a 3-year follow-up in adult subjects. A placebo-controlled clinical study conducted at Ball State University in Indiana has found that I-carnitine-l-tartrate supplementation helps physical recovery from high intensity exercise. I-Carnitine-l-tartrate contains 68% pure I-carnitine and 32% natural I-tartaric acid.[‡]

2 capsules, 1-2 times daily, between meals.

Two (size 0) vegetarian capsules contain:

I-Carnitine (free-form) (from I-carnitine-l-tartrate)	680 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

I-Carnitine fumarate

SUPPORTS ENERGY PRODUCTION, ENDURANCE, AND FAT METABOLISM[†]

In studies, I-carnitine has demonstrated the ability to promote oxygenation of heart muscle, support cardiovascular energy, enhance endurance training, and maintain healthy lipid metabolism. Fumarate, or fumaric acid, is naturally present in the body as a component of the Krebs cycle (Citric Acid Cycle), where it contributes to energy production. L-carnitine fumarate has been shown to moderate cardiac lactate levels in laboratory animals. This unique formula supports cellular energy in tissues with high metabolic demands, such as the heart and skeletal muscle.[‡]

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

I-Carnitine (free-form) (from I-carnitine fumarate)	680 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

I-Carnitine Fumarate is a stable, highly bioavailable form of I-Carnitine from Sigma-tau HealthScience USA, Inc. (BIOSINT).

I-Carnosine

VERSATILE ANTIOXIDANT SUPPORT FOR CELLULAR HEALTH AND LONGEVITY[†]

I-Carnosine (beta-alanyl-L-histidine) occurs naturally in the body's muscle and nervous tissues and is formed by the amino acids alanine and histidine. Levels of this dipeptide can decline with age. It is a water-soluble antioxidant and promotes cell health and cell longevity. In vitro, I-carnosine maintains healthy advanced glycation end-product, or AGE, activity. These end-products are formed when aldehydes (such as aldose and ketose sugars) and lipid peroxidation by-products bind to proteins. I-Carnosine plays a role in maintaining DNA integrity. I-Carnosine may also support superoxide dismutase activity. In addition, I-carnosine may help to maintain healthy peptide metabolism in the brain and its membrane stabilizing properties support cellular health in the cardiovascular system. The concentration of I-carnosine in muscle may prove to be an important factor in high-intensity exercise performance based on a recent human study.[‡]

1 capsule, 1-3 times daily, between meals.

Each (size 00) vegetarian capsule contains:

I-Carnosine (beta-alanyl-l-histidine)	500 mg
Other ingredients: vegetarian capsule (cellulose, water)

Cat's Claw

HERBAL SUPPORT FOR JOINT, CARDIOVASCULAR, IMMUNE AND GASTROINTESTINAL HEALTH[†]

Cat's Claw, also known as *Uncaria tomentosa*, has been used traditionally in Peru for over 2,000 years. Alkaloids, phenols, sterols, and glycosides comprise some of the naturally occurring constituents of this herb. In a 52-week, randomized, double blind trial, cat's claw extract promoted joint comfort. Its mechanism of action is believed to involve modulation of key immune mediators, such as prostaglandins and cytokines, and antioxidant activity. This product may be contraindicated for individuals who are taking blood-thinning or antihypertensive medications due to a potential synergistic effect.[†]

1 capsule, 1-3 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Cat's claw (*Uncaria tomentosa*) extract (inner vine bark) 450 mg
(standardized to contain 3% oxindole alkaloids)

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Not to be taken by pregnant or lactating women.

Chaste tree (Vitex)

WIDE RANGE SUPPORT FOR FEMALE REPRODUCTIVE HEALTH[†]

Chaste tree extract, also known as Vitex, contains flavonoids, iridoid glycosides and terpenoids. It has been associated with supporting breast comfort and positive mood during the menstrual cycle, as suggested by numerous randomized, double-blind, placebo-controlled trials. It has also been associated with promoting healthy menstrual luteal phase length and menstrual regularity for some women, helping to maintain healthy reproductive system function.[†]

1 capsule daily, with or between meals.

Each (size 3) vegetarian capsule contains:

Chaste tree (*Vitex agnus-castus*) extract (fruit) 225 mg

Other ingredients: vegetarian capsule (cellulose, water)

Not to be taken by pregnant or lactating women.

CholestePure[†]

HIGHLY RESEARCHED PHYTOSTEROLS TO SUPPORT HEALTHY LIPID METABOLISM[†]

Phytosterols are sterol molecules, similar in structure to cholesterol, which are synthesized by plants and are present naturally in grains, nuts, seeds, fruits and vegetable oils. In studies, phytosterols have demonstrated the ability to maintain healthy enzyme function, thus supporting healthy lipid metabolism. Traditional Western diets only provide about 200 mg phytosterols per day (based on beta-sitosterol content), an amount too low to exert this action. Health conscious trends involve the incorporation of phytosterol esters into margarines and salad dressings to help promote optimal daily intake. CholestePure is a broad-spectrum balance of the most prized phytosterols, including beta-sitosterol, campesterol, stigmasterol, and brassicasterol. Furthermore, beta-sitosterol promotes healthy prostate function. This was demonstrated in a 6-month, randomized, placebo-controlled, double-blind study involving 200 participants, and in a 6-month, multicentric, placebo-controlled double-blind trial involving 177 subjects, both conducted in Germany.[†]

2 capsules with each meal.

Two (size 00) vegetarian capsules contain:

Phytosterol complex 1,000 mg

(including betasitosterol, campesterol, stigmasterol, brassicasterol and sitostanol)

Providing (typical):

Total phytosterols 900 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate, hypoallergenic plant fiber (cellulose)

Contains soy

CholestePure Plus[†]

Soy-Free

WITH ENHANCED ABSORPTION PHYTOSOME[™] TECHNOLOGY; SUPPORTS HEALTHY LIPID METABOLISM AND CARDIOMETABOLIC HEALTH[†]

Phytosterols are structural homologs of cholesterol that occur naturally in many plant foods. Over 30 years of research and 40 clinical trials suggest that phytosterols provide significant support for healthy lipid profiles. CholestePure Plus provides a unique blend of phytosterols, berberine and clinically studied bergamot extract to promote healthy lipid metabolism and overall cardiometabolic health. Well-established benefits of phytosterols on lipid balance stem primarily from competition with cholesterol for occupancy in micelles, particles that carry cholesterol across the intestinal epithelium into the systemic circulation. Through this mechanism, phytosterols promote excretion of cholesterol in the form of bile acids.

Research indicates that the pine-derived phytosterols offered in this formula are comparable to phytosterols from other sources. Bergamot is a citrus fruit containing two newly discovered derivatives of the flavonoids, hesperidin and naringenin. These compounds are naturally conjugated to a moiety known as hydroxymethylglutarate (HMG). In the liver, this unique molecule binds and modulates an enzyme known as HMG CoA reductase, which plays a central role in lipid biosynthesis. These unique compounds also target enzymes, transcription factors and genes involved in lipid metabolism.¹

In a study involving 192 volunteers, bergamot juice maintained healthy cholesterol and lipid levels in the normal range over a 30-day period. In a separate study of 80 subjects, 150 mg of flavonoids from Bergavit® 40 bergamot extract supported healthy lipid and glucose profiles over a 6-month period. Berberine is an alkaloid that mediates the activation of AMP kinase (AMPK), a central regulator of cellular energy homeostasis. This master metabolic switch is involved with maintaining healthy cardiovascular function, and helps maintain lipid levels already within the normal range. A human pharmacokinetic study demonstrated that Berberis® berberine phytosome is 4 times more bioavailable than a standard berberine formulation.²

2 capsules, 1-2 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Phytosterols (from pine (<i>Pinus spp.</i>) phytosterol complex (PhytoPin®))	500 mg
Berberine Phytosome™ (Berbevis®) (<i>Berberis aristate</i> extract (root) and sunflower phospholipid complex) (standardized to contain 28% berberine)	275 mg
Bergamot (Bergavit® 40) (<i>Citrus bergamia</i>) extract (fruit) (standardized to contain 39% flavonoids)	160 mg

Other ingredients: Phospholipid complex (pea protein isolate, sunflower lecithin, grape seed extract, cellulose, silicon dioxide), vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

PhytoPin® is a registered trademark of DRT and licensed to Pure Encapsulations.

Berbevis® and Phytosome™ are trademarks of Indena S.p.A., Italy.

Choline (bitartrate)

KEY VITAMIN TO SUPPORT HEALTHY METHYLATION, CELL FUNCTION AND NEUROTRANSMISSION¹

While long considered a non-essential vitamin, recent evidence confirms that the body cannot synthesize enough choline to meet daily needs. This has prompted the National Academy of Science to create a daily value for choline of 550 mg. Dietary intake of choline is often below this level. Choline is an important nutrient for methylation, cell membrane structure and neurotransmission, and lipid metabolism and transport. Choline and its metabolites are the major source of methyl groups in the diet. Methylation plays many roles including neurotransmission, vitamin assimilation, DNA synthesis and gene regulation. Choline is required for the synthesis of phospholipids and acetylcholine, a neurotransmitter involved in attention, learning and memory. Certain genetic variations in MTHFD1 and PEMT, enzymes that play critical roles in methylation and phosphatidylcholine synthesis, respectively, have been associated with increased dietary choline needs. Since the de novo synthesis of phosphatidylcholine requires the estrogen-inducible PEMT enzyme, women with low estrogen levels and/or certain SNPs in the PEMT gene have increased choline needs. Postmenopausal women with lower estrogen have higher dietary choline requirements because of reduced PEMT function. Choline requirements also increase during pregnancy. One clinical trial showed that women who consumed 480 mg of choline daily during pregnancy had offspring with faster processing speed than those who did not. A randomized, double blind, placebo-controlled trial suggests that higher intakes of choline also promote healthy hepatic fat metabolism.²

1 capsule, 1-2 times daily, with meals.

One (size 00) vegetarian capsule contains:

Choline (as choline bitartrate)	275 mg

ChromeMate® GTF 600

UNIQUE NIACIN-BOUND CHROMIUM COMPLEX;
SUPPORTS HEALTHY GLUCOSE METABOLISM*

Chromium is a trace mineral that plays an important role in glucose and lipid metabolism, as well as enzyme activation. Optimal levels of chromium promote healthy carbohydrate and fat utilization. ChromeMate® has been clinically studied for its potential role in supporting healthy body composition when combined with a healthy diet and exercise. One study showed that ChromeMate® combined with exercise was more effective than exercise alone in supporting healthy glucose metabolism. A similar study at Georgetown University also suggested that ChromeMate® may support healthy weight management† while preserving lean muscle mass in overweight women. The potential for ChromeMate® to promote Glucose Tolerance Factor (GTF) activity contributes to its ability to maintain healthy glucose metabolism and to support healthy body composition.†

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Chromium (as chromium polynicotinate) 600 mcg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

Cinnamon WS

PATENTED WATER-SOLUBLE EXTRACT FOR HEALTHY
GLUCOSE METABOLISM*

Cinnamon WS contains a patented, 100% water-soluble cinnamon (*Cinnamomum cassia*) extract standardized for polyphenols, which are the principal active constituents. Studies performed at the Beltsville USDA Human Nutrition Research Center suggest that these polyphenols are associated with the glucose metabolizing and antioxidant properties of cinnamon. A clinical trial reported that supplementation with cinnamon promoted healthy glucose balance and was well tolerated. The investigators also reported that cinnamon provided statistically significant support for healthy lipid metabolism. Additional studies indicate that cinnamon extract promotes glucose utilization in skeletal muscle cells.†

1 capsule, twice daily, with meals.

Each (size 3) vegetarian capsule contains:

Cinnamon (*Cinnamomum cassia*) extract (dried bark) 125 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

CLA (Conjugated Linoleic Acid) 1,000 mg

PROMOTES HEALTHY BODY COMPOSITION WHEN
COMBINED WITH A HEALTHY DIET AND EXERCISE†

CLA is a naturally occurring trans isomer of linoleic acid, which may support fat reduction and lean body mass. It is unique in structure because of the location of the double bonds in the linoleic acid molecule. Recent research shows that the specific isomers c9,t11 and t10,c12 play key roles in many of CLA's physiological properties. Tonalin® CLA contains the main isomers c9,t11 and t10,c12 in a 39:39 ratio. In a preliminary human study involving 60 overweight subjects, conjugated linoleic acid supported healthy body fat mass. Several animal studies explore possible mechanisms of CLA, including the ability to maintain healthy fat deposition, promote lipolysis in adipocytes, moderate energy intake and maintain healthy energy expenditure and metabolic rate.¹

1 capsule, 3 times daily, before meals.

Each (size 20) softgel capsule contains:

Calories	10
Total fat	1 g
Vitamin E (as d-alpha tocopherol)	7 mg
Tonalin® conjugated linoleic acid complex	1,000 mg
Providing:	
Pure conjugated linoleic acid (CLA)	770 mg
Other ingredients: gelatin capsule (gelatin, glycerin, water, carob)	

TONALIN® CLA is an exclusively licensed product of BASF Personal Care and Nutrition GmbH.

The use of CLA for nutritional purposes is covered under one or more of the following patents: 5,017,614; 5,428,072; 5,430,066.

CogniMag

MAGNESIUM-L-THREONATE AND POLYPHENOL BLEND TO
SUPPORT COGNITIVE FUNCTION†

- Supports optimal brain magnesium levels to promote cognitive function, learning ability and working memory¹
- Animal research suggests that magnesium-l-threonate may promote synaptic plasticity and density in the regions of the hippocampus correlated with learning and memory¹
- In a clinical trial of 44 participants aged 50-70, magnesium l-threonate (Magtein[™]) provided significant support for cognitive processing speed, executive function, and overall cognitive ability after only 6 weeks¹
- An *in vitro* study demonstrated that PhytoMemory, a blend of blueberry and strawberry extracts and spinach juice concentrate, maintained healthy activity of prolyl endopeptidase (PEP), a protein involved in learning and memory¹
- Consumption of blueberries, strawberries and spinach has been associated with brain health in clinical studies¹

2 capsules, twice daily, with a meal and at bedtime.

Two (size 0) vegetarian capsules contain:

Magnesium (from 1,000 mg Magtein [™] magnesium-l-threonate)	72 mg
PhytoMemory proprietary blend	50 mg
Providing:	
Wild blueberry (<i>Vaccinium angustifolium</i>) extract (fruit),	
Orléans strawberry (<i>Fragaria x ananassa</i>) extract (fruit),	
and spinach (<i>Spinacia oleracea</i>) juice concentrate (leaf)	
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Magtein[®] is protected under a family of US patents, pending patents, and is protected worldwide. Magtein[®] is a trademark of Magceutics[®], Inc. and is distributed exclusively by AIDP, Inc.

CogniPhos

Formulated with James Greenblatt, M.D.[†]

NEURONAL SUPPORT FOR COGNITIVE PERFORMANCE, MOOD AND BEHAVIOR*

Acetyl-L-carnitine (ALC) offers support for cellular energy, mood and neuronal function. A meta-analysis of 21 randomized controlled studies and 1,204 older subjects indicated that ALC offered statistically significant support for memory, performance and higher intellectual function. In other trials involving children, ALC promoted daily mental function and behavior in a subset of subjects. Citicoline and phosphatidylserine support healthy brain phospholipid composition. Phospholipids are essential for neuronal communication and protection. Research indicates that patented Cognizin® citicoline increases choline and phospholipid composition in the brain. Studies in children, middle-aged adults and elderly adults indicate that it supports healthy cognition across a wide age range. In two studies, one involving adolescent boys and another involving middle-aged women, 250-500 mg Cognizin® citicoline offered significant support for daily mental task performance. Numerous studies indicate phosphatidylserine promotes healthy mental acuity and behavior in elderly subjects, as well as children. Zinc and vitamin B₆ are important cofactors for neuronal function.¹

2 capsules, 1-2 times daily, with meals.

Two (size 0) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	10 mg
Zinc (as zinc citrate)	5 mg
Acetyl-L-carnitine (as Acetyl-L-Carnitine HCl)	500 mg
Cognizin® citicoline	125 mg
Sharp-PS® GREEN phosphatidylserine (from sunflower lecithin)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

Cognizin® is a registered trademark of KYOWA HAKKO BIO., LTD.

Sharp-PS® is a registered trademark of Enzymotec Ltd.

Cognitive Aminos

PROVIDES AMINO ACID PRECURSORS FOR HEALTHY NEUROTRANSMITTER ACTIVITY, SUPPORTING MENTAL FUNCTION AND HEALTHY MOOD*

Age-related decreases in levels of several amino acids may influence cognitive function. Amino acids are important intermediates in the production of neurotransmitters in the brain and are involved in neuromodulating activities. L-Tyrosine is an amino acid naturally synthesized in the body. It is the precursor of the neurotransmitters L-DOPA, dopamine, norepinephrine and epinephrine, supporting mood and mental clarity. DL-Phenylalanine provides a mixture of two essential amino acids, d-phenylalanine and l-phenylalanine. In the body, l-phenylalanine converts to tyrosine, enhancing neurotransmitter support. A separate pathway allows both d- and l-phenylalanine to support levels of the mood-elevating compound phenylethylamine, a function not provided by l-tyrosine. The serotonin precursor l-tryptophan is included to support emotional well-being, relaxation and restful sleep. In a double-blind, placebo-controlled study, l-tryptophan supported healthy emotional processing and promoted positive outlook in women. Taurine is considered an inhibitory amino acid, helping to maintain healthy glutamate and other excitatory amino acid activity in the brain. This provides neuroprotective action important for maintaining healthy brain cell function. Acetyl-L-carnitine plays an important role in multiple metabolic and neurotransmitter systems in the brain. It also contributes to the production of the neurotransmitter acetylcholine and may support dopamine receptor function. As a result, acetyl-L-carnitine plays a role in memory, attention, mental clarity and mood support.¹

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

DL-Phenylalanine (free-form)	250 mg
Taurine (free-form)	250 mg
L-Tyrosine (free-form)	250 mg
Acetyl-L-carnitine (free-form)	250 mg
L-Tryptophan (free-form)	200 mg

Collagen JS

PROVIDES PATENTED BIOCELL COLLAGEN® COMPLEX TO SUPPORT HEALTHY JOINTS AND SKIN†

This product contains BioCell Collagen®, a patented, hydrolyzed and denatured low molecular weight collagen. In addition to collagen, BioCell Collagen® provides the combined benefits of hyaluronic acid (HA), depolymerized low molecular weight chondroitin sulfate, glucosamine sulfate and amino acids including lysine, proline and hydroxyproline. These compounds promote cartilage synthesis and enhance synovial fluid, supporting the composition, integrity and motility of joints. A double-blind, placebo-controlled study involving 16 individuals supplementing with BioCell Collagen® for 8 weeks, indicated statistically significant support for joint function and comfort. In a peak absorption study, serum levels of HA increased gradually and with statistical significance after BioCell Collagen® supplementation, emphasizing the potential for this compound to provide important connective tissue support. The components of collagen also support the elasticity and firmness of skin. Furthermore, HA attracts water, promoting hydration and moisture retention within the dermal matrix. Case reports have suggested that BioCell Collagen® may help rejuvenate skin and modulate the appearance of fine lines and wrinkles.¹

2 capsules, 1-2 times daily, with meals and 8-10 oz water.

Two (size 00) vegetarian capsules contain:

BioCell Collagen® hydrolyzed collagen complex (from chicken sternal cartilage)	1,000 mg
Providing (typical):	
Hydrolyzed collagen 60%	600 mg
Chondroitin sulfate 20%	200 mg
Hyaluronic acid 10%	100 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

BioCell Collagen® is a registered trademark of BioCell Technology LLC, Irvine, California USA (Protected by Patents).

Colostrum 40% IgG

HIGHLY CONCENTRATED IMMUNE SUPPORT†

Colostrum is a highly concentrated source of immune and growth factors produced from mammary glands shortly after giving birth. Pure Encapsulations Colostrum is derived from BSE-, hormone-, pesticide- and antibiotic-free USDA certified dairy farms in the U.S. It is collected after the first 24 hours, defatted and standardized to contain 40% IgG. Colostrum contains immunoglobulins G (IgG), A (IgA), E (IgE), D (IgD), and M (IgM). Each has a specific role in immune health. IgG is naturally found in the highest concentration. Other naturally occurring immune support compounds include lactoferrin, proline-rich polypeptide (PRP), lymphokines, interferons, interleukins, oligosaccharides, lysozymes, insulin growth factors (IGF-1 and IGF-2) and transforming growth factors (TGF-A and TGF-B).¹

2 capsules, 2-3 times daily, on an empty stomach or at least 30 minutes before a meal, with 8-12 oz water.

Two (size 00) vegetarian capsules contain:

Colostrum (from bovine)	900 mg
(standardized to contain 40% IgG)	
Other ingredients: vegetarian capsule (cellulose, water), sunflower lecithin	

Contains milk

Copper (citrate)

HIGHLY BIOAVAILABLE FORM OF COPPER FOR WIDE-RANGING SUPPORT†

Copper activates a number of enzymes important to energy metabolism. It is the key mineral in lysyl oxidase, an enzyme which weaves together collagen and elastin. Copper assists in the formation of hemoglobin and red blood cells by facilitating iron absorption. It is involved in protein metabolism, the production of RNA, and the synthesis of phospholipids used in the formation of myelin sheaths.¹

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Copper (as copper citrate)	2 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Vitamins & Minerals

CoQ₁₀ 30 mg

SUPPORTS CELLULAR ENERGY, CARDIOVASCULAR AND NEUROLOGICAL HEALTH*

CoQ₁₀ is a core component of cellular energy production and mitochondrial respiration, shuttling electrons down the electron transport chain to produce the key, energy-rich molecule adenosine triphosphate (ATP). As such, it provides energy support to the cells of the body and is especially supportive of tissues that require a lot of energy, such as the heart muscle. It also acts as an antioxidant, providing cellular protection from free radicals.[†]

1 capsule, 1-4 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Coenzyme Q₁₀ 30 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Kaneka Q10® is a U.S. registered trademark of Kaneka Corporation.

Coriolus extract

Formulated with Samuel F. Yanuck, D.C.[†]

HOT-WATER MUSHROOM EXTRACT TO PROMOTE WHITE BLOOD CELL NUMBER AND FUNCTION[†]

Coriolus versicolor, also known as turkey tail mushroom, is used in traditional Chinese medicine, primarily to enhance immune function and energy. Research indicates an immunomodulatory effect and promotion of white blood cell number and function, including lymphocyte, macrophage and NK cells. It has also been shown to support antibody production, cytokine balance and a healthy gut microflora. The main bioactive compounds in this mushroom are polysaccharides, namely beta-glucan. Pure Encapsulations' Coriolus extract is wild-crafted and organic, produced using only carefully controlled hot water to break apart the cell walls for concentration of the soluble beta-glucans.[†]

1 capsule, 1-2 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Turkey tail mushroom (<i>Coriolus versicolor</i>) extract (fruiting body) (certified organic) (standardized to contain 30% beta glucan)	500 mg
Other ingredients: vegetarian capsule (cellulose, water)	

[†]Dr. Yanuck is a retained advisor for Pure Encapsulations.

Cortisol Calm

DESIGNED TO MAINTAIN HEALTHY CORTISOL RESPONSE AND SUPPORT RELAXATION, RESTFUL SLEEP AND POSITIVE MOOD DURING TIMES OF OCCASIONAL STRESS[†]

Cortisol, released in response to stress, is mainly produced by the adrenal cortex. Intra-abdominal adipocytes also produce cortisol. In a recent study, Sensoril[®] ashwagandha extract promoted relaxation and maintained healthy cortisol response. Subjects in this randomized, double-blind, placebo-controlled study reported support for healthy sleep, positive mood and cognitive function. The effects were most pronounced for subjects taking 500 mg per day compared to lesser doses. Rhodiola and magnolia may also maintain healthy adrenal cortisol activity and offer support for occasional stress, mood and emotional well-being. I-Theanine supports normal brain alpha-wave activity, helping calm the sympathetic nervous system for a relaxing effect. Recent research suggests that maintaining healthy vitamin D levels supports normal cortisol production within abdominal adipocytes.[†]

1 capsule in the morning and 1 capsule in the evening, with meals.

Each (size 0) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Sensoril [®] ashwagandha (<i>Withania somnifera</i>) extract (root and leaf)	250 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	125 mg
Magnolia (<i>Magnolia officinalis</i>) extract (bark) (standardized to contain 2% honokiol)	100 mg
I-Theanine	50 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Sensoril[®] is a trademark of Natreon, Inc. and is protected under U.S. Patent 7,318,938.

Suntheanine[®] is a registered trademark of Taiyo International, Inc.

Not to be taken by pregnant or lactating women.

Cranberry NS®

NUTRITIONALLY SUPPORTS URINARY TRACT HEALTH WITHOUT UNWANTED SUGAR†

Cranberries have been used for hundreds of years as nutritional support for the urinary tract. Cranberry concentrate provides support without the unwanted sugar found in cranberry juice. The role of cranberry concentrate includes enhancing the acidity of urine and maintaining a healthy urinary tract ecology. Constituents of cranberry concentrate associated with its benefits include proanthocyanidins as well as d-mannose. Research has suggested the potential for cranberry juice to interact with lectin receptors and maintain a healthy bladder wall. At Brigham and Women's Hospital in Boston, a randomized double-blind, placebo-controlled trial involving over 150 female volunteers reported positive support for a healthy urinary tract after administration of a cranberry beverage. Our cranberry concentrate is made from 100% whole cranberry fruit solids through a proprietary process that concentrates the health benefiting components of cranberries without the use of solvents or sugars.†

1 capsule, 1-3 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Cranberry (<i>Vaccinium macrocarpon</i>) concentrate (fruit)	500 mg
Other ingredients: cranberry fiber, vegetarian capsule (cellulose, water), cranberry seed oil, guar gum, sunflower lecithin	

CranMax® is a registered trademark of Pharmachem Laboratories, LLC.

Each capsule has approximately 3 calories.

Cranberry/D-Mannose

COMBINES CRANBERRY CONCENTRATE MADE FROM 100% CRANBERRY FRUIT SOLIDS AND D-MANNOSE FOR TIME-TESTED, CONCENTRATED SUPPORT OF URINARY TRACT HEALTH†

Cranberry concentrate provides urinary tract support without the unwanted sugar found in cranberry juice or juice cocktails. It enhances the acidity of urine and maintains a healthy urinary tract ecology. At Brigham and Women's Hospital in Boston, a randomized double-blind, placebo-controlled trial involving over 150 female volunteers reported positive support for a healthy urinary tract after administration of a cranberry beverage. D-Mannose, a simple sugar found in cranberries and other fruit, is included in this formula to provide enhanced support. One study suggested that d-Mannose may play a role in supporting healthy genitourinary function by maintaining a healthy mucosal surface.†

2 capsules, 1-3 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Cranberry (<i>Vaccinium macrocarpon</i>) concentrate (fruit)	200 mg
D-Mannose	900 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate, cranberry fiber, cranberry seed oil, guar gum, sunflower lecithin

CranMax® is a registered trademark of Pharmachem Laboratories, LLC.

Creatine

SUPPORTS MUSCLE STRENGTH, PERFORMANCE, AND RECOVERY¹

Creatine is studied to increase body strength, build muscle mass, and support recovery from strenuous exercise. Creatine may increase fat free mass and muscle morphology with concurrent heavy resistance training more than resistance training alone. It also may be of benefit in other modes of exercise such as high-intensity sprints or dynamic movements for improved performance.¹

Creatine is an energy carrier that is naturally present in muscles, brain and other organs. In muscles, creatine in the form of phosphorylcreatine acts as a reserve of highenergy phosphate to provide energy during anaerobic exercise by regenerating ADP to ATP. By increasing the rate of creatine phosphorylation, ammonia and lactate levels in the blood are lowered resulting in faster recovery from exercise. Creatine also promotes growth factor signaling and glycogen storage to support gains in muscle strength, size and other adaptive responses to training.¹

Since creatine plays other vital roles within the musculoskeletal and nervous systems, it is essential for many aspects of health. Animal muscle – such as fresh meat and fish – contains significant amounts of creatine. Dairy products contain only small amounts. Since vegetables, grains, nuts and pulses do not contain creatine, vegetarians are more likely to have suboptimal levels than meat eaters.¹

The recommended dose for creatine monohydrate is 3 - 5 grams per day. At this dosage, creatine levels in the body will typically rise for three or four weeks before leveling off. With this approach, a loading phase is not needed.

Take this product with an adequate daily fluid intake. Mix 1.5 teaspoons daily with 8 oz of water or beverage of choice. For best results, take this product with a carbohydrate-containing beverage or food 30 minutes before exercise, or immediately following exercise. On rest days, take 1 serving daily with a meals.

Serving size: 1.5 teaspoons (5 g)

Servings per container: approximately 60

1.5 teaspoons (5 g) contains:

Creatine monohydrate 5 g

WARNING: Consult your healthcare practitioner before use if pregnant, lactating, on medication or have any health condition, including kidney disease. Discontinue use and seek medical advice if adverse reactions occur. Not intended for use by persons under the age of 18.

CurcumaSorb

Soy-Free

WITH MERIVA® BIOAVAILABLE CURCUMIN PHYTOSOME; ENHANCED ABSORPTION FOR JOINT, TISSUE AND CELLULAR HEALTH¹

Curcumin has been the subject of over 3,000 studies over the past 30 years and has an extensive history of use. The remarkable breadth of applications of curcumin stem from its multifocal mechanisms involving diverse intracellular signaling pathways and the regulation of hundreds of genes involved in cytokine balance, detoxification and cellular health. CurcumaSorb provides the patented curcumin-phosphatidylcholine complex Meriva® for enhanced absorption and bioavailability. The proprietary phytosome technology combines curcumin and phosphatidylcholine at a 1:2 ratio promoting resistance to degradation in the digestive tract and efficient absorption across membranes. This produces significantly higher peak plasma concentrations and larger area under concentration-time curves (AUC). In a single-dose pharmacokinetic animal study, plasma curcumin levels were 20-fold greater with Meriva® than standard curcumin. A preliminary human pharmacokinetic study demonstrated elevations in plasma curcumin from 450 mg Meriva® were similar to values obtained from 4,000 mg of a standard curcumin extract. Meriva® delivers a highly bioavailable curcumin phytosome, providing support for musculoskeletal, digestive, liver, brain, cellular and cardiovascular health. The efficacy of a low dose was demonstrated in a 3-month clinical trial, in which 200 mg of curcuminoids from Meriva® per day maintained healthy C-reactive protein levels and provided significant benefit in joint comfort, mobility and quality of life.¹

2 capsules, 1-3 times daily, between meals.

Two (size 00) vegetarian capsules contain:

Meriva® turmeric phytosome 500 mg
(*Curcuma longa* extract (root) and sunflower phospholipid complex)
(standardized to contain 18% curcuminoids)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

CurcumaSorb Mind

Soy-Free

CURCUMIN AND POLYPHENOL BLEND TO PROMOTE MOOD, MEMORY AND MENTAL SHARPNESS[†]

CurcumaSorb Mind offers a broad range of polyphenol compounds, including flavonoids, EGCG and oligomeric proanthocyanidins (OPCs) to promote daily cognitive function and emotional wellness. Curcumin and other polyphenols support neuronal stability and function, in part by promoting healthy cytokine balance and antioxidant defenses. Numerous clinical studies indicate that curcumin supports positive mood through these actions, as well as through the promotion of healthy levels of serotonin and dopamine. Animal research suggests that polyphenols may also offer support for occasional stress and mental alertness. In a randomized, double-blind, placebo-controlled trial involving obese individuals, 1,000 mg of a standard curcumin extract promoted relaxation. Curcumin is offered in this formula as the highly bioavailable Meriva[®] curcumin-phosphatidylcholine complex, which utilizes proprietary phytosome technology to increase resistance to degradation in the digestive tract and enhance absorption. Neurophenol[®] is a proprietary blend providing flavonoids from standardized extracts of wild blueberry and whole grape. Animal research suggests a synergistic effect between the grape and blueberry extracts on plasma uptake. These fruits contain neuroprotective polyphenolic compounds that support healthy cognitive function and memory, targeting both vascular strength and elasticity to support healthy neuronal blood flow, as well as synaptic density and plasticity in the brain. Cell and animal studies suggest that Neurophenol[®] supports neuronal function and healthy aging, at least in part by supporting antioxidant defenses, cytokine balance and healthy gene expression. In a multi-centered, placebo-controlled, randomized, double-blind study on 200 healthy men and women between the ages of 60-70, supplementation with 600 mg Neurophenol[®] per day for 6 months provided significant support for episodic memory and verbal recognition memory. Green tea supports healthy neuronal function through antioxidant properties, cytokine balance and receptor function, and is theorized to promote healthy hypothalamic-pituitary-adrenal (HPA) function. In a double-blind, placebo-controlled study, supplementation with green tea powder was associated with positive mood.[‡]

2 capsules, 1-2 times daily, with meals.

Two (size 0) vegetarian capsules contain:

Meriva [®] turmeric phytosome	300 mg
(turmeric (<i>Curcuma longa</i>) extract (root) sunflower phospholipid complex) (standardized to contain 18% curcuminoids)	
Neurophenol [®] proprietary blend	300 mg
providing 85 mg of flavonoids (monomers, oligomers, flavonols, anthocyanidins and phenolic acids) from grape (<i>Vitis vinifera</i>) extract (fruit) and wild blueberry (<i>Vaccinium angustifolium</i>) extract (fruit)	
Monterey pine (<i>Pinus radiata</i>) extract (bark)	50 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf)	100 mg
(standardized to contain 90% total tea catechins and 70% epigallocatechin gallate (EGCG))	
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Curcumin

HIGHLY RESEARCHED CURCUMIN C3 COMPLEX®; SUPPORTS JOINT, TISSUE, LIVER, COLON AND CELLULAR HEALTH[†]

Curcumin has a long history of use for supporting healthy cyclooxygenase, prostaglandin and leukotriene metabolism. It also appears to maintain healthy cell cycle function and provides important antioxidant defense. Furthermore, it supports the body's natural detoxification system and helps maintain healthy hepatic function. These actions are associated with its beneficial effects, including support for healthy liver, colon, musculoskeletal and cellular function. Curcumin C3 Complex® has been the subject of scientific investigations at a number of hospitals and universities. Most recently, it has demonstrated the potential to maintain healthy tissue in the brain by supporting macrophage activity and has been associated with support for cellular health in separate trials.[†]

2 capsules, 1-3 times daily, between meals.

Two (size 0) vegetarian capsules contain:

Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	500 mg
<hr/>	
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Daily Calm

HELPS RELIEVE OCCASIONAL STRESS[†]

Daily Calm combines L-theanine, saffron, GABA, and ashwagandha to relieve occasional stress and anxiety while supporting a positive, relaxed mood and emotional well-being. Suntheanine[®], a trademarked L-theanine, supports a relaxed and alert mental state. A four-week randomized clinical trial using L-theanine found support for stress-related symptoms. Clinical research shows that saffron, a widely studied spice derived from the flower of *Crocus sativus*, supports emotional well-being and positive mood. Clinical studies also show that saffron supports sleep with continued use. Ashwagandha, an adaptogenic herb, helps the body adapt to stress by restoring balance. Studies show that ashwagandha supports a calm, relaxed mood, helping to relieve occasional anxiety and stress. Together, these ingredients support multiple aspects of emotional wellness, helping to relieve occasional stress and anxiety while supporting a positive emotional outlook and sleep quality with continued use.[†]

1 capsule, 2 times daily between meals.

One (size 00) capsule contains:

KSM-66 Ashwagandha [®]	300 mg
(<i>Withania somnifera</i>) extract (root)	
GABA (gamma-aminobutyric acid)	100 mg
L-Theanine (Suntheanine [®])	100 mg
affron [®] saffron (<i>Crocus sativus</i>) extract (stigma)	15 mg
(standardized to contain 3.5% Lepticrosalides [®])

Daily Immune[‡]

VITAMIN, MINERAL AND HERBAL SUPPORT FOR IMMUNE HEALTH[‡]

Vitamin C and zinc form a foundation for overall health by supporting immune system function. Vitamin D receptors are found in a number of immune cells, including lymphocytes and macrophages, supporting healthy immune cell activation. Elderberry and lemon balm extracts offer immune-supportive anthocyanins, flavonoids and polyphenols. Polysaccharides from arabinogalactan, aloe and maitake provide complementary support for healthy immune activity. Quercetin plays an important role in mast cell function. Astragalus and eleuthero have been added for their adaptogenic potential.¹

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	200 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Zinc (as zinc citrate)	10 mg
Quercetin	200 mg
European elder (elderberry) (<i>Sambucus nigra</i>) extract (fruit)	150 mg
Lemon balm (<i>Melissa officinalis</i>) extract (leaf) (standardized to contain 5% rosmarinic acid)	200 mg
Arabinogalactan	200 mg
Aloe vera (<i>Aloe barbadensis</i>) extract (inner fillet) (standardized to contain 10% polysaccharides)	50 mg
Maitake mushroom (<i>Grifola frondosa</i>) extract (fruiting body)	150 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	75 mg
Eleutherococcus (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	75 mg
Other ingredients: vegetarian capsule (cellulose, water)	

Daily Immune [‡]	Quantity	Order Code

Daily Stress Formula[‡]

BROAD-SPECTRUM FORMULA DESIGNED TO PROMOTE MENTAL RELAXATION AND MODERATE THE EFFECTS OF OCCASIONAL STRESS[‡]

In addition to promoting memory and cognitive function, preclinical investigation shows *Bacopa monnieri* maintains healthy enzyme activity in the brain, supporting the ability to deal with stress. In several clinical studies, bacopa supported learning and memory. A double-blind crossover trial suggested that rhodiola may help to moderate mild fatigue under stressful conditions. In a separate, double-blind, placebo-controlled pilot study, rhodiola provided support for physical and mental stress in students. Similarly, the amino acid l-tyrosine has indicated the potential to promote cognitive function and memory under stressful conditions. *Eleutherococcus senticosus*, or eleuthero, is used as an adaptogen to help bolster adrenal function and stress resistance. Like ashwagandha, it is highly revered for

promoting energy, vitality and immune defense. Chamomile and lemon balm provide traditional support for calmness and relaxation. B vitamins and magnesium are included to help counter the effects of stress on healthy nutritional status. B-complex vitamins have also been associated with healthy neurotransmitter function and energy metabolism. Vitamin B₅ is especially important for boosting healthy adrenal gland function to strengthen the body's ability to withstand stress. Vitamin C provides important support for neutralizing free radicals generated by the stress response.¹

3 capsules daily, with or between meals.

Three (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	250 mg
Thiamin (as thiamin HCl) (B ₁)	20 mg
Riboflavin (as vitamin B ₂ and 44% riboflavin 5' phosphate (activated B ₂))	17.7 mg
Niacin (as niacinamide)	35 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	16.7 mg
Vitamin B ₁₂ (as methylcobalamin)	200 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	200 mg
Magnesium (as magnesium citrate)	50 mg
l-Tyrosine (free-form)	250 mg
Eleuthero (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	200 mg
Bacopa (<i>Bacopa monnieri</i>) extract (aerial parts) (standardized to contain 20% bacosides)	200 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	200 mg
Chamomile (<i>Matricaria recutita</i>) extract (flower)	100 mg
Lemon balm (<i>Melissa officinalis</i>) extract (leaf) (standardized to contain 5% rosmarinic acid)	100 mg

DAO Enzyme

PROMOTES BREAKDOWN OF DIETARY HISTAMINE[†]

Histamine is a substance found in many foods, such as meats, spinach, fermented foods, avocados, nuts, tomatoes and chocolate. An estimated 1-3% of the population cannot digest dietary histamine efficiently, often because of low intestinal diamine oxidase (DAO), an enzyme in the GI tract that normally breaks down histamine. These individuals often experience gastrointestinal discomfort, headache, skin sensitivity or flushing after consuming histamine-containing foods. Supplementation with DAO enhances DAO activity in the GI tract, promoting breakdown of dietary histamine and reducing gastrointestinal discomfort (occasional diarrhea, bloating and gas) associated with sensitivity to histamine-rich foods. DAO may also reduce skin symptoms associated with high intestinal histamine levels. In an open-label pilot study, individuals with low DAO levels (< 10 U/ml) who received DAO (10,000 HDU) up to 3 times per day reported significant improvements in gastrointestinal, respiratory and skin symptom scores after 4 weeks. Subjects reported significant improvement in gastrointestinal comfort, including occasional diarrhea, bloating and gas, headache, respiratory and skin discomfort. In a double-blind, placebo-controlled, crossover investigation of 22 patients, supplementation of 10,000 HDU DAO twice daily for 30 days improved dietary histamine-associated skin discomfort.¹

1 capsule, 2-3 times daily, with meal.

One (size 1) capsule contains:

Porcine kidney extract 4.2 mg
(providing 0.55 mU diamine oxidase (DAO) activity)

Other ingredients: hypoallergenic plant fiber (cellulose), acid-resistant vegetarian capsule (cellulose, pectin, glycerol, purified water)

DAO Enzyme is manufactured by DR HEALTHCARE, S.L.U.

0.55 mU is equivalent to 26,676 HDU.

Detox Pure Pack

Daily Packet

With Metafolin® L-5-MTHF

Indications:

- Support for healthy detoxification[†]

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- Promotes phase II detoxification in the liver with broccoli, curcumin, silymarin and amino acids[†]
- Maintains liver health with glutathione, NAC, alpha lipoic acid and other antioxidant nutrients[†]
- Enhances healthy hepatic fat metabolism and bile flow with artichoke and taurine[†]
- Supports G.I. cell health and detoxification with L-glutamine, omega-3 fatty acids and chlorella[†]
- Convenient, once-daily packet

Each Packet Contains:

UltraNutrient® 3 vegetarian capsules »See page 192

- Best-selling multivitamin/mineral complex with enhanced support for healthy detoxification and liver cell function[†]

EPA/DHA essentials 1 softgel capsule »See page 77

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

Liver-G.I. Detox[‡] 2 vegetarian capsules »See page 106

- Dual support for both liver and gastrointestinal detoxification[†]

NAC (N-Acetyl-L-Cysteine) 1 vegetarian capsule »See page 124

- Promotes glutathione synthesis to support detoxification and liver health[†]

Taurine 1 vegetarian capsule »See page 182

- Amino acid for cardiovascular and detoxification support[†]

1 packet daily (8 capsules), with a meal for gentle, daily detoxification support.[‡]

1 packet (8 capsules) contains

Calories	10
Total fat	1 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	3,750 mcg
Vitamin C (as ascorbyl palmitate)	30 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as d-alpha tocopherol succinate and natural tocopherols)	134 mg
Thiamin (as thiamin HCl) (B ₁)	50 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	34.7 mg
Niacin (as niacinamide and 42% inositol hexaniacinate (no-flush niacin))	86 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	20.9 mg

Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	200 mg
Calcium (as calcium citrate/malate)	150 mg
Magnesium (as magnesium aspartate)	100 mg
Zinc (as zinc picolinate)	12.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.5 mg
Chromium (as chromium polynicotinate)	250 mcg
Molybdenum (as molybdenum aspartate)	50 mcg
Potassium (as potassium aspartate)	50 mg
Boron (as boron glycinate)	1 mg
Vanadium (as vanadium aspartate)	100 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	722 mcg
Coenzyme Q ₁₀	25 mg
Hawthorn (<i>Crataegus</i> spp.) extract (flower and leaf) (standardized to contain 2% vitexins)	50 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	50 mg
Setria® glutathione (reduced form)	25 mg
Alpha lipoic acid (thioctic acid)	150 mg
N-Acetyl-L-cysteine (free-form)	700 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	175 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	200 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain a minimum of 400 mcg sulforaphane)	100 mg
Artichoke (<i>Cynara scolymus</i>) extract (leaf)	125 mg
Taurine (free-form)	1,225 mg
Glycine (free-form)	225 mg
L-Glutamine (free-form)	225 mg
L-Methionine (free-form)	100 mg
Chlorella (<i>Chlorella</i> spp.) powder (cracked cell wall)	200 mg
Fish oil concentrate (from anchovies, sardines, mackerel) Providing:	1,000 mg
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg

Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water)

DGL Plus®

NUTRITIONAL SUPPORT FOR A HEALTHY STOMACH LINING†

This combination of deglycyrrhizinated licorice (DGL) and herbal extracts provides nutritional support to the gastrointestinal tract. DGL Plus® supports the body's natural defense mechanisms by stimulating the mass, quality and production of mucous, a major component of the stomach's protective lining. DGL is free of side effects typically associated with licorice.†

1 capsule daily, before a meal.

Each (size 00) vegetarian capsule contains

Deglycyrrhizinated licorice (<i>Glycyrrhiza glabra</i>) extract (root)	300 mg
Aloe vera (<i>Aloe barbadensis</i>) extract (inner fillet) (standardized to contain 10% polysaccharides)	50 mg
Slippery elm (<i>Ulmus fulva</i>) powder (bark)	100 mg
Marshmallow (<i>Althaea officinalis</i>) extract (root)	200 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken by pregnant or lactating women.

DHA Ultimate

SUPERCritical CO₂ EXTRACTED DHA FISH OIL†

The omega-3 essential fatty acid DHA is well recognized for its ability to support neural and cognitive function. Research indicates that a high intake of DHA is associated with healthy cognitive function in adults as well as infants born to mothers with a diet high in DHA. DHA-rich diets have been shown to support neurons via healthy gene expression, cell cycle function and arachidonic acid metabolism. Fish oil containing DHA has also been associated with healthy lipid metabolism, platelet function, vascular health, joint function and skin health.†

2 softgel capsules daily, with a meal.

Two (size 11) softgel capsules contain:

Calories	10
Total fat	1 g
Fish oil concentrate (from anchovies, sardines, mackerel) Providing:	1,200 mg
DHA (docosahexaenoic acid)	790 mg
EPA (eicosapentaenoic acid)	188 mg

Other ingredients: fish (tilapia), gelatin capsule (gelatin, glycerin, water), natural tocopherols, rosemary leaf extract

Contains fish (anchovies, sardines, mackerel, tilapia)

DHEA 5 mg

MICRONIZED; SUPPORTS HEALTHY DHEA LEVELS[†]

DHEA, dehydroepiandrosterone, is the most abundant adrenal steroid hormone in the body. After it is made by the adrenal glands, it travels into cells throughout the body, where it is converted into androgens and estrogens. These hormones regulate fat and mineral metabolism, endocrine and reproductive function, and energy levels. The amount of each hormone to which DHEA converts depends on an individual's biochemistry, age and sex. DHEA levels peak around age 25 and then decline steadily. DHEA supplementation supports emotional well-being and immune function.¹

1 capsule, 1-2 times daily, with meals.

Each (size 1) vegetarian capsule contains:

DHEA (dehydroepiandrosterone, C₁₉H₂₈O₂) (micronized) 5 mg
Other ingredients: hypoallergenic plant fiber, vegetarian capsule (cellulose, water), rice hulls, ascorbyl palmitate

NOT FOR USE BY INDIVIDUALS UNDER THE AGE OF 18 YEARS. DO NOT USE IF PREGNANT OR NURSING. Consult a physician or licensed qualified healthcare professional before using this product if you have, or have a family history of, breast cancer, prostate cancer, prostate enlargement, heart disease, low "good" cholesterol (HDL), or if you are using any other dietary supplement, prescription drug, or over-the-counter drug. Do not exceed recommended serving. Exceeding recommended serving may cause serious adverse health effects. Possible side effects include acne, hair loss, hair growth on the face (in women), aggressiveness, irritability, and increased levels of estrogen. Discontinue use and call a physician or licensed qualified healthcare professional immediately if you experience rapid heartbeat, dizziness, blurred vision, or other similar symptoms. KEEP OUT OF REACH OF CHILDREN. To report any adverse event call 1-800-332-1088.

CAUTION ATHLETES: DHEA is classified as a prohibited substance by certain sports organizations, as well as the World Anti-Doping Association (WADA). Please consult the rules of your specific organization to determine if DHEA is prohibited.

Digestion GB

A UNIQUE MIX OF ENZYMES, BILE SALTS, TAURINE AND HERBALS TO PROMOTE HEALTHY GALLBLADDER FUNCTION AND LIPID UTILIZATION IN ADDITION TO GENERAL DIGESTIVE FUNCTION*

Digestion GB contains gallbladder digestive enzymes, bile salts, taurine and herbal extracts to promote healthy gall bladder function and fat utilization. The metabolism of fats involves emulsification and digestion in a complex process that requires healthy liver, gallbladder and pancreas function. Milk thistle, curcumin and taurine promote liver and gallbladder health and stimulate production and secretion of bile acids. Bile acids, also provided in the form of ox bile salts, support the emulsification of fats necessary for digestion. The digestive enzymes included in this formula are active in a broad pH range to support fat, carbohydrate and protein digestion to complement pancreatic enzyme activity. This formula has enhanced lipase for extra fat digestion support.¹

2 capsules, with each meal.

Two (size 0) vegetarian capsules contain:

Proprietary enzyme blend	160 mg
Providing:	
Protease	16,000 HUT
Lipase	6,000 FIP
Amylase	600 DU
Ox bile powder (bovine)	225 mg
Taurine (free-form)	250 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	150 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg

Digestive Enzyme chewables

CHEWABLE ENZYME BLEND TO SUPPORT PROTEIN, CARBOHYDRATE, FIBER AND DAIRY DIGESTION*

Digestive Enzymes chewable contains a blend of vegetarian digestive enzymes to promote digestion and GI comfort. Protease facilitates the normal breakdown of proteins and di- and tri-peptides. Lipase promotes lipid (fat) breakdown. Amylase stimulates polysaccharide breakdown of starch, while lactase supports the digestion of the dairy sugar lactose. Cellulase acts to break down cell wall components, promoting nutrient bioavailability of fiber-containing foods.¹

Adults and children ages 4 and up, chew 1 tablet with each meal, 1-3 times daily.

One chewable tablet contains:

DigeZyme® Multienzyme complex	50 mg
Providing:	
Protease	300 PC
Lipase	10 LU
Alpha-amylase	1,200 DU
Lactase	200 ALU
Cellulase	55 CU

Other ingredients: xylitol, mannitol, maltodextrin, cellulose, ascorbyl palmitate, organic natural mixed berry flavor

DigeZyme® is a registered trademark of Sabinsa Corporation.

Digestive Enzymes Ultra

COMPREHENSIVE BLEND OF VEGETARIAN DIGESTIVE ENZYMES; SUPPORT FOR PROTEIN, CARBOHYDRATE, FAT FIBER AND DAIRY DIGESTION[†]

Digestive Enzymes Ultra contains an extensive profile of vegetarian digestive enzymes. Proteases included in this formula provide optimal activity across a wide pH range. They facilitate the normal breakdown of proteins and di- and tri-peptides. Lipase promotes lipid breakdown, while amylase and glucoamylase are included to stimulate polysaccharide breakdown of starch and glycogen. Invertase and lactase support digestion of carbohydrate disaccharides, including the dairy sugar lactose. This formula also offers numerous enzymes to support fiber breakdown, including cellulase, hemicellulase, beta-glucanase and phytase. These enzymes act to break down cell wall components and phytic acid, promoting nutrient bioavailability of fiber-containing foods. Additionally, alpha-galactosidase promotes the breakdown of certain complex carbohydrates, such as raffinose and stachyose, found in some vegetables, grains and legumes—helping to relieve occasional bloating or gas.[†]

2 capsules with each meal.

Two (size 3) vegetarian capsules contain:

Proprietary enzyme blend	391 mg
Providing:	
Amylase	24,000 DU
Protease	60,000 HUT
Protease 6.0	20,000 HUT
Glucoamylase	30 AGU
Lactase	1,600 ALU
Lipase	3,000 FIP
Beta-glucanase	20 BGU
Invertase	900 SU
Cellulase	800 CU
Alpha-galactosidase	120 GalU
Protease 3.0	20 SAPU
Phytase	10 FTU
Hemicellulase	200 HCU

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate, hypoallergenic plant fiber (cellulose)

DIM Detox

SUPPORT FOR DETOXIFICATION, HORMONE METABOLISM AND CELLULAR HEALTH†

The glucosinolates in broccoli, including indole-3-carbinol and sulforaphane, help support healthy detoxification. BioResponse DIM® provides 25 mg per serving of a highly absorbable form of diindolylmethane, an important metabolite of indole-3-carbinol. These compounds promote healthy estrogen metabolism and cell cycle activity. Calcium-D-glucarate targets beta-glucuronidase enzyme activity, promoting healthy hormone detoxification through the glucuronidation pathway. Lignans, such as 7-hydroxymatairesinol (HMR), are converted in the body to enterolactone. Research indicates that dietary intake of lignans and healthy serum enterolactone levels provide support for cellular, heart, breast, bone and cognitive health. Silymarin, alpha lipoic acid and n-acetyl-l-cysteine act to support phase II detoxification enzyme activity in the liver and offer antioxidant support for cellular protection. Taurine, glycine and methionine promote phase II detoxification pathways and healthy cell metabolism.†

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

BioResponse DIM® diindolylmethane complex (complex of starch, diindolylmethane, vitamin E (tocophersolan), phosphatidylcholine and silica) (standardized to contain 25% diindolylmethane)	100 mg
Calcium-D-glucarate	100 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain a minimum of 400 mcg sulforaphane)	100 mg
HMRlignan™ (from Norway spruce knot wood) (containing 7-hydroxymatairesinol)	10 mg
Alpha lipoic acid (thioctic acid)	200 mg
N-Acetyl-l-cysteine (free-form)	200 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	150 mg
l-Methionine (free-form)	200 mg
Glycine (free-form)	100 mg
Taurine (free-form)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

HMRlignan™ is a trademark of Linnea Inc.

BioResponse DIM® and DIMPRO® are trademarks of BioResponse, L.L.C., Boulder, CO.

This product contains calcium D-glucarate, the use of which is licensed from Applied Food Sciences, Inc. and protected by U.S. Patent 7,662,863.

DIMPRO® 100

HIGHLY ABSORBABLE FORM OF DIINDOLYLMETHANE TO SUPPORT BREAST, CERVICAL AND PROSTATE HEALTH†

DIMPRO® 100 contains BioResponse DIM® (diindolylmethane complex). Diindolylmethane is a metabolite of indole-3-carbinol (I3C). Both are found naturally in cruciferous vegetables like broccoli, kale and Brussels sprouts. Upon contact with gastric acid in the stomach, I3C is converted to a number of active compounds, predominantly diindolylmethane. Research indicates that diindolylmethane supports healthy cell cycle function and signal transduction to maintain breast, cervical and prostate cell health. In a double-blind, randomized clinical trial, BioResponse DIM® revealed potential support for maintaining the function of healthy breast cells. Another randomized placebo-controlled crossover trial found that it promoted statistically significant breast comfort. Furthermore, an additional double-blind randomized clinical trial with 52 women found that BioResponse DIM® supported cervical cell health. Diindolylmethane in its pure form is highly insoluble. Patented, microencapsulated BioResponse DIM® has been specially developed for enhanced absorption. This form may be more supportive than I3C in cases of low gastric acidity.†

1 capsule, 1-3 times daily, with or between meals.

Each (size 0) vegetarian capsule contains:

Diindolylmethane complex (complex of starch, diindolylmethane, vitamin E (tocophersolan), phosphatidylcholine and silica) (standardized to contain 25% diindolylmethane)	100 mg
	25 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Disc-Flex

SUPPORTS SPINAL DISC INTEGRITY†

This formula addresses the unique nutritional needs of intervertebral cartilage (IVC). IVC is avascular, wears differently, and is affected by different nutritional factors compared to articular cartilage. The basics of healthy disc composition involve glucosamine, chondroitin and collagen. Studies indicate that glucosamine supports spinal disc integrity and has the potential to support the strength of the disc under compressive loads. In postmenopausal women, the healthy composition of the lumbar spine is directly related to collagen content. The advanced nature of this product involves its potential ability to support healthy advanced glycation end product activity, healthy immune mediator activity and healthy calcium metabolism. Advanced glycation end products may reduce the ability of the intervertebral disc to produce proteoglycans, that comprise a healthy disc matrix. The age-related increase in advanced glycation end products may also contribute to a stiffening of the spine. L-Carnosine, alpha lipoic acid and grape seed extract help to maintain healthy advanced glycation end product metabolism and provide antioxidant protection. Cartilage end plate calcification also affects disc function and longevity. Vitamin K₂ as menaquinone-7, maintains a healthy balance of calcium uptake into extra-skeletal tissues. Vitamin D is a synergist with vitamin K₂, to help maintain healthy cartilage end plate calcium metabolism. Devil's claw supports day to day spinal comfort†

2 capsules daily, with meals. Individual results may vary.

Two (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin K ₂ (menaquinone-7)	10 mcg
BioCell Collagen® hydrolyzed collagen complex (chicken sternal cartilage)	500 mg
Providing (typical):	
Hydrolyzed collagen 60%	300 mg
Chondroitin sulfate 20%	100 mg
Hyaluronic acid 10%	50 mg
Glucosamine HCl (from crab and shrimp)	500 mg
L-Carnosine (beta-alanyl-L-histidine)	75 mg
Alpha lipoic acid (thioctic acid)	50 mg
Devil's claw (<i>Harpagophytum procumbens</i> and <i>Harpagophytum zeyheri</i>) extract (root) (standardized to contain 5% harpagosides)	150 mg
Indian frankincense (<i>Boswellia serrata</i>) extract (gum resin) (standardized to contain 70% boswellic acids)	100 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

BioCell Collagen® is a registered trademark of BioCell Technology LLC, Irvine, California USA (Protected by Patents).

Contains shellfish (crab, shrimp)

Not to be taken by pregnant or lactating women. Vitamin K may be contraindicated with Coumadin (Warfarin). If you are taking blood-thinning medication, consult your health professional before use.

DL-Phenylalanine

SUPPORTS EMOTIONAL WELL-BEING AND MUSCULOSKELETAL RELAXATION†

DL-Phenylalanine is a combination of the well-tolerated essential amino acids, d-phenylalanine and l-phenylalanine. Together, these compounds help promote mental functioning and support positive outlook. l-Phenylalanine is a precursor to l-tyrosine, which converts to the neurotransmitters norepinephrine, epinephrine, dopamine and tyramine. l-Tyrosine and its metabolites may support emotional well-being, memory and learning. d-Phenylalanine may promote the levels of certain endorphins, thereby calming stressed muscles and joints.†

2 capsules, 2-3 times daily, between meals.

Two (size 00) vegetarian capsules contain:

DL-Phenylalanine (free-form)	1,000 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

DopaPlus

Formulated with James Greenblatt, M.D.[†]

SUPPORTS DOPAMINE PRODUCTION AND MAINTAINS HEALTHY REUPTAKE FOR DAILY MENTAL FUNCTION AND SHARPNESS[†]

- Promotes the production of dopamine to support daily cognitive function and mental tasks[†]
- Provides the dopamine precursors L-tyrosine and L-DOPA from *Mucuna pruriens*
- In a randomized, controlled, double-blind, crossover trial, *Mucuna pruriens* supplementation promoted L-DOPA plasma concentrations[†]
- Includes the cofactors vitamin B₆, Metafolin® L-5-MTHF and zinc to support dopamine production[†]
- Promotes the stability of dopamine and maintains healthy dopamine reuptake with rhodiola and green tea polyphenols[†]
- Supports cognitive function and mental sharpness with grape seed proanthocyanidins[†]
- Protects neuronal health and function with green tea and grape seed polyphenols[†]
- Supports optimal serum levels of zinc and folate to promote positive mood[†]

3 capsules, 1-2 times daily, with low protein foods.

Three (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	6.7 mg
Folate (as Metafolin®, L-5-MTHF)	833 mcg DFE (500 mcg L-5-MTHF)
Zinc (as zinc picolinate)	10 mg
L-Tyrosine (free-form)	1,000 mg
Velvet bean (<i>Mucuna pruriens</i>) extract (seed) (standardized to contain 15% L-DOPA)	200 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	100 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	100 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (standardized to contain 90% total tea catechins and 70% EGCG)	100 mg
Other ingredients: vegetarian capsule (cellulose, water)	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

E.P.O. (evening primrose oil)

COLD-PRESSED EVENING PRIMROSE SEED FOR SKIN HEALTH AND MUSCULOSKELETAL COMFORT; CONTAINS 9% GLA[†]

Evening primrose oil (E.P.O.) is cold-pressed and produced without the use of any solvents. Used for centuries as nutritional support for a wide range of physiological functions, several studies have indicated that E.P.O. may help support the look and feel of healthy skin. A clinical trial reported that E.P.O. supported healthy skin through a modulation of IFN-gamma. Another study revealed that E.P.O. promoted skin health and led to a more favorable shift in eicosanoid metabolism. Other studies suggest that E.P.O. may support healthy lipid metabolism and may provide oxidative protection by promoting glutathione reductase and transferase activities. A clinical trial reported that GLA in combination with EPA/DHA significantly promoted healthy cardiovascular function in women. Additionally, E.P.O. may potentially be supportive of premenstrual comfort.[†]

1 softgel capsule, 1-4 times daily, with or between meals.

Each (size 10) softgel capsule contains:

Calories	5
Total fat	0.5 g
Evening primrose (<i>Oenothera biennis</i>) oil (seed) (cold-pressed) (standardized to contain 9% gamma-linolenic acid (GLA))	500 mg
Other ingredients: gelatin capsule (gelatin, glycerin, water)

EFA Essentials

TRIGLYCERIDE-FORM FISH OIL AND BORAGE OIL BLEND TO SUPPORT JOINT, SKIN AND EYE HEALTH[†]

Extensive clinical research has indicated that essential fatty acids support the health of joints, skin and eyes. EPA, DHA and GLA support joint, skin and eye health through a broad range of mechanisms involving cytokine balance, protease activity, immune mediator activity and blood flow. The importance of GLA has been underscored by clinical studies with favorable musculoskeletal and dermatologic outcomes. While omega-3 fatty acids are utilized for the biosynthesis of prostaglandin E3, the omega-6 fatty acid, GLA, is an important precursor of prostaglandin E1. Together, EPA, DHA and GLA help to balance eicosanoid production in diverse cell types, including chondrocytes in joints, keratinocytes of the skin, and epithelial cells of the eye. EPA, DHA and GLA support joint health by maintaining healthy cytokine activity and matrix protease expression. GLA also supports skin elasticity and hydration through promoting peripheral blood flow and nutrient delivery. Clinical research has indicated important roles of fish oil and GLA-rich oils in maintaining moisture retention in the epithelia of the eyes. Large studies have indicated that EPA and DHA support ocular hydration through promoting healthy tear production and tear film osmolarity in normally functioning eyes. GLA provides additional support for ocular health by maintaining mucin production and healthy tear film characteristics.[†]

2 softgel capsules, 1-2 times daily, with meals.

Two (size 20) softgel capsules contain:

Calories	20
Total fat	2 g
Fish oil concentrate (from anchovies, sardines)	1,914 mg
Providing:	
EPA (eicosapentaenoic acid)	570 mg
DHA (docosahexaenoic acid)	430 mg
Other omega-3 fatty acids	130 mg
Borage (<i>Borago officinalis</i>) oil (seed)	300 mg
Providing:	
GLA (gamma-linolenic acid)	50 mg

Other ingredients: gelatin capsule (gelatin, glycerin, water), natural lemon flavor, proprietary natural antioxidant blend (rosemary leaf extract, natural tocopherols, ascorbyl palmitate)

Contains fish (anchovies, sardines)

Electrolyte/Energy formula

SUPPORTS HYDRATION, STAMINA AND ELECTROLYTE REPLETION[†]

- Combines sodium, chloride, potassium, calcium and magnesium to replenish electrolytes lost during exercise; supports muscle function, retains hydration, may lessen the perception of exertion[†]
- Provides glucose and maltodextrin, important pre-exercise sources of rapidly available energy; spares glycogen stores and delays fatigue[†]
- Contains the energizing cofactors malic acid and alpha ketoglutarate, both Krebs cycle intermediates[†]
- Includes vitamin C to protect muscles from free radicals generated during exercise and enhance tissue recovery[†]
- Supports mental focus under stressful conditions and may also help promote physical endurance with the amino acid L-tyrosine, a neurotransmitter precursor[†]
- Especially for strenuous or prolonged exercise at least 1-2 hours in length

1 scoop mixed in 8-10 oz water, 20 minutes before intense exercise.

Serving size: 1 scoop (approximately 8.5 g)

Servings per container: 40

Each scoop (approximately 8.5 g) contains:

Calories	30
Total carbohydrate	7 g
Total sugars	3.5 g
Includes 3.5 g of added sugars	
Vitamin C (as ascorbic acid)	100 mg
Calcium (as calcium citrate)	50 mg
Magnesium (as magnesium citrate)	50 mg
Chloride (as sodium chloride)	75 mg
Sodium (as sodium chloride)	60 mg
Potassium (as potassium phosphate)	50 mg
Alpha ketoglutarate	100 mg
Malic acid	100 mg
L-Tyrosine (free-form)	250 mg
Other ingredients: maltodextrin, glucose, natural lemon-lime flavor	

Energy & Fatigue

Electrolyte/Energy formula	Quantity	Order Code
	12 oz (340 g)	EEF3

Emotional Wellness

SUPPORTS EMOTIONAL AND MENTAL WELL-BEING AND MODERATES OCCASIONAL STRESS[†]

5-hydroxytryptophan and L-tyrosine are key precursors for the synthesis of several neurotransmitters responsible for a healthy emotional outlook, including serotonin, dopamine, epinephrine and norepinephrine. These neurotransmitters are involved in the regulation of endocrine and brain activity in addition to sleep/wake cycles. Research suggests that L-tyrosine may also support cognitive function and memory under stressful conditions. A healthy level of the inhibitory neurotransmitter GABA is also associated with positive mood. Research suggests that both GABA and L-theanine enhance alpha wave production in the brain, promoting relaxation. Complementary support for relaxation is provided by passionflower, while *Rhodiola rosea* supports cognitive and mental function under stressful conditions. Vitamin B₆ is a cofactor that plays an important role in supporting positive emotional health.[†]

1 capsule, 1-3 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	6.7 mg
5-Hydroxytryptophan	100 mg
L-Tyrosine (free-form)	100 mg
GABA (gamma-aminobutyric acid)	200 mg
L-Theanine	100 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	100 mg
Passionflower (<i>Passiflora incarnata</i>) extract (aerial parts) (standardized to contain 3.5% vitexins)	85 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Suntheanine® is a registered trademark of Taiyo International, Inc.

Not to be taken by pregnant or lactating women. Do not use concurrently with antidepressants.

EmulsiSorb K₂/D₃ liquid

ENHANCED ABSORPTION EMULSIFIED VITAMIN K₂ AND VITAMIN D₃ TO SUPPORT VASCULAR HEALTH[†]

EmulsiSorb K₂/D₃ liquid offers a combination of micellized vitamin K₂ and Vitamin D₃ produced in a unique emulsification process, minimizing bile dependency and enhancing bioavailability for optimal absorption. Vitamin K₂, menaquinone-7, promotes healthy vascular calcium balance and cardiovascular function. In a systematic review involving five studies, higher intakes of vitamin K₂ were associated with cardiovascular health. Research indicates that it supports the carboxylation of matrix Gla-protein (MGP), a key protein involved in calcium balance. Unlike vitamin K₁, which promotes bone health, menaquinone-7 targets vascular tissue to support healthy arterial blood flow and vascular elasticity. In an observational study involving 564 postmenopausal women, higher intake of vitamin K₂ was associated with calcium balance in the vascular tissue. Research indicates that vitamin D potentiates the activity of MGP and that the combination of vitamins K and D provides synergistic support for blood vessel function. Vitamin D enhances immune cell activation and optimal serum levels have been positively associated with immune function. A meta-analysis of 25 trials indicates vitamin D supplementation supports respiratory health. Preliminary evidence suggests that optimal vitamin K₂ status may work synergistically to promote respiratory tissue health through MGP activation effects on elasticity and healthy blood flow.[†]

5 drops (0.16 ml) daily, with a meal.

Serving size: 5 drops (0.16 ml)

Servings per container: approximately 122

Five drops (0.16 ml) contain:

Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin K ₂ (as menaquinone-7)	90 mcg
Other ingredients: purified water, glycerin, cellulose, lemon oil, xanthan gum, extra virgin olive oil, citric acid, potassium sorbate, organic stevia leaf extract, rosemary leaf extract, natural mixed tocopherols	

Warning: Vitamin K may be contraindicated with Coumadin (Warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood-thinning medication, consult your health professional before use.

CAUTION: Accidental overdose of liquid vitamin D products can lead to serious adverse side effects in infants. THIS PRODUCT IS NOT INTENDED FOR INFANTS. The recommended daily dose of vitamin D for infants is 10 mcg (400 IU). This product delivers 25 mcg (1,000 IU) of vitamin D per serving.

Vitamins & Minerals

Energize Plus Pure Pack

Daily Packet

With Metafolin® L-5-MTHF

Indications:

- Support for mitochondrial energy production and nutrient metabolism[†]

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- 37.5 mcg (1,500 IU) vitamin D₃
- Easily tolerated magnesium glycinate for sensitive individuals

Special Features:

- Enhances energy production in the mitochondria[†]
- B vitamins, CoQ₁₀ and magnesium act as cofactors in the energy production pathway[†]
- Carnitine shuttles fatty acids into the mitochondria for oxidation and conversion into energy[†]
- Promotes nutrient metabolism[†]
- Omega-3-fatty acids support healthy gene expression to enhance glucose and lipid homeostasis[†]
- Vitamin D promotes healthy nutrient metabolism[†]
- Magnesium and B vitamins help counter the effects of stress on healthy nutritional status[†]
- Convenient, once-daily packet

Each Packet Contains:

Multi t/d 1 vegetarian capsule »See page 123

- Multivitamin/mineral complex with activated B vitamins, antioxidants and trace minerals

EPA/DHA essentials 2 softgel capsules »See page 77

Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

Vitamin D₃ 1 vegetarian capsule »See page 196

- Cholecalciferol (vitamin D₃) to support healthy nutrient metabolism[†]

L-Carnitine 1 vegetarian capsule »See page 51

- Free-form amino acid to support fatty acid oxidation and promote energy production[†]

Magnesium (glycinate) 1 vegetarian capsule »See page 112

- Highly bioavailable form of magnesium to support energy production and emotional well-being[†]

CoQ₁₀ 1 vegetarian capsule »See page 58

- Natural, fermented, trans-isomer CoQ₁₀

1 packet daily (7 capsules), with a meal.

Seven capsules contain:

Calories	20
Total fat	2 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	675 mcg
Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	37.5 mcg (1,500 IU)
Vitamin E (as d-alpha tocopherol succinate and mixed tocopherols)	34 mg
Thiamin (as thiamin HCl) (B ₁)	25 mg
Riboflavin (as vitamin B ₂ and 28% as riboflavin 5' phosphate (activated B ₂))	17.35 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% as pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium glycinate)	120 mg
Zinc (as zinc picolinate)	7.5 mg
Selenium (as selenomethionine)	50 mcg
Chromium (as chromium polynicotinate)	100 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene and zeaxanthin)	212 mcg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Coenzyme Q ₁₀	30 mg
L-Carnitine (free-form) (from L-carnitine-L-tartrate)	340 mg
Fish oil concentrate (anchovies, sardines, mackerel)	2,000 mg
Providing:	
EPA (eicosapentaenoic acid)	600 mg
DHA (docosahexaenoic acid)	400 mg

Other ingredients: gelatin capsule (gelatin, glycerin, water), vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Energy Xtra

ADAPTOGEN FORMULA FOR PHYSICAL AND MENTAL STAMINA†

Adaptogens have long been associated with promoting energy, enhancing stamina and reducing mild fatigue. They encourage physical work capacity and mental performance. Often referred to as tonics, they have far-reaching effects on overall physiological health, supporting immune, cardiovascular and endocrine functions. At the same time, they help the body to adapt to and cope with occasional stress, primarily by supporting the hypothalamic-pituitary-adrenal (HPA) axis. Panax ginseng promotes endurance and stamina, while also promoting cognitive, cardiovascular and immune function. Ashwagandha is recognized for supporting immune function and cognitive function. Rhodiola and eleuthero are traditionally associated with rejuvenating effects and the ability to promote endurance.†

1 capsule daily, with or between meals.

Each (size 00) vegetarian capsule contains:

KSM-66 Ashwagandha® (<i>Withania somnifera</i>) extract (root)	200 mg
Asian ginseng (<i>Panax ginseng</i>) extract (root) (standardized to contain 5% ginsenosides)	200 mg
Eleuthero (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	125 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

KSM-66 Ashwagandha® is a registered trademark of Ixoreal Biomed Inc.

Not to be taken by pregnant or lactating women.

EPA/DHA liquid (lemon flavor)

Suitable for Children

ULTRA-PURE, MICROFILTERED FISH OIL; SUPPORTS CARDIOVASCULAR HEALTH AND DAILY WELLNESS*

Children ages 3-8, take 1/2 teaspoon daily, with a meal.
Adults and children ages 9 and up, take 1 teaspoon daily, with a meal.

Serving size: 1 teaspoon (5 ml/0.17 fl oz)

Servings per container: 40

Each teaspoon (5 ml/0.17 fl oz) provides:

Calories	40
Total fat	4.5 g
Saturated fat	1 g
Polyunsaturated fat	2 g
Monounsaturated fat	1 g
Cholesterol	15 mg
Fish oil concentrate (from anchovies, sardines)	4,600 mg
Providing (typical):	
EPA (eicosapentaenoic acid)	740–825 mg
DHA (docosahexaenoic acid)	460–550 mg

Other ingredients: natural lemon flavor, proprietary antioxidant blend (rosemary leaf extract, ascorbyl palmitate, natural tocopherols)

Contains fish (anchovies, sardines)

This formula requires refrigeration after opening. Best when consumed within 90 days after opening. Contents may appear cloudy when refrigerated.

EPA Ultimate

SUPERCritical CO₂ EXTRACTED EPA FISH OIL CONCENTRATE FOR CARDIOVASCULAR HEALTH AND EMOTIONAL WELLNESS[†]

The omega-3 essential fatty acid EPA is primarily associated with healthy arachidonic acid metabolism. In an 8-week, double-blind study using high EPA, supercritical extracted fish oil, subjects reported support for healthy emotional well-being. In observational and epidemiological studies, higher plasma levels of EPA have been associated with healthy mood. Fish oil containing EPA has also been associated with healthy lipid metabolism, platelet function, vascular health, joint function, memory and skin health.[†]

2 softgel capsules daily, with a meal.

Two (size 11) softgel capsules contain:

Calories	10
Total fat	1 g
Vitamin E (as mixed tocopherols)	1 mg
Fish oil concentrate (from anchovies and sardines)	1,350 mg
Providing:	
EPA (eicosapentaenoic acid)	798 mg
DHA (docosahexaenoic acid)	266 mg
Other ingredients: gelatin capsule (gelatin, glycerin, water)	

Contains fish (anchovies, sardines)

Fish Oils & Omegas

EPA Ultimate	Quantity	Order Code
	120	EPU1

Epi-Integrity powder

Formulated with Samuel F. Yanuck, D.C.[†]

PROMOTES HEALTHY MODULATION OF MUCOSAL IMMUNE RESPONSES TO SUPPORT GI INTEGRITY IN A GREAT-TASTING POWDER[†]

Epi-Integrity powder combines glutamine, prebiotic fiber and herbal extracts to promote healthy modulation of mucosal immune response to support gastrointestinal (G.I.) integrity and function. Th2 modulation may be indicated when addressing immune balance in the G.I. tract. L-glutamine is an essential fuel for enterocytes (the cells that line the small intestine and colon), supporting cellular renewal, glutathione production and healthy, everyday tissue repair, while promoting healthy villous function. Arabinogalactan is a prebiotic fiber found in high concentrations in North American larch trees. It has been shown to increase the concentration of beneficial bacteria, such as Bacteroidetes and *Faecalibacterium prausnitzii*. Beneficial microflora are crucial for proper gut-associated lymphoid tissue

(GALT) function and development. Research suggests higher levels of *F. prausnitzii* are associated with healthy cytokine balance and G.I. function. In clinical trials, arabinogalactan has been shown to promote immune cell function. In a randomized three-week trial involving healthy adults, arabinogalactan potentiated the innate immune system, supporting key first-line defenses. Perilla supports cytokine homeostasis of the G.I. mucosal tissue. In a randomized, controlled trial involving 50 individuals, 150 mg of Benegut® *Perilla frutescens* extract twice daily offered statistically significant support for G.I. comfort. Research suggests that perilla also helps maintain cytokine balance and stabilize mast cells. Astragalus promotes cytokine balance and supports macrophage, natural killer (NK) cell and T-cell activity. Adaptogens like astragalus support physiological and cellular homeostasis and have positive effects on immune function and antioxidant defenses. Deglycyrrhizinated licorice (DGL) maintains intestinal comfort by supporting the protective mucosal lining.[†]

1 scoop, 1-2 times daily. Add 1 serving to 8 oz of water or juice. Shake or stir until dissolved.

**Serving size: 1 scoop (approximately 5.7 g)
Servings per container: approximately 30**

One scoop (approximately 5.7 g) contains:

Calories	15
Total Carbohydrate	2.5 g
Sodium (naturally occurring)	25 mg
Arabinogalactan	2.4 g
L-Glutamine (free form)	2.4 g
Benegut® Perilla (<i>Perilla frutescens</i>) extract (leaf)	150 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	200 mg
Deglycyrrhizinated licorice (<i>Glycyrrhiza glabra</i>) extract (root)	50 mg
Other ingredients: citric acid, natural strawberry and lemonade flavors, malic acid, purified stevia leaf extract	

Benegut® is a trademark of Vital Solutions GmbH, Germany.

Essential Aminos

A BALANCED RATIO OF ESSENTIAL AMINO ACIDS FOR MUSCLE, BRAIN AND TISSUE HEALTH†

Amino acids are the building blocks for all proteins, making them essential for a number of body functions, including fluid balance, enzyme production, cellular repair and energy metabolism. Amino acids also provide a readily available form of nitrogen, a critical element that forms various compounds such as neurotransmitters and creatine. In humans, protein is composed of 20 amino acids, only some of which the body is able to produce. Those that need to be obtained from exogenous sources are referred to as the essential amino acids. Pure Encapsulations' Essential Aminos formula is based on the ratios of essential amino acids from high biological value (BV) protein sources. Proper intake of these amino acids is important for the synthesis, repair and metabolism of muscle, cells and tissues.†

1 capsule, 1-3 times daily, between meals.

Each (size 00) vegetarian capsule contains:

I-Histidine (free-form)	50 mg
I-Isoleucine (free-form)	79 mg
I-Leucine (free-form)	138 mg
I-Lysine HCl (free-form)	110 mg
I-Methionine (free-form)	70 mg

Ester-C® & flavonoids

VITAMIN C ENHANCED WITH FLAVONOIDS FOR ANTIOXIDANT, IMMUNE AND VASCULAR SUPPORT†

Ester-C® & flavonoids offers a blend of Ester-C® and flavonoid compounds to provide vitamin C support for healthy immune and cellular function as well as blood vessel integrity. Ester-C®, consisting primarily of calcium ascorbate, is a natural, non-acidic water-soluble form of vitamin C that is distinguished by its unique biological activity. In a double-blind, placebo-controlled, crossover trial, Ester-C® supplementation resulted in significantly higher white blood cell vitamin C concentrations compared to standard ascorbic acid at 8 hours and remained elevated at 24 hours. The bioflavonoids quercetin and rutin are free radical scavengers that complement the roles of vitamin C. Quercetin helps maintain healthy mast cell function and moderate healthy leukotriene and prostaglandin metabolism. Preclinical data shows that rutin supports blood vessel integrity and healthy cell function.†

1 capsule, 1-2 times daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Vitamin C (from Ester-C® calcium ascorbate blend)	619 mg
Calcium (from Ester-C® calcium ascorbate blend)	68 mg
Threonic acid (from Ester-C® calcium ascorbate blend)	7 mg
Quercetin	50 mg
Rutin	100 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Ester-C® is a registered trademark.

EyeProtect Basics[‡]

CLINICALLY RESEARCHED LEVELS OF KEY ANTIOXIDANTS TO SUPPORT EYE HEALTH[‡]

EyeProtect Basics[‡] contains the key antioxidants vitamin C, vitamin E, zinc, copper, lutein and zeaxanthin to support healthy vision and the integrity of the eye. A large randomized, double-blind, placebo-controlled clinical trial involving 3,600 individuals indicates that these nutrients are critical to maintain the health of the retina and macula. EyeProtect Basics[‡] contains clinically researched levels of these nutrients in optimally bioavailable forms.[‡]

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	500 mg
Vitamin E (as d-alpha tocopherol succinate)	268 mg
Zinc (as zinc citrate)	25 mg
Copper (as copper glycinate)	2 mg
FloraGLO [®] lutein	10 mg
Zeaxanthin	2 mg

FemiVive

ENHANCES DESIRE, SENSATION, AND HARMONIOUS INTERACTION WITH A PARTNER[‡]

FemiVive provides KSM-66 ashwagandha[®], an Ayurvedic botanical clinically shown to enhance sexual arousal, lubrication, pleasure, orgasm, and satisfaction in women. In a randomized, placebo-controlled study involving 80 women between 18 and 50 years of age, KSM-66 Ashwagandha[®] (300mg twice daily) for 8 weeks resulted in significant improvement in Female Sexual Function Index (FSFI) mean total scores and sub-scales of desire, arousal, lubrication, orgasm, and sexual satisfaction compared to placebo. In another randomized, placebo-controlled study involving 50 women between 21 and 50 years of age, KSM-66 Ashwagandha[®] (300mg twice daily) for 8 weeks also improved scores in the Female Sexual Function Index (FSFI) total and sub-domain scores for arousal, lubrication, orgasm and satisfaction.² The group receiving KSM-66 also exhibited a greater number of successful sexual encounters compared to the placebo group. This formula also provides maca (*Lepidium meyenii*) root, also known as Peruvian ginseng, which is known for its adaptogenic properties.[‡]

2 capsules, 1-2 times daily, between meals.

Two (size 00) capsules contains:

Maca (<i>Lepidium meyenii</i>) extract (tuber) (standardized to contain a minimum of 0.1% glucosinolates)	400 mg
Tribulus (<i>Tribulus terrestris</i>) extract (fruit) (standardized to contain 20% protodioscin)	260 mg
KSM-66 Ashwagandha [®] (<i>Withania somnifera</i>) extract (root)	300 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), organic rice hulls, ascorbyl palmitate

KSM-66 Ashwagandha[®] is a registered trademark of Ixoreal Biomed Inc.

Folate 400

With Metafolin® L-5-MTHF

UNIVERSALLY METABOLIZED FORM OF FOLATE

Folate 400 provides 400 mcg per capsule of Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate.

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Folate (as Metafolin®, L-5-MTHF) 667 mcg DFE (400 mcg L-5-MTHF)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

Folate 5,000 Plus

ACTIVATED FOLATE, VITAMIN B₁₂ AND B₆ COMBINATION

Folate 5,000 Plus provides 5,000 mcg of folate as methyltetrahydrofolate (5-MTHF), the universally metabolized and biologically active form of folate, combined with activated vitamin B₁₂ and B₆. Genetic variations affecting activation and metabolism of supplemental folic acid are common. Through bypassing several enzymatic activation steps catalyzed by DHFR (dihydrofolate reductase) and MTHFR (methylene tetrahydrofolate reductase), 5-MTHF is directly usable by the body and provides all of the benefits of folic acid regardless of functional or genetic variations in these enzymes. Activated B vitamins provide methyl groups to support healthy methylation, a key regulator of genetic expression and cellular function. Healthy methylation is vital for cellular health, hormone and neurotransmitter production and energy metabolism. At the molecular level, the main function of folate is to donate methyl groups in key biochemical reactions occurring in blood cells, neurons, the vasculature and many other tissues. In addition, folate promotes the production of healthy DNA. Research suggests that B vitamins help maintain healthy nervous system function. In a randomized controlled study, a combination of methylfolate, methylcobalamin and pyridoxal-5-phosphate promoted healthy epidermal nerve fiber density and nerve comfort. Methyltetrahydrofolate and methylcobalamin may also support psychological health, including positive mood.¹

1 capsule daily, with a meal.

Each (size 1) vegetarian capsule contains:

Vitamin B ₆ (as pyridoxal 5' phosphate (activated B ₆))	25 mg
Folate (as Metafolin®, L-5-MTHF)	8,333 mcg DFE (5,000 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	1,000 mcg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

Folate 5,000 Plus	Quantity	Order Code
	60	FLP56

Folic Acid

SUPPORT FOR HEALTHY FETAL NEURAL DEVELOPMENT[†]

Folic Acid is essential for healthy fetal neural development. It is necessary for the growth and reproduction of red and white blood cells, the formation of nucleic acids, the conversion of homocysteine to methionine and the production of gastric HCl.[†]

Healthful diets with adequate folate may reduce a woman's risk of having a child with a brain or spinal cord birth defect. Folate intake should not exceed 250% of the DV (1,000 mcg).[†]

1,333 mcg DFE (800 mcg) folic acid in a dietary supplement is more effective in reducing the risk of neural tube defects than a lower amount in foods in common form. FDA does not endorse this claim. Public health authorities recommend that women consume 600 mcg DFE (360 mcg) folic acid daily from fortified foods or dietary supplements or both to reduce the risk of neural tube defects.[†]

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Folate (as folic acid)	1,333 mcg DFE (800 mcg folic acid)
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Folic Acid	Quantity	Order Code

G.I. Fortify[†] (capsules)

DESIGNED TO SUPPORT A HEALTHY G.I. ENVIRONMENT, BOWEL REGULARITY, COLON CELL FUNCTION AND DETOXIFICATION[†]

- Maintains bowel regularity and supports healthy bowel movement frequency with psyllium and flax[†]
- Supports short chain fatty acid (SCFA) production to promote a healthy G.I. environment, microflora balance and colon cell health[†]
- Promotes healthy intestinal cellular integrity and enhances the protective mucosal lining with L-glutamine, an important energy source for the G.I. tract in times of stress or increased metabolic demand[†]
- Enhances healthy G.I. detoxification with fiber and chlorella[†]

3 capsules daily, between meals with 8-12 oz water. Daily water intake should be increased when consuming this product.

Three (size 00) vegetarian capsules contain:

Calories	5
Total carbohydrate	1 g
Dietary fiber	1 g
Psyllium powder (husk)	1,100 mg
Flax (<i>Linum usitatissimum</i>) powder (seed)	400 mg
L-Glutamine (free-form)	500 mg
Aloe vera (<i>Aloe barbadensis</i>) extract (inner fillet) (standardized to contain 10% polysaccharides)	100 mg
Chlorella (<i>Chlorella</i> spp.) powder (cracked cell wall)	100 mg
Other ingredients: vegetarian capsule (cellulose, water)	

G.I. Fortify [†] (capsules)	Quantity	Order Code
	120	GIFC1

G.I. Fortify[†]

SUPPORTS INTESTINAL BARRIER FUNCTION AND DIGESTIVE HEALTH[†]

This product is a blend of high-impact fiber, herbs and nutrients, supporting overall gastrointestinal function and occasional constipation. Psyllium is a valued source of soluble fiber, helping to promote larger and softer stools for healthy bowel movement frequency. It is fermented in the intestines, producing short chain fatty acids (SCFAs) that provide an energy source for the colon to maintain healthy colon cell function and promote beneficial microflora. Flaxseed provides a source of lignans, fatty acids, and both soluble and insoluble fibers, enhancing the gut health potential of this complex. In times of stress or increased metabolic demand, glutamine is an especially important source of energy for the G.I. tract. It also maintains the integrity of the intestinal barrier. G.I. Fortify[†] provides a combination of deglycyrrhizinated licorice (DGL), aloe, slippery elm and marshmallow root to support gut integrity and provide a soothing effect. Triphala is a standardized blend of three fruit extracts, *Terminalia chebula*, *Terminalia bellerica* and *Emblca officinalis*. It is an Ayurvedic blend prized for supporting intestinal detoxification, occasional constipation, and overall colon health.[†]

Add 1 serving to 8-12 oz water. Shake, stir or blend briskly and drink immediately. Drink an additional 8-12 oz serving of water following. Daily water intake should be increased when consuming this product.

**Serving size: 1 heaping scoop (approximately 8.9 grams)
Servings per container: approximately 45**

Each heaping scoop (approximately 8.9 g) contains:

Calories	25
Total carbohydrate	5 g
Dietary fiber	4 g
Total sugars	<1 g
Protein	1 g
Psyllium powder (husk)	4 g
Flax (<i>Linum usitatissimum</i>) powder (seed)	2.25 g
L-Glutamine (free-form)	1 g
Deglycyrrhizinated licorice (<i>Glycyrrhiza glabra</i>) extract (root)	600 mg
Marshmallow (<i>Althaea officinalis</i>) extract (root)	400 mg
Aloe vera (<i>Aloe barbadensis</i>) extract (inner fillet) (standardized to contain 10% polysaccharides)	100 mg
Slippery elm (<i>Ulmus fulva</i>) extract (bark)	200 mg
Triphala (a proprietary blend of chebula myrobalan (<i>Terminalia chebula</i>), belleric myrobalan (<i>Terminalia bellerica</i>), and amla (<i>Emblca officinalis</i>) extracts (fruit))	90 mg
Other ingredients: stevia leaf extract, ascorbyl palmitate	

Not to be taken by pregnant or lactating women.

	14.1 oz (400 g)	GIF4

G.I. Integrity[†]

ENHANCED SUPPORT FOR GASTROINTESTINAL INTEGRITY AND FUNCTION[†]

Glutamine, the most abundant amino acid in the body, promotes healthy everyday tissue repair. In the gut, it maintains intestinal integrity by supporting the protective mucosal lining and maintaining healthy villous function. It is also an important metabolic fuel for the enterocytes and immune cells in the small intestine. N-acetyl-d-glucosamine is a component of glycosaminoglycans and glycoproteins found in the gut's mucosal surface. Gamma oryzanol has a history of use in gastrointestinal applications, with preclinical data supporting its potential to moderate gastric secretions and promote gut function. The polysaccharide-rich inner fillet of aloe vera maintains healthy prostaglandin metabolism, immune-mediator activity and antioxidant defenses. In a randomized, double-blind clinical trial, improvements in intestinal symptom scores were significant compared to placebo after 4 weeks of aloe vera supplementation.[†]

2 capsules, twice daily, with or between meals.

Two (size 00) vegetarian capsules contain:

L-Glutamine (free-form)	1,000 mg
N-Acetyl-d-glucosamine (from crab, shrimp)	500 mg
Gamma oryzanol (from rice bran)	150 mg
Aloe vera (<i>Aloe barbadensis</i>) extract (inner fillet) (standardized to contain 10% polysaccharides)	50 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Contains shellfish (crab, shrimp)

GABA

SUPPORTS RELAXATION AND MODERATES OCCASIONAL STRESS[†]

GABA is the primary inhibitory neurotransmitter in the central nervous system, playing a central role in regulating cell-to-cell communication. Healthy levels have been associated with positive mood. A recent study indicates that GABA also enhances alpha wave production in the brain to promote relaxation and moderate occasional stress. In the same study, it supported healthy IgA levels, suggesting that it may support immune health during occasional stress.[†]

1 capsule daily, between meals.

Each (size 00) vegetarian capsule contains:

GABA (gamma-aminobutyric acid)	700 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Mental Health & Stress Support

Garlic Complex

UNIQUE COMBINATION OF GARLIC AND AGED FERMENTED BLACK GARLIC EXTRACT TO SUPPORT ANTIOXIDANT DEFENSES, CARDIOVASCULAR AND IMMUNE HEALTH[†]

Garlic Complex provides a unique combination of aged fermented black garlic extract and garlic extract. This combination offers cardiovascular and immune-support properties, while also reducing the odor and sharp taste typically associated with raw garlic and garlic extracts. The health-promoting effects of garlic are derived from its sulfur-containing compounds, including allicin and S-allyl-cysteine (SAC). The fermentation and aging process utilized in the production of black garlic increases the levels of SAC and other bioactive compounds, including phenols and flavonoids. These compounds act as antioxidants in the body to protect tissues and support cellular function. Animal and cell studies suggest that the cardiometabolic effects from aged black garlic are due primarily to antioxidant and cytokine balance support, stemming partly from alterations in gene expression. In a randomized, double-blind trial involving 60 adults, 12 weeks of supplementation with 6 grams of aged black garlic revealed support for healthy lipid metabolism. Standard garlic extract is included to promote broad-spectrum cardiovascular health, including support for healthy blood flow and platelet function, healthy lipid and triglyceride metabolism, and healthy arterial function. Garlic has also demonstrated support for maintaining a healthy gut ecology and promoting healthy immune system function.[†]

2 capsules, 1-2 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Aged fermented black garlic (*Allium sativum*) extract (bulb) 400 mg
(standardized to contain 0.1% S-Allyl cysteine)

Garlic (*Allium sativum*) extract (bulb) 400 mg
(standardized to contain 2,000 mcg/g allicin yield)

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

ABG10+[®] is a trademark owned by Pharmactive Biotech Products, SL.

Product may contain sulfites, which are known to naturally occur during the fermentation of garlic. Do not use if you have a known sulfite allergy or sensitivity.

Ginger extract

SUPPORTS DIGESTIVE, MUSCULOSKELETAL AND CARDIOVASCULAR HEALTH[†]

The volatile oil components of ginger are responsible for its nutritional activity. Ginger helps to stimulate digestive enzymes and increases the production and secretion of bile from the liver and gallbladder. Ginger supports the cardiovascular system by maintaining healthy leukotriene and thromboxane production, supporting healthy platelet function[†]

1 capsule, 1-4 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Ginger (*Zingiber officinale*) extract (root) 500 mg
(standardized to contain 5% gingerols)

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

GlucFunction[†]

COMBINES KEY NUTRIENTS, ANTIOXIDANTS AND HERBAL EXTRACTS TO PROMOTE BROAD-SPECTRUM SUPPORT FOR HEALTHY GLUCOSE METABOLISM[†]

Minerals including chromium, magnesium and zinc are associated with healthy glucose metabolism and may be synergistic with biotin. Bis-glycinato oxo vanadium is a bioavailable organic complex of glycine and vanadium. Vanadium promotes healthy glucose metabolism by supporting healthy liver and skeletal muscle function. The water-soluble polyphenol polymers found in CinSulin[®] cinnamon extract promote healthy glucose function, lipid metabolism and blood flow. *Momordica charantia*, or bitter melon, and *Gymnema sylvestre* provide traditional support for healthy pancreas and glucose function. Vitamin C maintains healthy red blood cell sorbitol levels. Alpha lipoic acid supports healthy glucose metabolism by promoting healthy mitochondrial function.[†]

1 capsule, 3 times daily, before meals.

Each (size 00) vegetarian capsule contains:

Vitamin C (as ascorbic acid)	66 mg
Biotin	2,000 mcg
Magnesium (as magnesium citrate)	50 mg
Zinc (as zinc citrate)	5 mg
Chromium (as chromium polynicotinate)	133 mcg
Vanadium (as bis-glycinato oxo vanadium (BGOV))	500 mcg
Alpha lipoic acid (thioctic acid)	100 mg
Cinnamon (<i>Cinnamomum cassia</i>) extract (dried bark)	83 mg
Gymnema (<i>Gymnema sylvestre</i>) extract (leaf)	50 mg
Bitter melon (<i>Momordica charantia</i>) extract (fruit)	75 mg
Other ingredients: vegetarian capsule (cellulose, water)

Glucosamine + Chondroitin with MSM

SUPPORTS CONNECTIVE TISSUE HEALTH AND PROVIDES KEY COMPONENTS FOUND WITHIN CARTILAGE[†]

Sulfur-containing methylsulfonylmethane (MSM) is included in this glucosamine and chondroitin combination to provide an enhanced spectrum of nutrients. Glucosamine promotes the synthesis of the glycosaminoglycan chondroitin sulfate. Chondroitin sulfate is responsible for building the ground substance of cartilage, molecules known as proteoglycans. In addition, chondroitin sulfate may maintain healthy enzyme activity. An important role of sulfur from MSM is to enhance the structure and integrity of proteoglycans.[†]

1 capsule, 3 times daily, with meals. Individual results may vary.

Each (size 00) vegetarian capsule contains:

Glucosamine HCl (from crab, shrimp)	300 mg
Chondroitin sulfate (from bovine)	300 mg
MSM (methylsulfonylmethane)	300 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

OptiMSM[®] is a registered trademark of Bergstrom Nutrition.

Glucosamine/MSM with joint comfort herbs

PROVIDES HERBS TO SUPPORT JOINT INTEGRITY AND KEY COMPONENTS OF CARTILAGE MATRIX COMPOSITION[†]

Glucosamine sulfate and MSM provide intrinsic compounds essential for healthy cartilage formation, including glycosaminoglycans and elemental sulfur, respectively. MSM has also been attributed with enhancing healthy immune cell activity. These important cartilage matrix constituents are complemented with additional factors for supporting a healthy immune response. In studies, ginger promotes healthy prostaglandin and leukotriene biosynthesis. Curcumin helps maintain healthy neutrophil function and scavenges free radicals.[†]

2 capsules, 1-3 times daily, with meals. Individual results may vary.

Two (size 00) vegetarian capsules contain:

Glucosamine sulfate (from crab, shrimp)	500 mg
MSM (methylsulfonylmethane)	500 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	250 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	250 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Glucosamine Chondroitin with Manganese

PROVIDES BUILDING BLOCKS OF CARTILAGE AND ANTIOXIDANT SUPPORT[†]

This convenient formula combines two of the most important cartilage building blocks, glucosamine and chondroitin, with manganese ascorbate. The combination of glucosamine and chondroitin may provide support for healthy hyaluronic acid content and synovial fluid. The trace mineral manganese plays a key role in supporting glycosaminoglycan and mucopolysaccharide production and encourages the antioxidant activity of superoxide dismutase. Vitamin C, as ascorbate, is a vital nutrient for proper collagen formation and also serves as an antioxidant.[†]

Initial dose: 1 capsule, 3 times daily, with meals, for 2-3 weeks.

Maintenance dose: 1 capsule, 2 times daily, with meals. Individual results vary.

Each (size 00) vegetarian capsule contains:

Manganese (as manganese ascorbate)	2 mg
Glucosamine HCl (from crab, shrimp)	500 mg
Chondroitin sulfate (from bovine)	400 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Contains shellfish (crab, shrimp)

Glucose Support Formula

SUPPORTS OPTIMAL PANCREAS FUNCTION AND HEALTHY GLUCOSE METABOLISM*

This formula provides a helpful combination of essential nutrients for healthy glucose support. The leaves of *Gymnema sylvestre* have been used for over 2,000 years in India. *Gymnema sylvestre* has been shown to nutritionally support the insulin-producing cells of the pancreas. Alpha lipoic acid is a versatile nutrient that provides antioxidant activity and supports healthy glucose metabolism. As adaptogens, *Panax ginseng* and *Eleutherococcus senticosus*, or eleuthero, promote healthy glucose balance. Research has indicated that maitake mushroom extract has a potential role in healthy glucose utilization. This formula also combines chromium with nicotinic acid, promoting healthy glucose and fat metabolism.†

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Chromium (as chromium polynicotinate)	200 mcg
Gymnema (<i>Gymnema sylvestre</i>) extract (leaf)	75 mg
Asian ginseng (<i>Panax ginseng</i>) extract (root) (standardized to contain 5% ginsenosides)	100 mg
Eleuthero (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	100 mg
Alpha lipoic acid (thioctic acid)	100 mg
Maitake mushroom (<i>Grifola frondosa</i>) extract (fruiting body)	200 mg

I-Glutamine 500 mg

NUTRITIONALLY SUPPORTS THE MUCOSAL LINING AND THE HEALTHY FUNCTIONING OF THE GASTROINTESTINAL TRACT, AS WELL AS LEAN MUSCLE MASS*

I-Glutamine is the most abundant amino acid in the body. In times of metabolic stress, glutamine is utilized by the body for tissue repair and gastrointestinal tract support. Glutamine plays a large role in maintaining healthy intestinal integrity by enhancing the intestine's protective mucosal lining. In addition, glutamine is important in the preservation of muscle mass.†

Gluten/Dairy Digest

A UNIQUE MIX OF ENZYMES TO SUPPORT HEALTHY GLUTEN AND DAIRY DIGESTION*

Gluten/Dairy Digest contains a blend of digestive enzymes targeting gluten and dairy digestion. Gluten/Dairy Digest includes a blend of proteases specially formulated with the scientifically researched prolyl-endopeptidase enzyme targeting gluten breakdown. In a randomized, double-blind, placebo-controlled trial, individuals consuming prolyl-endopeptidase enzyme and gluten showed lower α -gliadin (a main component of gluten) concentration in the stomach and duodenum. In another randomized, placebo-controlled, crossover study, 18 gluten-sensitive subjects consumed a mixed meal containing 0.5 g gluten. Tolerase® G (83,300 PPI) significantly degraded gluten concentrations in both the stomach and duodenum. In the stomach, median gluten levels were reduced from 176.9 mcg (range of 73.5-357.8 mcg) to 25.4 mcg (16.4-43.7 mcg, $p=0.001$). In the duodenum, median gluten levels were reduced from 14.1 mcg (range of 8.3-124.7) to 7.4 mcg (3.8-12 mcg, $p=0.015$). The enzyme specifically degrades the immunogenic parts of the gluten protein. Research reveals that gluten-sensitive T-cells no longer react after gluten has been degraded with the enzyme. Additionally, this formula provides a unique mixture of protease enzymes and lactase to assist digestion of multiple constituents of milk and dairy products. Protease enzymes targeting casein and beta-lactoglobulin proteins support dairy protein digestion. Casein is the predominant protein in milk and cheese. Beta-lactoglobulin occurs primarily in the whey fraction of milk. It is an acid-stable protein and therefore may not be broken down by pepsin and pancreatin. Lactase breaks down the milk sugar lactose, helping to relieve occasional bloating or gas that some people can experience from dairy consumption.†

1 capsule daily, with food.

Each (size 1) vegetarian capsule contains:

Tolerase® G Prolyl Endopeptidase	83,300 PPI
BioCore® Dairy	105 mg
Protease (endo/exopeptidase)	630 BLGU
Lactase	1,000 ALU

Other ingredients: vegetarian capsule (cellulose, water)

BioCore® is a trademark of National Enzyme Company.

Tolerase® G is a trademark of DSM.

Tolerase® G is not intended to replace a gluten-free diet.

Tolerase® G is not intended to treat or prevent Celiac disease.

Glycine

SUPPORTS RESTFUL SLEEP AND DETOXIFICATION*

Glycine is the simplest amino acid; its side chain consists of just a single hydrogen atom. Supplementation with glycine has been shown to support healthy kidney and liver function as well as nervous system health. Animal studies and a small human study indicate that glycine has the potential to support memory and mental function. In another human trial, glycine, acting as an inhibitory amino acid, had neuroprotective effects. Animal studies suggest that glycine plays a protective role for the kidneys and liver, particularly by supporting detoxification of certain chemicals.†

3 capsules, 1-2 times daily, between meals.

Three (size 1) vegetarian capsules contain:

Calories	5
Glycine (free-form)	1,500 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Sleep Support

Glycine	Quantity	Order Code

Grapefruit Seed extract

PROMOTES THE BALANCE OF INTESTINAL MICROORGANISMS AND SUPPORTS HEALTHY MICROBIAL BALANCE IN THE GASTROINTESTINAL TRACT*

Grapefruit Seed extract is a highly concentrated G.I.-balancing extract promoting healthy microflora and gut ecology. A preliminary clinical trial reported that grapefruit seed extract supplements helped support healthy G.I. function and comfort. An in vitro study indicated that grapefruit seed extract promoted healthy microbial balance. Other studies support these findings, citing that grapefruit seed extract promotes a healthy environment when exposed to a wide range of bacterial biotypes.†

1 capsule, 1-4 times daily, with meals and 6-8 oz of water.

Each (size 2) vegetarian capsule contains:

Grapefruit (<i>Citrus x paradisi</i>) extract (seed and fruit)	250 mg
--	--------

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Not to be taken by pregnant or lactating women.

Grape Pip 500 mg

PROVIDES UNIQUE ANTIOXIDANT PROTECTION AND SUPPORTS VASCULAR HEALTH[†]

Grape pips (seeds) are a superior source of flavonoids, polyphenols and oligomeric procyanidin complexes (OPC). Polyphenols have been shown to maintain healthy collagenase, elastase and hyaluronidase enzyme activity, supporting vascular endothelial integrity. As these compounds are relatives of the anthocyanins in bilberry, they also support visual adaptation and acuity.[‡]

1 capsule daily, between meals.

Each (size 00) vegetarian capsule contains:

Grape (*Vitis vinifera*) extract (seed) 500 mg
(standardized to contain 92% polyphenols)

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Cardiovascular Health

Grape Pip 500 mg	Quantity	Order Code
	120	GP51

Green Tea extract (decaffeinated)

CONTAINS A HIGH EPIGALLOCATECHIN GALLATE (EGCG) CONTENT, PROVIDING IMPORTANT ANTIOXIDANT SUPPORT FOR ALL CELLS IN THE BODY[†]

This decaffeinated green tea extract is a herbal extract containing catechins, a class of antioxidant compounds known as polyphenols. It contains a minimum of 90% catechins, with EGCG making up a minimum of 70% of the content.[‡]

1 capsule, 1-4 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Green tea (*Camellia sinensis*) extract (leaf) 100 mg
(standardized to contain 90% total tea catechins and 70% epigallocatechin gallate (EGCG))

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Take with food. If you have liver problems, consult your healthcare practitioner before use. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Growth Hormone Support

SUPPORTS HEALTHY GROWTH HORMONE LEVELS[†]

The amino acids arginine and ornithine have been shown to support healthy growth hormone production. Growth hormone is naturally released by the pituitary gland in response to sleep and exercise in order to help replenish tissues. It supports muscle protein synthesis, moderates the breakdown of muscle tissue and promotes fat utilization for energy. Arginine supports healthy growth hormone synthesis and is also a precursor for protein synthesis. Ornithine alpha-ketoglutarate (OKG) has indicated the ability to support healthy nitrogen balance, important for healthy muscle function. OKG also promotes healthy polyamine, arginine and glutamine levels, which are important metabolites for muscle protein support. One study suggested the potential for arginine and ornithine in combination to support lean muscle mass when combined with physical training. A second study also suggests a possible role of arginine and ornithine in supporting lean muscle mass and strength training when combined with a high intensity exercise program.[‡]

Taken one hour before physical activity or bedtime, arginine and OKG may support healthy growth hormone production and may also promote healthy muscle protein synthesis, muscle recovery and lean muscle mass when combined with physical training.[‡]

2 capsules, 1-2 times daily, on an empty stomach, before bedtime or 1 hour before a workout.

Two (size 00) vegetarian capsules contain:

L-Arginine HCl 1,000 mg
Ornithine alpha-ketoglutarate 500 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Hair/Skin/Nails Ultra

With Metafolin® L-5-MTHF

SUPPORTS SKIN ELASTICITY AND HYDRATION, HEALTHY HAIR, AND NAIL STRENGTH AND THICKNESS*

Vitamin C, zinc, copper, manganese and silica are integral collagen and keratin cofactors, promoting skin elasticity. Optimal levels of these nutrients, as well as folate, have been associated with healthy hair, skin and nails. Vitamin C supports skin resiliency and helps counter the effects of oxidative stress along with sustained-release CoQ₁₀ complex. Niacinamide and zinc promote immune function in the skin. The proanthocyanidins in grape seed extract help to stabilize collagen and elastin by moderating the proteolytic enzymes collagenase and elastase. Clinical studies indicate that biotin may help reinforce the keratin structure of the nails, promoting strength and thickness. PABA supports the appearance of healthy hair through its effects on melanin metabolism. BioCell Collagen® is a patented, hydrolyzed and denatured low molecular weight collagen, providing a naturally occurring matrix of hyaluronic acid (HA), chondroitin sulfate and amino acids including lysine, proline and hydroxyproline. These structural components support the elasticity and firmness of skin. Furthermore, HA attracts water, promoting hydration and moisture retention within the dermal matrix. Case reports have revealed that BioCell Collagen® helped moderate the appearance of wrinkles and blemishes in the skin.¹

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	250 mg
Niacin (as niacinamide)	20 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Biotin	6,000 mcg
Zinc (as zinc citrate)	30 mg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	2 mg
Silica (from bamboo)	30 mg
PABA (para-aminobenzoic acid)	150 mg
BioCell Collagen® hydrolyzed collagen complex (chicken sternal cartilage)	500 mg
Providing (typical):	
Hydrolyzed collagen 60%	300 mg
Chondroitin sulfate 20%	100 mg
Hyaluronic acid 10%	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	140 mg
CoQ ₁₀ (as CoQ ₁₀ and as 33% from MicroActive® CoQ ₁₀ -cyclodextrin complex)	60 mg
Other ingredients: vegetarian capsule (cellulose, water), potato starch, ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

BioCell Collagen® is a registered trademark of BioCell Technology LLC, Irvine, California USA (Protected by US and International Patents).

MicroActive® is a registered trademark of BioActives, LLC.

Biotin may interfere with certain blood tests. Wait at least 8 hours between biotin consumption and blood testing. Inform your health professional about all biotin-containing supplements you are taking. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Heartburn Essentials[†]

MAINTAINS HEALTHY GASTRIC SECRETION, SUPPORTS DIGESTION AND SOOTHES THE DIGESTIVE TRACT[†]

For years, gamma oryzanol has been associated with maintaining healthy gastric secretion, even under occasionally stressful conditions. It is likely that gamma oryzanol does this by influencing the autonomic nervous system. DGL, marshmallow and slippery elm provide traditional support for soothing the gastrointestinal tract and promote the integrity of the mucosal lining. Artichoke helps to stimulate the digestive process. Plant enzymes further promote digestive function.[†]

1 capsule at the start of each meal.

Each (size 00) vegetarian capsule contains:

Gamma oryzanol (from rice bran)	125 mg
Deglycyrrhizinated licorice (<i>Glycyrrhiza glabra</i>) extract (root)	100 mg
Marshmallow (<i>Althaea officinalis</i>) extract (root)	100 mg
Slippery elm (<i>Ulmus fulva</i>) extract (bark)	100 mg
Artichoke (<i>Cynara scolymus</i>) extract (leaf)	75 mg
Turmeric (<i>Curcuma longa</i>) extract (root)	50 mg
(standardized to contain 95% curcuminoids)	
Proprietary enzyme blend	61 mg
Providing:	
Amylase	6,000 DU
Lipase	81 FIP
Cellulase	22 CU

Other ingredients: vegetarian capsule (cellulose, water), tapioca dextrin, ascorbyl palmitate

Not to be taken by pregnant or lactating women.

Hemp CBD VESIsorb[®]

ENHANCED-BIOAVAILABILITY, BROAD-SPECTRUM EXTRACT

Hemp, also known as *Cannabis sativa*, is an annual herb of the family Cannabinaceae with a long history of use. This extract is derived from 100% U.S.-sourced agricultural hemp and extracted without solvents, using super critical carbon dioxide. VESIsorb[®] offers a unique self-assembling colloidal system to enhance absorption by promoting the ability of the hemp extract to dissolve readily in an aqueous environment.

1 softgel capsule daily, with or between meals.

1 softgel capsule contains:

VESIsorb[®] hemp (*Cannabis sativa*) oil extract (aerial parts) 334 mg
(standardized to contain 35 mg of phytocannabinoids and terpenes including beta-caryophyllene)

Other ingredients: VESIsorb[®] colloidal delivery system (medium chain triglycerides, vitamin E [tocopherol], mono and diglycerides, fatty acids, natural flavor), gelatin softgel (gelatin, glycerin, carob, water)

Broad-spectrum hemp extract is made from CO₂-extracted, U.S.-sourced agricultural hemp.

VESIsorb[®] is a registered trademark of SourceOne Global Partners.

Not to be taken by pregnant or lactating women. Do not consume if you have liver disease.

Hist Reset

Co-Formulated by Dr. Samuel Yanuck D.C.⁺
and Dr. Nathan Morris M.D.⁺

MODERATES MAST CELL AND IMMUNE MEDIATOR ACTIVATION[†]

Histamine is a substance found in many foods such as meat, spinach, avocados, nuts, tomatoes and chocolate, or released as part of the local immune response by immune cells, primarily mast cells, upon exposure to an immune trigger. Some individuals have difficulty breaking down histamine. This formula is designed to modulate mast cell and immune-mediator activation, support healthy histamine metabolism and promote respiratory and tissue health. Quercetin, luteolin and rutin are flavonoids known to exhibit antioxidant and immune-modulating activity. In vitro studies involving mast cells suggest that these compounds help to stabilize mast cells and modulate the release of immune mediators, including histamine, leukotrienes and prostaglandins. The mechanism of action is believed to be in part due to modulating extracellular signal-regulated kinases, including PKC. Animal studies suggest that these flavonoids can moderate IgE antibody-mediated response in skin. Bromelain (from pineapple) acts as a protease, promoting healthy levels of kinins to support tissue comfort. Research suggests that bromelain also supports healthy T cell function and cytokine production. Riboflavin, niacinamide and molybdenum are included as cofactors for aldehyde dehydrogenase, a key enzyme in the breakdown of histamine. Preliminary research suggests that supplementation with vitamin C modulates bronchial responsiveness to histamine in sensitive subjects. Optimal vitamin C serum levels have been associated with lower blood histamine levels. NAC promotes immune and lung defense through mucolytic and antioxidant actions. It acts as a free radical scavenger by supporting glutathione production. Due to its sulfur content, NAC is able to disrupt disulfide bonds within mucus, thinning and easing its expulsion, along with the trapped particles, from the lungs[†]

2 capsules daily, between meals.

Two (size 0) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	250 mg
Riboflavin	5 mg
Niacin (as niacinamide)	20 mg
Molybdenum (as molybdenum glycinate TRAACS™)	100 mcg
N-Acetyl-L-cysteine	100 mg
Quercetin	300 mg
Bromelain (from pineapple stem) (2,400 GDU/gram)	200 mg
Luteolin	100 mg
Rutin	100 mg
Other ingredients: vegetarian capsule (cellulose, water)

HM Complex

PROMOTES THE BODY'S NATURAL, HEALTHY DETOXIFICATION PROCESS FOR COMMON, MILD ENVIRONMENTAL HEAVY METAL EXPOSURE WHILE SUPPORTING ANTIOXIDANT DEFENSES[†]

The unique characteristic of PectaSol-C® modified citrus pectin versus other pectins is its low molecular weight. This allows it to pass through the intestinal barrier and work systemically where it has the potential to bind to low levels of heavy metals from common, mild environmental exposure and facilitate their excretion. Modified citrus pectin does not appear to alter excretion of other minerals, including calcium, magnesium and zinc. Chlorella has a long history of traditional use in supporting the body's natural detoxification process, particularly helping to regulate common heavy metal exposure and distribution in tissues. Sulforaphane, from broccoli sprout concentrate, promotes Nrf2-mediated signaling. Nrf2 controls the expression of numerous genes responsible for detoxification and protection against oxidative stress. As part of a cysteine-rich metal-binding protein, zinc exhibits similar properties. In addition, NAC provides important support for detoxification by maintaining glutathione concentrations. L-Methionine also plays a role in glutathione production and phase II detoxification pathways in the liver. Preclinical studies suggest that alpha lipoic acid may help to moderate heavy metal induced oxidative stress.[†]

3 capsules daily, between meals.

Three (size 00) vegetarian capsules contain:

Zinc (as zinc citrate)	10 mg
Selenium (as selenomethionine)	100 mcg
Sodium (as part of modified citrus pectin)	50 mg
Potassium (as part of modified citrus pectin)	70 mg
PectaSol-C® modified citrus pectin	1,000 mg
Chlorella (<i>Chlorella spp.</i>) powder (cracked cell wall)	300 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant)(standardized to contain a minimum of 1,000 mcg sulforaphane)	250 mg
N-Acetyl-L-cysteine (free-form)	300 mg
L-Methionine (free-form)	200 mg
Alpha lipoic acid (thioctic acid)	100 mg

Homocysteine Factors

With Metafolin® L-5-MTHF

SUPPORTS HEALTHY HOMOCYSTEINE METABOLISM AND CARDIOVASCULAR HEALTH†

Clinical studies show that folate, vitamin B₁₂, and vitamin B₆ are vital in the metabolism of homocysteine. Vitamin B₁₂ and folate (L-5-MTHF) are required by the enzyme that converts homocysteine back to methionine. Vitamin B₆ is required in each of the two enzymatic reactions that convert homocysteine to cysteine. Betaine, in the form of trimethylglycine, is included in this supplement to promote the absorption of these important nutrients. Homocysteine Factors provides vitamin B₆, vitamin B₁₂, folate and betaine, a highly bioavailable combination of nutrients integral to maintaining healthy homocysteine metabolism and cardiovascular health.¹

1 capsule, 2 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	25 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	200 mcg
Trimethylglycine (anhydrous betaine)	500 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

This formula requires refrigeration after opening.

Natural color variations can occur. Product can range from off-white to yellow.

Hyaluronic Acid

SUPPORTS SKIN HYDRATION, JOINT LUBRICATION AND COMFORT†

Hyaluronic acid, or HA, is a naturally occurring polymer found in every tissue of the body. It is particularly concentrated in the skin and in synovial fluid but decreases with aging. Many sources of HA consist of large molecular weight compounds that are too large to be absorbed in the intestines. HyaMax® sodium hyaluronate provides a low molecular weight source of hyaluronic acid produced through fermentation. In a pharmacokinetic study conducted in animals, orally administered HyaMax® hyaluronic acid was incorporated into joints, connective tissue and skin, with a particular affinity for cartilaginous joints. HA functions include attracting and retaining water in the extracellular matrix of tissues. For skin cells, this is essential for proper cell-to-cell communication, hydration, nutrient delivery and waste and toxin elimination. It also appears to support the skin by promoting healthy turnover and renewal of keratinocytes. For joints, HA is especially supportive of healthy lubrication and shock absorption. Furthermore, in vitro studies indicate that HA modulates prostaglandin production, providing additional support for joint function.¹

1 capsule, 1-2 times daily, with or between meals.

Each (size 3) vegetarian capsule contains:

Hyaluronic acid (low molecular weight)	70 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

HyaMax® is a U.S.A. registered trademark of Fenchem.

Innate Immune Support

Formulated with Samuel F. Yanuck, D.C.[†]

PROMOTES HEALTHY CELLULAR IMMUNE RESPONSE TO SUPPORT INNATE IMMUNITY[†]

- Promotes NK cell and macrophage activity[†]
- Supports natural defenses[†]
- Contains clinically researched, biologically standardized AP-Bio™ andrographis, along with astragalus and reishi mushroom beta glucans, to promote immune function[†]

Innate Immune Support is designed to promote cell-mediated immune response, including NK cell and macrophage activity, and may be indicated for enhancement of natural defenses and mucosal health. In vitro and animal studies suggest that astragalus supports NK cell activity, as well as IgA and IgG levels in serum, key antibodies that play a critical role in mucosal immune defense. The formula also includes clinically researched andrographis extract standardized for andrographolide and other bioactive diterpene lactones. In a randomized, double-blind, placebo-controlled study, supplementation with 200 mg of AP-Bio™ andrographis for five days promoted immune function and supported respiratory comfort. Reishi mushroom offers a rich source of polysaccharides to promote cell-mediated immunity from both reishi mushroom extract and a unique, highly purified, reishi mushroom-derived beta 1,3/1,6-D glucan extract.[‡]

1 capsule, 1-2 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Astragalus (<i>Astragalus membranaceus</i>) extract (root)	240 mg
AP-Bio™ andrographis (<i>Andrographis paniculata</i>) extract (leaf) (standardized to contain 31.5% andrographolide)	200 mg
Mushroom beta glucan (from reishi (<i>Ganoderma lucidum</i>) extract (mycelia))(standardized to contain 70% beta 1,3/1,6 glucan)	100 mg
Reishi (<i>Ganoderma lucidum</i>) extract (fruiting body)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Inositol (powder)

SUPPORTS HEALTHY CENTRAL NERVOUS SYSTEM FUNCTION, INCLUDING EMOTIONAL WELLNESS AND MOOD; MAY ALSO SUPPORT OVARIAN HEALTH*

Inositol is a component of the B-complex family. Myo-inositol is the primary form of inositol found in the central nervous system. It plays an important role in cell membrane formation and serves as part of the phosphatidylinositol secondary messenger system, supporting serotonin, norepinephrine and cholinergic receptor function. As a result, inositol may support healthy mood, emotional wellness and behavior, and help lessen occasional nervous tension. Research also suggests that myo-inositol may help to support healthy ovulatory activity, ovarian function and reproductive system function.¹

1 scoop, 1-2 times daily, with or between meals.

Serving size: 4.2 g (1 scoop)

Servings per container: 60

One scoop (approximately 4.2 g) contains:

Inositol (as myo-inositol) 4 g

Mental Health & Stress Support

Inositol (powder)	Quantity	Order Code
	8.8 oz (252 g)	INP2

Inositol Complex

OFFERS 3.6:1 RATIO OF MYO-INOSITOL TO D-CHIRO INOSITOL TO SUPPORT EMOTIONAL WELLNESS, INSULIN RESPONSE AND OVARIAN FUNCTION*

Inositol is a component of the B-complex family. The predominant form of inositol in the body and central nervous system is myo-inositol. Myo-inositol plays an important role in cell membrane formation and serves as part of the phosphatidylinositol second messenger system, supporting serotonin, norepinephrine and cholinergic receptor function. Optimal levels of inositol have been associated with positive mood, emotional wellness and help lessen occasional nervous tension. D-chiro inositol is another isomer with distinct functions in the body from myo-inositol. Both forms act as second messengers to support insulin signaling, however, D-chiro inositol also helps promote the cellular response to insulin. D-chiro inositol also plays a role in maintaining healthy androgen metabolism. The combination of myo-inositol and D-chiro inositol helps to support healthy ovarian function and reproductive system function. Studies suggest that the ratio of myo-inositol and D-chiro inositol influences clinical effects. The ratio varies considerably across different tissues, ranging from 2:1 in the liver, 200:1 in the brain and heart, 100:1 in the follicular fluid and 40:1 in the blood. Studies have utilized ratios ranging from 0.4:1 to 104:1 of D-chiro inositol:myo-inositol. A 2019 comparison study suggests that a 3.6:1 ratio of myo-inositol:D-chiro inositol supports reproductive function when compared to an alternate (40:1) ratio. Twelve weeks of supplementation with 550 mg myo-inositol and 150 mg D-chiro inositol twice daily (3.6:1 ratio) was found to offer enhanced support for oocyte quality and healthy pregnancy. Two additional studies indicate that supplementation with a 3.6:1 myo-inositol:D-chiro inositol ratio for 6 months supported healthy menstrual regularity, luteinizing hormone/follicle-stimulating hormone (LH/FSH) ratios and post-prandial glucose homeostasis.¹

1 capsule, 2 times daily, with meals.

One (size 00) vegetarian capsule contains:

Myo-inositol	550 mg
D-chiro inositol	150 mg
Other ingredients: vegetarian capsule (cellulose, water)

Iodine (potassium iodide)

PROVIDES SUPPORT FOR THE THYROID GLAND†

Iodine is absorbed by the thyroid gland and supports the formation of thyroid hormones. Thyroid hormones have the ability to cross cell membranes, thereby supporting all cells of the body. In the cell, they promote metabolic function by enhancing mitochondrial activity and enzyme synthesis, especially in tissues and organs such as muscle and the liver.†

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Iodine (as potassium iodide) 225 mcg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

IP6

ANTIOXIDANT SUPPORT FOR PROSTATE, BREAST, COLON AND LIVER CELL HEALTH†

Inositol hexaphosphate (IP6), also known as phytic acid, is a natural antioxidant component of fiber-rich foods such as whole grains and legumes and is found in almost every cell of the body. Related to the B vitamin inositol, IP6 differs by the presence of six phosphate groups, influencing various cellular mechanisms. In studies, IP6 promotes healthy cell metabolism and maintains proper enzyme activity in cells. The unique conformation of IP6 also gives it the specific ability to modulate hydroxyl radical formation, supporting natural defense mechanisms.†

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

IP6 (inositol hexaphosphate) 1,000 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Iron-C

IRON AND VITAMIN C FORMULA DESIGNED TO ENHANCE INTESTINAL ABSORPTION; SUPPORTS RED BLOOD CELL FUNCTION AND ENERGY PRODUCTION*

Iron is an important component of hemoglobin, a protein in red blood cells that delivers oxygen to tissues throughout the body. It is also a part of myoglobin, a protein that helps muscle cells store oxygen and ferritin, the body's main iron storage protein found in the intestines, liver and spleen. Optimal serum levels have been associated with mental health and moderating fatigue in women of childbearing age.†

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Vitamin C (as ascorbic acid)	175 mg
Iron (as iron glycinate and 50% as iron aspartate)	15 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

Iron liquid

GREAT-TASTING LIQUID IRON FORMULA TO SUPPORT HEMOGLOBIN AND MYOGLOBIN FUNCTION*

Iron liquid contains SunActive® Fe, a micronized water-soluble form of iron with high bioavailability. Research indicates SunActive® Fe iron pyrophosphate bioavailability is similar to ferrous sulfate. In a 16-week randomized, double-blind, placebo-controlled study involving 122 women, supplementation promoted healthy iron status, including hemoglobin, ferritin and transferrin saturation. A blend of cranberry and blueberry fruit extracts offers antioxidant protection and additional microvascular support.†

Children ages 4-18, take 1 teaspoon daily, with a meal. Adults, take 1 teaspoon, 1-2 times daily, with meals.

Serving size: 1 teaspoon (5 ml/0.17 fl oz)

Servings per container: 24

One teaspoon (5 ml/0.17 fl oz) contains:

Iron (as iron ferric pyrophosphate)	15 mg
CranBlue proprietary blend	30 mg
Providing cranberry (<i>Vaccinium macrocarpon</i>) extract (fruit) and wild blueberry (<i>Vaccinium angustifolium</i>) extract (fruit)	

Other ingredients: purified water, natural vegetable glycerin, apple juice concentrate, maltodextrin, natural pomegranate with other natural flavors, xanthan gum, potassium sorbate, sunflower lecithin

SunActive® Fe is a registered trademark of Taiyo International, Inc.

Keep refrigerated after opening. Shake well before use.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

Joint Complex (single dose)[†]

SUPPORTS JOINT FUNCTION AND COMFORT
IN CONVENIENT, ONCE-DAILY DOSING[†]

Joint Complex (single dose) contains UC-II® undenatured type-II collagen complex, hyaluronic acid and MSM to support joint health, flexibility and comfort. In a randomized, double-blind trial involving 52 subjects, 40 mg of UC-II® was more than twice as effective in promoting joint health as 1,500 mg of glucosamine and 1,200 mg of chondroitin as rated by WOMAC, VAS and the Lequesne functional index. Another study involving five women supplemented with 40 mg of UC-II® for 42 days, indicated statistically significant support for joint comfort and flexibility. MSM provides sulfur to enhance the structure and integrity of proteoglycans. A randomized, double-blind, placebo-controlled trial indicates that MSM promotes joint comfort and function. Research suggests that MSM may also support antioxidant capacity during exercise. Hyaluronic acid helps maintain tissue hydration to support joint lubrication. HyaMax® sodium hyaluronate provides a low molecular weight source of hyaluronic acid produced through fermentation. In a pharmacokinetic study, orally administered HyaMax® hyaluronic acid was incorporated into joints, connective tissue, and skin, with a particular affinity for cartilaginous joints. Lastly, 5-LOXIN® AKBA boswellia and enhanced absorption Meriva® turmeric extracts help maintain healthy 5-lipoxygenase and cyclooxygenase-2 enzyme activity and cytokine metabolism to offer additional joint comfort support.¹

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

UC-II® standardized cartilage (from chicken sternal cartilage) (standardized to contain 10 mg total collagen)	40 mg
Hyaluronic acid (low molecular weight)	70 mg
MSM (methylsulfonylmethane)	400 mg
Meriva® turmeric phytosome (turmeric (<i>Curcuma longa</i>) extract (root) and sunflower phospholipid complex)(standardized to contain 18% curcuminoids)	100 mg
5-LOXIN® - <i>Boswellia serrata</i> extract	100 mg
Indian frankincense (<i>Boswellia serrata</i>) extract (gum resin) (standardized to contain 30% 3-acetyl-11-keto-beta-boswellic acid (AKBA))	

Other ingredients: vegetarian capsule (cellulose, water), potassium chloride, ascorbyl palmitate

5-LOXIN® is a registered trademark of PL Thomas – Laila Nutra, LLC and is used under license. International patents pending.

Junior Nutrients

With Metafolin® L-5-MTHF

COMPREHENSIVE MULTIVITAMIN/MINERAL BLEND
WITHOUT IRON FOR CHILDREN AGES 4 AND UP[†]

Indications:

- Children ages 4 and up

Vitamin Distinctions:

- Provides vitamins A, B, C, D, E and K in highly bioavailable forms
- Provides Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- Vitamin A and mixed carotenoids, providing beta carotene, lycopene, lutein and zeaxanthin for antioxidant protection[†]
- Helps maintain macular and retinal health with lutein and zeaxanthin[†]
- Choline and inositol for healthy cognitive function[†]

Consult a physician for children under the age of 4. Ages 4 to 13, take 2 capsules daily, with a meal. Ages 14 and up, take 2 capsules, twice daily, with meals.

Two (size 2) vegetarian capsules contain:

Vitamin A (as vitamin A acetate and 75% beta carotene)	750 mcg
Vitamin C (as ascorbic acid)	137 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as d-alpha tocopherol succinate)	23 mg
Vitamin K (as vitamin K ₁)	45 mcg
Thiamin (as thiamin HCl) (B ₁)	1.5 mg
Riboflavin (as vitamin B ₂ and 43% riboflavin 5' phosphate (activated B ₂))	1.5 mg
Niacin (as niacinamide)	10 mg
Vitamin B ₆ (as pyridoxine HCl and 38% pyridoxal 5' phosphate (activated B ₆))	2 mg
Folate (as Metafolin®, L-5-MTHF)	333 mcg DFE (200 mcg L-5-MTHF)

To order call **800-753-2277**

Krill-plex

UNIQUE SOURCE OF OMEGA-3 FATTY ACIDS, PHOSPHOLIPIDS AND ANTIOXIDANTS TO SUPPORT HEALTHY PROSTAGLANDIN PRODUCTION FOR CARDIOVASCULAR, JOINT, COGNITIVE AND SKIN HEALTH[†]

Krill oil is unique in that it offers a naturally occurring complex of omega-3 and omega-6 fatty acids, phospholipids and astaxanthin. This phospholipid-fatty acid molecule closely resembles that of human brain phospholipids, providing potential support for cognitive function. The essential fatty acids in krill oil may also mediate hormone, prostaglandin and neurotransmitter function to support menstruating women. A double-blind, randomized clinical trial suggested that krill oil promoted physical and emotional well-being during the menstrual cycles of women volunteers. Krill oil also provides an ideal essential fatty acid balance for healthy cardiovascular and platelet function. A prospective phase II randomized, double-blind, clinical trial suggested that krill oil supports healthy lipid and glucose metabolism. A prospective controlled pilot clinical trial reported that krill oil supplementation helped promote joint flexibility and comfort. In addition, a randomized, controlled pre-clinical trial investigated the effects of krill oil on skin health and reported that it supports the body's natural response to sun exposure.¹

2 softgel capsules daily, with a meal.

Two (size 13) softgel capsules contain:

Calories	5
Total fat	0.5 g
Cholesterol	10 mg
Krill oil	1,000 mg
Providing:	
EPA (eicosapentaenoic acid)	148 mg
DHA (docosahexaenoic acid)	66 mg
Other omega-3 fatty acids	62 mg
Phospholipids	496 mg
Astaxanthin	396 mcg

Other ingredients: gelatin capsule (gelatin, glycerin, water, sorbitol, ethyl vanillin)

The krill oil in Krill-plex is NKO®, which is a registered trademark of Aker BioMarine Antarctic AS.

Contains shellfish (krill)

Ligament Restore[‡]

HELPS MAINTAIN HEALTHY TENDONS AND LIGAMENTS[‡]

Glucosamine is required for the synthesis of proteoglycans, the molecules responsible for providing tendons, ligaments and cartilage their resiliency and strength. It also helps protect cartilage from the effects of mechanical stress. Sulfate, another component of proteoglycans, works synergistically with glucosamine to enhance cartilage repair and regeneration. BioCell Collagen[®] provides hydrolyzed and denatured low molecular weight collagen. Additionally, it provides a naturally occurring blend of hyaluronic acid (HA), chondroitin sulfate, glucosamine sulfate and amino acids to promote cartilage synthesis and joint integrity. A double-blind, placebo-controlled study involving 16 individuals supplementing with BioCell Collagen[®] for eight weeks indicated statistically significant support for joint function and comfort. To further encourage collagen formation, this formula is enhanced with L-lysine and L-proline. These amino acids are hydroxylated to form hydroxyproline and hydroxylysine in a reaction involving vitamin C, forming the “glue” that holds collagen together. In the body, silica is found primarily in connective tissue and plays a role in collagen tissue formation. Devil's claw and curcumin are included to support joint flexibility, function and comfort, in part by maintaining healthy eicosanoid metabolism.¹

2 capsules, 2 times daily, with 8-10 oz water, with meals. Individual results may vary.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	100 mg
Glucosamine sulfate (from crab, shrimp)	750 mg
BioCell Collagen [®] hydrolyzed collagen complex (chicken sternal cartilage)	200 mg
Providing (typical):	
Hydrolyzed collagen 60%	120 mg
Chondroitin sulfate 20%	40 mg
Hyaluronic acid 10%	20 mg
L-Proline (free-form)	250 mg
L-Lysine HCl (free-form)	250 mg
Silica (from bamboo)	7.5 mg
Devil's claw (<i>Harpagophytum procumbens</i> and <i>Harpagophytum zeyheri</i>) extract (root)(standardized to contain 5% harpagosides)	50 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	50 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

BioCell Collagen[®] is a registered trademark of BioCell Technology LLC, Irvine, California USA (Protected by Patents).

Contains shellfish (crab, shrimp)

Refrigerate after opening.

Lipid Support Complex

SUPPORTS FAT METABOLISM IN THE LIVER[‡]

Lipid Support Complex supports hepatic fat metabolism with a combination of berberine and clinically studied BergacynFF[®], a patented extract blend of bergamot citrus and *Cynara cardunculus*. BergacynFF[®] supports lipid metabolism in the liver, with the added benefits of promoting healthy uric acid levels, decreasing oxidative stress and supporting vascular endothelial health. In a randomized, double blind, placebo-controlled clinical study involving 102 subjects, BergacynFF[®] (600 mg/day) for 12 weeks resulted in significant support for liver fat metabolism, assessed by CAP scores. In a randomized, double blind, placebo-controlled clinical study involving 80 subjects, BergacynFF[®] (600 mg/day) significantly improved serum markers of oxidative stress, with a reduction in circulating malondialdehyde (MDA) coupled with an increase in glutathione peroxidase (GPx) and superoxide dismutase (SOD) levels after 16 weeks. Supplementation also supported vascular endothelial function. This formula also provides berberine, an alkaloid that moderates lipid accumulation in liver cells in vitro. In preclinical models, berberine activates hepatic AMP kinase (AMPK) and sirutin 1 (SIRT1), which play important roles in supporting fat utilization in moderating fat synthesis in the liver.[‡]

2 capsules, daily with meals.

Two (size 00) capsules contain:

BergacynFF [®] blend	600 mg
Bergamot orange (<i>Citrus bergamia</i>) extract (fruit) (standardized to 17% flavonoids), Artichoke (<i>Cynara cardunculus</i>) extract (leaf)(standardized to 5% cynaropicrins)	
Berberine HCl	500 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, tri-magnesium citrate

BergacynFF[®] is a registered trademark of H&AD distributed by DoICas Biotech LLC

Liposomal Glutathione

Shelf-Stable

SUPPORTS ANTIOXIDANT DEFENSES AND DETOXIFICATION IN AN INNOVATIVE LIPOSOMAL FORM*

- Offers the key antioxidant glutathione in a liposomal form
- Purified phosphatidylcholine delivery system offers natural liposomal formation due to the hydrophobic and hydrophilic nature of phospholipids
- Liposomal form protects glutathione bonds from the degradation that can occur in digestion
- Protects the body from free radicals to support cellular function and homeostasis†
- Glutathione is found in virtually every cell of the body and plays a critical role in protein synthesis, enzyme function, transport and cell maturation†
- Optimal levels of glutathione have been associated with physical and mental health†
- Supports liver health and detoxification†
- Offers antioxidant support for liver tissue protection; highest concentration of glutathione is found in the liver†
- Promotes p450 phase II conjugation pathways in the liver to support detoxification†
- Maintains healthy lipid metabolism and oxidative status†

1 softgel capsule, 1-2 times daily, with meals.

Each (size 16) softgel capsule contains:

BioGlute™ proprietary blend of glutathione and essential phospholipids	375 mg
Providing:	
Setria® glutathione	250 mg
Phospholipid complex	125 mg

Other ingredients: gelatin capsule (gelatin, glycerin, water, calcium carbonate), extra virgin olive oil, beeswax

BioGlute™ is a registered trademark of Essential Nutraceuticals, LLC.

Setria® is a registered trademark of KYOWA HAKKO BIO Co., Ltd.

Liposomal Glutathione liquid

ENHANCED-ABSORPTION LIPOSOMAL GLUTATHIONE TO SUPPORT ANTIOXIDANT DEFENSE, DETOXIFICATION AND CELLULAR FUNCTION*

Liposomal Glutathione liquid offers the antioxidant glutathione in an enhanced-absorption liposomal form to target cellular health and function. Glutathione is a large molecule composed of glutamine, cysteine and glycine. It is found in virtually every cell of the body and plays a critical role in protein synthesis, enzyme function and transport, and cell maturation. It is also one of the main endogenous antioxidants, acting to recycle other antioxidants and protect the body from free radicals. Optimal levels of glutathione have been associated with physical and mental health. The digestive process can compromise efforts to achieve beneficial glutathione levels from supplementation. This advanced liposomal form helps protect the glutathione bonds from degradation that can occur in digestion, utilizing phosphatidylcholine from non-GMO sunflower oil and tight manufacturing control to ensure glutathione encapsulation for optimal performance. The controlled processing procedure results in very small, higher-stability, spherical liposomes. These small-sized liposomes allow for increased diffusion across mucus membranes and absorption†

2 pumps by mouth, 2 times daily.

Hold in mouth 30 seconds before swallowing.

Take on an empty stomach, at least 10 minutes before meals.

Serving size: 2 pumps (approximately 1 ml)

Servings per container: 50

2 pumps contain:

Glutathione	100 mg
Phosphatidylcholine (from purified sunflower seed lecithin)	75 mg
Other ingredients: purified water, glycerin, ethanol, vitamin E (as tocopherol), natural citrus and mint oils	

KEEP REFRIGERATED.

Liposomal Vitamin C

ENHANCED-ABSORPTION LIPOSOMAL VITAMIN C TO SUPPORT CELLULAR FUNCTION, ANTIOXIDANT DEFENSES AND IMMUNE HEALTH[†]

Vitamin C is a water-soluble nutrient that cannot freely cross the lipid membranes in the gastrointestinal tract, which limits its absorption. Uptake of this nutrient requires carrier proteins, which escort vitamin C across the intestinal membranes to reach the bloodstream. These carriers have a low capacity and are easily saturated, especially at higher doses of vitamin C. This limits the amount of this nutrient that reaches organs and tissues, including the cells of the immune system. In contrast, liposomes can freely diffuse across membranes in the GI tract. Liposomal Vitamin C provides an enhanced-absorption form that does not require a carrier system. It contains PureWay-C[®], a clinically studied form of vitamin C that combines ascorbic acid with natural lipid metabolites and citrus bioflavonoids. This enhanced vitamin C is loaded into small-sized, spherical, highly-stable liposomes, which are verified by electron microscopy to ensure the presence of intact, authentic structures. Liposomes can be absorbed directly across mucus membranes in the gastrointestinal tract, supporting enhanced bioavailability.[†]

2 capsules, 1-2 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Vitamin C (as Liposomal Pureway-C[®] ascorbic acid) 500 mg

Other ingredients: liposomal matrix (sunflower phospholipids, rice bran wax fatty acids, citrus bioflavonoids), hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Liposomal Pureway-C[®] and the Liposomal Pureway-C[®] logo are trademarks of One Innovation Labs, L.L.C. in the U.S. and/or other countries.

Lipotropic Detox

With Metafolin[®] L-5-MTHF

PROMOTES THE BREAKDOWN OF FATS IN THE LIVER, ALLOWING FOR HEALTHY BILE FLOW AND TOXIN METABOLISM[†]

The lipotropic agents choline, betaine, methionine, vitamin B₆, vitamin B₁₂ and folate (L-5-MTHF) support healthy hepatic fat metabolism and bile flow. Efficient processing and breakdown of fats in the liver maintains healthy overall liver function and detoxification. As methyl donors, these same nutrients are also critical for methylation, a widespread biochemical process in the body that involves transferring a methyl group to another compound. Methylation of DNA supports healthy DNA integrity and stability, important for liver, colon and overall cell health. Taurine, curcumin, silymarin and artichoke have been added for their abilities to support healthy bile flow, gene expression and the body's normal toxin metabolism.[†]

2 capsules, 3 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxine HCl)	5 mg
Folate (as Metafolin [®] , L-5-MTHF)	167 mcg DFE (100 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	50 mcg
Choline (as choline bitartrate)	120 mg
Inositol	150 mg

I-Methionine (free-form)	150 mg
Taurine (free-form)	100 mg
Trimethylglycine (anhydrous betaine)	100 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	75 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	75 mg
Artichoke (<i>Cynara scolymus</i>) extract (leaf)	50 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

Natural lemon crème flavor

LIQUID MULTIVITAMIN/MINERAL COMPLEX ENHANCED WITH ORGANIC FRUITS AND VEGETABLES FOR DAILY WELLNESS†

Indications:

- Adults and children over 4

Vitamin/Mineral Distinctions:

- Extensive blend of vitamins and carotenoids
- Chelated minerals for optimal absorption
- Vegan formula, including vegan vitamin D

Special Features:

- Natural beta carotene, lutein, organic berries and vegetables to support daily wellness†
- Great-tasting, naturally flavored and sweetened liquid formula
- Vegan

**Children ages 4-13, take 1 teaspoon daily, with a meal.
Adults and children ages 14 and up, take 2 teaspoons daily, with a meal.**

Two teaspoons (10 ml/0.34 fl oz) contain:

Calories	15
Total carbohydrate	4 g
Vitamin A (as beta carotene)	300 mcg
Vitamin C (as ascorbic acid)	100 mg
Vitamin D (as cholecalciferol) (D ₃) (from lichen)	20 mcg (800 IU)
Vitamin E (as d-alpha tocopherol)	20 mg
Thiamin (as thiamin HCl)	7.5 mg
Riboflavin (as riboflavin-5-phosphate)	4 mg
Niacin (as niacinamide)	25 mg
Vitamin B ₆ (as pyridoxine HCl)	5 mg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	20 mg
Calcium (as calcium citrate)	40 mg
Iodine (as potassium iodide)	75 mcg

Magnesium (as magnesium citrate)	20 mg
Zinc (as zinc gluconate)	12 mg
Manganese (as manganese gluconate)	1 mg
Chromium (as chromium nicotinate glycinate)	200 mcg
Boron (as boron glycinate)	0.7 mg
FloraGLO® lutein	3 mg

Fruit and vegetable powder blend (organic)
150 mg
strawberry fruit, tart cherry fruit, blackberry fruit, blueberry fruit, raspberry fruit, beet root, carrot root, spinach leaf, broccoli stem and floret, tomato fruit, kale leaf, cabbage leaf, parsley leaf, Brussels sprout edible head, green bell pepper fruit, cucumber whole fruit, celery stalk, garlic bulb, ginger root, onion, cauliflower curd, asparagus stalk

Other ingredients: purified water, natural vegetable glycerin, apple juice concentrate, lemon crème flavor with other natural flavors, medium chain triglycerides, xanthan gum, purified stevia leaf extract, citric acid, potassium sorbate, rosemary leaf extract, natural mixed tocopherols

Lithium (orotate) 1 mg

OFFERS THE ESSENTIAL TRACE ELEMENT LITHIUM TO SUPPORT HEALTHY MENTAL FUNCTION, INCLUDING MOOD, EMOTION, MEMORY AND BEHAVIOR†

Lithium is an essential micronutrient with some chemical properties similar to calcium and magnesium. It is present in all organs and tissues in the body. Lithium has a long history of clinical use for supporting healthy mood and behavior, the mechanisms for which involve promoting dopamine and serotonin neurotransmitter activity. Lithium also plays a role in gene expression of natural detoxification enzymes in the brain, including glutathione-s-transferase (GST). This offers important neuron antioxidant protection, which may also contribute to healthy spatial memory. Lithium may support healthy brain receptor function and brain-signaling cascades to maintain healthy mental function.†

1 capsule daily, with a meal.

Each (size 1) vegetarian capsule contains:

Lithium (as lithium orotate)	1 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Not to be taken by pregnant or lactating women. Consult your health professional before using this product. Not to be taken in conjunction with antidepressants unless advised by a health professional. Individuals with bipolar disorder or depression must be monitored closely by a health professional if taking this supplement. It is recommended that individuals taking this supplement have lithium levels and kidney function monitored regularly. Do not exceed the dose recommended by your health professional.

Lithium (orotate) 5 mg

OFFERS THE ESSENTIAL TRACE ELEMENT LITHIUM TO SUPPORT HEALTHY MENTAL FUNCTION, INCLUDING MOOD, EMOTION, MEMORY AND BEHAVIOR[†]

This formula offers 5 mg elemental lithium combined with N-acetyl-L-cysteine (NAC). Lithium is an essential micronutrient with a long history of use for supporting healthy mood and behavior by promoting dopamine and serotonin neurotransmitter activity. NAC is a precursor to glutathione, the major antioxidant in the brain, and is included for enhanced protection of brain cell membranes.¹

1 capsule daily, with a meal.

Each (size 1) vegetarian capsule contains:

Lithium (as lithium orotate)	5 mg
N-Acetyl-L-cysteine (free-form)	200 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate, hypoallergenic plant fiber (cellulose)

Not to be taken by pregnant and lactating women. Consult your health professional before using this product. Not to be taken in conjunction with antidepressants unless advised by a health professional. Individuals with bipolar disorder and depression must be monitored closely by a health professional if taking this supplement. Liver-G.I. Detox[†]

DUAL SUPPORT FOR LIVER AND GASTROINTESTINAL DETOXIFICATION[†]

The ingredients in this formula are combined to stimulate both liver and gastrointestinal detoxification. N-acetyl-L-cysteine and alpha lipoic acid are antioxidants that boost tissue glutathione levels. The combined actions of curcumin and silymarin include enhancing phase II detoxification enzymes, supporting glutathione synthesis and promoting gastric, colon and liver cell functions. Sulforaphane, from broccoli sprout concentrate, is considered one of the most powerful inducers of phase II enzyme activity and has also demonstrated a role in maintaining healthy colon cell function. The amino acids glycine, taurine and methionine support detoxification pathways in the liver. L-Glutamine helps to maintain healthy intestinal integrity, ensuring proper nutrient utilization while limiting the amount of toxins that pass through the intestinal barrier. Artichoke extract aids the digestive process by promoting healthy bile flow and intestinal motility while also supporting hepatic cell function and blood flow in the liver. Chlorella, the most studied "green food," is traditionally celebrated for its digestive, cleansing and blood purifying properties. Furthermore, its nutrient rich matrix includes vitamins, minerals, protein, carotenoids and flavone compounds.²

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Alpha lipoic acid (thioctic acid)	100 mg
N-Acetyl-L-cysteine (free-form)	100 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	125 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant)(standardized to contain a minimum of 400 mcg sulforaphane)	100 mg
Artichoke (<i>Cynara scolymus</i> L.) extract (leaf)	125 mg
Taurine (free-form)	225 mg
Glycine (free-form)	225 mg
L-Glutamine (free-form)	225 mg
L-Methionine (free-form)	100 mg
Chlorella (<i>Chlorella</i> spp.) powder (cracked cell wall)	200 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Longevity Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX FOR HEALTHY AGING†

Indications:

- Support for men and women over 40

Vitamin/Mineral Distinctions:

- Vitamin A as a blend of pre-formed vitamin A and beta carotene
- Vitamin E as a blend of d-alpha tocopherol and mixed tocopherols
- Vitamin B₁₂ as a blend of activated methylcobalamin and adenosylcobalamin
- Vitamins K₁, 80 mcg K₂ and 25 mcg (1,000 IU) vitamin D₃ to support cellular, bone and heart health[†]
- Enhanced levels of ChromeMate® chromium polynicotinate and biotin for metabolic support[†]

Special Features:

- Easy-to-swallow capsule size
- Convenient 4-capsule daily dose
- Promotes cellular energy production with adenosylcobalamin and CoQ₁₀; adenosylcobalamin is the form of vitamin B₁₂ active in mitochondria, boosting mitochondrial energy (ATP) production. Animal studies suggest it specifically enhances mitochondrial bioenergetics, promotes type IIA fast twitch muscle fiber size during aging, and stabilizes neuro-muscular junctions.[†]

CognitivePro Complex[†]

- Cognizin® citicoline promotes choline and phospholipid composition in the brain, essential for neuronal communication and protection, as well as daily mental task performance. Provides targeted support for healthy brain cell function with Curcumin C3 Complex.[†]

Cardio Polyphenol Complex[†]

- Maintains healthy blood vessel function with polyphenols from pomegranate and grape seed extract.[†]

MacularSynergy Extra[†]

- Offers advanced macular and retinal protection with lutein, zeaxanthin and synergistic cofactors vitamin C, vitamin E, zinc and carotenoids.[†]

2 capsules, 2 times daily, with meals.

Two (size 0) vegetarian capsules contain:

Vitamin A (as vitamin A acetate and 50% beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	125 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	33.5 mg
Vitamin K (as vitamin K ₁)	42.5 mcg
Thiamin (as thiamin HCl) (B ₁)	5 mg
Riboflavin (as vitamin B ₂ and 61% riboflavin 5' phosphate (activated B ₂))	6 mg
Niacin (as niacin and 56% niacinamide)	22.5 mg
Vitamin B ₆ (as pyridoxine HCl and 57% pyridoxal 5' phosphate (activated B ₆))	5.85 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin and 50% adenosylcobalamin)	500 mcg

Biotin	1,000 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Iodine (as potassium iodide)	100 mcg
Zinc (as zinc citrate)	12 mg
Selenium (as selenomethionine)	100 mcg
Manganese (as manganese citrate)	1 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as molybdenum glycinate chelate) (TRAACS™)	75 mcg
Vitamin K ₂ (menaquinone-7)	80 mcg
Mixed tocopherols	20 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg
Inositol	62.5 mg
Alpha lipoic acid (thioctic acid)	37.5 mg
Coenzyme Q ₁₀	25 mg

MacularSynergy Extra[†]

FloraGLO® lutein	5 mg
Zeaxanthin	1 mg

CognitivePro Complex[†]

Cognizin® citicoline	50 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	50 mg

Cardio Polyphenol Complex[†]

Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	37.5 mg
Pomegranate (<i>Punica granatum</i>) extract (whole fruit) (standardized to contain 40% punicosides)	25 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate, hypoallergenic plant fiber (cellulose)

Lutein 20 mg

ANTIOXIDANT AND LIGHT-FILTERING PROTECTION FOR HEALTHY VISUAL FUNCTION†

Lutein is a carotenoid found in a vast number of fruits and vegetables. Pure Encapsulations' free-form Lutein is structurally identical to the lutein found naturally in spinach and other leafy greens. Like other carotenoids, lutein has antioxidant activity in various tissues but is one of only two that are stored within the retina, where lutein promotes the integrity and density of the macular pigment, a key component of ocular health. Multiple clinical studies suggest a direct relationship between lutein supplementation and macula lutein concentration. Lutein uptake reportedly occurs in the receptor layer of the eye through a soluble carotenoid-binding protein called tubulin. Clinical trials have indicated that lutein specifically supports vision health through a combination of pigment associated antioxidant protection and light-screening mechanisms. Furthermore, a two-year, double-blind, placebo-controlled pilot study reported that lutein may support healthy visual function in older individuals more efficiently than alpha tocopherol.†

1 softgel capsule, 1-2 times daily, with meals.

Each (size 6) softgel capsule contains:

FloraGLO® lutein	20 mg
Other ingredients: gelatin capsule (gelatin, glycerin, water), safflower oil, beeswax, mixed tocopherols	

†FloraGLO is a registered trademark of Kemin Industries, Inc.

Lutein/Zeaxanthin

UNIQUE CAROTENOIDS THAT SPECIFICALLY SUPPORT THE MACULA AND OVERALL VISUAL FUNCTION†

Lutein and zeaxanthin are the two major carotenoid pigments stored in the macula, the central part of the retina. They are believed to promote the integrity and density of the macular pigment through antioxidant properties. In addition, they help form a protective layer that filters light, maintaining healthy photoreceptor function in the macula. Increased intake of these carotenoids is associated with increased macular concentration. Numerous double-blind, placebo-controlled trials indicate that lutein and zeaxanthin support the health of the optical lens as well as the retina. Additionally, recent research has revealed that the combination may target different areas in the retina to enhance total retinal health, photoreceptor health and color vision.†

1 capsule daily, with a meal.

Each (size 0) vegetarian capsule contains:

FloraGLO® lutein	10 mg
Zeaxanthin	2 mg
Other ingredients: hypoallergenic plant fiber (cellulose), red beet root powder, vegetarian capsule (cellulose, water)	

†FloraGLO is a registered trademark of Kemin Industries, Inc.

LVR Formula

PROTECTS AND PROMOTES LIVER CELL HEALTH AND TISSUE FUNCTION[‡]

LVR Formula helps support liver function with antioxidants designed to offer multifaceted liver cell protection. The flavonoid components in silymarin, curcumin and artichoke have free radical scavenging activities, helping to protect and promote liver cell health. Studies indicate that silymarin supports healthy liver metabolism, hepatocyte protein synthesis and DNA integrity within the liver cells. Curcumin offers additional cellular protection support. Luteolin is a key component found in artichoke. Research suggests that it promotes healthy matrix metalloproteinase activity to support healthy liver tissue. N-Acetyl-L-cysteine (NAC) is a precursor of the endogenous antioxidant glutathione. In the body, NAC supports healthy detoxification processes. Experimental models suggest that the antioxidant properties of alpha lipoic acid provide further liver cell protection.¹

1 capsule, 2 times daily, between meals.

Each (size 00) vegetarian capsule contains:

Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	150 mg
Artichoke (<i>Cynara scolymus</i>) extract (leaf)	100 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	150 mg
N-Acetyl-L-cysteine	100 mg
Alpha lipoic acid (thioctic acid)	100 mg
Luteolin	5 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Lycopene 20 mg

TOMATO CAROTENOID FOR ANTIOXIDANT AND CELLULAR SUPPORT[‡]

Our Lycopene provides a natural tomato extract rich in lycopene, various carotenoids, vitamin E and other important phytochemicals. Data from over 47,000 participants in the Health Professionals Follow-Up Study suggested that tomato or lycopene intake was positively associated with prostate cell health. In another study involving 30 male subjects, supplementation with lycopene promoted healthy prostate function. This was one of the first randomized, prospective clinical trials to suggest that a lycopene supplement, rather than dietary tomato consumption, supported prostate health. Research compiled in a multi-center study involving ten European countries revealed that the antioxidant properties of dietary lycopene supported cardiovascular health. Fifty-seven epidemiological studies indicate that lycopene from tomato consumption or tomato-based products may help digestive, lung, cervical and breast cell health. Lycopene has also demonstrated potential for promoting retinal and macular health.¹

1 capsule, 1-2 times daily, with meals.

Each (size 12) softgel capsule contains:

Calories	5
Lycopene	20 mg
Other ingredients: rice bran oil, gelatin capsule (gelatin, glycerin, water), beeswax, soy lecithin

M/R/S Mushroom Formula

COMBINATION OF IMMUNOMODULATING MUSHROOMS TO SUPPORT IMMUNE FUNCTION[†]

There are over 20,000 different mushroom species, and at least 50 of which have been determined to influence immune responses. The common attribute consistent among these species appears to be the polysaccharides, constituents shown to achieve additional immune system support. Polysaccharides from maitake, reishi and shiitake are believed to be among the most nutritionally supportive for healthy immune function. Wide-ranging health properties of mushroom supplementation include liver, cardiovascular, healthy glucose metabolism and cellular health support.[†]

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Maitake mushroom (<i>Grifola frondosa</i>) extract (fruiting body)	200 mg
Reishi mushroom (<i>Ganoderma lucidum</i>) extract (fruiting body)	200 mg
Shiitake mushroom (<i>Lentinus edodes</i>) extract (fruiting body)	200 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Maca-3

COMBINES VARIOUS MACA EXTRACTS TO PROVIDE THE SYNERGY OF CONSTITUENTS PRIZED FOR PROMOTING MALE AND FEMALE LIBIDO AND HEALTHY REPRODUCTIVE SYSTEM FUNCTION[†]

Maca, cultivated in the highlands of Peru, has long been considered the ginseng of the Andes, supporting energy, stamina and vitality. For centuries, it has been associated with supporting healthy libido and sexual performance. Studies indicate that this effect appears independent of any influence on testosterone or other hormones, further supporting the safety of maca. In addition to traditional use, several recent trials involving male subjects indicate its potential for supporting healthy sexual desire and performance. Maca has also been associated with promoting healthy female sexual interest and healthy reproductive system function.[†]

1 capsule, 1-2 times daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Maca (<i>Lepidium meyenii</i>) extract (tuber) (standardized to contain 0.6% macamides and macaenes)	225 mg
Maca (<i>Lepidium meyenii</i>) extract (tuber) (standardized to contain 0.1% glucosinolates)	225 mg
Maca (<i>Lepidium meyenii</i>) extract (tuber)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Macular Support Formula[‡]

COMPREHENSIVE ANTIOXIDANT FORMULA FOR HEALTHY EYES[‡]

Macular Support Formula is a combination high in antioxidants and botanicals designed to protect and support the macula, the central area of the retina responsible for sharp vision. Since the macula is extremely susceptible to free radical damage, research emphasizes the importance of antioxidant supplementation in maintaining and improving macular health. N-acetyl-L-cysteine, a glutathione precursor, has been shown to protect against oxidative damage to the lens and to support healthy glutathione levels. Glutathione is one of the natural antioxidants found in retinal tissues. Bilberry, containing anthocyanidins, may help moderate visual fatigue and improve light to dark adjustments. Combined with these cofactors, grape seed extract helps provide antioxidant balance in the retina. This formula is also enhanced with lutein and zeaxanthin, the only two carotenoids found in macular pigment. Lutein and zeaxanthin promote the integrity and density of the macular pigment, as well as help maintain the health of the optical lens. The antioxidant activity of carotenoids and vitamin C provide optimal macular protection and ocular health.¹

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	7,500 mcg
Vitamin C (as ascorbic acid)	800 mg
N-Acetyl-L-Cysteine (free-form)	250 mg
Setria® glutathione (reduced)	50 mg
Bilberry (<i>Vaccinium myrtillus</i>) extract (fruit) (standardized to contain 25% anthocyanosides)	80 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
FloraGLO® lutein	10 mg
Zeaxanthin	2 mg

Magnesium (citrate)

HIGHLY BIOAVAILABLE MAGNESIUM CHELATE

Magnesium activates the enzymes necessary for a number of physiological functions, including neuromuscular contractions, cardiac function, and the regulation of the acid-alkaline balance in the body. In a cross-sectional study involving 210 elderly individuals, optimal magnesium intake was associated with positive mood, lipid metabolism and lean body mass. Magnesium is necessary for the metabolism of carbohydrates, amino acids and fats, as well as energy production and the utilization of calcium, phosphorus, sodium and potassium. In a 15-year study involving almost 5,000 young adults, higher intakes of magnesium were associated with healthy cardiovascular function and glucose utilization. Another large cross-sectional study found that magnesium intake was positively associated with bone mineral density in certain subgroups. This vital mineral also helps utilize some vitamins, including vitamin B₆, vitamin C and vitamin E.¹

1-4 capsules daily. Consume with food.

Magnesium Gummy

SUPPORT CARDIOMETABOLIC, NEUROCOGNITIVE AND MUSCULOSKETEAL HEALTH*

Many U.S. adults fall short of the recommended dietary allowance (RDA; 400-420 mg for men and 310-320 mg for women). Nearly half (48%) of Americans fail to meet the estimated average requirement (EAR) for magnesium (255-350 mg), an amount that is estimated to meet the needs of 50% of healthy individuals. Magnesium plays essential roles in neuronal communication (neurotransmission), supporting the function of GABA and other key neurotransmitters with calming and relaxing effects. Accordingly, higher dietary magnesium intakes are associated with healthy responses to stress, positive mood, and emotional well-being. Magnesium also plays an important role in muscle relaxation. Each gummy provides 150 mg of magnesium citrate, a highly bioavailable form better absorbed than magnesium oxide.[†]

Adults and children ages 9 and up, take 1 gummy daily.

One gummy contains:

Calories	15
Total carbohydrate	4 g
Dietary fiber	1 g
Total sugars	<0.5 g
Includes <0.5 g added sugars	
Magnesium (as magnesium citrate)	150 mg

Other ingredients: fructooligosaccharides, pectin, agar, tapioca starch, purified water, natural mixed berry and vanilla flavors, citric acid, black carrot concentrate (color), trisodium citrate, carnauba wax

Manganese (aspartate/citrate)

TRACE MINERAL FOR CONNECTIVE TISSUE AND BONE SUPPORT*

Manganese supports numerous enzymes necessary for the utilization of biotin, thiamine and ascorbic acid. It is a catalyst in the synthesis of fatty acids and cholesterol, and plays a part in protein, carbohydrate and fat production. It is also a necessary cofactor for the endogenous antioxidant superoxide dismutase. Manganese is necessary for normal skeletal development and maintenance of connective tissue and cellular integrity. In addition, it influences the synthesis of mucopolysaccharides, which comprise an important component of connective tissue[†]

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Manganese (as manganese aspartate and 50% as manganese citrate)	8 mg

Melatonin 0.5 mg

SUPPORTS THE BODY'S NATURAL SLEEP CYCLE[†]

Melatonin is a hormone produced by the pineal gland, which regulates the body's sleep/wake cycle. Melatonin's primary role is regulation of the body's circadian rhythm, endocrine secretions, and sleep patterns. Studies indicate that it facilitates the onset of sleep, as well as sleep efficiency.[†]

1 capsule daily, 1/2 to 1 hour before bedtime.

Each (size 3) vegetarian capsule contains:

Melatonin 0.5 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Consult a healthcare professional if you are experiencing long-term sleep difficulties, before use in children, before use in pregnant or lactating women, those with a medical condition, and those taking medication. Do not drive or operate machinery when taking melatonin. This product may be contraindicated with autoimmune disease or for individuals taking corticosteroids.

Memory Pro‡

COMPREHENSIVE MEMORY SUPPORT FORMULA; WITH LUTEIN/ZEAXANTHIN AND SOY-FREE†

This formula combines acetyl-L-carnitine, phospholipids and herbal extracts to promote neural health, cognitive function and memory. Research suggests that acetyl-L-carnitine supports memory in older adults. Phosphatidylserine is an important cell membrane component critical for neuron function and communication. Research suggests that it promotes healthy neurotransmitter levels and spatial memory. The Ayurvedic herb *Bacopa monniera* promotes memory as well as mental function and information processing. *Ginkgo biloba* promotes cerebral blood flow, vascular integrity and healthy red blood cell and platelet function in the brain. Lutein and zeaxanthin are the primary carotenoids in the macula, but have also recently been identified as the primary carotenoids in the brain. Research studies have found a positive association between lutein and zeaxanthin intake, macular pigment density and cognitive function. This association is believed to be due to antioxidant defense and cytokine balance properties, helping to promote neuronal membrane stability and function. Curcumin, resveratrol and lemon balm extracts help to protect neurons from oxidative stress. Additionally, curcuminoids and resveratrol

support healthy vascular tissue in the brain by promoting phagocytosis and proteasome activity. The soothing properties of lemon balm are highlighted in one double-blind, randomized, placebo-controlled trial, indicating that it promoted relaxation and cognitive function in elderly individuals.‡

3 capsules daily, with or between meals.

Three (size 00) vegetarian capsules contain:

Acetyl-L-carnitine	750 mg
Sharp-PS® GREEN phosphatidylserine (from sunflower lecithin) (soy-free)	50 mg
<i>Ginkgo biloba</i> extract (leaf) (standardized to contain 24% ginkgoheterosides and 6% terpene lactones)	60 mg
FloraGLO® lutein	6 mg
Zeaxanthin	1 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	250 mg
Lemon balm (<i>Melissa officinalis</i>) extract (leaf) (standardized to contain 5% rosmarinic acid)	125 mg
Trans-resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root))	20 mg
Bacopa (<i>Bacopa monnieri</i>) extract (aerial parts) (standardized to contain 20% bacosides)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Men's Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX FOR MEN OVER 40

Indications:

- Men over 40

Vitamin/Mineral Distinctions:

- Yeast-derived selenium, vitamin D, and zinc for optimal prostate health[†]

Special Features:

- MacularSynergy Complex[†]**
Enhances the integrity of the macula and retina with 6 mg lutein and 1 mg zeaxanthin. Synergistic cofactors include vitamin C, vitamin E, zinc and carotenoids.[†]
- ProstaProtect Plus[†]**
Supports prostate function with saw palmetto and pygeum and maintains healthy prostate cells with lycopene and green tea. Synergistic cofactors include selenium, vitamin D and zinc.[†]
- Cardio Polyphenol Complex[†]**
Maintains healthy blood vessel function with polyphenols from pomegranate, red wine concentrate and grape seed extract.[†]
- EnduraBoost Blend[†]**
Combines astragalus and maca to promote cellular energy, endurance and stamina.[†]

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	125 mg
Vitamin D (as cholecalciferol) (D ₃)	12.5 mg (500 IU)
Vitamin E (as d-alpha tocopherol succinate)	34 mg
Vitamin K (as vitamin K ₁)	50 mcg
Thiamin (as thiamin HCl) (B ₁)	12.5 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	17.4 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Calcium (as calcium citrate)	100 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	100 mg
Zinc (as zinc citrate)	7.5 mg
Selenium (from selenium yeast)	100 mcg
Manganese (as manganese citrate)	1 mg
Chromium (as chromium polynicotinate)	100 mcg
Potassium (as potassium citrate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg
Inositol	62.5 mg
Alpha lipoic acid	37.5 mg

MacularSynergy Complex[†]

FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg

ProstaProtect Plus[†]

Saw palmetto (<i>Serenoa repens</i>) extract (fruit) (standardized to contain 45% total fatty acids)	160 mg
Pygeum (<i>Pygeum africanum</i>) extract (bark) (standardized to contain 2.5% total sterols)	25 mg
Lycopene	500 mcg
Green tea (<i>Camellia sinensis</i>) (leaf) (standardized to contain 65% total tea catechins and 23% epigallocatechin (EGCG))	25 mg

Cardio Polyphenol Complex[†]

Red wine grape (<i>Vitis vinifera</i>) concentrate (whole fruit) (standardized to contain 25% total polyphenols)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
Pomegranate (<i>Punica granatum</i>) extract (whole fruit) (standardized to contain 40% punicosides)	25 mg

EnduraBoost Blend[†]

Maca (<i>Lepidium meyenii</i>) extract (tuber)	100 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	50 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Men's Pure Pack

Daily Packet

With Metafolin® L-5-MTHF

Indications:

- Supports energy and stamina[†]
- Supports cardiovascular, macular and prostate health[†]
- For men over 40

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- 37.5 mcg (1,500 IU) vitamin D₃ and yeast-derived selenium to support prostate health[†]

[†]This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Special Features:

- Maintains healthy cardiovascular function with omega-3 fatty acids, CoQ₁₀ and polyphenols from pomegranate, red wine concentrate and grape seed extract[†]
- Supports prostate function with saw palmetto and pygeum and maintains healthy prostate cells with lycopene and green tea[†]
- Combines astragalus and maca with nutrient cofactors to promote energy, endurance and stamina[†]
- Enhances the integrity of the macula and retina with lutein, zeaxanthin and nutrient cofactors[†]
- Convenient, once-daily packet

Each Packet Contains:

Men's Nutrients 3 vegetarian capsules »See page 116

- Multivitamin/mineral complex for men over 40

EPA/DHA essentials 1 softgel capsule »See page 74

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

Vitamin D₃ 1 vegetarian capsule »See page 197

- Support for bone, prostate, cardiovascular, colon and immune health[†]

CoQ₁₀ 1 vegetarian capsule »See page 58

- Natural, fermented, trans-isomer CoQ₁₀

Saw Palmetto Plus 1 softgel capsule »See page 177

- Wide range support for prostate health[†]

Magnesium (citrate) 1 vegetarian capsule »See page 111

- Highly bioavailable magnesium chelate for heart and muscle function[†]

Take 1 packet daily (8 capsules), with a meal.

Eight capsules contain:

Calories	20
Total fat	2 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	125 mg
Vitamin D (as cholecalciferol) (D ₃)	37.5 mg (1,500 IU)
Vitamin E	40 mg
(as d-alpha tocopherol succinate and natural tocopherols)	
Vitamin K (as vitamin K ₁)	50 mcg
Thiamin (as thiamin HCl) (B ₁)	12.5 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	17.4 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin [®] , L-5-MTHF) 667 mcg DFE (400 mcg L-5-MTHF)	
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Calcium (as calcium citrate)	100 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	250 mg
Zinc (as zinc citrate)	7.5 mg
Selenium (from selenium yeast)	100 mcg
Manganese (as manganese citrate)	1 mg

Chromium (as chromium polynicotinate)	100 mcg
Potassium (as potassium citrate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg
Inositol	62.5 mg
Alpha lipoic acid	37.5 mg
Coenzyme Q ₁₀	60 mg
FloraGLO [®] lutein	3 mg
Zeaxanthin	500 mcg
Lycopene	500 mcg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (standardized to contain 65% total tea catechins and 23% epigallocatechin (EGCG))	25 mg
Red wine grape (<i>Vitis vinifera</i>) concentrate (whole fruit) (standardized to contain 25% total polyphenols)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
Pomegranate (<i>Punica granatum</i>) extract (whole fruit) (standardized to contain 40% punicosides)	25 mg
Maca (<i>Lepidium meyenii</i>) extract (tuber)	100 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	50 mg
Saw palmetto (<i>Serenoa repens</i>) extract (fruit) (standardized to contain 212 mg total fatty acids)	320 mg
Pumpkin (<i>Cucurbita pepo</i>) oil (seed) (fresh pressed)	320 mg
Nettle (<i>Urtica dioica</i>) extract (root)	200 mg
Pygeum (<i>Pygeum africanum</i>) extract (bark)	45 mg
Fish oil concentrate (anchovies, sardines, mackerel)	1,000 mg
Providing:	
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg

Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, sunflower lecithin, beeswax, carob

MenoVive

Formulated with Felice Gersh, M.D.[†]

BROAD-RANGE SUPPORT FOR MENOPAUSAL HEALTH AND COMFORT, MOOD, LIBIDO, MENTAL SHARPNESS AND CARDIOVASCULAR FUNCTION[†]

HMRlignan™ contains the lignan 7-hydroxymatairesinol, a precursor to enterolactone, which has been associated with a healthy estrogen-to-progesterone ratio and cellular health. As a result, lignans have demonstrated supportive roles in moderating hot flashes as well as promoting breast, uterine, cervical, bone and cognitive health. Importantly, dietary intake of lignans and healthy serum enterolactone levels are also positively associated with healthy cardiovascular function. Lifenol® hops extract contains 8-prenylnaringenin (8-PN), offering support for menopausal comfort, antioxidant defense and bone health. Two randomized, double-blind, placebo-controlled studies indicated that Lifenol® hops extracts provided support for general menopausal discomfort, night sweats and hot flashes. Questionnaire results scored at six to eight weeks after supplementation suggest that hot flashes were reduced by three to four times compared to placebo. Ashwagandha, rhodiola and maca extracts are adaptogens offering support for positive mood and relaxation. Two randomized controlled trials indicated that ashwagandha offers support for occasional stress and promotes healthy sleep, cognitive function and relaxation. In addition to promoting emotional well-being, maca also offers support for sexual function. While rhodiola has long been known to support endurance, recent research suggests that it may act as a selective estrogen receptor modulator to support cognitive, cardiovascular and bone health related to menopause. Grape seed extract and resveratrol support menopausal comfort, as well as bone, cognitive and cardiovascular health. In a randomized controlled trial, resveratrol supplementation decreased menopausal symptom intensity in 78.6% of patients. Numerous studies suggest grape seed polyphenols promote healthy blood vessel relaxation and antioxidant defenses to promote cardiovascular health.[†]

1 capsule, twice daily, with meals.

Each (size 00) vegetarian capsule contains:

HMRlignan™ (containing 7-hydroxymatairesinol) (from Norway spruce knot wood)	36 mg
Lifenol® hops (<i>Humulus lupulus</i>) extract (female cone) (standardized to contain 0.15% 8-prenylnaringenin)	42.5 mg
KSM-66 Ashwagandha® (<i>Withania somnifera</i>) extract (root)	125 mg
Maca (<i>Lepidium meyenii</i>) extract (tuber)	250 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
resVida® resveratrol (as trans-resveratrol)	12.5 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

Not to be taken by pregnant or lactating women.

KSM-66 Ashwagandha® is a registered trademark of Ixoreal Biomed Inc.

HMRlignan™ is a trademark of Linnea Inc.

Metabolic Xtra

SUPPORTS HEALTHY GLUCOSE METABOLISM[†]

Metabolic Xtra is a powerful combination of nutrients that helps support insulin receptor function as well as healthy glucose metabolism. The natural plant alkaloid berberine enhances the expression and function of insulin receptors. In a randomized, placebo-controlled trial involving 116 subjects, berberine provided statistically significant support for healthy glucose and lipid metabolism. Resveratrol promotes healthy AMPK and SIRT1 protein levels to support cellular metabolism and glucose homeostasis. In a randomized, double-blind, placebo-controlled, four-week study, resveratrol supported healthy insulin signaling and antioxidant defenses. The trace mineral chromium plays an important role in nutrient metabolism, as well as enzyme activation. Optimal levels of chromium promote healthy carbohydrate and fat utilization. ChromeMate® has been clinically studied for its potential role in supporting healthy body composition when combined with a healthy diet and exercise. Alpha lipoic acid supports healthy receptor function and glucose metabolism.[†]

I-Methionine

LIVER AND TISSUE SUPPORT†

I-Methionine is an essential amino acid that contains sulfur, which is an important component of cartilage building blocks such as proteoglycans and glycosaminoglycans. I-Methionine is incorporated into tissue proteins and enzymes and is a component of active peptides, including I-methionine enkephalin and various endorphins. One of the main roles of I-methionine is as a methyl donor, contributing to numerous physiological pathways in the body including formation of myelin components. In one such pathway, I-methionine converts to s-adenosylmethionine. Studies have indicated that I-methionine may promote healthy cellular metabolism, enzyme activity and glutathione concentration. I-Methionine, like choline and betaine, is also a lipotropic compound supporting lipid metabolism and healthy hepatic function. In combination with antioxidants, I-methionine may play a role in healthy pancreas function.†

1 capsule, 2-3 times daily, between meals.

Each (size 1) vegetarian capsule contains:

I-Methionine (free-form)	375 mg
Other ingredients: vegetarian capsule (cellulose, water)	

Liver & Detoxification

MethylAssist

PROVIDES ACTIVATED B VITAMINS TO SUPPORT HEALTHY METHYLATION, CARDIOVASCULAR, NEURONAL AND EMOTIONAL HEALTH†

Folate, vitamin B₁₂, and vitamin B₆ offer cardiovascular support by promoting healthy endothelial function and the conversion of homocysteine to methionine in the synthesis of S-adenosyl-methionine, an important methyl donor used in methylation reactions. Methylation involves the transfer of a methyl group (CH₃) from one molecule to another. This methyl group acts as a signal throughout the body, regulating genetic expression and cellular function. Healthy methylation is vital for cellular health, hormone and neurotransmitter production, and energy metabolism. Optimal levels of B vitamins have been associated with neurological and psychological health. Folate is provided in this formula as Metafolin®, the naturally occurring, universally metabolized form of folate. Metafolin® is chemically identical to the active folate metabolite, 5-methyltetrahydrofolate (L-5-MTHF). L-5-MTHF is the predominant, naturally occurring form of folate in food. Through bypassing several enzymatic activation steps, it is directly usable by the body and provides all of the benefits of folic acid regardless of functional or genetic variations. Research suggests that folate and benfotiamine enhance healthy endothelial function, vascular dilation and nitric oxide status, as well as help maintain healthy nervous system function and comfort. In a randomized, controlled study, benfotiamine supported healthy nerve conduction velocity and nerve comfort. In another trial, a combination of L-methylfolate, methylcobalamin and pyridoxal-5-phosphate promoted healthy epidermal nerve fiber density and nerve comfort.†

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	16 mg
Folate (as Metafolin®, L-5-MTHF)	1,667 mcg DFE (1,000 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	1,000 mcg
BenfoPure® benfotiamine	75 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

BenfoPure® is a registered trademark of Hamari Chemicals USA, Inc.

Methylcobalamin 1,000 mcg

SUPPORTS ENERGY PRODUCTION, NEUROLOGICAL HEALTH AND EMOTIONAL WELLNESS[†]

Vitamin B₁₂ is an important cofactor for energy metabolism. It works with folate in the methionine synthase pathway, which supports healthy homocysteine metabolism in the synthesis of S-adenosyl-methionine (SAME), an important methyl donor. As such, it supports methylation for key biochemical reactions occurring in blood cells, neurons, the vasculature and many other tissues. Through this pathway, Vitamin B₁₂ is required for proper red blood cell formation, neurological function and DNA synthesis. The activated and methylated form methylcobalamin is the primary form found in the cytosol of cells and predominates in blood and other fluids. This is the form of vitamin B₁₂ primarily used for SAME production, making it an important nutrient for healthy cell development, including red blood cells.[†]

1 capsule, 1-3 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Vitamin B ₁₂ (as methylcobalamin)	1,000 mcg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

MicroDefense w/Oregano

COMBINATION OF PLANT EXTRACTS DESIGNED TO SUPPORT HEALTHY GASTROINTESTINAL TRACT FUNCTION AND MICROBIAL BALANCE[†]

Artemisia, which contains artemisinin, has been used traditionally for thousands of years to promote healthy microbial balance within the body. Oregano oil powder offers antioxidant and microbial-balancing properties. In vitro and animal research suggests that oregano oil and clove can diffuse through microbial cell membranes, promoting membrane permeability. Berberine sulfate is a highly concentrated microbial-balancing compound. Olive leaf extract contains the active constituent oleuropein, a phenolic glucoside that helps maintain healthy G.I. microorganism balance and may help support immune function.[†]

1 capsule, 1-3 times daily, just before a meal, with 6-8 oz water, for 2-3 months.

Each (size 00) vegetarian capsule contains:

Berberine sulfate	100 mg
Olive (<i>Olea europaea</i>) extract (leaf) (standardized to contain 15% oleuropein)	100 mg
Sweet wormwood (<i>Artemisia annua</i>) extract (aerial parts)	150 mg
Clove (<i>Syzygium aromaticum</i>) powder (bud)	50 mg
Oregano (<i>Origanum vulgare</i>) oil extract (leaf and flower)	100 mg
Other ingredients: vegetarian capsule (cellulose, water)	

Not to be taken by pregnant or lactating women.

Mineral 650®

COMPLETE CHELATED-MINERAL FORMULA; COMPREHENSIVE MINERAL SUPPORT FOR DAILY WELLNESS*

This is a highly absorbable, balanced combination of chelated minerals. By providing minerals in a controlled ratio, this formula prevents minerals from competing with each other for absorption in the digestive tract.†

3 capsules, 1-2 times daily, with meals.

Three (size 0) vegetarian capsules contain:

Calcium (as calcium citrate)	150 mg
Iron (as iron glycinate)	5 mg
Iodine (as potassium iodide)	50 mcg
Magnesium (as magnesium citrate)	125 mg
Zinc (as zinc picolinate)	12.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.5 mg
Chromium (as chromium polynicotinate)	100 mcg
Molybdenum (as molybdenum aspartate)	50 mcg
Potassium (as potassium aspartate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as vanadium aspartate)	50 mcg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately. Mitochondria-ATP

SUPPORTS CELLULAR ENERGY AND MITOCHONDRIAL HEALTH†

CoQ10 is a component of the mitochondria and plays a key role in the synthesis of ATP. B vitamins are important cofactors needed to fuel the Krebs cycle, while optimal serum levels of magnesium are associated with healthy mitochondrial metabolism and nutrient transport. Nicotinamide riboside chloride (NR) is precursor of nicotinamide adenine dinucleotide (NAD+), a key driver of cellular energy production. Some evidence suggests that NAD+ declines with age in humans. NAD+ activates SIRT1, an epigenetic switch that regulates metabolism, mitochondrial biogenesis, cellular energy production and cellular longevity. Higher NAD+ levels are associated with healthy mitochondrial function. Acetyl-L-carnitine provides carnitine to transport long chain fatty acids into the mitochondria for energy as well as an acetyl group for the synthesis of the Krebs cycle precursor acetyl-CoA. Highly pure creatine monohydrate helps enhance the production of the ATP by adding a phosphate group during its formation. This formula provides antioxidant support with vitamins C and E, as well as resveratrol, alpha lipoic acid and N-acetyl-L-cysteine. Antioxidants neutralize the free radicals generated during energy production in the mitochondria. In a double-blind, placebo-controlled, crossover study, the combination of creatine, CoQ10 and alpha lipoic acid supported energy production and antioxidant status within the mitochondria.†

2 capsules, 2 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	100 mg
Vitamin E (as d-alpha tocopherol succinate)	17 mg
Thiamin (as thiamin HCl) (B1)	10 mg
Riboflavin (vitamin B2)	7.5 mg
Magnesium (as magnesium citrate/malate)	50 mg
Nicotinamide riboside chloride (NR)	50 mg
Creatine monohydrate	375 mg
Acetyl-L-carnitine (free-form)	250 mg
Trans-resveratrol (from Japanese knotweed (Polygonum cuspidatum) extract (root))	30 mg
N-Acetyl-L-cysteine (free-form)	50 mg
Alpha lipoic acid (thioctic acid)	50 mg
Coenzyme Q10	30 mg
Other ingredients: vegetarian capsule (cellulose, water)

MotilPro

ADVANCED GUT-SIGNALING SUPPORT FORMULA,
SUPPORTING SEROTONERGIC AND CHOLINERGIC
FUNCTION FOR HEALTHY GUT MOTILITY*

MotilPro supports serotonergic and cholinergic neurotransmission in the G.I. tract. 5-HTP is absorbed by enterochromaffin cells in the epithelium, in which it is decarboxylated to serotonin using pyridoxal 5' phosphate as a cofactor. 5-HTP stimulates enteric neurons through activation of 5HT4 receptors. Ginger modulates serotonin signaling by additional 5HT4 stimulation and by binding type 3 (5HT3) receptors in the enteric nervous system and brain stem, supporting gastric emptying, intestinal transit, healthy visceral sensation and upper G.I. comfort. Acetyl-L-carnitine supports autonomic neuronal health and contributes acetyl groups for the synthesis of acetylcholine, supporting neurotransmission of signals to encourage healthy motility.†

3 capsules, 1-2 times daily, between meals.

Three (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	6.7 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	1,000 mg
Acetyl-L-carnitine (free-form)	500 mg
5-Hydroxytryptophan	50 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken by pregnant or lactating women. If you have any health condition or are taking any medication, particularly psychiatric medications, consult your health professional before use. Do not use concurrently with antidepressants.

MSM capsules (methylsulfonylmethane)

PROVIDES SULFUR TO SUPPORT JOINT, IMMUNE AND
RESPIRATORY HEALTH†

Pure Encapsulations' MSM (methylsulfonylmethane or dimethylsulfone) is a source of organic sulfur found naturally in the human body. MSM, the major metabolite of DMSO (dimethyl sulfoxide), is 34% elemental sulfur, a compound which is crucial in maintaining healthy tissues. While sulfur supports many functions, it is well-known for maintaining connective tissue health. Sulfur also supports tissue containing significant amounts of collagen and keratin, including hair, skin and nails. Sulfur is essential in methionine, cysteine and serum protein metabolism. Preliminary evidence suggests that MSM may also provide potential support for healthy immune and respiratory function.†

2 capsules, 1-4 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Methylsulfonylmethane (MSM)	1,700 mg
Other ingredients: vegetarian capsule (cellulose, water)	

OptiMSM® is a registered trademark of Bergstrom Nutrition.

Multi t/d

With Metafolin® L-5-MTHF

TWICE-DAILY MULTIVITAMIN/MINERAL COMPLEX FOR DAILY WELLNESS[†]

Multi t/d is a two-per-day multivitamin/mineral formula providing a concentrated core of nutrient essentials. Enhanced with lutein and zeaxanthin, this formula couples fundamental support with convenience. Furthermore, Multi t/d provides chelated minerals and active vitamin cofactors found in Nutrient 950® and UltraNutrient® for optimal bioavailability and utilization.[†]

Indications:

- For improved compliance with convenient two-per-day dosing
- For sensitive individuals

Vitamin/Mineral Distinctions:

- Provides core vitamin and mineral support[†]

Special Features:

- **MacularSynergy Complex[†]**
Enhances the integrity of the macula and retina with lutein and zeaxanthin. Synergistic cofactors include vitamin C, vitamin E, zinc and carotenoids.[†]

1 capsule, 2 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Vitamin A (as beta carotene)	675 mcg
Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	12.5 mg (500 IU)
Vitamin E (as d-alpha tocopherol succinate)	34 mg
Thiamin (as thiamin HCl) (B ₁)	25 mg
Riboflavin (as vitamin B ₂ and 28% as riboflavin 5' phosphate (activated B ₂))	17.35 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% as pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Iodine (as potassium iodide)	100 mcg
Zinc (as zinc picolinate)	7.5 mg
Selenium (as selenomethionine)	50 mcg
Chromium (as chromium polynicotinate)	100 mcg

Proprietary mixed carotenoid blend (as lutein, lycopene and zeaxanthin)	212 mcg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

®FloraGLO is a registered trademark of Kemin Industries, Inc.

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

Muscle Cramp/Tension Formula[†]

HELPS LESSEN OCCASIONAL NIGHTTIME OR EXERCISE-RELATED LEG MUSCLE CRAMPS AND EASE MUSCLE TENSION[†]

The electrolytes magnesium, calcium and potassium are important for maintaining healthy muscle contractile function. In several trials, magnesium supported leg muscle comfort by helping to lessen occasional nighttime cramping while relieving occasional sleeplessness. The traditionally soothing botanicals lemon balm, passion flower and chamomile also help to relieve occasional muscle tension. Additionally, these herbal extracts moderate occasional stress and promote overall relaxation.[†]

2 capsules, 1-2 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Calcium (as calcium citrate)	50 mg
Magnesium (as magnesium citrate and 33% as magnesium glycinate)	150 mg
Potassium (as potassium citrate)	50 mg
Passionflower (<i>Passiflora incarnata</i>) extract (aerial parts)	100 mg
Lemon balm (<i>Melissa officinalis</i>) extract (leaf)	50 mg
Chamomile (<i>Matricaria recutita</i>) extract (flower)	50 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Muscle Repair +

CLINICALLY SHOWN TO ACCELERATE MUSCLE REPAIR AFTER EXERCISE[†]

Muscle Repair+ is a studied combination of nicotinamide (vitamin B₃) and pyridoxine (vitamin B₆) that accelerates muscle cell repair, recovery and regeneration after exercise. Nicotinamide and pyridoxine were recently identified as bioactive nutrients that enhance the activation and differentiation of muscle stem cells, which enable skeletal muscles to adapt, grow and regenerate in response to exercise. The clinical efficacy of this combination was evaluated in a randomized, double blind, placebo-controlled trial of 42 healthy men between 18-50 years of age, who received the combination of niacinamide (714 mg) and pyridoxine (19 mg) or placebo for 8 days following eccentric exercise-induced muscle damage triggered by electrical stimulation. Supplementation significantly increased the proportion of actively regenerating muscle fibers relative to placebo after 8 days of daily use following exercise induced muscle damage. The supplemented group exhibited a 35% greater number of activated muscle stem cells and a 14% mean increase in muscle fiber recovery rate compared to the placebo group. This formula is ideal for active adults and athletes seeking support for muscle repair.[‡]

2 capsules daily.

Two (size 0) capsules contains:

Niacin (as niacinamide)	714 mg
Vitamin B ₆ (as pyridoxine HCl)	19 mg
Other ingredients: vegetarian capsule (cellulose, water), microcrystalline cellulose	

WARNING: If you are pregnant, feeding a baby your breastmilk, taking any medication, or have any health condition, consult your healthcare practitioner before use. Discontinue use and consult your healthcare practitioner if any adverse reactions occur.

NAC + Glycine powder

N-ACETYL-L-CYSTEINE AND GLYCINE COMBINATION TO SUPPORT GLUTATHIONE PRODUCTION, IMMUNE DEFENSE AND DETOXIFICATION*

Glutathione is one of the main endogenous antioxidants, acting in the body to recycle other antioxidants and protect the body from free radicals, as well as support detoxification. It is found in virtually every cell of the body and plays a critical role in cell function. Increased glutathione levels have been linked to supporting a reduction in oxidative stress and DNA damage. Cysteine and glycine are necessary precursors for glutathione (GSH) synthesis, and co-supplementation of these nutrients promotes intracellular glutathione levels. The body requires amounts of cysteine and glycine that may not be met by dietary intake alone, particularly as we age.

In a small study involving older individuals, two weeks of supplementation with N-acetylcysteine (NAC) and/or glycine indicated that the combination NAC + glycine raised red blood cell (RBC) glutathione levels more effectively than either amino acid alone. In one study, supplementation with the combination of NAC and glycine resulted in 32% higher RBC glycine, 46% higher RBC cysteine and a 53% increase in RBC GSH concentration. There was also a significant improvement in the ratio of reduced (active) GSH to oxidized glutathione (GSSG). Increased GSH was associated with improvement in antioxidant status as measured by F2-isoprostanes, as well as mitochondrial fatty acid oxidation. In another study comparing young and older subjects, elderly subjects had 55% lower RBC glycine, 24% lower RBC cysteine and 46% lower RBC glutathione at baseline, as well as lower reduced (active) GSH to GSSG ratios. Supplementation with NAC and glycine in elderly subjects resulted in RBC levels of glycine, cysteine and glutathione, as well as GSH:GSSG ratio, comparable to young un-supplemented subjects. NAC and glycine have been shown to maintain healthy cytokine release during times of metabolic stress. Research

suggests that glycine may moderate TNF-a and promote IL-10 to support cytokine balance, and intake has been associated with cardiometabolic health. Studies indicate that supplementation with NAC supports mood and social functioning. It is believed that cysteine influences the reward-reinforcement pathway by modulating the glutamate system. NAC also promotes immune defense and supports respiratory health, acting as a free radical scavenger to support epithelial cell health and healthy cilia activity in the respiratory tract. It has a high affinity for lung tissue, which it supports through mucolytic and antioxidant action.¹

Due to its sulfur content, NAC is able to disrupt disulfide bonds within mucus, thinning and easing its expulsion. In a randomized, double-blind trial involving mostly older individuals, 600 mg of NAC twice-daily showed significant support for respiratory and immune function.²

1 scoop daily, mixed with 8 oz water, between meals.

Each scoop (approximately 5.3 g) contains:

N-Acetyl-L-cysteine (free-form)	1,800 mg
Glycine (free-form)	1,800 mg

Other ingredients: natural peach, mango, orange and ginger flavors with other natural flavors, potassium citrate, tri-magnesium citrate, purified stevia leaf extracts

Consume within 120 days after opening

NeuroMood Pure Pack

Formulated with James Greenblatt, M.D.[†]

Daily Packet

With Metafolin® L-5-MTHF

Indications:

- Support for healthy neurotransmitter function, positive mood and emotional wellness[†]

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- 50 mcg (2,000 IU) vitamin D₃
- Easily tolerated magnesium glycinate for sensitive individuals

Special Features:

- Promotes positive mood and relaxation with omega-3-fatty acids, folate, vitamin B₆, zinc and magnesium[†]
- Maintains healthy immune function and emotional balance with omega-3 fatty acids and curcumin[†]
- Enhances neurotransmitter function with curcumin, activated B vitamins and chromium[†]
- Curcumin promotes healthy levels of serotonin and dopamine, and offers support for neuronal health and function[†]
- Activated B vitamins, including Metafolin® L-5-MTHF, pyridoxal 5' phosphate and methylcobalamin, are critical for proper biosynthesis of the monoamine neurotransmitters serotonin, epinephrine and dopamine[†]
- Taurine helps facilitate cell communication and acts as an inhibitory amino acid to support relaxation and positive mood[†]
- Chromium supports serotonin receptor sensitivity[†]
- Supports cognitive function and healthy eating behavior[†]
 - Omega-3 essential fatty acids promote healthy cholecystokinin (CCK) release to moderate appetite[†]
 - Optimal levels of zinc help maintain healthy eating behaviors, possibly by supporting healthy neuropeptide Y (NPY) and ghrelin levels, key compounds for appetite regulation[†]
 - Chromium supports memory and cognitive function as well as healthful patterns of carbohydrate and energy intake[†]
- Convenient, once-daily packet

Each Packet Contains:

O.N.E.™ Multivitamin 1 vegetarian capsule »See page 132

- Blend of vitamins, minerals and sustained-release CoQ₁₀ to promote cellular and neurotransmitter function[†]

EPA/DHA essentials 1 softgel capsule »See page 74

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

NeuroPure 1 vegetarian capsule »See page 127

- Comprehensive neurotransmitter support to promote emotional well-being[†]

Magnesium (glycinate) 1 vegetarian capsule »See page 112

- Highly bioavailable form of magnesium to support neurotransmitter synthesis and neuronal function[†]

Taurine 1 vegetarian capsule »See page 182

- Support for relaxation and healthy brain function[†]

1 packet daily (5 capsules), with a meal.

Five capsules contain:

Calories	10
Total Fat	1 g
Cholesterol	< 5 mg
Vitamin A (as vitamin A acetate and 73% beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	180 mg
Vitamin D (as cholecalciferol) (D ₃)	50 mcg (2,000 IU)
Vitamin E (as d-alpha tocopherol succinate and mixed tocopherols)	20 mg
Thiamin (as thiamin HCl) (B ₁)	3 mg
Riboflavin (as vitamin B ₂ and 43% riboflavin 5' phosphate (activated B ₂))	3 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 67% pyridoxal 5' phosphate (activated B ₆))	7.5 mg
Folate (as Metafolin®, L-5-MTHF)	1,083 mcg DFE (650 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg
Choline (as choline bitartrate)	25 mg
Iodine (as potassium iodide)	150 mcg
Magnesium (as magnesium glycinate)	120 mg
Zinc (as zinc citrate and 17% zinc picolinate)	30 mg
Selenium (as selenomethionine)	70 mcg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as TRAACS™ molybdenum glycinate chelate)	75 mcg
Boron (as boron glycinate)	1 mg

Inositol	25 mg
Coenzyme Q ₁₀ (as CoQ ₁₀ and as 18% from MicroActive® CoQ ₁₀ -cyclodextrin complex)	50 mg
Alpha lipoic acid	50 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Lycopene	500 mcg
DL-Phenylalanine (free-form)	350 mg
5-Hydroxytryptophan	50 mg
Meriva® turmeric phytosome (turmeric (<i>Curcuma longa</i>) extract (root) and phospholipid complex) (standardized to contain 18% curcuminoids)	125 mg
Quercetin	50 mg
Taurine (free-form)	1,000 mg
Fish oil concentrate (from anchovies, sardines, mackerel)	1,000 mg
Providing:	
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg
Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, potato starch

NeuroPure

Soy-Free

Formulated with James Greenblatt, M.D.*

OFFERS KEY NUTRIENTS TO SUPPORT OVERALL NEUROTRANSMITTER FUNCTION, NEURONAL HEALTH AND EMOTIONAL BALANCE†

- Provides enhanced support for emotional balance and mood stability†
- Promotes the production of both serotonin and dopamine†
- Includes the serotonin and dopamine neurotransmitter precursors 5-HTP and DL-phenylalanine†
- Contains the cofactors vitamin B₆, Metafolin® L-5-MTHF and zinc to support neurotransmitter production†
- Supports phenylethylamine (PEA) activity, which plays important roles in emotional wellness†
- Supports healthy serotonin receptor and monoamine oxidase enzyme function with curcumin†
- Maintains healthy cytokine balance with curcumin and quercetin to support neurotransmitter synthesis and emotional balance†
- Supports optimal serum levels of zinc and folate to promote positive mood†

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	6.7 mg
Folate (as Metafolin®, L-5-MTHF)	833 mcg DFE (500 mcg L-5-MTHF)
Zinc (as zinc picolinate)	10 mg
DL-Phenylalanine (free-form)	700 mg
5-Hydroxytryptophan	100 mg
Meriva® turmeric phytosome (turmeric (<i>Curcuma longa</i>) extract (root) and sunflower phospholipid complex (standardized to contain 18% curcuminoids)	250 mg
Quercetin	100 mg
Other ingredients: vegetarian capsule (cellulose, water)

Niacinamide

SUPPORTS GLUCOSE METABOLISM AND METABOLIC FUNCTION†

Niacinamide does not cause the vasodilation ("flush") associated with niacin. Research indicates that niacinamide may support healthy glucose metabolism and protect pancreatic beta cell function. In a meta-analysis of 10 randomized controlled trials, niacinamide supplementation promoted healthy C-peptide levels, insulin metabolism and beta cell function. In another study, niacinamide helped maintain healthy C-peptide levels and glucose metabolism. In a 12-week, randomized double-blind trial involving 72 subjects, niacinamide provided statistically significant support for joint flexibility.†

2 capsules, 1-3 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Niacin (as niacinamide) 1,000 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Cardiovascular Health

Niacinamide	Quantity	Order Code
	90	NIA29

Niacitol® 500 mg (no-flush niacin)

WELL TOLERATED NIACIN FORM TO SUPPORT CARDIOVASCULAR HEALTH†

Niacitol® provides inositol nicotinate, a form of no-flush niacin (vitamin B₃) with a history of use in Europe for healthy cardiovascular support. Niacitol® is a well-tolerated form of vitamin B₃ and is unlikely to cause the flushing or other side effects that are associated with niacin. Inositol nicotinate is composed of one molecule of inositol and six molecules of niacin.†

1 capsule, 1-4 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Niacin (as inositol nicotinate) 500 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Nitric Oxide Support

SUPPORTS NITRIC OXIDE PRODUCTION AND HEALTHY BLOOD FLOW†

- Contains arginine, a nitric oxide precursor, to support healthy circulation and delivery of oxygen to working muscle†
- Provides citrulline to delay the onset of muscle fatigue, maintain acid-base balance, promote aerobic energy production in muscle cells during exercise and enhance arginine and nitric oxide production†
- Includes vitamin C to enhance nitric oxide activity and provide blood vessel endothelial antioxidant protection†

1 scoop daily, mixed with water, 20 minutes before exercise.

Serving size: 5.4 g (1 scoop)

Servings per container: 30

One scoop contains:

Vitamin C (as ascorbic acid) 200 mg
L-Arginine (from arginine alpha ketoglutarate (2:1)) 2,050 mg
Citrulline (from citrulline malate) 715 mg
Other ingredients: xylitol, stevia leaf extract, luo han guo (*Momordica grosvenorii*) extract (fruit), natural lemon and lime flavors

Nitric Oxide Support	Quantity	Order Code
	5.7 oz (162 g)	NOS16

Nitric Oxide Ultra (capsules)

CITRULLINE AND RESEARCHED FRUIT EXTRACTS TO SUPPORT NITRIC OXIDE PRODUCTION AND HEALTHY BLOOD FLOW[†]

Nitric Oxide Ultra (capsules) offers a blend of CranLoad® and citrulline to support healthy blood flow by targeting nitric oxide production and flow-mediated dilation. The formula centers around CranLoad®, a fruit blend developed as part of an extensive research program with the Institute of Nutrition and Functional Foods (INAF) and Université Laval in Quebec, Canada. CranLoad® delivers a unique cranberry and grape seed blend that has been the subject of several trials. Cranberries and grapes are particularly generous sources of proanthocyanidins and other polyphenols. In addition to being antioxidants, these compounds offer specific vascular support mechanisms that are associated with enhanced endothelial function. Research indicates that CranLoad® provides statistically significant support for healthy flow-mediated dilation (FMD), an effect similar to arginine administration. FMD reflects blood vessel dilation mediated by nitric oxide synthase (NOS), an enzyme that generates the endogenous vasodilator, nitric oxide. In one study, the peak increase in brachial artery diameter following CranLoad® supplementation was 2.8% at 60 minutes. A similar physiological effect has been demonstrated with arginine. Citrulline is included to support nitric oxide production in the blood vessel endothelium and other tissues. Research indicates that citrulline increases plasma arginine in a dose-dependent manner and to a greater degree than arginine supplementation.¹

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

l-Citrulline (free-form)	1,000 mg
CranLoad® proprietary blend providing cranberry (<i>Vaccinium macrocarpon</i>) extract (fruit) and grape (<i>Vitis vinifera</i>) extract (seed)	382 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

CranLoad® is a trademark of Société des Produits Nestlé S.A. used under license by Pure Encapsulations, LLC.

NR Longevity™

WITH NIAGEN® NICOTINAMIDE RIBOSIDE; DECREASES THE EFFECTS OF CELLULAR AGING[†]

NR Longevity is specially designed to target biological processes that decline with age, such as the body's natural ability to make energy, build new mitochondria and protect cells from oxidative stress. Nicotinamide riboside (NR), resveratrol and sulforaphane promote healthy aging by replenishing NAD+, enhancing mitochondrial function and providing antioxidant support, respectively. Nicotinamide riboside (NR) is a form of vitamin B3 that acts as a precursor of nicotinamide adenine dinucleotide (NAD+), which plays a critical role in cellular energy production. NAD+ activates enzymes in the sirtuin family, considered to be master switches of metabolism and regulators of aging. Notably, NAD+ activates SIRT1, an epigenetic switch that regulates metabolism and supports mitochondrial biogenesis, cellular energy production and cellular longevity. Higher NAD+ levels are associated with healthy mitochondrial function. Conversely, cellular NAD+ levels decline with age, and can decrease by up to 50% over the adult lifespan. Supplementing with NR enhances NAD+ levels, supporting the function of NAD+ dependent enzymes that maintain cellular energy production and repair. NR has been clinically shown to increase NAD+ levels in as little as 2 weeks. Resveratrol and sulforaphane promote longevity in model organisms. Both compounds enhance cellular antioxidant defenses, helping to protect cells against oxidative stress that increases with age and contributes to age-related cellular decline. Resveratrol activates the AMPK/SIRT1/PGC-1alpha axis, a pathway that enhances mitochondrial function and supports normal cellular repair while sulforaphane activates Nrf2, a genomic switch that stimulates expression of genes involved in antioxidant defense, cellular protection and mitochondrial biogenesis. Nrf2 is a transcription factor that supports robust, long-lasting expression of numerous genes responsible for phase II detoxification and protection against oxidative stress. Among these genes are glutathione peroxidase, superoxide dismutase and various phase II enzymes, such as glutathione sulfotransferases. Nrf2 also supports expression of glutathione glutamylcysteinyl ligase, which is responsible for a critical step in the biosynthesis of glutathione, a vital component of cellular antioxidant and detoxification systems.¹

2 capsules, 1-2 times daily, with or between meals.

Two (size 00) capsules contain:

Nicotinamide riboside chloride (NR)	300 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain 800 mcg sulforaphane)	200 mg

Trans-resveratrol 150 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), organic rice extract blend (organic rice bran extract, organic rice hulls, organic gum arabic, organic sunflower oil)

Nrf2 Detox

TARGETS NRF2 TO SUPPORT DETOXIFICATION AND ANTIOXIDANT DEFENSES[†]

Cruciferous vegetables of the brassica family have long been recognized for their ability to support detoxification thereby maintaining healthy cells and tissues. Cruciferous vegetables, like broccoli, cauliflower, Brussels sprouts and kale, are the richest sources of glucosinolates, which are considered to be the most bioactive constituents. Glucosinolates are converted in the body to isothiocyanates after they are ingested and hydrolyzed. The isothiocyanate sulforaphane is one of the most powerful activators of phase II enzyme function in the liver, supporting toxin elimination. Sulforaphane and resveratrol promote the activity of nuclear factor erythroid 2-related factor 2 (Nrf2), a transcription factor that supports robust, long-lasting expression of numerous genes responsible for detoxification and protection against oxidative stress. Among these genes are glutathione peroxidase, superoxide dismutase and various phase II enzymes, such as glutathione S-transferases. Nrf2 also supports expression of glutathione glutamylcysteinyl ligase, which is responsible for a critical step in the biosynthesis of glutathione, a vital component of cellular antioxidant and detoxification systems. Found in virtually every cell of the body, glutathione plays essential roles in protein synthesis and repair of DNA, enzyme function, transport and cell maturation. Optimal levels of glutathione have been associated with physical and mental health. The highest concentration of glutathione is found in the liver, where it offers antioxidant support, protects tissue and maintains detoxification. In a randomized clinical trial, supplementation with 250 and 1,000 mg of Setria[®] glutathione per day increased glutathione levels in the blood after one, three and six months. At six months, mean glutathione levels in the high-dose group increased 30-35% in erythrocytes, plasma and lymphocytes, and 260% in buccal cells (P<0.05). In the low-dose group, mean glutathione levels increased 17% and 29% in blood and erythrocytes, respectively (P<0.05). Both glutathione dose groups showed support for antioxidant defenses, indicated by decreases in the oxidized-to-reduced-glutathione ratio in whole blood after six months.¹

1 capsule, 1-3 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain 1,000 mcg sulforaphane)	250 mg
Setria [®] glutathione (reduced form)	250 mg
resVida [®] resveratrol (as trans-resveratrol)	15 mg

NSK-SD[®] (Nattokinase) 100 mg

PROMOTES HEALTHY FIBRINOLYTIC ACTIVITY FOR HEALTHY BLOOD FLOW AND CARDIOVASCULAR FUNCTION[†]

Nattokinase, a fibrinolytic enzyme isolated from Japanese natto, helps to maintain healthy activity of the body's natural clotting and fibrinolytic processes. In an animal study conducted by Biotechnology Research Laboratories and JCR Pharmaceuticals of Kobe, Japan, nattokinase promoted healthy blood flow. Furthermore, researchers from JCR Pharmaceuticals, Oklahoma State University and Miyazaki Medical College indicated that nattokinase supports healthy clotting function compared to placebo. In 1995, scientists at the Miyazaki Medical College and Kurashiki University in Japan demonstrated the potential for nattokinase to support blood vessel health in human subjects. This product is contraindicated for individuals with a history of bleeding tendency or with conditions associated with bleeding. Due to potential synergistic effects, concurrent use with anticoagulant and blood pressure medications should be closely supervised by a health professional.¹

1 capsule, 2 times daily, 12 hours apart, with or between meals.

Each (size 2) vegetarian capsule contains:

NSK-SD [®] nattokinase (2,000 FU) (soy)	100 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate	

NSK-SD[®] is a registered trademark of Japan Bio Science Laboratories.

Contains soy

Not to be taken by pregnant or lactating women.

Nutrient 950[®]

All variations with Metafolin[®] L-5-MTHF

MULTIVITAMIN/MINERAL FORMULA FOR OPTIMAL HEALTH[†]

Indications for Nutrient 950[®] series:

- Men and women ages 18 and over

Vitamin/Mineral Distinctions:

- Activated vitamins and chelated minerals for optimal absorption
- 500 mg vitamin C for enhanced immune support[†]
- Formulas with and without iron, copper, iodine and vitamin K

Special Features:

- Mixed carotenoids, providing beta carotene, lycopene, lutein and zeaxanthin for antioxidant protection[†]

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	2,250 mcg
Vitamin C (as ascorbic acid)	500 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as d-alpha tocopherol succinate)	134 mg
Thiamin (as thiamin HCl) (B ₁)	50 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	34.75 mg
Niacin (as niacinamide and 42% inositol hexaniacinatate)	86 mg
Vitamin B ₆ (as pyridoxine HCl and 39% pyridoxal 5' phosphate (activated B ₆))	20.5 mg
Folate (as Metafolin [®] , L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	200 mg
Calcium (as calcium citrate)	150 mg
Iron (as iron glycinate)	5 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	100 mg
Zinc (as zinc picolinate)	12.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.5 mg
Chromium (as chromium polynicotinate)	100 mcg
Molybdenum (as molybdenum aspartate)	50 mcg
Potassium (as potassium aspartate)	49.5 mg
Boron (as boron glycinate)	1 mg
Vanadium (as vanadium aspartate)	100 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	425 mcg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

Metafolin[®] is a registered trademark of Merck KGaA, Darmstadt, Germany.

ChromeMate[®] brand niacin-bound chromium. ChromeMate[®] & logo are trademarks of Lonza or its affiliates.

O.N.E.™ Multivitamin

With Metafolin® L-5-MTHF

ONCE-DAILY NUTRIENT ESSENTIALS WITH SUSTAINED-RELEASE CoQ₁₀

Indications:

- Men and women age 18 and over

Vitamin Distinctions:

- Provides vitamins A, B, C, D and E in highly bioavailable forms
- Includes Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- Convenient one-capsule-per-day dosing
- Antioxidant complex includes alpha lipoic acid and a blend of CoQ₁₀ and sustained-release, water-soluble, MicroActive® Q₁₀
- Choline and inositol for healthy cognitive function[†]
- Supports cellular health with 500 mcg lycopene and 50 mcg (2,000 IU) vitamin D[†]
- Helps maintain macular and retinal health with 3 mg lutein and 500 mcg zeaxanthin[†]

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Vitamin A (as vitamin A acetate and 73% beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	180 mg
Vitamin D (as cholecalciferol) (D ₃)	50 mcg (2,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	20 mg
Thiamin (as thiamin HCl) (B ₁)	3 mg
Riboflavin (as vitamin B ₂ and 43% riboflavin 5' phosphate (activated B ₂))	3 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 38% pyridoxal 5' phosphate (activated B ₆))	4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg
Choline (as choline bitartrate)	25 mg
Iodine (as potassium iodide)	150 mcg
Zinc (as zinc citrate)	25 mg
Selenium (as selenomethionine)	70 mcg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as TRAACS™ molybdenum glycinate chelate)	75 mcg
Boron (as boron glycinate)	1 mg
Inositol	25 mg
Coenzyme Q ₁₀ (as CoQ ₁₀ and as 18% from MicroActive® CoQ ₁₀ -cyclodextrin complex)	50 mg
Alpha lipoic acid	50 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Lycopene	500 mcg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, potato starch

Olive Leaf extract

SUPPORTS THE IMMUNE SYSTEM AND PROMOTES A HEALTHY INTESTINAL ENVIRONMENT*

The Mediterranean olive tree, *Olea europaea*, defends itself against bacteria, fungi, parasites and insects through the eutrophic compounds it produces. Its leaf extract is popular in herbal and folk remedies and has benefited individuals for 150 years. The active nutrient in the olive leaf is oleuropein, a phenolic glucoside (structurally classified as an iridoid). The olive leaf also contains the bioflavonoids rutin, luteolin and hesperidin, which work synergistically with oleuropein to enhance its natural activity. Olive Leaf extract provides natural protection and a healthy environment for cells, without suppressing immune system function or harming beneficial microflora.†

1 capsule, 1-2 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Olive (<i>Olea europaea</i>) extract (leaf)	500 mg
(standardized to contain 15% oleuropein)	

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

OptiFerin-C

SUPPORTS RED BLOOD CELL FUNCTION AND ENERGY PRODUCTION[†]

OptiFerin-C is an iron-based supplement formulated to support red blood cells in order to help effectively transport oxygen and ferritin in the body. Ferrochel® brand iron bis-glycinate was developed using unique patented chemistry, allowing rapid absorption from the lumen of the intestines into mucosal cells and then released for transport throughout the body. The intestinal mucosal tissue tightly controls the release of Ferrochel®, supporting the safety profile of this iron amino acid chelate. In a double-blind, randomized, placebo-controlled trial, iron supplementation supported healthy ferritin levels as well as enhanced energy and well-being in female subjects. Research emphasizes the importance of maintaining healthy serum ferritin for optimal performance in elite female athletes. This formula includes buffered vitamin C (as calcium ascorbate) to help enhance the absorption of iron.[†]

1 capsule, 1-3 times daily, with meals.

Each (size 2) vegetarian capsule contains:

Vitamin C (from calcium ascorbate blend)	100 mg
Calcium (from calcium ascorbate blend)	11 mg
Iron (as iron bis-glycinate)	28 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate, hypoallergenic plant fiber (cellulose)	

Ferrochel is a registered trademark of Albion Laboratories, Inc. Covered by U.S. Patent 7,838,042.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

OsteoBalance[†]

COMPREHENSIVE, HIGH CALCIUM BONE SUPPORT FORMULA[†]

OsteoBalance provides 514 mg of calcium per serving from calcium citrate/malate and calcium malate, along with a comprehensive profile of important bone-building nutrients. Calcium citrate/malate has excellent bioavailability and provided bone mass support for postmenopausal women with low dietary calcium intake in a two-year, double-blind placebo-controlled trial. One study indicated that concomitant supplementation of the trace minerals zinc, copper and manganese with calcium citrate/malate helped to promote healthy bone metabolism in postmenopausal subjects. Magnesium supports healthy bone mineral density and boron plays an important role in reducing urinary calcium and magnesium excretion. Like boron, vitamin D₃ reduces urinary calcium loss but is also a key nutrient because it enhances calcium absorption.[†]

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10.7 mcg (428 IU)
Calcium (as di-calcium malate (DimaCal™))	514 mg
Magnesium (as di-magnesium malate) (Albion™)	64 mg
Zinc (as zinc picolinate)	12 mg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	2.1 mg
Boron (as boron glycinate)	0.85 mg
Silica (from bamboo)	10.7 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

DimaCal™ and Albion™ are registered trademarks of Albion Laboratories, Inc. U.S. Patent 6,706,904.

P₅P 50 (activated B₆)

ACTIVATED B₆; SUPPORTS ENERGY METABOLISM, CARDIOVASCULAR AND NEUROLOGICAL HEALTH[†]

Pyridoxal 5' phosphate (P₅P) is the active metabolite of pyridoxine and is the predominant form of plasma B₆. P₅P is required for proper absorption of B₁₂ and magnesium, and for the production of gastric HCl. It is an important coenzyme in the metabolism of carbohydrates, fats and proteins, and the elongation of essential fatty acids. It is required for the production of antibodies and red blood cells. P₅P facilitates the release of glycogen (used in energy production) from the liver and muscles. In addition, P₅P helps maintain the balance of sodium and potassium, which regulates body fluids and promotes the healthy functioning of the nervous and musculoskeletal systems.¹

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Vitamin B₆ (as pyridoxal 5' phosphate) (activated B₆) 50 mg
 Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Panax Ginseng

SUPPORT FOR MILD STRESS; PROVIDES 12% GINSENOSES TO PROVIDE SUPPORT FOR MILD STRESS[†]

Panax ginseng has long been utilized to assist the body in adapting to physical and emotional stress. During prolonged exercise, Panax ginseng promotes endurance and stamina to support energy production. Panax ginseng also encourages adrenal gland health in times of occasional stress by maintaining healthy levels of certain adrenal hormones, most notably, corticosterone. This versatile herb has shown potential support for testosterone and spermatozoa levels in animal studies, and has also shown support for male reproductive health in human studies. In addition, Panax ginseng promotes memory and learning, and nutritionally supports immune function and cardiovascular health.¹

1 capsule, 2-3 times daily, between meals.

Each (size 1) vegetarian capsule contains:

Asian ginseng (*Panax ginseng*) extract (root) 250 mg
 (standardized to contain 12% total ginsenosides)
 Other ingredients: vegetarian capsule (cellulose, water)

Mental Health & Stress Support

Pancreatic Enzyme Formula

Acid-resistant capsules

ENZYME SUPPORT FOR DIGESTIVE FUNCTION[†]

This formula is designed to aid the body's natural digestive process. It provides a highly concentrated form of enzymes naturally secreted by the pancreas which are essential to the digestion of food and absorption of nutrients. The formula contains lipase, which digests fat; proteases, which digest protein; and amylases, which digest starch. This formula is offered in acid-resistant capsules to maximize delivery to the G.I. tract.¹

1 capsule, 3 times daily, with each meal.

Each (size 00) vegetarian capsule contains:

Pancreatin (from porcine) (lactose free) 500 mg
 Providing:
 Lipase 17,500 USP units
 Protease 110,000 USP units
 Amylase 120,000 USP units

Other ingredients: vegetarian capsule (cellulose, gellan gum, water), hypoallergenic plant fiber (cellulose)

Pancreatic VegEnzymes

VEGETARIAN ENZYME SUPPORT FOR DIGESTIVE FUNCTION[†]

This enzyme blend provides a broad-acting formulation derived from the plant sources *Aspergillus oryzae* and *Aspergillus niger*. It is a vegetarian alternative to Pancreatic Enzyme Formula for carbohydrate, lipid and protein digestion. These enzymes have several unique properties that enhance their ability to promote the optimal breakdown of foods and nutrients, including broad substrate specificity. This means that these enzymes have the ability to recognize and help digest a large number of target molecules. Plant enzymes are also active in a wide pH range, from about 3.5-8.5, indicating that their actions begin in the stomach and continue in the small intestine, promoting complete digestion. Pancreatic VegEnzymes is designed to be comparable in amylase, protease and lipase profile to Pancreatic Enzyme Formula (500 mg pancreatin).[†]

1 capsule, 3 times daily, with each meal.

Each (size 3) vegetarian capsule contains:

Proprietary enzyme blend	200 mg
Providing:	
Protease 4.5	40,000 HUT
Lipase	5,000 FIP
Amylase	1,500 DU

Other ingredients: vegetarian capsule (cellulose, water), tapioca dextrin, ascorbyl palmitate

Pancreatic VegEnzymes	Quantity	Order Code

Pantethine

SUPPORTS HEALTHY LIPID METABOLISM[†]

Pantethine is the active form of the B vitamin pantothenic acid and is a major component of coenzyme A (CoA). In cells, CoA is essential for fatty acid transport and fatty acid metabolism. Several human studies demonstrate the ability of pantethine to maintain healthy utilization and metabolism of various lipids, promoting healthy cardiovascular function.[†]

2 capsules, 1-2 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Pantesin® pantethine	500 mg
Other ingredients: silica, hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Pantesin® is a registered trademark of Kyowa Pharma Chemical Co., Ltd.

Pantethine	Quantity	Order Code
	120	PA1

Pantothenic Acid

D-ISOMER PANTOTHENIC ACID FOR CELLULAR ENERGY AND ADRENAL FUNCTION[†]

Pantothenic acid is a precursor of coenzyme A (CoA), an important cofactor and acyl group carrier in cells. One of the main functions for CoA is the formation of acetyl-CoA, vital for cellular respiration and the metabolism of carbohydrates and fatty acids through the Krebs cycle. Distribution studies indicate that tissues with the highest retention of pantothenic acid are the kidneys, pituitary gland, heart, muscle, liver and adrenal glands. Additionally, pantothenic acid is required for the synthesis of fatty acids and membrane phospholipids, the amino acids leucine, arginine and methionine, and isoprenoid derivatives, including steroid hormones, vitamin A and vitamin D.[†]

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Pantothenic acid (as calcium pantothenate) (B ₅)	500 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

Pantothenic Acid	Quantity	Order Code

Peptic-Care[‡] (Zinc-L-Carnosine)

PROVIDES PATENTED SUPPORT FOR GASTRIC HEALTH AND COMFORT FOR STRENGTHENING THE STOMACH'S MUCOSAL DEFENSES, BUFFERING GASTRIC ACID, MAINTAINING GASTRIC INTEGRITY AND PROVIDING ANTIOXIDANT SUPPORT FOR OVERALL GASTRIC HEALTH AND COMFORT[†]

This patented, 1:1 chelate of zinc and L-carnosine provides a unique configuration that is important to this compound's activity. Zinc-carnosine has a slow disassociation rate and adheres to the stomach lining, allowing for prolonged protection. Once dissociated, zinc and carnosine provide synergistic antioxidant protection, support the stomach's mucosal defenses, buffer gastric acid and maintain healthy cytokine release. Studies have suggested that this combination has greater effects on the integrity of the gastric lining than either ingredient alone. One Japanese multi-center, double-blind study involving 299 subjects described a positive effect of zinc-carnosine on objective and subjective parameters of normal gastric health and repair functions, especially after 8 weeks. Seven additional clinical evaluations with more than 550 volunteers indicate similar results. In recent in vitro and in vivo studies, zinc-carnosine stimulated healthy gut repair by supporting healthy colon cell reproduction and maintaining healthy villous function. In a double-blind, randomized, crossover trial, zinc-carnosine maintained healthy gut permeability. Extensively studied and utilized in Japan, this zinc-carnosine combination has an excellent safety profile.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Zinc (from 75 mg zinc-l-carnosine complex)	16 mg
Carnosine (from 75 mg zinc-l-carnosine complex)	58 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Perilla extract

Formulated with Samuel F. Yanuck, D.C.[†]

SUPPORTS HEALTHY MODULATION OF TH2 CYTOKINES AND MUCOSAL HEALTH[†]

Perilla seed offers a concentrated source of polyphenols (including rosmarinic acid and luteolin), along with other beneficial compounds. This herb has traditionally been used to promote healthy respiratory and immune function. In animal models of Th2 dominance, perilla helped maintain healthy upper respiratory cytokine levels. Perilla extract helps support healthy modulation of Th2 cytokines, and eosinophil and mast cell activity. It also helps maintain healthy modulation of mucosal immune responses to environmental factors and cytokine homeostasis of GI mucosal tissue.[†]

1 capsule, 1-2 times daily, between meals.

One (size 2) capsule contains:

Perilla (<i>Perilla frutescens</i> L.) extract (seed) (standardized to contain 3% polyphenols)	150 mg
Other ingredients: vegetarian capsule (cellulose, water)	

[†]Dr. Yanuck is a retained advisor for Pure Encapsulations.

Phosphatidylcholine (sunflower)

PHOSPHOLIPID-BOUND CHOLINE TO SUPPORT CELLULAR FUNCTION, COGNITIVE FUNCTION AND LIVER HEALTH[†]

Phosphatidylcholine (PC) is a naturally occurring, integral component of the cellular membrane, adding fluidity and strength to cells. It serves as a source of choline, an important nutrient for methylation, cell-to-cell communication, cognition and liver function. Choline and its metabolites are the major source of methyl groups in the diet. Methylation plays many roles, including neurotransmission, vitamin assimilation, DNA synthesis and gene regulation. Choline is required for the synthesis of phospholipids and acetylcholine, a neurotransmitter involved in attention, learning, memory and neuromuscular function. Animal research suggests an adaptogenic effect when exposed to stress. Certain genetic variations in MTHFR and PEMT, enzymes that play critical roles in methylation and choline synthesis, respectively, have been associated with increased dietary choline needs. Research indicates that choline intake is important for pregnant women, particularly those with PEMT and MTHFR genetic variations. One clinical trial showed that women who consumed 480 mg of choline daily during pregnancy had offspring with faster processing speed than those who did not. PC also plays a significant role in the healthy transport and metabolism of lipids. A randomized, double blind, placebo-controlled trial suggested that choline-containing lecithin may help support healthy hepatic fat metabolism. Animal studies indicate that PC promotes healthy liver and pancreatic antioxidant activity.[†]

2 capsules daily, with a meal.

Two (size 22) softgels contain:

Calories	15

Phyto-4

CLINICALLY RESEARCHED BOTANICALS TO SUPPORT CELLULAR AND MUSCULOSKELETAL HEALTH[†]

Perlucan® is a clinically studied extract of hops specifically developed to promote joint health. In a randomized, double-blind placebo-controlled trial of 36 subjects, the benefits of Perlucan® on joint comfort reached statistical significance within two hours of the first dose and were sustained over the 14-day period. Perlucan® is free of sleep-inducing and phytoestrogenic compounds typically associated with hops extracts. The alpha and iso-alpha acids in Perlucan® maintain healthy NF-kappa B-associated expression of COX-2 and cytokines such as IL-6 and TNFα in connective tissue. Curcumin complements Perlucan® through its extensively characterized effects on cytokine-mediated signal transduction, matrix metalloproteinase (MMP) expression and multiple components of the arachidonic acid cascade. Curcumin C3 Complex® is the subject of extensive ongoing clinical investigations at numerous hospitals and universities. Ginger promotes joint health through maintaining healthy cytokine signaling in cartilage and the synovium. 5-LOXIN® Boswellia serrata extract provides the highly bioactive triterpenoid AKBA, which supports connective tissue structural composition and comfort through supporting healthy immune responses, 5-lipoxygenase activity and synovial matrix metalloproteinase 3 (MMP-3) levels. In a 3-month double-blind, placebo-controlled study of 75 subjects, significant functional support and comfort scores were evident as early as day 7.[†]

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Perlucan® hops (<i>Humulus lupulus</i>) extract (cone)	500 mg
Curcumin C3 Complex® turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	200 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	200 mg
5-LOXIN® Boswellia serrata extract Indian	100 mg
Frankincense (<i>Boswellia serrata</i>) extract (gum resin) (standardized to contain 30% 3-acetyl-11-keto-beta-boswellic acid (AKBA))	

Other ingredients: vegetarian capsule (cellulose, water), maltodextrin, silica, ascorbyl palmitate

Perlucan® trademark is used with permission.

Curcumin C3 Complex® is a registered trademark and patented product of Sabinsa Corporation.

5-LOXIN® AKBA boswellia serrata extract. 5-LOXIN® is a registered trademark of PL Thomas & Co., Inc. International patents pending.

Phyto-ADR

VEGETARIAN ADRENAL SUPPORT FORMULA[†]

This vegetarian formula provides wide range herbal and nutritional support for the adrenal glands. *Panax ginseng* and *Eleutherococcus senticosus*, or eleuthero, are highly recognized adaptogens, promoting physiological balance and moderating occasional stress. In part, they help to moderate the production of adrenocorticotrophic hormone (ACTH) and ultimately corticosterone activity. Corticosterone promotes the conversion of amino acids into carbohydrates and glycogen by the liver and stimulates glycogen formation in the tissues, supporting optimal energy reserves. *Rhodiola rosea*, containing rosavins and salidroside, also acts to balance hypothalamic-pituitary-adrenal activity. *Rhodiola* can have a calming effect on the central nervous system and supports healthy thyroid, thymus, and adrenal gland function. In particular, *rhodiola* may moderate the effects of occasional physical and emotional stress. Recently, a double-blind, crossover study suggested that *rhodiola* may help to moderate mild fatigue under stressful conditions. *Astragalus* and *ashwagandha* promote immune function and complement the adaptogenic activity of this formula. Calcium pantothenate, a vitamin B₅ derivative, is essential for activating the adrenals. Collectively, these ingredients support the health and activity of the adrenal glands.[†]

1 capsule daily, between meals.

Each (size 00) vegetarian capsule contains:

Pantothenic acid (as calcium pantothenate) (B ₅)	150 mg
Asian ginseng (<i>Panax ginseng</i>) extract (root) (standardized to contain 5% total ginsenosides)	150 mg
Eleuthero (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	100 mg
KSM-66 Ashwagandha® (<i>Withania somnifera</i>) extract (root)	150 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	50 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	150 mg
Other ingredients: vegetarian capsule (cellulose, water)	

KSM-66 Ashwagandha® is a registered trademark of Ixoreal Biomed Inc.

Not to be taken by pregnant or lactating women.

PhytoBalance II

COMPREHENSIVE SUPPORT FOR HOT FLASHES, HORMONES, AND MENOPAUSAL COMFORT*

This blend of standardized herbal extract provides multifaceted support for the body during the hormonal changes that occur during menopause. PhytoBalance II contains phytoestrogens, natural substances in plants that bind to estrogen receptor sites and exhibit weak estrogen-like activity. Black cohosh helps maintain healthy levels of luteinizing hormone, allowing for optimal comfort and physical well-being. Preliminary studies suggest that sage extract helps support menopausal comfort, including hot flashes and night sweating. Vitex helps maintain healthy prolactin secretion, and may also promote healthy dopamine levels. Grape seed extract is included to support cardiovascular and cognitive health. Research suggests the proanthocyanidins from grape seed promote menopausal comfort, as well as vascular integrity to support healthy blood flow.[†]

1 capsule daily, between meals.

Each (size 00) vegetarian capsule contains:

Black cohosh (<i>Cimicifuga racemosa</i>) extract (root) (standardized to contain 2.5% triterpene glycosides)	100 mg
Sage (<i>Salvia officinalis</i>) extract (leaf) (standardized to contain 4% rosmarinic acid)	140 mg
Licorice (<i>Glycyrrhiza glabra</i>) extract (root) (standardized to contain 20% glycyrrhizic acid)	80 mg
Motherwort (<i>Leonurus cardiaca</i>) extract (herb)	80 mg
Chaste tree (<i>Vitex agnus-castus</i>) extract (berry)	40 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	120 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), maltodextrin	

Not to be taken by pregnant or lactating women. If you have any health condition, particularly a liver condition, or are taking any medication, consult your health professional before use. Your health professional may decide to monitor liver function while taking this product.

Phyto UltraComfort[†]

PROMOTES MUSCULOSKELETAL COMFORT AND FUNCTION*

Willow bark has a long history of traditional use for musculoskeletal comfort. Several randomized human trials illustrate its actions due to salicin, a source of salicylic acid. Additionally, it helps to maintain healthy prostaglandin metabolism and blood flow. *Boswellia serrata* also has revealed the potential to provide statistically significant support for joint comfort. AKBA, or 3-acetyl-11-keto-beta-boswellic acid, may be particularly supportive in maintaining healthy 5-lipoxygenase enzyme activity and leukotriene metabolism to maintain tissue comfort. Curcumin maintains healthy cyclooxygenase-2 enzyme activity while supporting healthy prostaglandin, leukotriene and thromboxane metabolism. Devil's claw promotes both healthy cyclooxygenase-2 and 5-lipoxygenase enzyme activity. A review of 12 human studies indicates that devil's claw may promote musculoskeletal comfort and function. DL-Phenylalanine supports enkephalin activity.[†]

2 capsules, 1-3 times daily, with meals.

Two (size 00) vegetarian capsules contain:

White willow (<i>Salix alba</i>) extract (bark) (standardized to contain 15% salicin)	535 mg
Indian frankincense (<i>Boswellia serrata</i>) extract (gum resin) (standardized to contain 70% boswellic acids)	200 mg
5-LOXIN [®] - <i>Boswellia serrata</i> extract Indian frankincense (<i>Boswellia serrata</i>) extract (gum resin) (standardized to contain 30% 3-acetyl-11-keto-beta-boswellic acid (AKBA))	25 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg
Devil's claw (<i>Harpagophytum procumbens</i> and <i>Harpagophytum zeyheri</i>) extract (root) (standardized to contain 5% harpagosides)	300 mg
DL-Phenylalanine (free-form)	120 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

5-LOXIN[®] is a registered trademark of PL Thomas – Laila Nutra, LLC and is used under license. International Patents Pending.

Warning: This product contains salicylates. Do not take if allergic to aspirin. Do not combine with aspirin or other products containing salicylates. Not to be used by pregnant or lactating women. Not to be used by children (ages 18 and under). Do not take with anticoagulant or antiplatelet drugs. If you have any health condition, particularly stomach problems or ulcers, or are taking any other medications, consult your health professional before use.

PMS Essentials

SUPPORTS MENSTRUAL COMFORT AND MOOD, AND HELPS LESSEN FATIGUE AND CRAVINGS*

PMS Essentials provides a comprehensive nutrient and botanical approach to support mood, cravings, cramps and bloating associated with the menstrual cycle. Calcium plays a role in healthy smooth muscle function and menstrual comfort. Vitamin D has similar effects, attributed to its ability to promote healthy calcium levels, cyclic hormone function and neurotransmitter activity. Healthy intracellular magnesium levels have been associated with maintaining positive mood during the luteal phase. Magnesium also plays an important role in nervous system sensitivity, providing support for muscle comfort, breast comfort and emotional well-being associated with the menstrual cycle. Studies indicate the positive effect of vitamin B₆ on premenstrual mood as well as its crucial role in enhancing the effect of magnesium. Vitamin E research suggests that it helps lessen breast tenderness as well as nervous tension and fatigue associated with the menstrual cycle. Traditionally used and clinically studied, chaste tree provides significant beneficial support for the hypothalamus and pituitary via its balancing effects. Relora® may help diminish stress-related sugary snack cravings and support emotional wellness while rhodiola supports energy and mental function.¹

2 capsules, 1-2 times daily, with meals. May be used daily or during the luteal phase only, as directed by a health professional.

Two (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as d-alpha tocopherol succinate)	134 mg
Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	33 mg
Calcium (as di-calcium malate)(DimaCal™)	100 mg
Magnesium (as di-magnesium malate)(Albion™)	100 mg
Chaste tree (<i>Vitex agnus-castus</i>) extract (fruit)	200 mg
Relora®	270 mg

Patented proprietary blend of:

magnolia (*Magnolia officinalis*) extract (bark) and
phellodendron (*Phellodendron amurense*) extract (bark)

Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	50 mg
---	-------

Other ingredients: vegetarian capsule (cellulose, water), modified food and corn starch, ascorbyl palmitate, silicon dioxide

Albion™ and DimaCal™ are trademarks of Albion Laboratories, Inc.

Relora® is a Lonza trademark, registered in USA.

Not to be taken by pregnant or lactating women. If you are taking any psychiatric medication, consult your health professional before use. Do not use concurrently with antidepressants.

Policosanol 20 mg

SUPPORTS HEALTHY LIPID METABOLISM AND CARDIOVASCULAR HEALTH*

Policosanol is a mixture of long-chain aliphatic alcohols that naturally occur in sugar cane. Over a decade of short-term and long-term clinical research involving thousands of subjects reveals the efficacy, safety and tolerability of policosanol. The promising results of randomized, double-blind, placebo-controlled trials, including comparative studies, suggest that policosanol supports cardiovascular health. Though the mechanism for cardiovascular support of this substance remains unclear, policosanol may act in part by providing antioxidant protection, promoting healthy platelet function, and supporting healthy lipid metabolism. At the highest dosage recommended by Pure Encapsulations, policosanol may support healthy lipid metabolism in some individuals¹

1 capsule, 1-2 times daily, with meals.

Each (size 3) vegetarian capsule contains:

Policosanol	20 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Lesstanol® is a registered trademark of Garuda International, Inc.

Cardiovascular Health

Policosanol 20 mg	Quantity	Order Code

Polyphenol Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL FORMULA WITH ADDED
POLYPHENOLS FOR ADVANCED CELLULAR PROTECTION*

Indications:

- Enhanced antioxidant support†
- Wide range support for cellular, macular, cognitive, skin, heart, nerve and liver health†

Vitamin/Mineral Distinctions:

- With choline and inositol for comprehensive B-complex support†

Special Features:

- **Cell Health Polyphenols**¹
Includes polyphenols from blueberry, grape seed, olive fruit, pomegranate, green tea and quercetin for optimal cell health. Alpha lipoic acid and n-acetyl-l-cysteine act as complementary cofactors for added antioxidant protection.¹
- **MacularSynergy Complex**²
Enhances the integrity of the macula and retina with lutein and zeaxanthin. Synergistic cofactors include vitamin C, vitamin E, zinc and carotenoids.¹

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as d-alpha tocopherol succinate)	34 mg
Thiamin (as thiamin HCl) (B ₁)	25 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	17.35 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Calcium (as calcium citrate)	150 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	75 mg
Zinc (as zinc picolinate)	7.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.5 mg
Chromium (as chromium polynicotinate)	50 mcg
Molybdenum (as molybdenum aspartate)	50 mcg
Potassium (as potassium aspartate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as vanadium aspartate)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg

N-Acetyl-l-cysteine (free-form)	50 mg
Inositol	50 mg
Alpha lipoic acid (thioctic acid)	50 mg

MacularSynergy Complex²

FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg

Cell Health Polyphenols¹

Quercetin	25 mg
Blueberry (<i>Vaccinium angustifolium</i>) extract (fruit)	50 mg
Olive (<i>Olea europaea</i>) extract (fruit) (standardized to provide 1% hydroxytyrosol)	25 mg
Pomegranate (<i>Punica granatum</i>) extract (fruit) (standardized to contain 40% punicosides)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	25 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (standardized to contain 65% total tea catechins, 23% epigallocatechin (EGCG))	50 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Poly-Prebiotic

PREBIOTIC BLEND TO SUPPORT THE MICROBIOME AND GI HEALTH†

Prebiotics are nondigestible components of food that act to modulate and support the gut microbiota. Emerging evidence suggests that prebiotics may play an even more significant role than probiotics, serving metabolic, trophic and protective functions within the gut. PreticX™ XOS (xylo-oligosaccharides) enhances the growth of *Bifidobacteria*, an important intestinal bacterial genus that maintains healthy gastrointestinal function. Clinical research also shows that XOS enhances the production of butyrate, a short chain fatty acid (SCFA) that serves as a major energy source for colonocytes. In preclinical models, XOS supports intestinal barrier function, cytokine balance and colon cell health. In a randomized, double-blind, placebo-controlled study, 32 healthy adult subjects were given 1.4 grams or 2.8 grams of PreticX™ XOS for 8 weeks. The *Bifidobacterium* count increased 21% from the baseline at 4 weeks and 17% from the baseline at 8 weeks in the highest dose group. In an *in vitro* study using clinical isolates from hospital patients, XOS was found to stimulate growth of all 35 *Bifidobacterium* strains in a dose-dependent manner. XOS also supported growth of 38%-62% of *Lactobacilli* strains tested. Evidence from a small clinical trial of 14 healthy women additionally suggests that XOS supports bowel regularity and emotional well-being. In contrast to FOS and other common prebiotics, studies on XOS report very low incidence of gas and bloating. This formula also provides cranberry, which favorably modulates intestinal microbiota in preclinical models, supporting the abundance of beneficial taxa such as *Bifidobacteria* and *Bacteroidaceae*.

3 capsules, 1-2 times daily, with or between meals.

Three (size 00) vegetarian capsules contain:

Total Carbohydrate	2 g
PreticX™ xylooligosaccharide	1.4 g
Cranberry (<i>Vaccinium macrocarpon</i>) extract (fruit) (standardized to contain 1% proanthocyanidins)	225 mg
Other ingredients: vegetarian capsule (cellulose, water)	

PreticX™ is a trademark of AIDP, Inc. PreticX™ is a patent protected xylooligosaccharide exclusively distributed by AIDP, Inc.

Poly-Prebiotic powder

A UNIQUE POWDERED BLEND OF RESEARCHED PREBIOTIC FIBERS AND POLYPHENOLS TO SUPPORT GASTROINTESTINAL, CELLULAR AND IMMUNE FUNCTION BY BOOSTING BIFIDOBACTERIA AND MICROBIOME DIVERSITY†

Prebiotics are nondigestible components of food that act to modulate and support the gut microbiota. Emerging evidence suggests that they may play an even more significant role than probiotics, performing beneficial metabolic, trophic and protective functions within the gut, leading to overall cellular, immune and metabolic support. High-microbiome diversity has been linked to optimal health and resilience. PreticX™ XOS (xylooligosaccharide) and BioEcolians® α -GOS (alpha-glucooligosaccharide) both promote short-chain fatty acid (SCFA) production in the colon and *Bifidobacteria* in the G.I. tract. In one study, 1.4 grams or 2.8 grams of PreticX™ XOS increased *Bifidobacterium* count 21% and 17% at four and eight weeks, respectively. In an *in vitro* study using clinical isolates from hospital patients, XOS was found to stimulate growth in all 35 *Bifidobacterium* strains tested. In another study, supplementation with 2 grams of α -GOS supported abdominal comfort by Day 7 and offered increased support throughout the 28-day period, including bowel motility and stool consistency. A significant increase in *B. longum*, *B. animalis* and *Lactobacilli* was also reported. In addition, BioEcolians® supplementation increased secretion in the mucosa of the antimicrobial peptides β -defensins. These molecules moderate the adhesion of bacteria to the intestinal wall and support healthy cytokine balance in the intestine. The health benefits of polyphenols may be due to their effects on the microflora. These compounds are generally not absorbed, but pass through the G.I. tract, where they are biotransformed to enhance bioavailability and support healthy gut microbial composition. In an animal study involving mice, supplementation with cranberry polyphenols promoted healthy fat metabolism in the liver, insulin sensitivity and cytokine balance. It was also shown to markedly increase *Akkermansia muciniphila*. Animal models indicate a role for *Akkermansia* on gut barrier function, including increased mucus layer thickness and production of occludin, an essential component of tight junctions. Polyphenols from blueberry and pomegranate support the growth of *Lactobacilli* and *Bifidobacterium* in the colon, as well as cytokine balance in the G.I. tract. In contrast to many common prebiotics, XOS, α -GOS and polyphenols report very low incidence of gas, bloating or other intestinal side effects.†

1 serving, 1-2 times daily, mixed with a beverage or into food.

Serving size: 1 scoop (approximately 4.6 g)

Servings per container: Approximately 30

One scoop contains:

Calories	10
Total carbohydrate	3 g
Total sugars	2 g
PreticX™ xylooligosaccharide (XOS)	1.4 g
BioEcolians® α-glucooligosaccharide (α-GOS)	1 g
Cranberry (<i>Vaccinium macrocarpon</i>) extract (fruit) (standardized to contain 12 mg proanthocyanidins [PACs])	1.2 g
Blueberry (<i>Vaccinium angustifolium</i>) extract (fruit) (standardized to contain 4% polyphenols)	100 mg
Pomegranate (<i>Punica granatum</i>) juice powder (fruit)	500 mg
Other ingredients: citric acid, malic acid, stevia leaf extract

Pomegranate Plus

ANTIOXIDANT SUPPORT FOR VASCULAR AND CELLULAR HEALTH†

Pomegranate Plus offers the clinically researched Pomella® pomegranate extract, manufactured using patented technology to concentrate punicalagin and other polyphenols. These components, as well as their metabolites in the body, contribute to the antioxidant and cellular support properties of pomegranate. In vitro, Pomella® pomegranate was shown to rank highest in antioxidant activity across ORAC, TEAC, FRAP and DPPH assays compared to 26 other antioxidant products, including other pomegranate preparations, green tea, grape seed extract, resveratrol and goji. Antioxidant efficacy was also demonstrated in a human pharmacokinetic study, in which 800 mg of Pomella® pomegranate increased ORAC (oxygen radical absorbance capacity) by 32% after 0.5 hours. Preliminary research also suggests that the gut-derived metabolites called urolithins may penetrate the blood-brain barrier, offering potential neuroprotective properties. These same metabolites may support healthy glucose metabolism in the vascular tissue. Through a variety of mechanisms, pomegranate supports vascular endothelial function, healthy blood flow and cardiovascular health. PhytoCardio proprietary blend provides fruit extracts from cranberry and blueberry. Dietary intake of these fruits has been associated with healthy endothelial function and gene expression. The prized palm berry açai of Brazil, where it is known as “the fruit of life,” is a dynamic addition to this formulation. Açai berries are rich in anthocyanins, vitamins, minerals, amino acids and essential fatty acids. In a university study, açai berry revealed important support for maintaining cell health.¹

1 capsule, 1-2 times daily, with or between meals.

Each (size 0) vegetarian capsule contains:

Pomella® pomegranate (<i>Punica granatum</i>) extract (fruit) (standardized to contain 50% polyphenols and 30% punicalagin)	200 mg
Açai (<i>Euterpe oleracea</i>) berry extract (whole fruit)	100 mg
PhytoCardio proprietary blend providing wild blueberry (<i>Vaccinium angustifolium</i>) extract (fruit) and cranberry (<i>Vaccinium macrocarpon</i>) extract (fruit)	120 mg
Other ingredients: vegetarian capsule (cellulose, water)

Potassium (aspartate)

ESSENTIAL MINERAL FOR VASCULAR FUNCTION AND OVERALL HEALTH[†]

Potassium activates many enzymatic reactions and is essential to a number of physiologic processes, including transmission of nerve impulses, muscle contraction, gastric secretions, renal function, tissue synthesis and carbohydrate metabolism. Potassium is the major cation of intracellular fluid and is essential for maintenance of acid-alkaline balance, isotonicity and electrodynamic characteristics of the cell. In addition, it works with sodium to maintain healthy water balance, heart rhythm and nerve and muscle function. Research suggests that adequate potassium intake may support healthy blood flow and cardiovascular health.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Potassium (as potassium aspartate)	99 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate	

Not to be taken if you have hyperkalemia or abnormal kidney function, or take ACE inhibitors or potassium-sparing diuretics.

Pregnenolone 10 mg

HORMONE PRECURSOR TO SUPPORT MOOD AND MEMORY*

Pregnenolone, 3-beta-hydroxy-5-pregnen-20-one, is a natural steroid hormone produced in the body from cholesterol. It has been described as the "Grandmother of all Steroid Hormones," since all steroid hormones, over 150 of them, are derived from pregnenolone. Pregnenolone has been linked with positive support of the immune system, mood and memory. In the body, it is converted to DHEA and/or progesterone. It is likely that the body will convert pregnenolone appropriately, according to its needs. Studies show that the body makes 60% less of this hormone at age 75 than it does at age 35.¹

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Pregnenolone (3-beta-hydroxy-5-pregnen-20-one) 10 mg
 Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

NOT FOR USE BY INDIVIDUALS UNDER THE AGE OF 18 YEARS. DO NOT USE IF PREGNANT OR NURSING. Consult a physician or licensed qualified healthcare professional before using this product if you have, or have a family history of, breast cancer, prostate cancer, prostate enlargement, heart disease, low "good" cholesterol (HDL), or if you are using any other dietary supplement, prescription drug, or over-the-counter drug. Do not exceed recommended serving. Exceeding recommended serving may cause serious adverse health effects. Possible side effects include acne, hair loss, hair growth on the face (in women), aggressiveness, irritability, and increased levels of estrogen. Discontinue use and call a physician or licensed qualified healthcare professional immediately if you experience rapid heartbeat, dizziness, blurred vision, or other similar symptoms. KEEP OUT OF REACH OF CHILDREN. To report any adverse event call 1-800-332-1088.

PreNatal Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX FOR PREGNANCY AND LACTATION†

Indications:

- Women of child-bearing age, pregnant women, lactating women
- Best when combined with EPA/DHA

Enhanced With:

- 1 mg of folate from Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- Increased vitamin D based on revised RDA requirements for pregnancy
- Vitamin K to support healthy carboxylation of proteins for blood clotting and bone†
- 100 mg of choline to support fetal central nervous system development†

Vitamin Distinctions:

- 1 mg of folate from Metafolin® L-5-MTHF for optimal neural and cellular development†
- 27 mg of iron and 150 mcg of iodine to meet enhanced requirements during pregnancy†
- 100 mg of choline to support hormone, neurotransmitter, DNA, protein and energy production†

Special Features:

- Specially formulated based on accepted scientific recommendations for nutrient requirements during pregnancy
- Now vegan; made with algal-sourced vitamin D

2 capsules daily, with a meal.

Two (size 00) capsules contain:

Vitamin A (as beta carotene)	2,400 mcg
Vitamin C (as ascorbic acid)	70 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	12 mg
Vitamin K (as vitamin K ₁)	90 mcg
Thiamin (as thiamin HCl) (B ₁)	1.6 mg
Riboflavin (vitamin B ₂)	1.7 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl)	2.2 mg
Folate (as Metafolin®, L-5-MTHF)	1,667 mcg DFE (1,000 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	2.6 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	6 mg
Choline (as choline bitartrate)	100 mg
Calcium (as di-calcium malate) (DimaCal™)	200 mg
Iron (as iron glycinate)	27 mg
Iodine (as potassium iodide)	150 mcg
Magnesium (as magnesium citrate)	80 mg
Zinc (as zinc citrate)	15 mg
Selenium (as selenomethionine)	70 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	120 mcg
Molybdenum (as TRAACS™ molybdenum glycinate chelate)	75 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene and zeaxanthin)	450 mcg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Pro-Resolve Omega

SPECIALIZED PRO-RESOLVING MEDIATORS (SPMS) TO ENHANCE AND SUSTAIN IMMUNE RESOLUTION AND RESTORATION OF HOMEOSTASIS[‡]

Pro-Resolve Omega offers a unique blend of marine oils concentrated in Specialized Pro-Resolving Mediators (SPMs). SPMs are a group of compounds derived from marine oils, and play a critical role in resolution of the inflammatory process, including cytokine production and immune cell recruitment and function. Not all inflammation is associated with disease states. The body's inflammation response to life's occasional, normal stressors is important for optimal health. The body produces SPMs from fish oil; however, this multi-step process is inefficient and can be compromised. In two studies involving healthy subjects, supplementation with 4-17 grams of fish oil daily did not produce significant increases in SPMs. Different families of resolvins are derived from EPA, DHA, DPA and AA, and each mediator exerts unique biological actions, such as regulating platelet activation (resolvin E1), regulating immune function (protectins), or promoting tissue health (maresins). Research has focused primarily on the E-series resolvins from 18-HEPE derived from EPA, and the protectins, maresins and D-series resolvins from 17-HDHA derived from DHA. The omega-3 fatty acid DPA (docosapentaenoic acid) is a precursor for T-series resolvins and has long been associated with vascular health. In a pool of 19 studies and over 45,000 individuals, DPA was the long-chain essential fatty acid most associated with cardiovascular health. Mechanistic examinations suggest that 15-lipoxygenase (15-LOX), an enzyme that converts DHA and EPA to SPMs, may be critical for SPM production. While levels of EPA and DHA were comparable in immune cells isolated from subjects supplemented with fish oil, cells from obese subjects had compromised levels of 15-LOX and SPM production. Another study indicated that metabolic factors may influence levels of SPM precursors in response to fish oil supplementation. In healthy volunteers, supplementation of fish oil with SPM increased immune cell efficacy and decreased expression of adhesion molecules and platelet activation.¹

1 daily, with meals.

One softgel capsule contains:

Calories	10
Total Fat	1 g
Cholesterol	5 mg
Marine oil concentrate (from anchovy, sardine herring, mackerel, squid)	1,090 mg
Providing:	
Total omega-3 fatty acids	560 mg
EPA (eicosapentaenoic acid)	225 mg
DHA (docosahexaenoic acid)	200 mg
DPA (docosapentaenoic acid)	45 mg
Specialized pro-resolving mediators (SPMs) (including 18-hydroxyeicosapentaenoic acid (18-HEPE), 17-hydroxydocosahexaenoic acid (17-HDHA), and 14-hydroxydocosahexaenoic acid (14-HDHA))	300 mcg
Other ingredients: gelatin capsule (gelatin, glycerin, water), natural lemon flavor, natural mixed tocopherols	

Contains: fish (anchovy, sardine, herring, mackerel, squid).

Warning: If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

ProbiMood (capsules)

Shelf-Stable

PROBIOTIC SUPPORT FOR MOOD AND EMOTIONAL WELL-BEING[†]

ProbiMood offers a clinically researched probiotic combination of strains developed using an innovative, patented microencapsulation process. This technology protects the probiotic strains from harsh conditions, including gastric acidity. ProbiMood offers unique support for emotional well-being and relaxation. Research suggests that *Lactobacillus helveticus* Rosell-52 and *Bifidobacterium longum* Rosell-175 support emotional health, in part by supporting healthy cytokine balance and intestinal integrity. In a randomized, double-blind, placebo-controlled trial, supplementation with the combination maintained healthy urinary cortisol levels, indicating the potential to lessen occasional stress. In a separate analysis, supplemented subjects reported positive mood, relaxation and enhanced cognitive function. In another randomized, double-blind, placebo-controlled trial, *L. helveticus* Rosell-52 and *B. longum* Rosell-175 moderated the normal gastrointestinal stress response by 49%.[†]

1 capsule daily, with or between meals.

Each capsule contains:

Probiotic blend 3 billion CFU
 Providing:
Lactobacillus helveticus Rosell-52 ME
Bifidobacterium longum Rosell-175 ME

Other ingredients: maltodextrin, hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Contains milk, soy

Probiotic-5

Allergen-Free

5-STRAIN BLEND; BROAD-SPECTRUM PROBIOTIC SUPPORT FOR HEALTHY INTESTINAL MICROFLORA[†]

This dairy-free and soy-free formula provides 10 billion CFU of the beneficial bacteria *Lactobacillus acidophilus*, *Lactobacillus rhamnosus*, *Bifidobacterium longum*, *Bifidobacterium bifidum* and *Bifidobacterium lactis*. *L. acidophilus* and *B. longum* promote healthy cytokine production in the colon and maintain healthy G.I. barrier function, in part by supporting the mucosal lining of the G.I. tract. Several trials have also revealed that mixed probiotic supplementation helps maintain intestinal flora, support healthy yeast balance and promote G.I. comfort. Studies also suggest that probiotics support immune health, enhancing B cell, T cell and NK cell function.[†]

1 capsule, 1-2 times daily, with or between meals.

Each (size 0) vegetarian capsule contains:

Probiotic blend 10 billion CFU
 Providing:
Bifidobacterium lactis (BI-04)
Lactobacillus acidophilus (La-14)
Lactobacillus rhamnosus (Lr-32)
Bifidobacterium longum (BI-05)
Bifidobacterium bifidum (Bb-06)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

This formula requires refrigeration to maintain culture viability.

Probiotic 123

Shelf-Stable

SHELF-STABLE; POWDER PROBIOTIC SUPPORT FOR HEALTHY INTESTINAL MICROFLORA[†]

- For children ages 1 and up
- Dairy-free and soy-free blend of *Lactobacillus acidophilus*, *Bifidobacterium bifidum* and *Bifidobacterium lactis* (formerly known as *Bifidobacterium infantis*), and *Lactobacillus rhamnosus* GG
- Now with the highly characterized and clinically researched *L. rhamnosus* GG strain identified for its resistance to gastric acidity, adhesion properties and ability to support healthy gut microflora[†]
- Supports the mucosal lining of the G.I. tract and healthy G.I. barrier function[†]
- Maintains healthy immune system function[†]
- Promotes intestinal comfort[†]

Ages 1 to 3, take 1/2 scoop daily. Ages 4 and up, take 1 scoop daily. Mix with applesauce or yogurt.

Serving size: 1 scoop (approximately 0.37 grams)

Servings per container: 162

Each scoop (approximately 0.37 grams) contains:

Probiotic blend 3 billion CFU
 Providing:
Lactobacillus acidophilus (La-14)
Lactobacillus rhamnosus GG
Bifidobacterium lactis (BI-04)
Bifidobacterium bifidum (Bb-06)

Other ingredients: hypoallergenic plant fiber (cellulose)

Probiotics may be contraindicated for immunocompromised individuals.

Refrigeration may prolong product viability. Natural color variations may occur.

Probiotic 50B

Allergen-Free

ACID-RESISTANT CAPSULES WITH PH-TARGETED RELEASE; HIGH-POTENCY PROBIOTIC SUPPORT FOR HEALTHY INTESTINAL MICROFLORA[†]

Probiotic 50B offers seven researched probiotic strains that promote healthy intestinal ecology to support gastrointestinal and immune health. Clinical studies indicate that Lactobacilli and Bifidobacteria supplementation supports intestinal epithelial integrity and a healthy immune response. *Lactobacillus rhamnosus* GG is one of the most characterized and utilized probiotic strains, having been studied in numerous clinical trials on immune, GI and overall health across all ages.¹

1 capsule daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Probiotic blend 50 billion CFU

Providing:

- Lactobacillus plantarum* (Lp-115)
- Lactobacillus acidophilus* (La-14)
- Lactobacillus rhamnosus* GG
- Lactobacillus gasserii* (Lg-36)
- Bifidobacterium lactis* (BI-04)
- Bifidobacterium longum* (BI-05)
- Bifidobacterium bifidum* (Bb-06)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, gellan gum, water)

This formula requires refrigeration to maintain culture viability.

Probiotic G.I.

Shelf-Stable; Allergen-Free

PROBIOTIC BLEND TO SUPPORT HEALTHY GUT-ASSOCIATED LYMPHOID TISSUE TO PROMOTE HEALTHY BARRIER INTEGRITY, CELL HEALTH AND IMMUNE FUNCTION IN THE G.I. TRACT[†]

Probiotic G.I. provides 10 billion CFU per capsule of the beneficial bacteria *Lactobacillus acidophilus*, *Lactobacillus salivarius*, *Lactobacillus casei*, *Bifidobacterium bifidum*, *Bifidobacterium lactis* and *Streptococcus thermophilus*. Research indicates that these strains provide support for healthy immune balance within the G.I. tract. Beneficial microflora are crucial for proper gut-associated lymphoid tissue (GALT) function and development. The GALT helps protect intestinal mucosa from allergens and toxins and is a major component of the body's immune system. It is estimated that more than 70% of the body's B lymphocytes are found in the GALT. Probiotics are believed to support healthy GALT composition, and in turn, support barrier function, G.I. epithelial cell health and T cell function within the G.I. tract. Some probiotic strains may also modulate local production of cytokines in the G.I. epithelium. Research also suggests that metabolites produced from *Streptococcus thermophilus* may cross the intestinal barrier to support healthy cytokine production and immune function.¹

1 capsule, 1-2 times daily, with or between meals.

Each (size 0) vegetarian capsule contains:

Probiotic blend 10 billion CFU

Providing:

- Bifidobacterium lactis* (BI-04)
- Lactobacillus acidophilus* (La-14)
- Lactobacillus salivarius* (Ls-33)
- Lactobacillus casei* (Lc-11)
- Streptococcus thermophilus* (St-21)
- Bifidobacterium bifidum* (Bb-06)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Refrigeration may prolong product viability.

Probiotic IMM

Shelf-Stable; Allergen-Free

SHELF-STABLE; SUPPORT FOR IMMUNE FUNCTION, EYE, NOSE, AND THROAT HEALTH[†]

Probiotics are integral to immune health, stimulating antibody production and cell-mediated immunity. Research indicates that probiotics may enhance B cell, T cell and NK cell function, phagocytic capacity and activity, and healthy cytokine production. A recent meta-analysis involving 9 randomized controlled trials has revealed that probiotics maintain healthy immune and nasal function. These strains provide support for a healthy immune response and immunoglobulin function. *B. longum* BB536 is a shelf stable probiotic in Japan, supported in the literature by over 25 human trials and 30 animal studies. Double blind, placebo-controlled trials indicate that *B. longum* BB536 supplementation maintains GI bacteria balance, supporting immune function and maintaining eye, nose and throat health. In another randomized double blind, placebo-controlled trial, *L. acidophilus* and *B. lactis* showed support for nasal function and maintained healthy eosinophil activity within the nasal lining. Research involving *B. bifidum*, *L. casei* and *L. plantarum* also suggests that these strains maintain healthy cytokine production, IgE function and mast cell integrity.¹

1 capsule, 1-2 times daily, with or between meals.

Each (size 3) vegetarian capsule contains:

Probiotic blend 5 billion CFU

Providing:

Bifidobacterium longum (BB536)
Bifidobacterium lactis (BI-04)
Lactobacillus acidophilus (La-14)
Lactobacillus plantarum (Lp-115)
Lactobacillus casei (Lc-11)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), tapioca starch, calcium phosphate

Refrigeration may prolong product viability.

Probiotics may be contraindicated for immunocompromised individuals. If you are pregnant or lactating, have any health condition or are immunocompromised, or are taking any medication, consult your health professional before use.

ProstaFlo

SWEDISH FLOWER EXTRACT FOR URINARY AND PROSTATE HEALTH[†]

First developed in Sweden and used for over forty years in numerous countries, flower pollen extract contains a highly concentrated, 20:1 combination of water-soluble to fat-soluble flower pollen extracts (the allergenic outer husk is removed) from rye. The fat-soluble constituents of this extract promote healthy leukotriene and prostaglandin production in vitro. An animal study indicates that the water-soluble fraction plays a synergistic role in maintaining healthy urethra smooth muscle function. A multiple-center, double-blind study and a separate clinical evaluation of long-term consumption indicated that flower pollen extract supported healthy urinary function and prostate health in volunteers.¹

1 capsule, 3 times daily, with meals.

Each (size 1) vegetarian capsule contains:

Rye (*Secale cereale*) extract (flower pollen) 320 mg

Other ingredients: vegetarian capsule (cellulose, water)

PS 100 (phosphatidylserine)

SUPPORTS MENTAL ACUITY, MEMORY AND HEALTHY PHOSPHOLIPID BALANCE IN CELL MEMBRANES[†]

Phosphatidylserine is a phospholipid found in all cells, but is most concentrated in brain cells. This familiarly-called "brain nutrient" supports cognitive function, emotional well-being and behavioral performance. It has also been shown to support healthy memory. In a double-blind, placebo-controlled, multicenter study of 425 individuals, daily supplementation of phosphatidylserine over six months resulted in statistically significant support of behavioral and cognitive parameters. In a placebo-controlled investigation of 149 subjects, the group receiving phosphatidylserine scored higher than placebo in performance tests related to memory tasks of daily life.¹

1 capsule, 3 times daily, with meals.

Each (size 0) vegetarian capsule contains:

Phosphatidylserine (from soy) 100 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Contains soy.

PS Plus

SOY-FREE PHOSPHATIDYLSERINE FORMULA TO SUPPORT MEMORY, MENTAL PROCESSING AND OVERALL COGNITIVE FUNCTION*

PS Plus provides Sharp-PS® GREEN, a soy-free, sunflower lecithin-derived phosphatidylserine. Phosphatidylserine (PS) is the most abundant phospholipid in the brain, where it supports neuron membrane fluidity, signal transduction and cell-to-cell communication for healthy neurocognitive function. PS provides support for normal age-associated memory decline in the elderly as well as support for overall learning, recall and processing capacity. These effects on cognitive performance were also observed in a study of young adults. The efficacy of Sharp-PS® supporting mental capabilities in elderly persons with mild, age-related memory loss was explored in an open label study. The results suggest support for memory recognition, memory recall, verbal recognition and verbal recall. PhytoMemory proprietary blend provides an antioxidant and phytochemical complex from blueberry, strawberry and spinach.¹

1 capsule, 1-2 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Sharp-PS® GREEN phosphatidylserine (from sunflower lecithin) (soy-free)	150 mg
PhytoMemory proprietary blend providing wild blueberry (<i>Vaccinium angustifolium</i>) extract (fruit), Orléans strawberry (<i>Fragaria x ananassa</i>) extract (fruit), and spinach (<i>Spinacia oleracea</i>) juice concentrate (leaf)	150 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), maltodextrin, silicon dioxide, tricalcium phosphate, ascorbyl palmitate

Sharp-PS® is a registered trademark of Enzymotec Ltd.

Pure Tranquility liquid

GABA, GLYCINE AND L-THEANINE COMBINED TO SUPPORT RELAXATION AND MODERATE OCCASIONAL STRESS IN A GREAT-TASTING LIQUID*

- Offers calming support with the main inhibitory neurotransmitters GABA and glycine¹
- Enhances alpha wave production in the brain with GABA and l-theanine to promote relaxation and moderate occasional stress¹
- In an open trial, GABA promoted alpha waves and moderated beta waves within 1 hour of administration¹
- Several studies indicate l-theanine enhances alpha wave production in the occipital and parietal regions of the brain, an indicator of relaxation, without causing drowsiness¹
- Maintains healthy IgA levels with GABA and l-theanine, suggesting support for immune health during occasional stress¹

4 ml (4 full droppers), 1-2 times daily, between meals.

Serving size: 4 ml (0.13 fl oz)

Servings per container: 29

4 ml (0.13 fl oz) (4 full droppers) contain:

GABA (gamma-aminobutyric acid)	100 mg
Suntheanine® l-theanine	100 mg
Glycine (free-form)	50 mg

Other ingredients: purified water, natural vegetable glycerin, evaporated cane sugar, citric acid, natural apple flavor, potassium sorbate, purified stevia leaf extract

Suntheanine® is a registered trademark of Taiyo International, Inc.

PureBi•Ome™ G.I.

Allergen-Free

4-STRAIN, CLINICALLY RESEARCHED PROPRIETARY PROBIOTIC BLEND COMBINED WITH L-GLUTAMINE FOR G.I. COMFORT AND HEALTH†

PureBi•Ome™ G.I. offers four clinically researched probiotic strains, *Lactobacillus acidophilus* (NCIMB 30157), *Lactobacillus acidophilus* (NCIMB 30156), *Bifidobacterium bifidum* (NCIMB 30153) and *Bifidobacterium lactis* (NCIMB 30172), combined with l-glutamine to support microflora balance and gastrointestinal (G.I.) function. The 4-strain blend is the focus of numerous clinical trials, showing support for healthy microflora, bowel function and GI comfort. l-Glutamine is a conditionally essential amino acid utilized by the body for tissue repair, gastrointestinal tract support and natural defense system function in times of metabolic stress. In studies, glutamine supplementation supports intestinal integrity and barrier function.†

1 capsule, 1-2 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Probiotic blend	12.5 billion CFU
Providing:	
<i>Lactobacillus acidophilus</i> (NCIMB 30157)	
<i>Lactobacillus acidophilus</i> (NCIMB 30156)	
<i>Bifidobacterium lactis</i> (NCIMB 30172)	
<i>Bifidobacterium bifidum</i> (NCIMB 30153)

HIGH-POTENCY, 4-STRAIN, CLINICALLY RESEARCHED PROPRIETARY PROBIOTIC BLEND COMBINED WITH SACCHAROMYCES BOULARDII TO SUPPORT INTESTINAL MICROBIAL BALANCE AND HELP LESSEN THE OCCURRENCE OF OCCASIONAL DIARRHEA†

PureBi•Ome™ Intensive offers 25 billion CFU per capsule of four clinically researched probiotic strains, *Lactobacillus acidophilus* (NCIMB 30157), *Lactobacillus acidophilus* (NCIMB 30156), *Bifidobacterium bifidum* (NCIMB 30153) and *Bifidobacterium lactis* (NCIMB 30172), combined with 5 billion CFU *Saccharomyces boulardii*. The 4-strain blend is the focus of numerous clinical trials, showing support for healthy microflora, bowel function and GI comfort. *Saccharomyces boulardii* is included as additional support for healthy bowel function. In a double-blind, controlled trial involving 151 individuals, *S. boulardii* supplementation lessened the occurrence of occasional diarrhea and supported overall bowel health. Research suggests that *S. boulardii* may stimulate enzyme secretions to support normal digestive functions and neutralize toxins for a healthy G.I. tract.†

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Probiotic blend	30 billion CFU
Providing:	
<i>Saccharomyces boulardii</i>	
<i>Lactobacillus acidophilus</i> (NCIMB 30157)	
<i>Lactobacillus acidophilus</i> (NCIMB 30156)	
<i>Bifidobacterium lactis</i> (NCIMB 30172)	
<i>Bifidobacterium bifidum</i> (NCIMB 30153)

PureCell

Formulated with Steve Morris, N.D., A.H.G.*

ADVANCED ANTIOXIDANT AND ADAPTOGEN CELLULAR HEALTH FORMULA; MAINTAINS HEALTHY CELL FUNCTION AND PROTECTS HEALTHY TISSUE†

This formula offers advanced antioxidant and adaptogen support for maintaining cell health and protecting healthy tissue. Antioxidant vitamins and minerals promote healthy cell function and cell longevity, as indicated in numerous trials involving over 8,500 individuals. Adaptogens are important for physiological and cellular homeostasis and have positive effects on immune function and oxidative stress. This product was designed to:†

- Offer intracellular as well as extracellular antioxidant protection with alpha lipoic acid†
- Target superoxide anion, hydrogen peroxide and hydroxyl radicals with coenzyme Q₁₀, maintaining the integrity of cellular membranes†
- Replenish glutathione, scavenge free radicals and promote liver function with n-acetyl-l-cysteine and selenium†
- Support healthy cyclooxygenase enzyme activity with curcumin†
- Support macrophage, natural killer cell and T-cell activity with astragalus†
- Promote healthy cell signaling and gene expression at the cellular level while encouraging overall energy and vitality with ashwagandha and Panax ginseng†

2 capsules, 1-2 times daily, with meals.

Two (size 0) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Selenium (as selenomethionine)	100 mcg
Coenzyme Q ₁₀	100 mg
N-Acetyl-l-cysteine (free-form)	100 mg
Alpha lipoic acid (thioctic acid)	75 mg
KSM-66 Ashwagandha® (<i>Withania somnifera</i>) extract (root)	180 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	150 mg
Asian ginseng (<i>Panax ginseng</i>) extract (root) (standardized to contain 5% ginsenosides)	150 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (decaffeinated) (standardized to contain 90% total tea catechins and 70% epigallocatechin gallate (EGCG))	100 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	87 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

KSM-66 Ashwagandha® is a registered trademark of Ixoreal Biomed Inc.

Kaneka Q10® is a U.S. registered trademark of Kaneka Corporation.

*Dr. Morris was a retained advisor for Pure Encapsulations.

Not to be taken by pregnant or lactating women. Take with food. If you have liver problems, any other health condition, or are taking any medication, consult your health professional before use.

PureDefense chewables

CHEWABLE TABLETS FOR IMMUNE DEFENSE AND UPPER RESPIRATORY HEALTH†

PureDefense chewables provide a comprehensive blend of nutrients and herbal extracts designed to support immune function in a convenient, great-tasting chewable tablet. EpiCor® *Saccharomyces cerevisiae* fermentate contains numerous immune-enhancing bioactive metabolites designed to support both the innate and adaptive immune response. Research suggests that it enhances natural killer cell activation, B cell and T cell function, and secretory IgA levels. In two randomized, double-blind, placebo-controlled trials, EpiCor® provided statistically significant support for upper respiratory tract health and overall immune health. Elderberry extract provides anthocyanins, flavonoids and other polyphenols that have been shown to support immune function. Studies have shown statistically significant immune support throughout the lifespan. Quercetin maintains healthy mast cell function by supporting healthy enzyme activity. Zinc and vitamin C help to promote immune defense by supporting immune cell proliferation, activation and function, as well as healthy antioxidant enzyme function.†

Ages 2-3, take 2 tablets daily, with a meal.

Ages 4 and up, take 2 tablets, 1-2 times daily, with a meal.

Two chewable tablets contain:

Vitamin C (from calcium ascorbate)	30 mg
Calcium (from calcium ascorbate)	3 mg
Zinc (as zinc citrate)	7.5 mg
EpiCor® dried yeast fermentate complex (from <i>Saccharomyces cerevisiae</i>)	125 mg
European elder (elderberry) (<i>Sambucus nigra</i>) extract (fruit)	100 mg
Quercetin dihydrate	30 mg
Other ingredients: xylitol, cellulose, natural mango flavor with other natural flavors, ascorbyl palmitate, silica, lo han (<i>Momordica grosvenorii</i>) extract (fruit)	

EpiCor® is a registered trademark of Embria Health Sciences, L.L.C.

If you are pregnant or lactating, have any health condition or are taking any medications, particularly immunosuppressants, consult your health professional before use.

PureDefense Collagen w/Bone Broth powder

SAVORY BONE BROTH AND HYDROLYZED COLLAGEN POWDER WITH IMMUNE-SUPPORTIVE MUSHROOMS, AGED GARLIC, AND ENHANCED BIOAVAILABILITY CURCUMIN EXTRACTS[†]

PureDefense Collagen w/Bone Broth powder offers 15 grams of protein in the form of grass-fed beef bone broth and hydrolyzed collagen as a savory, comforting, warm delivery form to support immune function. It contains a blend of organic cruciferous vegetables, as well as tomato, carrot, and spinach for flavor and phytonutrients. Within the human body, collagen is an extracellular protein that accounts for 25-30% of the total protein content. These hydrolyzed proteins offer a source of amino acid building blocks and are particularly high in proline/hydroxyproline, arginine and glycine. Arginine and glycine are key for creatine synthesis, while proline and hydroxyproline are a key component of cartilage and collagen in the body. Numerous studies indicate that collagen peptides support skin and mucosal tissue integrity and elasticity, as well as joint comfort and function, in part by targeting cartilage synthesis and cytokine balance. EpiCor[®] is a fermentate of *Saccharomyces cerevisiae* containing various immune-supportive bioactive metabolites. Studies indicate EpiCor[®] promotes natural killer cell activation, as well as that of B cells and T cells, providing support for upper respiratory tract health and overall immune health. Research indicates that curcumin, reishi and turkey tail mushroom extracts have immunomodulatory effects. Reishi mushroom is included as a unique, highly purified, reishi mushroom-derived beta 1,3/1,6-D glucan extract. Turkey tail mushroom extract promotes white blood cell function, including lymphocyte, macrophage and natural killer cells and antibody production. Research suggests that curcumin moderates the cytokines IL-4, IL-8, and TNF- α that induce differentiation of helper T cells, as well as supports nasal respiratory function.¹

This formula includes a unique turmeric extract that utilizes a water dispersible colloidal suspension of curcuminoids to enhance bioavailability. In an unpublished comparison study, this turmeric extract enhanced bioavailability 24-fold compared to standard curcumin extract, as measured by dose-normalized area under the curve, from 0-8 hours after intake. Aged fermented black garlic extract is concentrated in the sulfur-containing S-allyl-cysteine (SAC) and other bioactive compounds, including phenols and flavonoids. These compounds act as antioxidants in the body to protect tissues and support cellular function. Garlic has also demonstrated support for maintaining a healthy gut ecology and promoting healthy immune system function.¹

Mix 1 serving into 8 oz. of hot water and stir to dissolve. Consume immediately.

Serving size: 2 scoops (approximately 20 grams)
Servings per container: approximately 20

Two scoops (approximately 20 grams) contain:

Calories	70
Total Carbohydrate	1 g
Protein	15 g
Sodium	600 mg
EpiCor [®] dried yeast fermentate complex (from <i>Saccharomyces cerevisiae</i>)	250 mg
Turkey tail mushroom (<i>Coriolus versicolor</i>) extract (fruiting body) (certified organic) (standardized to contain 30% beta glucan)	100 mg
Mushroom beta glucan (from reishi (<i>Ganoderma lucidum</i>) extract (mycelia)) (standardized to contain 70% beta 1,3/1,6 glucan)	100 mg
Aged fermented black garlic (<i>Allium sativum</i>) extract (bulb) (standardized to contain 0.1% S-Allyl Cysteine)	100 mg
Turmeric complex (<i>Curcuma longa</i>) extract (rhizome) and quillaja extract (wood)) (standardized to contain 30% curcuminoids)	100 mg
Proprietary vegetable complex	100 mg
containing organic broccoli powder, organic broccoli sprout powder, organic tomato powder, organic carrot powder, organic spinach powder, organic kale powder	

Other ingredients: hydrolyzed collagen (from bovine), beef bone broth powder, natural roasted chicken flavor, sunflower lecithin, salt

PureDefense w/NAC

SUPPORTS IMMUNE FUNCTION AND UPPER RESPIRATORY HEALTH†

Natural killer cells are part of the body's innate, or first-line, immune response. They respond more quickly than the adaptive immune system comprised of B cells and T cells. Once activated, natural killer cell activity peaks in as quickly as several hours, providing rapid support and wide-range immune defense. EpiCor® is a fermentate of *Saccharomyces cerevisiae* containing various bioactive metabolites. These nutrient metabolites are produced in a specialized fermentation process and enhance immune cell production. In one cellular study, EpiCor® promoted natural killer cell activation, as well as that of B cells and T cells. In two randomized, double-blind, placebo-controlled trials, EpiCor® provided statistically significant support for upper respiratory tract health and overall immune health. A separate open label, in-house trial indicated a strong potential for EpiCor® supplementation to enhance secretory IgA levels after 30 days. These various actions demonstrate the ability of EpiCor® to address both innate and adaptive immune responses. NAC (n-acetyl-l-cysteine) promotes endogenous glutathione production for antioxidant protection and provides lung defense mechanisms for healthy respiratory function. In a randomized double-blind trial involving mostly older individuals, NAC showed support for respiratory health. Quercetin and elderberry provide flavonoids that offer additional support for immune and respiratory function while vitamin C, vitamin D and zinc play important roles in immune cell activation.†

2 capsules, twice daily, with meals.

Two (size 0) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Zinc (as zinc citrate)	7.5 mg
N-Acetyl-l-cysteine (free-form)	450 mg
EpiCor® dried yeast fermentate complex (from <i>Saccharomyces cerevisiae</i>)	250 mg
European elder (elderberry) (<i>Sambucus nigra</i>) extract (fruit)	200 mg
Quercetin	25 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

PureGenomics® B-Complex

BROAD-SPECTRUM B VITAMIN SUPPORT FOR COMMON GENETIC VARIATIONS†

PureGenomics® B-Complex is designed to address the nutrient requirements of common genetic variations in the methylation pathway with a unique blend of B vitamins in highly researched and activated forms. Methylation is a key regulator of genetic expression and cellular function. Healthy methylation is vital for cellular health, DNA synthesis, hormone and neurotransmitter production, and energy metabolism. Optimal levels of B vitamins have been associated with cellular, cardiovascular, neurological and psychological health. B vitamins are essential to basal mitochondrial function as metabolic coenzymes, playing a key role in energy production and nutrient metabolism. Folate is offered in this formula as Metafolin® 5-methyltetrahydrofolate (5-MTHF), the universally metabolized and biologically active form of folate, providing support for individuals with genetic variations in the MTHFR gene. Vitamin B₁₂ is offered as a combination of hydroxycobalamin and adenosylcobalamin. Hydroxycobalamin is a precursor form of vitamin B₁₂ converted in the body to both methylcobalamin and adenosylcobalamin. Adenosylcobalamin is an activated form stored in the mitochondria of cellular tissues. It is a key cofactor in carbohydrate metabolism and healthy synthesis of neuronal myelin. Benfotiamine is a lipid-soluble, enhanced-retention thiamin derivative.†

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Thiamin (as thiamin HCl) (B ₁)	25 mg
Riboflavin (as vitamin B ₂ and 67% riboflavin 5' phosphate (activated B ₂))	15 mg
Niacin (as niacinamide)	50 mg
Vitamin B ₆ (as pyridoxine HCl and 20% pyridoxal 5' phosphate (activated B ₆))	50 mg
Folate (as Metafolin®, L-5-MTHF)	1,333 mcg DFE (800 mcg L-5-MTHF)
Vitamin B ₁₂ (as adenosylcobalamin and 50% hydroxycobalamin)	800 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	100 mg
Choline (as choline bitartrate)	40 mg
Inositol	25 mg
BenfoPure® benfotiamine	3 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber, ascorbyl palmitate	

Metafolin® is a registered Trademark of Merck KGaA, Darmstadt, Germany.

PureGenomics® Multivitamin

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL FORMULA TARGETING COMMON GENETIC POLYMORPHISMS TO SUPPORT DAILY WELLNESS†

Indications:

- Men and women age 18 and over

Vitamin Distinctions:

- Provides vitamins A, B, C, D, E and K in highly bioavailable forms
- Includes activated B vitamins, including pyridoxal-5-phosphate, riboflavin-5-phosphate, enhanced-retention thiamin derivative benfotiamine and 800 mcg of Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- Offers vitamin B₁₂ in unique blend of adenosylcobalamin and hydroxycobalamin
- Contains 25 mcg (1,000 IU) vitamin D to support healthy VDR activity†

Special Features:

- Convenient, one-capsule-per-day dosing
- Addresses the nutrient requirements of common genetic variations in the methylation pathway with B vitamins and choline†
- Enhanced choline levels for healthy cognitive function†
- Supports macular and retinal health with lutein and zeaxanthin†

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Vitamin A (as vitamin A acetate and 27% beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	180 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	20 mg
Vitamin K (as vitamin K ₁)	60 mcg
Thiamin (as thiamin HCl) (B ₁)	3 mg
Riboflavin (as vitamin B ₂ and 43% riboflavin 5' phosphate (activated B ₂))	3 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 38% pyridoxal 5' phosphate (activated B ₆))	4 mg
Folate (as Metafolin®, L-5-MTHF)	1,333 mcg DFE (800 mcg L-5-MTHF)
Vitamin B ₁₂ (as adenosylcobalamin and 50% hydroxycobalamin)	1,000 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg
Choline (as choline bitartrate)	56 mg
Iodine (as potassium iodide)	150 mcg
Zinc (as zinc citrate)	25 mg
Selenium (as selenomethionine)	70 mcg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as TRAACS™ molybdenum glycinate chelate)	75 mcg
Vitamin K ₂ (as menaquinone-7)	20 mcg
BenfoPure® benfotiamine	3 mg
Boron (as boron glycinate)	1 mg
Inositol	25 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Other ingredients: vegetarian capsule (cellulose, water), trimagnesium citrate, ascorbyl palmitate	

Metafolin® is a registered Trademark of Merck KGaA, Darmstadt, Germany.

®FloraGLO is a registered trademark of Kemin Industries, Inc.

TRAACS™ is a registered trademark of Albion Laboratories, Inc.

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

PureGenomics® UltraMultivitamin

With Metafolin® L-5-MTHF

COMPREHENSIVE MULTIVITAMIN/MINERAL FORMULA WITH ENHANCED SUPPORT FOR COMMON GENETIC POLYMORPHISMS[†]

Indications:

- Men and women age 18 and over

Vitamin Distinctions:

- Contains enhanced levels of fat-soluble vitamins, including vitamin A, 4,000 IU vitamin D, vitamin E with mixed tocopherols, and both vitamin K₁ and K₂
- Provides activated B vitamins, including pyridoxal-5-phosphate, riboflavin-5-phosphate, enhanced-retention thiamin derivative benfotiamine and 800 mcg of Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- Offers vitamin B₁₂ in a blend of adenosylcobalamin and hydroxycobalamin
- Includes 250 mg of vitamin C
- Enhanced-absorption, liposomal-like form of magnesium

Special Features:

- Offers pre-formed vitamin A for individuals with decreased conversion efficacy of carotenoids due to genetic variations in the enzyme BCMO1
- Supports healthy VDR activity with 4,000 IU vitamin D[†]
- Includes 100 mg of choline to support healthy methylation and cognitive function, particularly for individuals with MTHFR or PEMT genetic variations[†]
- Supports healthy brain signaling and emotional balance with lithium and vitamin B₁₂ as adenosylcobalamin and hydroxycobalamin[†]
- Promotes cellular function with antioxidants: vitamin C, ALA and CoQ₁₀, as well as NAC to support endogenous glutathione production[†]
- Moderates healthy estrogen metabolism and cell cycle activity with DIM[†]
- Promotes macular health with a blend of lutein and zeaxanthin[†]
- Convenient three-capsule-per-day dosing

3 capsules daily, with a meal.

Three (size 00) vegetarian capsules contains:

Vitamin A (as vitamin A acetate)	1,500 mcg
Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	100 mcg (4,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	20 mg
Vitamin K (as vitamin K ₁)	100 mcg
Thiamin (as thiamin HCl) (B ₁)	3 mg
Riboflavin (as riboflavin and 50% riboflavin-5-phosphate (activated B ₂))	3.4 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 76% pyridoxal-5-phosphate (activated B ₆))	5 mg
Folate (as Metafolin®, L-5-MTHF) (800 mcg L-5-MTHF)	1,333 mcg DFE
Vitamin B ₁₂ (as adenosylcobalamin and 50% hydroxycobalamin)	800 mcg

Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg
Choline (as choline bitartrate)	100 mg
Calcium (as di-calcium malate) (DimaCal™)	60 mg
Iodine (as potassium iodide)	300 mcg
Magnesium (as microencapsulated magnesium)	150 mg
Zinc (as zinc citrate)	20 mg
Selenium (as selenomethionine)	70 mcg
Copper (as copper glycinate)	2 mg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as molybdenum glycinate chelate) (TRAACS™)	75 mcg
Lithium (as lithium orotate)	500 mcg
Boron (as boron glycinate)	1 mg
BenfoPure® benfotiamine	3 mg
Mixed tocopherols	20 mg
Vitamin K ₂ (menaquinone-7)	20 mcg
Inositol	50 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Coenzyme Q ₁₀	50 mg
Alpha lipoic acid (thioctic acid)	90 mg
N-Acetyl-L-cysteine (free-form)	145 mg
BioResponse DIM® diindolylmethane complex (complex of starch, diindolylmethane, vitamin E (tocophersolan), phosphatidylcholine and silica) (standardized to contain 25% diindolylmethane)	50 mg

Other ingredients: vegetarian capsule (cellulose, water), microencapsulated magnesium (magnesium oxide, pregelatinized rice starch, sucrose esters of fatty acids, sunflower lecithin, tricalcium phosphate, rice flour), trimagnesium citrate, ascorbyl palmitate

Metafolin® is a registered Trademark of Merck KGaA, Darmstadt, Germany.

PureGG 25B

Shelf-Stable; Allergen-Free

HIGHLY RESEARCHED *LACTOBACILLUS RHAMNOSUS* GG TO SUPPORT IMMUNE, G.I. AND OVERALL HEALTH ACROSS ALL AGES[†]

Lactobacillus rhamnosus GG is one of the most characterized and utilized probiotic strains, with numerous clinical trials across all ages. It is a human origin strain, identified for its resistance to gastric acidity, adhesion properties and ability to support healthy gut microflora. Studies involving infants and children suggest that supplementation with *L. rhamnosus* GG supports healthy G.I. colonization, G.I. function and immune function, particularly related to skin and respiratory health. In a study involving children ages 1-7 attending day care, *L. rhamnosus* GG offered statistically significant support for respiratory and immune health. Studies involving pregnant women suggest supplementation supports healthy gut microflora in the infant, and nutrient metabolism during pregnancy. In one study, infants whose mothers had received *L. rhamnosus* GG during pregnancy showed increased bifidobacterial diversity at Day 5 after birth. *L. rhamnosus* GG is well known for its effects on bowel function, particularly abdominal comfort, bowel motility and occasional diarrhea. It also promotes cytokine balance in the G.I. tract at the level of gene expression, and overall immunomodulatory support. In a double-blind, crossover study, *L. rhamnosus* GG supplementation moderated the neutrophil and monocyte immune response in dairy-challenged, milk-sensitive subjects, while promoting immune function in non-sensitive subjects. In another study, *L. rhamnosus* GG promoted healthy gene expression to support white blood cell (WBC) function. Elderly subjects supplemented for 28 days showed 95 differentially expressed genes related to cellular movement, cell-to-cell signaling and cytokine response.[†]

1 capsule daily, with or between meals.

Each (size 00) vegetarian capsule contains:

<i>Lactobacillus rhamnosus</i> GG	25 billion CFU
Other ingredients: vegetarian capsule (cellulose, water)	

Gastrointestinal Health

PureGG 25B	Quantity	Order Code
	60	PGG6

PureHeart® K₂D

OFFERS VITAMIN K₂ (MK-7) TO HELP MAINTAIN HEALTHY VASCULAR CALCIUM HOMEOSTASIS TO SUPPORT CARDIOVASCULAR FUNCTION[†]

Vitamin K₂ menaquinone-7 promotes healthy vascular calcium balance and cardiovascular function. In a systematic review involving 5 studies, higher intakes of vitamin K₂ were associated with cardiovascular health. Research indicates that it supports the carboxylation of matrix Gla-protein (MGP), a key protein involved in calcium balance. Unlike vitamin K₁, which promotes bone health, menaquinone-7 targets vascular tissue to support healthy arterial blood flow and vascular elasticity. In an observational study involving 564 postmenopausal women, higher intake of vitamin K₂ was associated with calcium balance in the vascular tissue. Optimal serum levels of vitamin D are also important to maintain healthy calcium balance in vascular tissues, in part by supporting the activity of MGP. Studies indicate that the combination of vitamin K and D provides synergistic support. Vitamin K supplementation may be contraindicated for those taking Coumadin/warfarin anticoagulant medication.[†]

1 capsule, 1-2 times daily, with a meal.

Each (size 2) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin K ₂ (menaquinone-7)	240 mcg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

This product contains Vitamin K, which interferes with the prescription drug Coumadin (Warfarin). If you are taking blood-thinning medications, consult your health professional before use.

PureLean® Fiber

POWDERED BLEND OF FIBER AND PREBIOTICS TO PROMOTE WEIGHT MANAGEMENT[†] BY SUPPORTING HEALTHY MICROFLORA BALANCE, GLYCEMIC RESPONSE, SATIETY AND REGULARITY[†]

The gut microflora is now recognized as an important factor in overall health, with potential roles ranging from cellular and immune health to metabolic function and weight management. Studies indicate that obese individuals possess lower levels of Bacteroidetes microorganisms and higher levels of Firmicutes bacteria in the GI tract compared to lean individuals. In one study, germ-free mice inoculated with bacteria from obese mice showed increased Firmicutes bacteria and an increase in body fat over two weeks despite no change in dietary intake, compared to mice inoculated with bacteria from lean mice. In a double-blind, randomized, placebo-controlled study, 32 healthy adult subjects were given 1.4 grams or 2.8 grams of PrecticX™ XOS for eight weeks. The Bifidobacterium count increased 21% from the baseline at four weeks and 17% from the baseline at eight weeks in the highest dose group. *B. fragilis* levels (a Bacteroidetes organism) were also found to increase. Similar results were found in another study involving healthy young women, which also showed PrecticX™ supplementation resulted in an increase in fecal triglyceride and cholesterol concentrations. In contrast to many common prebiotics, these studies reported no gas, bloating or other intestinal side effects. Each serving of PureLean® Fiber provides 0.7 grams PrecticX™ XOS and a minimum of 6 grams fiber, typically providing 3.5 grams soluble fiber from glucomannan, guar gum, apple pectin and prune fiber, and 3 grams insoluble fiber from flax seed and cellulose. Soluble fiber helps slow the rate of digestion, promoting satiety, digestive health, nutrient absorption and healthy glycemic control. It enhances satiety by absorbing water and adding bulk in the digestive tract. Research has revealed that the high molecular weight and viscosity of glucomannan is particularly supportive. Each serving of PureLean® Fiber contains 1 gram of glucomannan. Several randomized controlled trials indicate that glucomannan supports healthy weight management[†] and lipid metabolism, and supports healthy glycemic control.¹

1 serving, 1-3 times daily, mixed with a beverage. Adequate water intake is recommended.

Serving size: 2 scoops (approximately 14.4 g)
Servings per container: approximately 24

Two scoops (approximately 14.4 g) contain:

Calories	40
Total carbohydrate	8 g
Dietary fiber	6 g
Sugar alcohols	2 g
Protein	1 g
Magnesium (as magnesium citrate)	100 mg
Sodium (naturally occurring)	30 mg
PrecticX™ xylooligosaccharides	700 mg
Proprietary fiber blend	10 g
Providing:	
CreaFibe cellulose, Sunfiber® partially hydrolyzed guar gum, flax seed fiber, 1,000 mg glucomannan, prune fruit powder, apple pectin	
Other ingredients: xylitol, luo han guo (<i>Momordica grosvenori</i>) extract (fruit)	

Sunfiber® is a registered trademark of Taiyo International, Inc. PrecticX™ is a trademark of AIDP, Inc. PrecticX™ is a patent protected Xylooligosaccharide exclusively distributed by AIDP, Inc.

PureLean® Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL FORMULA FOR HEALTHY WEIGHT MANAGEMENT††

Indications

- Support for healthy glucose metabolism, lipid utilization and weight management as part of a healthy lifestyle with a reduced-calorie diet and regular exercise†

Vitamin/Mineral Distinctions:

- Provides Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- **MacularSynergy Complex†**
Enhances the integrity of the macula and retina with lutein and zeaxanthin. Synergistic cofactors include vitamin C, vitamin E, zinc and carotenoids.†
- **Metabolic GlycoPlex†**
Supports healthy glucose uptake with alpha lipoic acid and cinnamon, and maintains healthy glycation activity with L-carnosine.†
- **Metabolic LipidPlex†**
Combines the hepatic fat metabolism properties of taurine and green tea with the metabolic oxidative stress-fighting capabilities of pterostilbene.†

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	34 mg
Vitamin K (as vitamin K ₁)	50 mcg
Thiamin (as thiamin HCl) (B ₁)	12.5 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	17.35 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	1,500 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Calcium (as calcium citrate)	75 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	75 mg
Zinc (as zinc citrate)	7.5 mg
Selenium (as selenomethionine)	35 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	1 mg

Chromium (as chromium polynicotinate)	200 mcg
Potassium (as potassium citrate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Inositol	62 mg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg

MacularSynergy Complex†

FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg

Metabolic GlycoPlex†

Alpha lipoic acid (thioctic acid)	150 mg
Cinnamon (<i>Cinnamomum cassia</i>) extract (dried bark)	50 mg
L-Carnosine (beta-alanyl-L-histidine)	25 mg

Metabolic LipidPlex†

Taurine (free-form)	150 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (providing 23% epigallocatechin gallate (EGCG))	50 mg

Pterostilbene	20 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

CinSulin® is a registered trademark of Beijing Tang-An Nutrition & Healthcare Products Co., Ltd.

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

®FloraGLO is a registered trademark of Kemin Industries, Inc.

Zeaxanthin is sourced from OPTISHARP® brand. OPTISHARP® is a trademark of DSM.

†Provides weight management support as part of a healthy lifestyle with a reduced-calorie diet and regular exercise.

Take with food. If you have liver problems, consult your health professional before use. Vitamin K may be contraindicated with Coumadin (Warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood-thinning medication, consult your health professional before use.

Keep out of the reach of children.

Weight Management

PureLean® Nutrients	Quantity	Order Code
	180	PLN21

PureLean® Protein

VEGETARIAN PROTEIN, DNF-10® PEPTIDES, MULTIVITAMIN/
MINERAL COMPLEX, OMEGA-3 FATTY ACIDS AND SUPERFRUIT
ANTIOXIDANTS TO SUPPORT HEALTHY WEIGHT MANAGEMENT††

Special Features:

- Includes DNF-10® peptides to promote satiety and weight management††
- 15 grams vegetarian protein from a unique blend of vegetarian rice, pea and chia proteins
- 4 g fiber
- 200 mg omega-3 fatty acids from chia
- 1 g MCT per serving
- Superfruit antioxidant blend of pomegranate fruit extract, acerola berry extract, quercetin, acai berry powder and blueberry fruit extract
- Comprehensive multivitamin/mineral core including antioxidants, activated B vitamins and chelated minerals
- Contains activated folate (as Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate)
- Creamy taste and texture

PureLean® Protein offers a blend of vegetarian proteins, antioxidants, fiber and nutrients in a lightly sweetened formula. Diets higher in protein and fiber have been associated with healthy weight management and body composition, believed to be due, at least in part, to enhanced satiety and nutrient metabolism. Fiber also helps support digestive health, nutrient absorption and healthy glycemic control. Research suggests that a multivitamin/mineral can help moderate appetite to support healthy weight management. Clinical studies indicate that DNF-10® lowers ghrelin secretion between meals, and neuropeptide Y in the hypothalamus to promote satiety. In four double-blind, randomized, placebo-controlled studies involving healthy overweight subjects, DNF-10® promoted a significant decrease in caloric intake, weight circumference, abdominal fat and body weight. In the most recent study, after two months of taking 500 mg DNF-10®, subjects had decreased their daily caloric intake by 600 calories, and 80% of the subjects thought less about eating during the day.††

Add 1 serving to 8 oz of water, milk or juice. Blend with fresh or frozen fruit pieces if desired. Shake, stir or blend until smooth.

Serving size: approximately 31 g (1 scoop)

Servings per container: approximately 20

Each scoop contains:

Calories	110
Total fat	2.5 g
Saturated fat	1 g
Total carbohydrate	8 g
Dietary fiber	4 g
Total sugars	3 g
Includes 3 g Added Sugars	
Protein	15 g
Vitamin A (as vitamin A acetate)	450 mcg
Vitamin C (as calcium ascorbate)	30 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as D-alpha tocopherol succinate)	10 mg
Vitamin K (as vitamin K ₁)	40 mcg
Thiamin (as thiamin HCl) (B ₁)	0.75 mg

Riboflavin (vitamin B ₂)	0.85 mg
Niacin (as niacinamide)	10 mg
Vitamin B ₆ (as pyridoxine HCl)	1 mg
Folate (as Metafolin®, L-5-MTHF)	333 mcg DFE (200 mcg 5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	6 mcg
Biotin	150 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	5 mg
Calcium (naturally occurring and as calcium citrate)	220 mg
Iron (naturally occurring)	1 mg
Phosphorus (naturally occurring)	100 mg
Iodine (as potassium iodide)	75 mcg
Magnesium (naturally occurring and as magnesium citrate)	100 mg
Zinc (as zinc citrate)	11 mg
Selenium (as selenomethionine)	35 mcg
Chromium (as chromium polynicotinate)	60 mcg
Sodium (naturally occurring)	375 mg
Superfruit antioxidant blend (from pomegranate fruit extract, acerola berry extract, quercetin, acai berry powder, and blueberry fruit extract)	100 mg
DNF-10® yeast hydrolysate (from <i>Saccharomyces cerevisiae</i>)	500 mg
Other ingredients: pea protein isolate, rice protein concentrate, organic evaporated cane sugar, natural vanilla and other natural flavors, C8Vantage™ medium chain triglyceride C8 powder, Sunfiber® hydrolyzed guar gum, apple pectin, chia seed protein, gellan gum, stevia leaf extract	

Sunfiber® is a registered trademark of Taiyo International, Inc.

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

C8Vantage™ is a trademark of NNB Nutrition.

DNF-10® is the property of Fytexia.

††Provides weight management support as part of a healthy lifestyle with a reduced-calorie diet and regular exercise.

Consume within 90 days from opening.

Vitamin K may be contraindicated with Coumadin (Warfarin). If you are taking blood-thinning medication, consult your health professional before use.

Weight Management

PureLean® Protein	Quantity	Order Code
	21.8 oz (620 g)	PLPV6

PureLean® Pure Pack

Daily Packet
With Metafolin® L-5-MTHF
Indications:

- Support for healthy glucose metabolism, lipid utilization and weight management as part of a healthy lifestyle with a reduced-calorie diet and regular exercise[†]

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- Easily tolerated magnesium glycinate for sensitive individuals

Special Features:

- Metabolic synergists for healthy glucose utilization, including alpha lipoic acid, cinnamon, and l-carnosine
- Enhanced fat metabolism support with 1,000 mg taurine, green tea and pterostilbene[†]
- Lemon-flavored omega-3 fatty acids for reduced aftertaste and healthy PPAR receptor function, supporting glucose and lipid homeostasis via healthy gene expression[†]
- Convenient, once-daily packet

Each Packet Contains:
PureLean® Nutrients 3 vegetarian capsules »See page 160

- Multivitamin/mineral complex for healthy glucose and lipid metabolism[†]

EPA/DHA with lemon 1 softgel capsule »See page 78

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

Taurine 1 vegetarian capsule »See page 182

- Amino acid for metabolism and relaxation support[†]

Magnesium (glycinate) 1 vegetarian capsule »See page 112

- Highly bioavailable form of magnesium to support energy production and emotional well-being[†]

Metabolic Xtra 1 vegetarian capsule »See page 118

- Supports healthy glucose metabolism[†]

Take 1 packet daily (7 capsules), with a meal.
Seven capsules contain:

Calories	10
Total fat	1 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	250 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate and natural tocopherols)	34 mg
Vitamin K (as vitamin K ₁)	50 mcg
Thiamin (as thiamin HCl) (B ₁)	12.5 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	17.35 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg

Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	1,500 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Calcium (as calcium citrate)	75 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate and 62% magnesium glycinate)	195 mg
Zinc (as zinc citrate)	7.5 mg
Selenium (as selenomethionine)	35 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	1 mg
Chromium (as chromium polynicotinate)	400 mcg
Potassium (as potassium citrate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg
Inositol	62 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Berberine HCl	350 mg
Alpha lipoic acid (thioctic acid)	250 mg
resVida® resveratrol (as trans-resveratrol)	20 mg
Cinnamon (<i>Cinnamomum cassia</i>) extract (dried bark)	50 mg
l-Carnosine (beta-alanyl-L-histidine)	25 mg
Taurine (free-form)	1,150 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (providing 23% epigallocatechin gallate (EGCG))	50 mg
Pterostilbene	20 mg
Fish oil concentrate (from anchovies, sardines, mackerel)	900 mg
Providing:	
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg

Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, natural lemon flavor, rosemary leaf extract, natural tocopherols

PureLean® Satiety

SUPPORTS SATIETY AND EMOTIONAL WELL-BEING FOR HEALTHY WEIGHT MANAGEMENT†‡

PureLean® Satiety is designed to support relaxation and moderate appetite to promote healthy weight management.† Clinical studies indicate that DNF-10® lowers ghrelin secretion between meals and neuropeptide Y in the hypothalamus to promote satiety. In four double-blind, randomized, placebo-controlled studies involving healthy overweight subjects, DNF-10® promoted a significant decrease in caloric intake, weight circumference, abdominal fat and body weight. In the most recent study, after 2 months of taking 500 mg DNF-10®, subjects had decreased their daily caloric intake by 600 calories, and 80% of the subjects thought less about eating during the day. Caloric decrease was statistically significant by the end of week 1, and subjects showed reduced preference for sweets. Body weight decreased by 3.5 pounds, particularly fat mass, while lean mass was unchanged. Another study involving supplementation of 1,000 mg DNF-10® for 10 weeks reported similar results, with body weight decreasing by 5.7 pounds and lean mass unchanged. This study reported significant reductions in total abdominal fat, subcutaneous abdominal fat and abdominal circumference. The herb ashwagandha has been used traditionally to strengthen the body's resistance to stress and fatigue, common triggers for undesirable eating behaviors. In one study, subjects supplemented with 125 mg of Sensoril® ashwagandha reported improved emotional wellbeing. Subjects also had decreased serum cortisol levels, which may be behind its supportive effects on glucose and fat metabolism. Another study involving supplementation with 300 mg ashwagandha for 8 weeks indicated support for perceived stress and reported significant improvement on food craving and eating questionnaire responses for planning, control and emotion. Ashwagandha also supports healthy sleep, which has been associated with maintaining healthy eating behaviors. Chromium is an active component of glucose tolerance factor (GTF) helping to support glucose utilization. In two studies, supplementation with 600 or 1,000 mcg chromium for 8 weeks reduced caloric intake and moderated mood fluctuations, appetite and cravings.‡

1 capsule, 1-2 times daily, with meals.

One (size 00) capsule contains:

Chromium (as chromium picolinate)	200 mcg
DNF-10® yeast hydrolysate (from <i>Saccharomyces cerevisiae</i>)	500 mg
Sensoril® ashwagandha (<i>Withania somnifera</i>) extract (root and leaf)	125 mg
Other ingredients: vegetarian capsule (cellulose, water)	

DNF-10® is the property of Fytexia.

Sensoril® is a registered trademark of Natreon, Inc. and is protected under U.S. Patent No. 7,318,938 and CA Patent No. 2,508,478.

†Provides weight management support as part of a healthy lifestyle with a reduced-calorie diet and regular exercise.

Not to be taken by pregnant or lactating women.

Cravings and appetite are influenced by many factors, only some of which may be affected by the ingredients in this formula.

PureMelt B₁₂ Folate

With Metafolin® L-5-MTHF

GREAT-TASTING, DISSOLVING B₁₂ FOLATE VITAMIN LOZENGE TO SUPPORT RED BLOOD CELL FUNCTION, ENERGY METABOLISM AND NEUROLOGICAL HEALTH*

PureMelt B₁₂ Folate provides activated B vitamins in a unique lozenge designed to dissolve in the mouth without requiring water. Each lozenge provides 1,000 mcg of methylcobalamin (the active form of vitamin B₁₂) and 400 mcg of Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate. Optimal levels of these B vitamins have been associated with cellular, cardiovascular, neurological and psychological health. Activated B vitamins provide methyl groups to support healthy methylation, a key regulator of genetic expression and cellular function. Healthy methylation is vital for cellular health, hormone and neurotransmitter production, and energy metabolism. This great-tasting, fruit-flavored lozenge contains no sugar, magnesium stearate or artificial colors or flavors.¹

1 lozenge, 1-2 times daily, with or between meals. Allow tablet to dissolve in mouth and swallow.

Each vegetarian lozenge contains:

Folate (as Metafolin®, L-5-MTHF) 667 mcg DFE (400 mcg L-5-MTHF)

Vitamin B₁₂ (as methylcobalamin) 1,000 mcg

Other ingredients: xylitol, mannitol, natural berry, cherry, and vanilla flavor, carboxymethyl cellulose, cellulose, ascorbyl palmitate, malic acid

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

PureProbiotic™

Allergen-Free

MULTI-STRAIN PROBIOTIC FORMULA TO SUPPORT MICROFLORA BALANCE, G.I. HEALTH AND IMMUNE CELL FUNCTION*

PureProbiotic™ (allergen-free) contains a blend of beneficial probiotic microorganisms derived from fermentation on a dairy-free, soy-free medium to ensure tolerability in individuals with food allergies or sensitivities. Each capsule provides 5 billion CFU per capsule of *Lactobacillus acidophilus*, *Lactobacillus plantarum*, *Lactobacillus rhamnosus*, *Bifidobacterium bifidum*, *Bifidobacterium lactis* and *Bifidobacterium breve* to support immune and gastrointestinal health. Research indicates that these strains promote healthy microflora balance, G.I. integrity, bowel regularity and healthy immune cell function in children and adults.¹

1 capsule, 1-2 times daily, with or between meals. Powder may be removed from capsule and mixed into cold food or beverage.

Each (size 3) vegetarian capsule contains:

Probiotic blend 5 billion CFU

Providing:

Bifidobacterium breve (Bb-18)

Bifidobacterium lactis (Bb-04)

Lactobacillus acidophilus (La-14)

Lactobacillus rhamnosus (Lr-32)

Lactobacillus plantarum (Lp-115)

Bifidobacterium bifidum (Bb-06)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

This formula requires refrigeration to maintain culture viability.

PureResponse® Multivitamin

Formulated with Samuel F. Yanuck, D.C.*

MULTIVITAMIN/MINERAL COMPLEX DESIGNED TO SUPPORT IMMUNE BALANCE AND RESPONSIVENESS†

PureResponse® Multivitamin was designed to support key pivot points in immune function, including neutrophil and natural killer (NK) cell response, and cytokine production. This first-of-its-kind, unique formulation supports healthy cell-mediated immunity with a comprehensive blend of nutrients and reishi mushroom extract. It also includes the adaptogen eleuthero to promote physiological balance and moderate occasional stress, including corticosterone activity, cytokine balance and nutrient metabolism. PureResponse® Multivitamin features enhanced levels of fat-soluble vitamins, including pre-formed vitamin A, vitamin D₃, vitamin E with mixed tocopherols, and both vitamin K₁ and K₂. To accommodate the needs of patients with self-tissue response, PureResponse® Multivitamin is free from iron, copper, iodine and manganese.†

2 capsules daily, with a meal.

Two (size 00) capsules contain:

Vitamin A (as vitamin A acetate)	1,500 mcg
Vitamin C (as ascorbic acid)	100 mg
Vitamin D (as cholecalciferol) (D ₃)	125 mcg (5,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	15 mg
Vitamin K (as vitamin K ₁)	135 mcg
Thiamin (as thiamin HCl) (B ₁)	5 mg
Riboflavin (as riboflavin and 60% riboflavin-5-phosphate (activated B ₂))	5 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 76% pyridoxal-5-phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as adenosylcobalamin and 50% hydroxycobalamin)	1,000 mcg
Biotin	300 mcg

Pantothenic acid (as calcium pantothenate) (B ₅)	50 mg
Choline (as choline bitartrate)	20 mg
Magnesium (as di-magnesium malate) (Albion™)	100 mg
Zinc (as zinc citrate)	25 mg
Selenium (as selenomethionine)	150 mcg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as molybdenum glycinate chelate) (TRAACS™)	150 mcg
Potassium (as potassium citrate)	15 mg
Vitamin K ₂ (menaquinone-7)	45 mcg
Mixed tocopherols	20 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Eleuthero (<i>Eleutherococcus senticosus</i>) extract (root) (standardized to contain 0.8% eleutherosides)	125 mg
Reishi (<i>Ganoderma lucidum</i>) extract (fruiting body)	75 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate	

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.

Pure Sleep

PROMOTES SLEEP QUALITY†

Pure Sleep combines three clinically studied botanical extracts to help patients fall asleep, stay asleep and experience the restorative, restful sleep they need without morning grogginess. KSM-66® ashwagandha (*Withania somnifera*) root extract is a calming adaptogen that helps relieve occasional stress and anxiety and supports a healthy cortisol response. Results from several randomized, placebo-controlled trials indicate that KSM-66® supports sleep onset, helping individuals fall asleep faster, while enhancing sleep quality and efficiency when taken continuously over several weeks. In a randomized, double blind clinical trial involving 80 adults, ashwagandha supplementation (KSM-66®, 300 mg twice daily) for 8 weeks led to a significant mean reduction in sleep onset latency (the time it takes to fall asleep after going to bed), sleep quality, and total sleep time. A 12-week randomized, double blind clinical trial demonstrated that ashwagandha (KSM-66®, 300 mg twice daily) improved subjective sleep parameters and mental alertness on rising, in healthy elderly subjects. Results from multiple clinical trials demonstrate that saffron extract (affron®) promotes multiple aspects of restful sleep, supporting sleep onset and duration with continued use. In a randomized, double blind clinical trial involving 66 adults, saffron (affron®, 15.5 mg per day) for 6 weeks led to significant improvements in ease of getting to sleep, sleep quality, sleep duration, and global Pittsburgh Sleep Quality Index (PSQI) scores. In a randomized double-blind, placebo controlled trial involving 63 healthy adults aged 18-70 with self reported sleep concerns, saffron (affron®, 14 mg twice daily) for 28 days led to greater improvements in Restorative Sleep Questionnaire (RSQ) total scores and the Pittsburgh Sleep Diary (PSD) sleep quality ratings compared to placebo. This formula also provides Sleeproot, a valerian root extract standardized to a higher potency (2% total valerenic acids) than typical extracts, that promotes sleep quality, efficiency and duration. In a randomized, double blind clinical trial involving 72 adults, Sleeproot (200mg/day) for 8 weeks improved overall sleep quality, reduced sleep latency, enhanced sleep efficiency, and prolonged total sleep time. Sleeproot resulted in significant improvements in mean total PSQI sleep scores and reduced sleep latency, assessed by wrist actigraphy, compared to placebo.‡

2 capsule, 30-60 minutes before bedtime.

Two (size 00) capsules contain:

KSM-66 Ashwagandha® (<i>Withania somnifera</i>) extract (root)	600 mg
Sleeproot valerian (<i>Valeriana officinalis</i>) extract (root) (standardized to contain 2% valerenic acid)	200 mg
Suntheanine® (l-Theanine)	100 mg
Affron® saffron (<i>Crocus sativus</i>) extract (stigma) (standardized to contain 3.5% Lepticrosalides®)	28 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, tri-magnesium citrate	

WARNING: Not to be taken if you are pregnant or lactating. Consult your healthcare practitioner before use if on any medication or have any health condition. Discontinue use and seek medical advice if adverse reactions occur. Product may impair ability to drive a motor vehicle or operate machinery.

KSM-66 Ashwagandha® is a registered trademark of Ixoreal Biomed Inc.

Sleeproot is a trademark of OmniActive Health Technologies Ltd.

Suntheanine® is a registered trademark of Taiyo International, Inc.

Pycnogenol® 50 mg

HIGHLY RESEARCHED PINE BARK EXTRACT TO SUPPORT COGNITIVE FUNCTION AND CARDIOVASCULAR HEALTH†

“Pycnogenol” originally denoted all proanthocyanidin extracts, regardless of source. However, it now refers specifically to maritime pine bark. The mixture of proanthocyanidins in pine bark supports vascular endothelial integrity by stabilizing collagenous membranes. It also promotes vascular function by modulating nitric oxide levels. In addition to facilitating vitamin C regeneration and preserving vitamin E, Pycnogenol® is a hydroxyl and superoxide radical scavenger. Collectively, these actions promote the health of blood vessels.¹

1 capsule, 1-3 times daily, between meals.

Each (size 3) vegetarian capsule contains:

French maritime pine (*Pinus pinaster*) extract (bark) 50 mg
 Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Pycnogenol® is a registered trademark of Horphag Research Ltd. Use of this product may be protected by one or more U.S. patents and other international patents.

Q-Gel® 100 (Hydrosoluble™ CoQ₁₀)

ENHANCED SOLUBILITY COQ₁₀ WITH VITAMIN E; SUPPORTS CARDIOVASCULAR AND NEUROCOGNITIVE HEALTH[†]

CoQ₁₀ is a core component of cellular energy production and respiration, shuttling electrons down the electron transport chain to produce the key energy-rich molecule adenosine triphosphate (ATP). As such, it provides energy support to the cells of the body, and is especially supportive of tissues that require a lot of energy, such as the heart muscle. It also acts as an antioxidant, providing cellular protection from free radicals.[†]

1 capsule, 1-2 times daily, with a meal.

Each (size 22) softgel capsule contains:

Vitamin E (as d-alpha tocopheryl acetate)	100 mg
Coenzyme Q ₁₀	100 mg
Other ingredients: gelatin, sorbitol, glycerin, purified water, annatto seed extract in sunflower oil (natural color) in a patented Bio Solv® base (polysorbate 80, hydroxylated soy lecithin, medium-chain triglycerides)	

Q-Gel® and Bio Solv® are registered trademarks of Tishcon Corp.

Hydrosoluble™ is a trademark of Tishcon Corp. Manufactured under one or more of the following U.S. Patents: 6,056,971; 6,300,377; and 6,740,338.

Contains soy

Quercetin UltraSorb

WITH BIOAVAILABLE QUERCETIN PHYTOSOME™ (QUERCEFIT®); ENHANCED-ABSORPTION CELLULAR, IMMUNE AND CARDIOVASCULAR SUPPORT[†]

Quercetin UltraSorb contains the patented QuerceFit® quercetin-phospholipid complex for enhanced absorption and bioavailability. The proprietary phytosome technology combines quercetin from *Sophora japonica* flower extract and phospholipids from sunflower in a 1:1 ratio, promoting resistance to degradation in the digestive tract and efficient absorption across membranes. A randomized crossover human pharmacokinetic study compared QuerceFit® with regular quercetin and found the phytosome improved the bioavailability of quercetin by 20-fold.

Quercetin is a polyphenolic flavonoid known to exhibit cellular and immune-moderating activity. Research suggests that quercetin acts as a SIRT1 inducer to promote cellular regulation and autophagy, the natural process of degradation and recycling of cellular components to promote renewal. It also increases the body's antioxidant capacity, in part, by regulating levels of glutathione. In a pilot trial involving adults, supplementation for 30 days with 250 mg or 500 mg Quercetin Phytosome™ (QuerceFit®) supported antioxidant defenses and helped support respiratory function and nasal comfort. Preliminary research suggests that quercetin helps to stabilize mast cells and moderate the release of immune mediators.[†]

1 capsule, 1-2 times daily, with meals.

One (size 0) vegetarian capsule contains:

Quercetin Phytosome™ (Quercefit®) (Quercetin and sunflower phospholipid complex) (standardized to contain 34% quercetin)	300 mg
--	--------

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

R-Lipoic Acid (stabilized)

STABILIZED R-LIPOIC ACID FOR ANTIOXIDANT AND METABOLIC SUPPORT[†]

Sodium R-alpha-lipoic acid is a highly bioavailable and stabilized form of R-lipoic acid. Regular R-lipoic acid is heat sensitive and may polymerize extensively, decreasing its absorption significantly. In real-time stability tests, sodium R-lipoic acid remained stable for 12 months. The natural R isomer of alpha-lipoic acid may provide enhanced antioxidant activity, energy production and general metabolic function. Studies suggest that R-lipoic acid offers support for glucose metabolism in skeletal muscle. A University of California Berkeley study indicates that R-lipoic acid may be protective against age-related oxidative stress in the liver. Furthermore, a study at Oregon State University established a potential role for R-lipoic acid in protecting the heart from age-related oxidative stress.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 1) vegetarian capsule contains:

Sodium	14 mg
R-Lipoic acid	100 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), sodium carbonate, ascorbyl palmitate

Rapid Calm

RAPID-ACTING SUPPORT FOR OCCASIONAL ANXIETY (<1 HR)[†]

Rapid Calm delivers rapid-acting support for occasional anxiety in less than one hour. Zembrin[®], a patented extract of *Sceletium tortuosum*, has been clinically studied and shown to help moderate general feelings of stress and occasional anxiety. In a clinical trial, a single dose of 25 mg Zembrin[®] reduced perceived levels of occasional anxiety and its physical symptoms, such as elevated heart rate, in healthy volunteers, within 1 hour. In another randomized clinical trial, a single 25 mg dose of Zembrin[®] moderated fear responsivity and activation of the brain's amygdala, assessed using pharmacofMRI. The amygdala is a part of the brain that reacts to threats and communicates with the rest of the related areas of the brain to regulate feelings of fear and nervousness in threatening situations. In vitro evidence indicates that Zembrin[®] might work by inhibiting serotonin reuptake, prolonging the effects of serotonin. Serotonin is a neurotransmitter involved in relaxation and mood. L-theanine complements Zembrin[®] by supporting a relaxed and alert mental state. Vitamin B₆ is a cofactor in the biosynthesis of serotonin. This formula is ideal for as-needed relief from occasional everyday stressors.[†]

1 capsule as needed, with or between meals.

One (size 0) capsule contains:

Vitamin B ₆ (as pyridoxine HCl)	10 mg
Zembrin [®] <i>Sceletium tortuosum</i> extract (aerial parts)	25 mg
L-Theanine (Suntheanine [®])	200 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Zembrin[®] is a registered trademark of HG&H Pharmaceuticals (Pty) Limited.

Suntheanine[®] is a registered trademark of Taiyo International, Inc.

Rapid Mental Energy

RAPID-ACTING WORKING MEMORY SUPPORT (IN AS LITTLE AS ONE HOUR)[†]

Rapid Mental Energy combines studied extracts, *Alpinia galanga* (enXtra) and American ginseng (Cereboost®), to support alertness and sharpen working memory. In a randomized, double-blind, placebo-controlled crossover study, enXtra significantly increased alertness scores from baseline values at 1 hour, 3 hours and 5 hours after a single 300 mg dose. Alertness scores were significantly greater in the enXtra group compared to placebo (p=0.04) at 3 hours post-dose. While enXtra supports alertness and attention network function (the ability to direct mental resources to a specific task), Cereboost® provides fast-acting support for acute visuospatial and verbal short-term (working) memory. In a study of 52 healthy middle-aged adults, Cereboost® (200 mg) improved working memory 3 hours after a single dose. In a randomized controlled clinical trial of 61 healthy young adults, daily use of Cereboost® (200 mg) improved working memory and attention. In a randomized, double-blind crossover trial of 32 healthy volunteers, a single dose of Cereboost® (200 mg) improved working memory (immediate word recall and visuo-spatial information retrieval) at 1 hour post-dose and was sustained over a 6 hour testing period. The ginsenosides in Cereboost® support cholinergic neurotransmission in the hippocampus and prefrontal cortex, key brain regions involved in learning and memory.[†]

1 capsule as needed, with or between meals.

One (size 00) capsule contains:

enXtra greater galangal (<i>Alpinia galanga</i>) extract (rhizome)	300 mg
Cereboost® American ginseng (<i>Panax quinquefolius</i> L.) extract (root) (standardized to contain 10% ginsenosides)	200 mg
Ginkgo (<i>Ginkgo biloba</i>) extract (leaf) (standardized to contain 24% ginkgoheterosides and 6% terpene lactones)	80 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), hydroxypropyl cellulose	

Cereboost® is used under license from Givaudan Flavors Corporation.

enXtra is a licensed trademark of OmniActive Health Technologies Ltd.

Not to be taken by pregnant or lactating women.

Reduced Glutathione

SUPPORTS ANTIOXIDANT DEFENSES AND DETOXIFICATION[†]

Glutathione is a key component of the antioxidant system which protects the body from free radicals at the cellular level. Reduced glutathione is involved in the synthesis and repair of DNA, and enhances the antioxidant activity of vitamin C, the transport of amino acids, and the detoxification of harmful compounds. In addition, an intracellular abundance of reduced glutathione, as compared to oxidized glutathione, helps ensure healthy cell function. It is especially important for liver function.[†]

1 capsule, 1-2 times daily, between meals.

Each (size 1) vegetarian capsule contains:

L-Glutathione (reduced) (free-form)	100 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Setria® is a registered trademark of KYOWA HAKKO BIO Co., Ltd.

Relora®

SUPPORTS OCCASIONAL STRESS AND PROMOTES SATIETY WHEN COMBINED WITH A HEALTHY DIET AND EXERCISE[‡]

Relora® is a proprietary blend of *Magnolia officinalis* and *Phellodendron amurense*. This synergistic combination of extracts helps promote positive mood and helps mediate everyday stress-related emotions, eating behavior and muscle tension. The magnolia and phellodendron fractions may bind to key central nervous system receptors, including those for GABA and the serotonin transporter, which encourages feelings of satiety and relaxation. A pilot clinical trial reported that Relora® was well tolerated and helped promote emotional well-being. A follow-up trial reported similar results, as well as indicated that supplementing with Relora® may help diminish stress-related sugary snack cravings and promote healthful eating habits. An animal study further demonstrated the supplement's ability to support mood and relaxation. A recent pilot clinical trial performed in Cincinnati, Ohio, suggested that magnolia and phellodendron helped to maintain healthy cortisol and DHEA production and metabolism, which helped support healthy body-fat distribution.¹

1 capsule, 2 times daily, with or between meals.

Each (size 2) vegetarian capsule contains:

Relora® 250 mg
 proprietary patented blend of:
 magnolia (*Magnolia officinalis*) extract (bark) and phellodendron (*Phellodendron amurense*) extract (bark)

Other ingredients: vegetarian capsule (cellulose, water), modified food and corn starch, hypoallergenic plant fiber (cellulose), ascorbyl palmitate, silicon dioxide

Relora® & logo are trademarks of Lonza or its affiliates. Relora® brand *Magnolia officinalis* and *Phellodendron amurense*.

Not to be taken by pregnant or lactating women. Do not take concurrently with antidepressants.

RENUAL®

MITOCHONDRIAL RENEWAL FEATURING MITOPURE™ UROLITHIN A TO POWER MUSCLE FUNCTION, INCREASE CELLULAR ENERGY AND PROMOTE HEALTHY AGING[‡]

Urolithin A is the main metabolite of ellagitannin-rich foods, such as pomegranates, black raspberries, raspberries, strawberries, walnuts and almonds. These polyphenol components are not absorbed intact into the bloodstream, but are hydrolyzed to ellagic acid in the gut, which is then metabolized by the gut microflora to form urolithin A and B. Research indicates that the ability to synthesize urolithins declines with age and depends on the gut microflora, and there is a small percentage of the population that is unable to perform this conversion at all. Research indicates that urolithin A enhances autophagy, the natural process of cellular renewal in which the body degrades and recycles cellular components, as well as mitophagy, the clearance and recycling of older and dysfunctional mitochondria.

Mitochondria are the “powerhouses of the cell” and their function is fundamental to healthy aging. Efficient rejuvenation of mitochondria supports energy production and the overall health of cells. A randomized, double-blind, placebo-controlled trial involving healthy sedentary elderly subjects indicated that supplementation with urolithin A promoted mitochondrial gene expression in the muscle and fatty acid oxidation efficacy, showing support for mitochondrial biogenesis and function. Four weeks of urolithin A supplementation resulted in improved mitochondrial function comparable to a 10-week aerobic exercise regimen, as measured by decreases in plasma acylcarnitine. In animal research, urolithin A enhanced mitophagy to promote mitochondrial biogenesis and function during aging. It also improved endurance and exercise capacity in both young and age-related models of muscle decline.

Supporting autophagy reduces oxidative stress and promotes healthy cytokine balance within the cells to support healthy aging. Preliminary research suggests a broad spectrum of support, including energy production, neuronal health and neurogenesis, gut barrier function and healthy joint collagen. Urolithin A also may offer support for glucose and fat metabolism. When mice were fed a high-fat diet for 12 weeks, supplementation with urolithin A promoted healthy insulin function, lipid metabolism and decreased adipocyte size. These results are believed to be the result of increased expression of genes targeting fatty acid beta-oxidation, adipose tissue lipolysis and insulin receptor function (Sirt1), and oxidation defenses (SOD1 and SOD2). Sirt1 is also a target of resveratrol, thereby offering support for longevity, metabolic health and mitochondrial function. CoQ₁₀ is a key nutrient used in the energy production pathway.¹

2 capsules, 1-2 times daily, with or between meals.

Two (size 0) Caplique® capsules contain:

Mitopure™ Urolithin A	250 mg
Trans-Resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root))	150 mg
Coenzyme Q ₁₀	60 mg
Other ingredients: vegetable glycerin, vegetarian capsule (cellulose, water)

ResCu-SR® With MicroActive® Technology

HIGHLY BIOAVAILABLE, SUSTAINED-RELEASE RESVERATROL AND CURCUMIN; SUPPORTS CARDIOPROTECTION, NEUROLOGICAL HEALTH AND LONGEVITY[†]

A synergistic and exclusive combination

Resveratrol and curcumin support longevity, cardioprotection and neurological health. Recent studies have demonstrated antioxidant synergy and convergent mechanisms.[†]

Innovative sustained-release delivery technology

The MicroActive® technology is a patented delivery system that improves solubility, reduces particle size, improves absorption and provides sustained-release of polyphenols.

Backed by human pilot trials

In a human pilot study, peak plasma resveratrol and area under the curve (AUC) values were 250% greater with MicroActive® Resveratrol compared to an equivalent dose of 98% pure resveratrol. In a separate human trial, peak plasma curcumin levels were 4 to 60-fold greater with MicroActive® Curcumin compared to an equivalent dose of a standard 95% curcumin preparation. Superior plasma concentrations remained after a 9-hour period.

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Trans-resveratrol (from MicroActive® resveratrol sustained-release complex)	100 mg
Curcuminoids (from MicroActive® turmeric (<i>Curcuma longa</i>) extract (root) sustained-release complex)	50 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), carnauba wax, potato starch, polyglycerol fatty acid esters, silica, medium chain triglycerides, sodium alginate

Resveratrol

SUPPORTS CARDIOVASCULAR, COGNITIVE AND CELLULAR HEALTH[†]

Resveratrol is a compound often associated with the health benefits of red wine, because of its antioxidant and cardioprotectant properties. It promotes cardiovascular health through its antioxidant action and its ability to promote healthy platelet function and maintain healthy arachidonic acid metabolism. Pure Encapsulations' Resveratrol is derived from one of the richest known sources, *Polygonum cuspidatum*, an herb utilized for centuries.[†]

1-5 capsules daily, with or between meals.

Each (size 2) vegetarian capsule contains:

Trans-resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root))	40 mg
Other ingredients: vegetarian capsule (cellulose, water)

Resveratrol EXTRA

COMBINES RESVERATROL WITH POLYPHENOLS FROM RED WINE AND GRAPE SEED FOR ENHANCED SUPPORT OF HEALTHY CELLULAR AND CARDIOVASCULAR FUNCTION[†]

Resveratrol promotes cardiovascular health, helping to maintain healthy platelet function and arachidonic acid metabolism. A recent Harvard study suggests that it may also promote overall health, metabolic function and longevity. Grape seed extract and red wine concentrate offer polyphenols, complementing the cellular and cardiovascular health benefits of this complex. One capsule of Resveratrol EXTRA contains the amount of resveratrol equivalent to an average of 66 bottles of red wine.[†]

1 capsule daily, with or between meals.

Each (size 0) vegetarian capsule contains:

Trans-resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root))	100 mg
Red wine grape (<i>Vitis vinifera</i>) concentrate (whole fruit) (standardized to contain 25% total polyphenols)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg

Resveratrol VESIsorb®

Liquid-filled Vegetarian Caplique® Capsules

SELF-ASSEMBLING COLLOID SYSTEM; ENHANCED-ABSORPTION RESVERATROL FOR CARDIOVASCULAR, COGNITIVE AND CELLULAR HEALTH†

- In a dissolution study, resveratrol with the VESIsorb® delivery system demonstrated 100% dissolution, the ability to dissolve readily in an aqueous environment for absorption, compared to less than 1% for powder
- Research suggests resveratrol offers support for cellular function, cardiovascular and neurocognitive health and antioxidant defenses†
- In a recent 30-day randomized double-blind crossover trial, 150 mg resVida® resveratrol supported Cardiovascular Health. Resveratrol supplementation promoted AMPK, SIRT1 and PGC-1α activity, indicating support for mitochondrial function, as well as healthy blood flow, adipose tissue lipolysis and hepatic lipid content†
- Each capsule offers 50 mg of enhanced-absorption resveratrol as the highly pure 99% trans-resveratrol resVida®

2 Caplique® capsules daily, with or between meals.

Two (size 0) Caplique® capsules contain:

resVida® resveratrol (as trans-resveratrol) 100 mg

Other ingredients: medium chain triglycerides, polysorbate 80, vegetarian Caplique® capsule (cellulose, water), polyglycerol fatty acid esters, silica

RevitalAge™ Nerve

ADVANCED NERVE SUPPORT FORMULA†

- Patented, scientifically researched combination of acetyl-L-carnitine (ALC), alpha lipoic acid (ALA) and methylcobalamin, used under license from Juvenon®, Inc.
- Supports nerve conduction velocity, normal nerve signaling and nerve structure in healthy individuals†
- Supports healthy nerve fiber function with a combination of methylcobalamin, pyridoxal 5' phosphate and Metafolin®, L-5-MTHF†
- Promotes nerve comfort, in part by supporting healthy receptor activity and mitochondria function†
- Includes MicroActive® sustained-release CoQ10; shown in clinical research to offer 300% greater peak plasma concentrations compared to standard CoQ10 for enhanced antioxidant and mitochondria support†

2 capsules, 2 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	10 mg
Vitamin B ₁₂ (as methylcobalamin) ^Δ	250 mcg
Folate (as Metafolin®, L-5-MTHF)	417 mcg DFE (250 mcg L-5-MTHF)
Magnesium (as di-magnesium malate)	100 mg
Acetyl-L-carnitine HCl ^Δ	500 mg
Alpha lipoic acid (thioctic acid) ^Δ	200 mg
Coenzyme Q ₁₀ (from MicroActive® Q ₁₀ -cyclodextrin complex)	15 mg

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), potato starch, ascorbyl palmitate

RevitalAge™ Ultra

Now with NR

MITOCHONDRIAL SUPPORT FORMULA FOR CELLULAR LONGEVITY[‡]

RevitalAge™ Ultra is a scientifically researched combination of acetyl-l-carnitine (ALC) and alpha lipoic acid (ALA) offered with antioxidant and mitochondrial support cofactors. It promotes healthy aging through mechanisms involving gene expression, mitochondrial function, cellular energy production and antioxidant protection. Specifically, alpha lipoic acid, acetyl-l-carnitine and resveratrol support mitochondria synthesis by promoting healthy activity of the key enzyme AMP kinase (AMPK). Nicotinamide riboside chloride (NR) is a precursor of nicotinamide adenine dinucleotide (NAD+), a key driver of cellular energy production. Some evidence suggests that NAD+ declines with age in humans. NAD+ activates SIRT1, an epigenetic switch that regulates metabolism, mitochondrial biogenesis, cellular energy production and cellular longevity. Higher NAD+ levels are associated with healthy mitochondrial function. Resveratrol supports SIRT1 activity and mitochondrial function. pTeroPure™ is pure, clinically researched pterostilbene, the methylated analog of resveratrol. It may provide additional antioxidant support when combined with resveratrol. CoQ₁₀ offers antioxidant protection from free radicals that contribute to cellular aging. Preclinical research on aging has revealed the patented combination of acetyl-l-carnitine (ALC), alpha lipoic acid (ALA) and biotin can promote cellular longevity.¹

Clinically Researched Longevity Combination[‡]

- Patented combination of acetyl-l-carnitine (ALC), alpha lipoic acid (ALA) and biotin, used under license with Juvenon, Inc., combined with PhytoLongevity polyphenol blend
- Promotes healthy aging by maintaining healthy gene expression, mitochondrial number, cellular energy production and antioxidant capacity¹
- Cardiovascular and neurocognitive benefits demonstrated by numerous studies¹

3 capsules daily, with meals.

Three (size 00) vegetarian capsules contain:

Biotin ^Δ	2,000 mcg
Nicotinamide riboside chloride (NR)	50 mg
Acetyl-l-carnitine HCl ^Δ	1,000 mg
Alpha lipoic acid (thioctic acid) ^Δ	400 mg
Trans-resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root)	30 mg
CoQ ₁₀	30 mg
Pterostilbene	5 mg
PhytoLongevity proprietary blend	200 mg

Providing:

Cranberry (*Vaccinium macrocarpon*) extract (fruit), wild blueberry (*Vaccinium angustifolium*) extract (fruit), Orléans strawberry (*Fragaria x ananassa*) extract (fruit), and spinach (*Spinacia oleracea*) extract (leaf)

Other ingredients: vegetarian capsule (cellulose, water)

Rhodiola Rosea

BROAD-SPECTRUM ADAPTOGEN SUPPORT FOR OCCASIONAL MENTAL AND PHYSICAL STRESS[‡]

Rhodiola rosea, a Siberian plant also known as Golden root, has been used traditionally for hundreds of years to help lessen mental and physical stress and to promote endurance. Animal studies indicate that the extract also appears to maintain healthy adrenal catecholamine activity during stress and provide cardioprotection by moderating stress-induced catecholamine release in the myocardium. Furthermore, Rhodiola rosea has demonstrated the potential to support healthy glucose metabolism. Rhodiola may be contraindicated for individuals taking adrenergic-blocking and antiarrhythmic medications.[†]

1 capsule, 1-2 times daily, between meals.

Each (size 3) vegetarian capsule contains:

Rhodiola (Rhodiola rosea) extract (root) 100 mg
 (standardized to contain 3% total rosavins and 1% salidroside)
 Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

SAMe (S-Adenosylmethionine)

Shelf-Stable; Acid-Resistant Capsules

ENHANCED-STABILITY SAMe TO SUPPORT METHYLATION, POSITIVE MOOD, GLUTATHIONE PRODUCTION AND JOINT COMFORT[‡]

SAMe (S-adenosylmethionine) is a metabolite present in all living cells. It functions as a donor of methyl groups in over 100 different reactions and contributes to the synthesis, activation and/or metabolism of hormones, neurotransmitters, nucleic acids, phospholipids and proteins. Methyl groups act as a signal throughout the body, regulating genetic expression and cellular function. SAMe also functions as a precursor molecule for glutathione and promotes polyamine synthesis to promote healthy cellular function. Clinical trials indicate that SAMe administration enhances glutathione production in hepatic tissue and red blood cells. SAMe also targets cognitive function and positive mood, as indicated in over 40 clinical studies. In a meta-analysis involving 25 controlled trials and 791 individuals, SAMe offered statistically significant support for positive mood believed to be due to its support for neurotransmitter monoamine synthesis and function, including dopamine and serotonin. It also promotes healthy protein turnover and maintains healthy phospholipid methylation to support phosphatidylcholine production and cellular membrane integrity and fluidity. Studies suggest it may enhance joint comfort and flexibility as well. In a meta-analysis involving 11 studies, SAMe offered statistically significant support for joint function. It is believed to enhance joint comfort and function by supporting proteoglycan synthesis, as well as helping to stabilize and protect the proteoglycans.[‡]

1 capsule, 1-2 times daily, between meals.

Each (size 00) vegetarian capsule contains:

SAMe (S-adenosylmethionine) 200 mg
(from S-adenosyl-L-methionine disulfate tosylate)

Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), calcium oxide, ascorbyl palmitate, calcium chloride

If you are pregnant or lactating, have any health condition or are taking any medication, particularly if you have bipolar disorder or are taking antidepressant medication, consult your health professional before use.

Saw Palmetto 320

FUNDAMENTAL, TIME-TESTED SUPPORT FOR URINARY FUNCTION AND PROSTATE HEALTH[‡]

Saw palmetto has been utilized for decades to support healthy prostate and urinary function. In countries like New Zealand, France, Germany and Austria, this herb has been the gold standard for prostate support for many years. Its primary mode of action involves supporting healthy testosterone metabolism, in part by maintaining healthy 5-alpha-reductase enzyme activity and receptor binding. In a recently published JAMA meta-analysis involving 18 randomized controlled trials and almost 3,000 men, results suggest that saw palmetto provides important urologic support by promoting healthy urinary function. In a three-year German study, saw palmetto extract promoted healthy urinary function in volunteers.[‡]

1 capsule, 1-2 times daily, between meals.

Each (size 6) softgel capsule contains:

Saw palmetto (*Serenoa repens*) extract (fruit) 320 mg
(standardized to contain 85% total fatty acids)

Other ingredients: gelatin capsule (gelatin, glycerin, water)

Not to be taken by pregnant or lactating women.

Saw Palmetto Plus

BROAD SUPPORT FOR URINARY FUNCTION AND PROSTATE HEALTH[†]

Saw palmetto has been used safely for decades to support proper prostate and urinary function. Its primary mode of action involves maintaining healthy testosterone metabolism. In a recently published JAMA meta-analysis involving 18 randomized controlled trials and almost 3,000 men, saw palmetto promoted healthy urinary flow. *Pygeum africanum* may maintain healthy prostaglandin and prolactin metabolism in the prostate. Pumpkin seed oil provides essential fatty acids and zinc, important for prostate health. Nettle root, also known as stinging nettles or *Urtica dioica*, has indicated the ability to support healthy enzyme activity and maintain healthy hormone metabolism in prostate cells. In a multicenter study examining the effect of nettle root extract in over 5,000 individuals, the extract supported prostate health in the majority of subjects.[†]

2 capsules, 1-2 times daily, between meals.

Two (size 16) softgel capsules contain:

Calories	20
Total fat	2 g
Vitamin E (as d-alpha tocopherol)	13 mg
Saw palmetto (<i>Serenoa repens</i>) extract (fruit) (standardized to contain 85% total fatty acids)	320 mg

Sereniten Plus

Formulated with Penny Kendall-Reed, N.D.[†]

MODERATES THE EFFECTS OF OCCASIONAL STRESS AND SUPPORTS RESTFUL SLEEP[‡]

Lactium® is a unique, clinically researched bioactive casein hydrolysate containing a bioactive decapeptide (a polypeptide 10-chain amino acid alpha-1 sequence) developed to target stress-related symptoms. In one 30-day study, subjects supplemented with 150 mg Lactium® daily reported statistically significant support for multiple stress-related effects, including digestion, mood, relaxation, sleep and cardiovascular and cognitive function. In studies where individuals or animals were exposed to mild stressors, supplementation helped moderate healthy heart rate and blood flow, as well as plasma cortisol. Cortisol is released by the adrenal glands during acute and chronic stress. In another study, Lactium® promoted the onset of sleep and healthy sleep quality. Healthy sleep quality has been associated with cognitive function and working memory. Sleep also has been tied to metabolic health, including mitochondrial function, visceral fat deposition, alterations in gut barrier function, and changes in gut microbiota. Several studies have shown L-theanine to enhance alpha wave production in the occipital and parietal regions of the brain, helping calm the sympathetic nervous system for a relaxing effect without drowsiness. L-Theanine also helps maintain healthy IgA levels, suggesting support for immune health during occasional stress. Preclinical research suggests that vitamin D plays a role in promoting healthy immune and cardiometabolic biomarkers, and may support normal cortisol production within abdominal adipocytes at the cellular level. Vitamin D may be particularly important for individuals with certain genetic variations.[‡]

1 capsule daily, between meals.

Each (size 0) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	2.5 mcg (100 IU)
Lactium® casein hydrolysate containing a bioactive decapeptide	175 mg
L-Theanine	50 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), silica	

Lactium® is a registered trademark used under license.

Suntheanine® is a registered trademark of Taiyo International Inc.

SeroPlus

Formulated with James Greenblatt, M.D.[†]

SUPPORTS SEROTONIN PRODUCTION TO PROMOTE POSITIVE MOOD, MODERATE OCCASIONAL STRESS AND MAINTAIN HEALTHY EATING BEHAVIOR[‡]

- Promotes serotonin synthesis to support relaxation, moderate occasional stress and maintain healthy eating behavior[†]
- Provides the serotonin precursor 5-HTP
- Provides inositol, which supports healthy sensitization of serotonin receptors[†]
- Supports healthy serotonin activity and maintains healthy reuptake with taurine[†]
- Enhances 5-HTP availability with niacinamide and zinc[†]
- Includes the cofactors magnesium, vitamin C, vitamin B₆ and Metafolin® L-5-MTHF to support serotonin production and positive mood[†]

2 capsules, 1-2 times daily, between meals or with low protein foods.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	100 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	6.7 mg
Folate (as Metafolin®, L-5-MTHF)	833 mcg DFE (L-5-MTHF 500 mcg)
Magnesium (as di-magnesium malate)	100 mg
Zinc (as zinc picolinate)	10 mg
5-Hydroxytryptophan	100 mg
Inositol (as myo-inositol)	500 mg
Taurine (free-form)	200 mg
Other ingredients: vegetarian capsule (cellulose, water)

Silymarin

STANDARDIZED MILK THISTLE EXTRACT TO SUPPORT HEALTHY LIVER FUNCTIONING[‡]

Silymarin is a milk thistle extract that nutritionally supports liver function. This highly active botanical protects the liver from free radical damage, supports glutathione concentrations and promotes superoxide dismutase activity. Milk thistle extract also stimulates protein synthesis in hepatic cells.¹

1 capsule, 1-4 times daily, between meals.

Each (size 2) vegetarian capsule contains:

Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	250 mg
Other ingredients: vegetarian capsule (cellulose, water)

SP Ultimate

COMPREHENSIVE PROSTATE FORMULA; PROVIDES ENHANCED SUPPORT FOR PROSTATE FUNCTION AND PROSTATE CELLULAR HEALTH[‡]

Saw palmetto, pygeum and beta sitosterol offer support for healthy urinary function, in part by maintaining healthy hormone metabolism and enzyme activities. A meta-analysis involving 18 randomized controlled trials and almost 3,000 men indicated that saw palmetto provided positive support for urinary health. In a related meta-analysis, pygeum demonstrated similar support. A randomized, double-blind, placebo-controlled, multicenter study with 200 male subjects revealed that beta-sitosterol also provides promising urinary function support. These actions are combined with the extensive prostate cell support potential of antioxidants, vitamins, minerals and herbs included in this formula. Data from over 47,000 participants in the Health Professionals Follow-Up Study suggested that tomato or lycopene intake was positively associated with prostate cell health. Healthy plasma concentrations of selenium and zinc have also been associated with maintaining healthy prostate cell metabolism. Vitamin D, curcumin and green tea play key roles in prostate cell health, including support for healthy matrix metalloproteinase (MMP) activity, cell receptor function and cell signaling. Pomegranate and silymarin provide enhanced antioxidant support and promote healthy prostate cell cycle function.¹

3 capsules daily, with a meal.

Three (size 00) vegetarian capsules contain:

Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Zinc (as zinc citrate)	15 mg
Selenium (from selenium yeast)	70 mcg
Saw palmetto (<i>Serenoa repens</i>) extract (fruit) (standardized to contain 45% total fatty acids)	640 mg
Lycopene	10 mg

Pygeum (<i>Pygeum africanum</i>) extract (bark)	100 mg
Beta-sitosterol (from soy phytosterol complex)	60 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	100 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (standardized to contain 65% total tea catechins and 23% epigallocatechin gallate (EGCG))	100 mg
Pomegranate (<i>Punica granatum</i>) extract (whole fruit) (standardized to contain 40% punicosides)	50 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

Contains soy

Not to be taken by pregnant or lactating women. Take with food. If you have liver problems, any other health condition, or are taking any medication, consult your health professional before use.

SR-CoQ₁₀ with PQQ

24-HOUR SUSTAINED-RELEASE MICROACTIVE[®] COQ₁₀ WITH BIOPQQ[®] TO SUPPORT MITOCHONDRIAL, COGNITIVE AND CARDIOVASCULAR HEALTH[‡]

SR-CoQ₁₀ with PQQ (pyrroloquinoline quinone) supports mitochondrial function, which plays an important role in cardiovascular, neuronal and cognitive health. PQQ is an antioxidant that promotes the formation of mitochondria and has shown neuroprotectant and cardioprotectant properties in preclinical studies. PQQ is naturally present in a variety of vegetables, as well as in the human body, including breast milk. In a double-blind, placebo-controlled clinical trial conducted in 71 middle-aged individuals, BioPQQ[®] supplementation over a 12-week period supported healthy cognitive performance, specifically high-end mental processing. MicroActive[®] CoQ₁₀ complements PQQ with cardiovascular, cognitive and antioxidant benefits, with a 24-hour sustained release profile.¹

2 capsules daily, in the morning, with a meal.

Two (size 0) vegetarian capsules contain:

Coenzyme Q ₁₀ (from MicroActive [®] CoQ ₁₀ cyclodextrin complex)	100 mg
BioPQQ [®] pyrroloquinoline quinone disodium salt	20 mg
Other ingredients: potato starch, hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

BioPQQ[®] is a registered trademark of MGC (Japan).

MicroActive[®] is a registered trademark of BioActives, LLC.

Strontium (citrate)

STRONTIUM PROMOTES HEALTHY OSTEOBLAST ACTIVITY WHILE MAINTAINING HEALTHY OSTEOCLAST ACTIVITY TO SUPPORT HEALTHY BONES[‡]

The trace mineral strontium supports healthy osteoblast differentiation, osteoblast collagen formation and balanced osteoclast activity, maintaining bone tensile strength. In two separate clinical trials involving a total of more than 2,000 women, strontium supplementation supported healthy vertebrae integrity and composition. In a preliminary analysis of a three-year placebo-controlled, double-blind study of 5,091 postmenopausal women, strontium supplementation promoted healthy hip bones. Since strontium is absorbed using calcium transport mechanisms, strontium supplements should not be taken at the same time as calcium supplements or calcium-containing foods. While supplementing with strontium, adequate calcium intake should be maintained.¹

1 capsule, 1-3 times daily, with or between meals, away from calcium containing foods or supplements.

Each (size 00) vegetarian capsule contains:

Strontium (as strontium citrate)	227 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

SunButyrate™ -TG liquid

UNIQUE, BUTYRATE-RICH TRIGLYCERIDE OIL THAT PROMOTES INTESTINAL HEALTH, GUT BARRIER INTEGRITY, CYTOKINE BALANCE IN THE G.I. TRACT, BOWEL MOTILITY AND ABDOMINAL COMFORT[‡]

Butyrate is one of the three most abundant short-chain fatty acids (SCFAs) produced by anaerobic bacterial fermentation of polysaccharides/fiber in the colon, where it serves as an energy source for epithelial cells. Butyrate plays a major role in intestinal physiology, supporting both physical and biochemical protective barrier function, bowel motility, nutrient absorption and immune activity of intestinal cells. It also promotes the proliferation, differentiation and renewal process of the colonocytes. Research suggests that SCFAs produced by intestinal bacteria activate key players in the regulation of energy metabolism in the gut as well as regulate healthy gene expression for mucin production, supporting tight-junction assembly, healthy mucous production and a healthy intestinal barrier. In a four-week study comparing a standard low-fiber Western diet to a high-fiber diet with high levels of resistant starch from potato and wheat bran concentrated in the hemicellulose fiber arabinoxylan, levels of butyrate, acetate and other SCFAs significantly increased, as did epithelial mucin 2 (MUC2) and the tight junction protein occludin. SCFAs also help protect epithelial cells by modulating oxidative stress and immune mediators, including prostaglandins; cytokines such as TNF- α , IL-6, IL-10; and the transcription factor NF- κ B. Clinical trials indicate that butyrate supplementation supports intestinal function and promotes healthy cytokine balance in the G.I. tract. In a 30-day trial involving 50 subjects, 1 g butyrate promoted healthy G.I. motility and abdominal comfort, and reduced bloating in 68% of subjects. Preliminary research suggests SCFAs could also offer support for blood vessel and blood-brain barrier integrity, as well as relaxation and satiety. Animal studies suggest that SCFA supplementation may moderate corticosterone response and promote the secretion of peptide YY, to inhibit gastric emptying and intestinal transit time. As butyrate is typically produced in the colon, oral butyrate salts have poor palatability and are easily degraded by stomach acid, preventing delivery to the colon.

Novel triglyceride-form SunButyrate™ offers a light and pleasant-tasting, unique triglyceride-form, sunflower-based oil designed to protect butyrate from degradation in the stomach and upper G.I. tract. G.I. models and in vitro tests reveal 6-8% breakdown in the stomach compared to 70% breakdown in other forms, while maintaining >90% breakdown in the intestine.¹

Synergy K

A UNIQUE BLEND OF VITAMINS K₁, K₂ AND D FOR HEALTHY CALCIUM UTILIZATION TO MAINTAIN HEALTHY BONES AND BLOOD VESSELS[‡]

Provides a blend of vitamin K₁, vitamin K₂ (MK-4), vitamin K₂ (MK-7) and vitamin D to support healthy calcium utilization. Recent studies indicate that vitamin D potentiates the activity of MGP and that the combination of vitamin K and D provides synergistic support for blood vessel function and bone health.¹

1 capsule daily, with a meal.

Each (size 2) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin K ₁	500 mcg
Vitamin K ₂ (menaquinone-4)	1,000 mcg
Vitamin K ₂ (menaquinone-7)	45 mcg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Not to be taken by pregnant or lactating women. This product is contraindicated with Coumadin (warfarin). If you are taking a blood-thinning medication, consult your health professional before use.

Taurine 500 mg

CARDIOVASCULAR AND DETOXIFICATION SUPPORT[‡]

Taurine is the most abundant free amino acid in the brain, heart and nervous system, and it plays a role in the healthy functioning of the brain, heart, gallbladder, eyes and vascular system. It facilitates the passage of sodium, potassium, and, possibly, calcium and magnesium ions into and out of cells, and electrically stabilizes cell membranes. It maintains healthy cAMP activity, which activates important enzymes in the heart muscle, and contributes to the muscle's contractibility. Taurine is an important component of bile acids which aid in the absorption of fat-soluble vitamins. It aids the body's chemistry to support the normal detoxification process. Dietary taurine promotes the formation of taurocholate, a substance which increases cholesterol secretion in the bile and also supports fat metabolism in the liver.¹

1 capsule, 1-4 times daily, between meals.

Each (size 1) vegetarian capsule contains:

Taurine (free-form) 500 mg
 Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate

Teavigo®

STANDARDIZED GREEN TEA EXTRACT CONTAINING 94% EGCG; ANTIOXIDANT AND CELLULAR SUPPORT[‡]

Teavigo® is a natural, caffeine-free green tea extract providing a highly purified and refined source of epigallocatechin gallate (EGCG). Over the years, numerous studies have reported that this polyphenolic compound supports optimal cellular function and provides antioxidant protection. Multiple recent studies have suggested that EGCG supports prostate, colon, lung and bladder health. Additionally, a clinical study reported that EGCG promoted healthy cervical tissue. An in-vitro study conducted at the Mayo Clinic in Minnesota reported that EGCG helped promote blood cell health. Research has indicated that EGCG may promote cellular health through a number of pathways, including moderating hydroxyl radical formation as well as gene expression. Furthermore, EGCG may promote healthy lipid metabolism. Investigators in one study reported that the gallate moiety on the EGCG played a particularly important role in supporting healthy apolipoprotein metabolism.¹

1 capsule, 1-2 times daily, with meals.

Each (size 1) vegetarian capsule contains:

Green tea (*Camellia sinensis*) extract (leaf) 150 mg
 (standardized to contain 94% EGCG)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Teavigo® is a trademark of DSM.

Take with food. If you have liver problems, consult your health professional before use. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Th1 Support

Formulated with Samuel F. Yanuck, D.C.*

PROMOTES HEALTHY TH1-PREDOMINANT CELLULAR IMMUNE RESPONSE[†]

- Supports healthy activation of Th1 cells to promote innate immunity and cell-mediated immune defenses[†]
- Th1 response is affected by stress, aging and cytokine changes resulting from metabolic, hormonal, physiological and environmental factors
- Helps maintain healthy immune biomarkers related to cell tissue health and comfort[†]
- Helps balance cytokine production in order to promote Th1 differentiation[†]

Th1 Support is designed to support healthy activation of Th1 cells to promote innate immunity and cell-mediated immune defenses. Support for Th1 may be indicated for enhancement of natural defenses. According to preclinical data, the formula ingredients support maturation of T cells into Th1 cells and production of IL-12 and IFN- γ , important Th1-promoting cytokines. Studies suggest that berberine positively influences immune biomarkers related to cell and tissue health. Sulforaphane from broccoli promotes various aspects of immunological homeostasis that maintain the health of mucosal cells.[†]

2 capsules, 1-2 times daily, with or between meals.

Two (size 00) vegetarian capsules contain:

Zinc (as zinc picolinate)	10 mg
Berberine HCl	500 mg
Chinese skullcap (<i>Scutellaria baicalensis</i>) extract (root) (standardized to contain 30% baicalins)	300 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain 400 mcg sulforaphane)	100 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	120 mg
Other ingredients: vegetarian capsule (cellulose, water)	

*Dr. Yanuck is a retained advisor for Pure Encapsulations.

Not to be taken by pregnant or lactating women. If you have any health condition or are taking any medication, consult your health professional before use.

Th2 Modulator

Formulated with Samuel F. Yanuck, D.C.*

HELPS MODULATE THE TH2 IMMUNE RESPONSE AND MAINTAINS TH1/TH2 BALANCE AT THE CELLULAR LEVEL[†]

- Helps modulate Th2 cytokines, and eosinophil and mast cell activity[†]
- Th2 response is affected by stress, aging and cytokine changes resulting from metabolic, hormonal, physiological and environmental factors
- Offers support for healthy self-tissue response[†]
- Helps maintain healthy modulation of mucosal immune responses to environmental factors[†]

Th2 Modulator is designed to modulate the Th2 immune response, to support healthy Th1/Th2 balance, self-tissue response and mucosal health. This product helps support healthy modulation of Th2 cytokines, and eosinophil and mast cell activity. It also helps maintain healthy modulation of mucosal immune responses to environmental factors. Th2 modulation may be indicated when addressing immune balance in the sinus, respiratory, urinary and intestinal tracts. Perilla maintains healthy upper respiratory cytokine levels in animal models of Th2 dominance. It also supports cytokine homeostasis of GI mucosal tissue. Perilla seed offers a more concentrated source of polyphenols, rosmarinic acid, luteolin and other beneficial compounds compared to leaf. N-acetyl-L-cysteine (NAC) offers mucolytic properties and promotes tissue levels of glutathione.[†]

2 capsules, 1-2 times daily, between meals.

Two (size 00) vegetarian capsules contain:

N-Acetyl-L-cysteine	300 mg
Quercetin	250 mg
Perilla (<i>Perilla frutescens</i>) extract (seed) (standardized to contain 3% polyphenols)	150 mg
Astragalus (<i>Astragalus membranaceus</i>) extract (root)	160 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

*Dr. Yanuck is a retained advisor for Pure Encapsulations.

I-Theanine

PROMOTES RELAXATION AND HELPS TO MODERATE OCCASIONAL STRESS[‡]

Green tea has been recognized for centuries as having relaxant properties. I-Theanine, a unique amino acid derived from tea, provides the characteristic taste of green tea. I-Theanine has also been discovered as the biologically active constituent of green tea responsible for promoting relaxation. In a preliminary non-clinical study, an I-theanine solution enhanced alpha wave production in the occipital and parietal regions of the brains of volunteers. These observed patterns are considered to be an index of relaxation. Furthermore, it did so rapidly and without causing drowsiness. In two additional studies, alpha waves were also shown to be detectable soon after I-theanine administration. Theanine is also useful for supporting healthy cellular function. Preliminary research suggests that I-theanine may be helpful for premenstrual support including healthy mood. Furthermore, theanine has been reported to moderate the effects of caffeine on the central nervous system. I-Theanine's safety is supported in studies and by its long history of safe consumption in tea. Pure Encapsulations' I-Theanine is Suntheanine[®], the brand which has been used in scientific studies.¹

Children ages 8-18, take 1 capsule, 1-2 times daily, between meals. Adults, take 2 capsules, 1-3 times daily, between meals.

Two (size 2) vegetarian capsules contain:

I-Theanine	400 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

Thyroid Support Complex[‡]

COMPREHENSIVE FORMULA CONTAINING VITAMINS, MINERALS AND HERBAL EXTRACTS TO SUPPORT HEALTHY THYROID CELL METABOLISM AND THYROID HORMONE FUNCTION[‡]

This comprehensive thyroid support formula contains vitamins, minerals, and herbal extracts to nourish and support thyroid gland function. Optimal vitamin A, vitamin D, zinc, and selenium help to maintain healthy thyroid cell metabolism and support triiodothyronine (T3) and thyroxine (T4) hormone function. Iodine and I-tyrosine are key components of these thyroid hormones. Forskolin in coleus extract has been shown to support thyroid hormone metabolism in preclinical models, potentially by promoting adenylate cyclase activity. Preliminary research suggests that ashwagandha and guggul also maintain healthy thyroid function and relaxation. Vitamin C, selenium, guggul, and curcumin help to neutralize free radicals that may affect iodothyronine 5'-monodeiodinase enzyme activity, the limiting factor in the conversion of T4 to the more active T3 hormone.¹

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Vitamin A (as vitamin A acetate)	750 mcg
Vitamin C (as ascorbic acid)	150 mg
Vitamin D (as cholecalciferol) (D ₃)	5 mcg (200 IU)
Iodine (as potassium iodide)	150 mcg
Zinc (as zinc citrate)	20 mg
Selenium (as selenomethionine)	200 mcg
I-Tyrosine (free-form)	500 mg
KSM-66 Ashwagandha [®] (<i>Withania somnifera</i>) extract (root)	400 mg
Forskohlii (<i>Coleus forskohlii</i>) extract (root) (standardized to contain 10% forskolin)	100 mg
Guggul (<i>Commiphora mukul</i>) extract (gum resin) (standardized to contain 2.5% guggulsterones)	150 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

L-Tryptophan

ENHANCES SEROTONIN SYNTHESIS TO SUPPORT EMOTIONAL WELL-BEING AND RESTFUL SLEEP[‡]

The essential amino acid L-tryptophan is a serotonin precursor. Research indicates that L-tryptophan supplementation may support emotional well-being and restful sleep. In a double-blind, placebo-controlled study, L-tryptophan supported healthy emotional processing and promoted positive outlook in women. In a separate study, it supported healthy mood and lessened occasional irritability during the menstrual cycle. L-Tryptophan also supports healthy sleep quality, onset and duration. Additional research suggests that L-tryptophan may promote relaxation and help control occasional cravings. Vitamin B₆ provides enhanced support as an important cofactor involved in the metabolism of L-tryptophan.[†]

2 capsules, 1-3 times daily, between meals.

Two (size 00) vegetarian capsules contain:

Vitamin B ₆ (as pyridoxal 5' phosphate) (activated B ₆)	6.7 mg
TryptoPure™	1,000 mg
Other ingredients: vegetarian capsule (cellulose, water)	

AJIPURE® and TRYPTOPURE™ are registered trademarks of Ajinomoto AminoScience LLC.

Not to be taken by pregnant or lactating women. If you have any health condition or are taking any medication, particularly psychiatric medications, consult your health professional before use. Do not use concurrently with antidepressants.

I-Tyrosine

SUPPORTS DOPAMINE SYNTHESIS FOR EMOTIONAL WELLNESS AND COGNITIVE FUNCTION[‡]

In the body, L-phenylalanine is converted to L-tyrosine. The amino acid L-tyrosine is a precursor of catecholamine neurotransmitters, including L-dopa, dopamine, epinephrine and norepinephrine. These neurotransmitters are responsible for supporting emotional well-being and mental function. L-Tyrosine plays a role in promoting healthy neurotransmitter function in response to environmental and emotional stress. Research has indicated its potential to further support cognitive function and memory under stressful conditions. In one study, L-tyrosine helped support mood and sleep in subjects with low dopamine levels. L-Tyrosine is also a key component in the synthesis of thyroid hormones.[†]

1 capsule, 1-4 times daily, between meals.

Each (size 00) vegetarian capsule contains:

I-Tyrosine (free-form) 500 mg
Other ingredients: vegetarian capsule (cellulose, water)

Ubiquinol-QH 50 mg

ACTIVE ANTIOXIDANT FORM OF CoQ₁₀; SUPPORT FOR ENERGY METABOLISM AND CARDIOVASCULAR HEALTH[‡]

Ubiquinol is the active antioxidant form of CoQ₁₀. It has an additional two hydrogen atoms and comprises the majority of the ubiquinone/ubiquinol pool in the plasma of healthy subjects. Ubiquinol may be especially important for older individuals, individuals who may be experiencing greater levels of oxidative or physical stress, or for individuals who appear not to respond to regular CoQ₁₀ supplementation (possibly due to poor conversion of CoQ₁₀ to ubiquinol in the body). Research suggests that it may be more readily absorbed than ubiquinone. In a comparison study involving healthy subjects, supplementation with 200 mg ubiquinol for 4 weeks increased plasma total CoQ₁₀ from 0.9 to 4.3 µg/mL (P < 0.001) compared to 0.9 to 2.5 µg/mL with ubiquinone. It was also noted that ubiquinol supported a healthy ratio of CoQ₁₀ to lipids. Research indicates ubiquinol supports antioxidant status, healthy ejection fraction and mitral valve function while supporting overall physical activity and quality of life. The safety and bioavailability of ubiquinol were evaluated after single oral dose and 4-week multiple dose studies. Significant gastrointestinal absorption was observed and no clinically significant adverse effects were noted.[†]

1 capsule, 1-2 times daily, with meals.

Each (size 10) softgel capsule contains:

Kaneka Ubiquinol™ (active antioxidant form of coenzyme Q₁₀) 50 mg
Other ingredients: medium chain triglycerides, gelatin capsule (gelatin, glycerin, water), ascorbyl palmitate, sienna fruit juice (color), beeswax, sunflower lecithin

Q+®, Kaneka Ubiquinol™ and the quality seal™ are registered or pending trademarks of Kaneka Corp.

The use of ascorbyl palmitate in the formulation is covered by U.S. Patent 6,740,338.

Ubiquinol VESIsorb®

ACTIVE ANTIOXIDANT FORM OF CoQ₁₀; SELF-ASSEMBLING COLLOIDAL SYSTEM FOR ENHANCED UBIQUINOL ABSORPTION TO SUPPORT ENERGY METABOLISM AND CARDIOVASCULAR HEALTH†

- Patented, lipid-based delivery system increases bioavailability and provides extended release of bioactives over time
- A crossover, pharmacokinetic pilot study (single oral dose) in humans compared an oil-based CoQ₁₀ preparation to CoQ₁₀ in the VESIsorb® delivery system, which demonstrated a 308% increase in peak blood levels (Cmax) and a 622% increase in area under the curve (AUC(0-10 hr)), a measure of 10-hour bioavailability
- In the same study, AUC (0-10 hr) values were 285% and 499% greater with VESIsorb® CoQ₁₀ compared to two other solubilized, bio-enhanced preparations

1 softgel capsule daily, with a meal.

Each (size 10) softgel capsule contains:

Vitamin E (as d-alpha tocopheryl acetate) 7 mg

Kaneka Ubiquinol™ (active antioxidant form of CoQ₁₀) 100 mg

Other ingredients: gelatin (capsule), medium-chain triglycerides, polysorbate 80, polyglycerol fatty acid esters, glycerin and caramel color

VESIsorb® is a registered trademark of Source One Global Partners.

Q+®, Kaneka Ubiquinol™ and the quality seal™ are registered or pending trademarks of Kaneka Corp.

Ultra B-Complex w/PQQ

ENHANCED B-COMPLEX SUPPORT FOR MITOCHONDRIAL AND NERVE HEALTH[†]

Ultra B-Complex w/PQQ combines B-complex vitamins with PQQ for unique support of mitochondrial bioenergetics and function. The B-complex vitamins are essential to basal mitochondrial function as metabolic coenzymes and methyl donors. Thiamin and niacin support healthy neuron cell longevity, neuronal membrane function and impulse conduction. L-5-MTHF, methylcobalamin and vitamin B₆ support neuronal health as methylation cofactors in myelin and neurotransmitter biosynthesis. Adenosylcobalamin is the form of vitamin B₁₂ active in mitochondria, boosting mitochondrial energy (ATP) production, at least in part by supporting MCM enzyme activity, which declines with age. Animal studies suggest it specifically enhances mitochondrial bioenergetics, promotes type IIA fast twitch muscle fiber size during aging, maintains neuro-muscular junctions, and supports healthy myelination of the peripheral nervous system innervating muscle. PQQ provides novel B vitamin-like activity with advanced antioxidant properties that protect and enhance mitochondrial, neuronal, and cellular function, at least in part by activation of Nrf2 and up-regulation of antioxidant genes, and cytokine balance. Studies indicate significant support for cognitive function, including increased cerebral blood flow and oxygen metabolism. Preliminary research suggests it promotes mitochondrial biogenesis by targeting SIRT1 and PGC-1α. Alpha lipoic acid provides additional support for mitochondrial energy utilization and combined with luteolin, offers enhanced nervous system antioxidant activity. Research suggests luteolin also helps maintain healthy macrophage activity and gene expression of the nervous system.¹

1 capsule, 1-2 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Thiamin (as thiamin HCl)	125 mg
Riboflavin (vitamin B ₂ and 60% riboflavin 5' phosphate (activated B ₂))	12.7 mg
Niacin (as niacinamide and 8% inositol hexaniacinat (no-flush niacin))	108 mg
Vitamin B ₆ (as pyridoxine HCl and 7% pyridoxal 5' phosphate (activated B ₆))	96.7 mg
Folate (as Metafolin [®] , L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin and 50% adenosylcobalamin)	1,000 mcg
Biotin	400 mcg
Panthenic acid (as calcium pantothenate) (B ₅)	100 mg
Alpha lipoic acid (thioctic acid)	100 mg
Luteolin	20 mg
BioPQQ [®] pyrroloquinoline quinone disodium salt	10 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Ultra Pure Pack

Daily Packet

With Metafolin[®] L-5-MTHF

Indications:

- Support for optimal wellness, energy and healthy aging[†]

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin[®] L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- 35 mcg (1,400 IU) vitamin D₃

Special Features:

- Promotes cardiovascular health with omega-3 fatty acids, CoQ₁₀, hawthorn and ginger extracts, and polyphenols from red wine concentrate and grape seed extract[†]
- Combines 100 mg resveratrol and curcumin with alpha lipoic acid, glutathione and nutrient cofactors to promote healthy cellular function[†]
- Supports healthy liver function with milk thistle, glutathione and curcumin[†]
- Convenient, once-daily packet

Each Packet Contains:

UltraNutrient[®] 3 vegetarian capsules »See page 192

- Multivitamin/mineral complex with enhanced support for cardiovascular and liver health[†]

EPA/DHA essentials 1 softgel capsule »See page 77

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

Vitamin D₃ 1 vegetarian capsule »See page 193

- Support for bone, breast, prostate, cardiovascular, colon and immune health[†]

CoQ₁₀ 1 vegetarian capsule »See page 58

- Natural, fermented, trans-isomer CoQ₁₀

Resveratrol EXTRA 1 vegetarian capsule »See page 172

- Contains 100 mg trans-resveratrol per capsule combined with grape seed extract and red wine polyphenols

1 packet daily (7 capsules), with a meal.

Seven capsules contain:

Calories	10
Total fat	1 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	3,750 mcg
Vitamin C (as ascorbyl palmitate)	25 mg
Vitamin D (as cholecalciferol) (D ₃)	35 mg (1,400 IU)
Vitamin E (as d-alpha tocopherol succinate and natural tocopherols)	134 mg
Thiamin (as thiamin HCl) (B ₁)	50 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	34.7 mg
Niacin (as niacinamide and 42% inositol hexaniacinate (no-flush niacin))	86 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	20.9 mg
Folate (as Metafolin [®] , L-5-MTHF) 667 mcg DFE (400 mcg L-5-MTHF)	
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	200 mg
Calcium (as calcium citrate/malate)	150 mg
Magnesium (as magnesium aspartate)	100 mg
Zinc (as zinc picolinate)	12.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.5 mg
Chromium (as chromium polynicotinate)	250 mcg
Molybdenum (as molybdenum aspartate)	50 mcg
Potassium (as potassium aspartate)	50 mg
Boron (as boron glycinate)	1 mg
Vanadium (as vanadium aspartate)	100 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	722 mcg

Alpha lipoic acid (thioctic acid)	50 mg
Coenzyme Q ₁₀	85 mg
Hawthorn (<i>Crataegus</i> spp.) extract (flower and leaf) (standardized to contain 2% vitexins)	50 mg
Ginger (<i>Zingiber officinale</i>) extract (root) (standardized to contain 5% gingerols)	50 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	50 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg
Setria [®] glutathione (reduced form)	25 mg
Trans-resveratrol (from Japanese knotweed (<i>Polygonum cuspidatum</i>) extract (root))	100 mg
Red wine grape (<i>Vitis vinifera</i>) concentrate (whole fruit) (standardized to contain 25% total polyphenols)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
Fish oil concentrate (from anchovies, sardines, mackerel) Providing:	1,000 mg
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg

Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water), hypoallergenic plant fiber (cellulose)

UltraDetox 10-Day Pure Pack

Daily Packet With Metafolin® L-5-MTHF

COMPREHENSIVE PACKET PROVIDING CORE NUTRIENTS, BROCCOLI, TAURINE, NAC, DIM, MODIFIED CITRUS PECTIN AND CHLORELLA†

Each Packet Contains:

- O.N.E.™ Multivitamin** 1 vegetarian capsule »See page 132
- Best-selling multivitamin/mineral complex
- Liver-G.I. Detox†** 2 vegetarian capsules »See page 106
- Promotes both liver and gastrointestinal detoxification†
- NAC (N-Acetyl-L-Cysteine)** 1 vegetarian capsule »See page 124
- Supports antioxidant defenses targeting tissue health and liver function†
- Taurine** 1 vegetarian capsule »See page 182
- Cardiovascular and detoxification support†
- DIMPRO® 100** 1 vegetarian capsule »See page 71
- Highly bioavailable, clinically researched DIM to support cellular health and moderate the effects of environmental estrogens†
- HM Complex** 3 vegetarian capsules »See page 94
- With PectaSol-C® modified citrus pectin and nutrients to promote the body's natural, healthy detoxification process for common, mild environmental heavy metal exposure†

Indications:

- Enhanced support for healthy detoxification†

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- Promotes phase II detoxification in the liver with vitamins, broccoli, curcumin and amino acids†
- Maintains liver and tissue health with glutathione, NAC, alpha lipoic acid, silymarin and other antioxidant nutrients†
- Supports healthy hepatic fat metabolism and bile flow with artichoke and taurine†
- Supports G.I. cell health and detoxification with L-glutamine and chlorella†
- Promotes normal detoxification process for common, mild environmental heavy metal exposure†
- Moderates the effects of environmental estrogens with broccoli and its key metabolite DIM, NAC and alpha lipoic acid†

Take 1 packet daily (9 capsules), with a meal.

Nine capsules contain:

Vitamin A (as vitamin A acetate and 73% beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	180 mg
Vitamin D (as cholecalciferol) (D ₃)	50 mcg (2,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	20 mg
Thiamin (as thiamin HCl) (B ₁)	3 mg
Riboflavin (as vitamin B ₂ and 43% riboflavin 5' phosphate (activated B ₂))	3 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 38% pyridoxal 5' phosphate (activated B ₆))	4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg 5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg
Choline (as choline bitartrate)	25 mg
Iodine (as potassium iodide)	150 mcg
Zinc (as zinc citrate)	35 mg
Selenium (as selenomethionine)	170 mcg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as TRAACS™ molybdenum glycinate chelate)	75 mcg
Sodium (from modified citrus pectin)	50 mg
Potassium (from modified citrus pectin)	70 mg
Boron (as boron glycinate)	1 mg
Inositol	25 mg
FloraGLO® lutein	3 mg
Lycopene	500 mcg
Zeaxanthin	500 mcg
Coenzyme Q ₁₀ (as CoQ ₁₀ and as 18% from MicroActive® Q ₁₀ -cyclodextrin complex)	50 mg
Alpha lipoic acid (thioctic acid)	250 mg
N-Acetyl-L-cysteine (free-form)	1,000 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	100 mg
Milk thistle (<i>Silybum marianum</i>) extract (seed) (standardized to contain 80% silymarin)	125 mg
Broccoli (<i>Brassica oleracea italica</i>) sprout concentrate (whole plant) (standardized to contain a minimum of 1,400 mcg sulforaphane)	350 mg
BioResponse DIM® diindolylmethane complex (complex of starch, diindolylmethane, vitamin E (tocopherol), phosphatidylcholine and silica) (standardized to contain 25% diindolylmethane)	100 mg
Artichoke (<i>Cynara scolymus</i> L.) extract (leaf) (standardized to contain 5% cynarins)	125 mg
Taurine (free-form)	1,225 mg
Glycine (free-form)	225 mg

L-Glutamine (free-form)	225 mg
L-Methionine (free-form)	300 mg
Chlorella (<i>Chlorella</i> spp.) powder (cracked cell wall)	500 mg
PectaSol-C® modified citrus pectin	1,000 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, potato starch

UltraMag Magnesium

INNOVATIVE MICROENCAPSULATION TECHNOLOGY; ENHANCED ABSORPTION MAGNESIUM FOR CARDIOMETABOLIC, NEUROCOGNITIVE AND MUSCULOSKELETAL HEALTH*

- Phospholipid bilayer microencapsulation technology protects mineral in gastrointestinal lumen, increases dissolvability and easily crosses membranes
- Clinically studied
- Promotes muscle relaxation, as well as bone and cardiovascular health†

UltraMag Magnesium utilizes an innovative microencapsulation technology to enhance the absorption of magnesium. This technology creates a phospholipid bilayer around the mineral that is similar to a liposome, increasing solubility in the gastrointestinal fluids and facilitating absorption across membranes. In a comparative crossover study, magnesium in the microencapsulated matrix was compared to other forms of magnesium in human subjects. Twenty-four-hour blood and urinary magnesium measurements indicated superior absorption of microencapsulated magnesium compared to magnesium citrate, glycinate and oxide.

1 capsule daily, with or between meals.

Each (size 00) vegetarian capsule contains:

Magnesium (as microencapsulated magnesium)	225 mg
Other ingredients: microencapsulated magnesium (magnesium oxide, pregelatinized rice starch, sucrose esters of fatty acids, sunflower lecithin, tricalcium phosphate, rice flour), vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

UltraNutrient®

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX WITH ENHANCED SUPPORT FOR CARDIOVASCULAR AND LIVER HEALTH†

Indications:

- Enhanced support for cardiovascular and liver health†

Vitamin/Mineral Distinctions:

- 3,750 mcg (12,500 IU) natural beta carotene with mixed carotenoids for advanced antioxidant protection†
- ChromeMate® chromium polynicotinate to promote optimal glucose utilization†
- Without iron

Special Features:

- CardioHealth Complex†**
Supports healthy platelet function and blood flow with hawthorn and ginger. Includes coenzyme Q₁₀ and alpha lipoic acid to support healthy heart muscle function and metabolic function.†
- LiverEnhance Blend†**
Promotes healthy detoxification and liver cell function with silymarin, curcumin and reduced glutathione.†

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	3,750 mcg
Vitamin C (as ascorbyl palmitate) (fat-soluble vitamin C)	21 mg
Vitamin D (as cholecalciferol) (D ₃)	10 mcg (400 IU)
Vitamin E (as d-alpha tocopherol succinate)	134 mg
Thiamin (as thiamin HCl) (B ₁)	50 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (vitamin B ₂))	34.7 mg
Niacin (as niacinamide and 42% inositol hexaniacinate)	86 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	20.9 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	200 mg
Calcium (as calcium citrate/malate)	150 mg
Magnesium (as magnesium aspartate)	100 mg
Zinc (as zinc picolinate)	12.5 mg
Selenium (as selenomethionine)	100 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese aspartate)	2.5 mg
Chromium (as chromium polynicotinate)	250 mcg
Molybdenum (as molybdenum aspartate)	50 mcg
Potassium (as potassium aspartate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as vanadium aspartate)	100 mcg
Alpha lipoic acid (thioctic acid)	50 mg
Hawthorn (Crataegus spp.) extract (flower and leaf) (standardized to contain 2% vitexins)	50 mg

Turmeric (Curcuma longa) extract (root) (standardized to contain 95% curcuminoids)	100 mg
Milk thistle (Silybum marianum) extract (seed) (standardized to contain 80% silymarin)	50 mg
Ginger (Zingiber officinale) extract (root) (standardized to contain 5% gingerols)	50 mg
Coenzyme Q ₁₀	25 mg
Setria® glutathione (reduced) (free-form)	25 mg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	722 mcg
Other ingredients: vegetarian capsule (cellulose, water)

UltraZin Zinc

INNOVATIVE MICROENCAPSULATION TECHNOLOGY; ENHANCED ABSORPTION ZINC FOR BROAD PHYSIOLOGICAL SUPPORT, INCLUDING IMMUNE FUNCTION AND EMOTIONAL WELLNESS†

- Phospholipid bilayer microencapsulation technology protects mineral in gastrointestinal lumen, increases dissolvability, and easily crosses membranes
- Promotes immune defenses, enhancing healthy immune cell proliferation, activation and function†

UltraZin Zinc utilizes an innovative microencapsulation technology to enhance the absorption and bioavailability of zinc. This technology creates a phospholipid bilayer around the mineral similar to a liposome, increasing solubility and absorbability.

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Zinc (as microencapsulated zinc)	30 mg
Other ingredients: hypoallergenic plant fiber (cellulose), microencapsulated zinc (zinc oxide, pregelatinized rice starch, sucrose esters of fatty acids, sunflower lecithin, tricalcium phosphate, rice flour), vegetarian capsule (cellulose, water)

Uric Acid Formula

SUPPORTS HEALTHY URIC ACID METABOLISM BY PROMOTING HEALTHY LIVER ENZYME ACTIVITY, IMMUNE ACTIVITY AND ALKALIZATION[‡]

Uric Acid Formula provides vitamins and herbal extracts to support healthy uric acid metabolism. Uric acid is a natural end product of purines, an integral part of the nucleic acids in DNA and RNA. In a population-based study involving almost 1,400 men from the Health Professionals Follow-up Study, vitamin C intake was associated with healthy serum uric acid metabolism. In another double-blind, placebo-controlled trial, vitamin C supplementation supported healthy glomerular filtration and maintained healthy serum uric acid excretion. The bioflavonoid quercetin has been associated with similar effects by maintaining proper xanthine oxidase and xanthine dehydrogenase activity, key liver enzymes involved in uric acid production. Potassium citrate is included to support systemic alkalization. Urinary alkalization promotes healthy uric acid metabolism. Devil's claw and the proteolytic enzyme bromelain support immune mediator activity. Cherries have been used traditionally for decades to enhance healthy uric acid metabolism. Research indicates that regular cherry consumption maintains healthy plasma urate. Additionally, anthocyanins in cherries and grape seed act as free radical scavengers. This product is not intended to replace any dietary protocols recommended by a health professional.[‡]

1 capsule, 2 times daily, between meals.

One (size 00) vegetarian capsule contains:

Vitamin C (as ascorbic acid)	125 mg
Potassium (as potassium citrate)	100 mg
Devil's claw (<i>Harpagophytum procumbens</i> and <i>Harpagophytum zeyheri</i>) extract (root)(standardized to contain a minimum of 5% harpagosides)	100 mg
Cherry (<i>Prunus spp.</i>) extract (fruit)	162 mg
Quercetin	100 mg
Bromelain (from pineapple stem) (2,400 GDU/gram)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	25 mg
Other ingredients: vegetarian capsule (cellulose, water), maltodextrin, ascorbyl palmitate	

Not to be taken by pregnant or lactating women.

Uric Acid Formula	Quantity	Order Code
	120	UAF1

Vascular Relax[‡]

SUPPORTS HEALTHY VASCULAR RELAXATION AND CIRCULATORY FUNCTION[‡]

Magnesium supports healthy cellular electrolyte function and vascular smooth muscle cells. The importance of magnesium intake was demonstrated in the 10-year follow-up of the Women's Health Study, where higher intakes of dietary magnesium were associated with maintaining healthy vascular relaxation. Both hawthorn and olive leaf have a long history of traditional use for maintaining cardiovascular health and have supported vascular function in studies. Patent pending MegaNatural[®]-BP supports healthy blood vessel relaxation in volunteers, as demonstrated in a study conducted at the University of California, Davis. MegaNatural[®]-BP grape seed is unique in that the extraction process maximizes the concentration of monomeric and oligomeric procyanidins and minimizes the concentration of polymeric procyanidins. Pomegranate, standardized to contain 40% punicosides, offers the antioxidant and vascular benefits associated with pomegranate juice. CranLoad[®] delivers a unique cranberry and grape seed blend developed as part of an extensive research program with the Institute of Nutrition and Functional Foods (INAF) and Université Laval in Quebec, Canada. In addition to possessing antioxidant activity, these compounds offer specific vascular support mechanisms that are associated with enhanced endothelial function. In a pilot trial involving elite athletes, CranLoad[®] provided statistically significant support for healthy flow-mediated dilation (FMD) at rest, an effect similar to arginine administration.[‡]

2 capsules, 2 times daily, with meals.

Two (size 00) vegetarian capsules contain:

Magnesium (as magnesium citrate)	100 mg
Hawthorn (<i>Crataegus spp.</i>) extract (flower and leaf) (standardized to contain 2% vitexins)	250 mg
Olive (<i>Olea europea</i>) extract (leaf) (standardized to contain 15% oleuropein)	50 mg
MegaNatural [®] -BP grape (<i>Vitis vinifera</i>) extract (seed)	75 mg
Pomegranate (<i>Punica granatum</i>) extract (whole fruit) (standardized to contain 40% punicosides)	25 mg
Lycopene	7.5 mg
CranLoad [®] proprietary blend providing cranberry (<i>Vaccinium macrocarpon</i>) extract (fruit) and grape (<i>Vitis vinifera</i>) extract (seed)	65 mg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate	

MegaNatural[®]-BP and its logo are trademarks of Constellation Wines U.S., Inc.

CranLoad[®] is a registered trademark used by Pure Encapsulations[®] under license.

Vinpocetine 20 mg

SUPPORTS COGNITIVE FUNCTION AND CEREBROVASCULAR HEALTH[†]

Vinpocetine is an alkaloid synthesized from vincamine, a natural compound extracted from the leaves of periwinkle (*Vinca minor* L) which was first developed in Europe over 20 years ago. Vinpocetine is absorbed in the small intestine and then processed in the liver. Once in systemic circulation, vinpocetine is absorbed by tissues in the body and crosses the blood brain barrier. Studies have reported that vinpocetine may provide neuroprotection via its antioxidant properties. In a double-blind, placebo-controlled, clinical trial, 84 elderly subjects were given vinpocetine or a placebo over a period of 90 days. Results indicated that those supplementing with vinpocetine experienced support for cognitive function. An additional placebo-controlled, randomized, double-blind, multicenter trial of 203 individuals also suggested that vinpocetine significantly supported cognition. Vinpocetine has the potential to support healthy memory, as indicated by a randomized, double-blind, crossover study.¹

1 capsule, 1-3 times daily, with a meal.

Each (size 3) vegetarian capsule contains:

Vinpocetine	20 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Not to be taken by pregnant or lactating women. If you have any health condition or are taking any medication, consult your health professional before use.

VisionPro EPA/DHA/GLA[†]

ULTRA-PURE TRIGLYCERIDE-FORM FISH OIL AND BORAGE OIL TO SUPPORT VISUAL COMFORT AND NATURAL TEAR PRODUCTION[†]

VisionPro EPA/DHA/GLA supports natural tear production, healthy tear film composition and retention of eye moisture. A cross-sectional study of 32,470 women demonstrated a significant association between omega-3 fatty acid intake and ocular surface hydration. Several randomized controlled clinical trials have indicated that fish oils provide significant support for healthy tear function and associated visual comfort scores. Specifically, EPA and DHA support the coating of fluid that covers the eyes. These omega-3 fatty acids are incorporated into the lipid layer of the eye to maintain its fluidity and viscosity. By supporting the functional properties of the lipid layer, EPA and DHA promote retention of water in the underlying aqueous layer. EPA and DHA also promote healthy prostaglandin and cytokine balance to help protect the secretory function of the lacrimal glands. In addition, VisionPro EPA/DHA/GLA provides 75 mg GLA per serving from cold-pressed borage oil. Several studies have demonstrated that GLA-rich oils provide unique support for mucin production, prostaglandin balance and healthy tear film characteristics.¹

3 softgel capsules daily, with a meal.

Three (size 20) softgel capsules contain:

Calories	30
Total fat	3 g
Fish oil concentrate (from anchovies, sardines)	2,871 mg
Providing:	
EPA (eicosapentaenoic acid)	855 mg
DHA (docosahexaenoic acid)	645 mg
Other omega-3 fatty acids	195 mg
Borage (<i>Borago officinalis</i>) oil (seed)	450 mg
Providing:	
GLA (gamma-linolenic acid)	75 mg

Other ingredients: gelatin capsule (gelatin, glycerin, water), natural lemon flavor, proprietary natural antioxidant blend (rosemary leaf extract, ascorbyl palmitate, natural tocopherols)

Contains fish (anchovies, sardines)

VisionPro Nutrients[†]

With Metafolin[®] L-5-MTHF

COMPREHENSIVE MULTIVITAMIN/MINERAL COMPLEX FOR MAINTAINING HEALTHY VISION[†]

Can be combined with VisionPro EPA/DHA/GLA[†] to support natural tear production and tear film integrity in normally functioning eyes.[†]

Indications:

- Men and women ages 18 and over

Vitamin Distinctions:

- Clinically researched levels of vitamin C, vitamin E, zinc and copper in highly bioavailable forms to support healthy vision and eye integrity[†]
- Contains 750 mcg (2,500 IU) of vitamin A per serving to support night vision and healthy tear production[†]
- Provides Metafolin[®] L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- Convenient three-capsule-per-day dosing
- Helps maintain macular and retinal health with 10 mg lutein, 2 mg zeaxanthin and 1 mg lycopene per serving[†]
- Supports visual function and healthy photoreceptor activity with taurine, alpha lipoic acid and resveratrol[†]

3 capsules daily, with a meal.

Three (size 00) vegetarian capsules contain:

Vitamin A (as vitamin A acetate)	750 mcg
Vitamin C (as ascorbic acid)	500 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	268 mg
Thiamin (as thiamin HCl) (B ₁)	5 mg
Riboflavin (as vitamin B ₂ and 40% riboflavin 5' phosphate (activated B ₂))	4.2 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	8.3 mg
Folate (as Metafolin [®] , L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	200 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Iodine (as potassium iodide)	150 mcg
Zinc (as zinc citrate)	25 mg
Selenium (as selenomethionine)	75 mcg
Copper (as copper glycinate)	2 mg
Manganese (as manganese citrate)	2.5 mg
Chromium (as chromium polynicotinate)	120 mcg
Molybdenum (as TRAACS [™] molybdenum glycinate chelate)	75 mcg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg

EyeProtect Complex[†]

Alpha lipoic acid	50 mg
Taurine	50 mg
resVida [®] resveratrol (as trans-resveratrol)	25 mg

MacularSynergy Complex[†]

FloraGLO [®] lutein	10 mg
Zeaxanthin	2 mg
Lycopene	1 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbal palmitate

Vitamin A + Carotenoids

VITAMIN A WITH LUTEIN, ZEAXANTHIN AND ASTAXANTHIN TO SUPPORT CELLULAR, OCULAR AND IMMUNE FUNCTION, WITH CAROTENOIDS FOR RETINAL AND MACULAR HEALTH†

While many individuals are able to convert provitamin A carotenoids, like beta carotene, into active vitamin A, recent research has revealed that genetic variations can limit the ease of this conversion for some. Genetic variations in the enzyme BCMO1 (β-Carotene 15,15'-monooxygenase 1) can decrease the conversion efficacy of carotenoids into retinal by up to 69%. Known as single nucleotide polymorphisms (SNPs), these common variations can be bypassed with dietary retinol (vitamin A). Since variations in the BCMO1 gene have also been associated with macular pigment density, this formula includes a blend of lutein, zeaxanthin and astaxanthin to promote macular health. Lutein and zeaxanthin are the two carotenoids found in macular pigment; as such, they act to support the integrity and density of the pigment, as well as optical lens health. Astaxanthin offers support for antioxidant defenses to protect retinal health.†

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Vitamin A (as vitamin A acetate)	1,500 mcg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
AstaReal® Astaxanthin (from <i>Haematococcus pluvialis</i> algae extract)	500 mcg

Other ingredients: red beet root powder, vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)

®FloraGLO is a registered trademark of Kemin Industries, Inc.

AstaReal® is a registered trademark of Fuji Chemical Industries Co., Ltd.

Vitamin A at levels above 3,000 mcg (10,000 IU) can lead to serious adverse side effects, including birth defects.

Vitamin C chewables

CONVENIENT VITAMIN C CHEWABLE TABLET FOR HEALTHY IMMUNE FUNCTION AND ANTIOXIDANT SUPPORT†

Vitamin C offers a wide range of support for the human body, acting as one of the most potent dietary antioxidants and providing nutritional support to all physiological functions. Vitamin C may provide protection from reactive oxygen species released as part of a normal immune response. It maintains healthy mast cell function and supports lymphocyte formation. It also supports the body's defense system by enhancing white blood cell function and activity, and promoting interferon levels, antibody responses and secretion of thymic hormones.†

Children ages 4-8, take 1 chewable tablet daily, with a meal. Adults and children ages 9 and up, take 1 chewable tablet, 1-2 times daily, with a meal.

Each chewable tablet contains:

Calories	5
Total Carbohydrate	2 g
Sugar Alcohol	2 g
Vitamin C (as calcium ascorbate, sodium ascorbate, ascorbic acid, ascorbyl palmitate)	525 mg
Calcium (as calcium ascorbate)	35 mg
Sodium (as sodium ascorbate)	20 mg

Other ingredients: mannitol, xylitol, natural orange and strawberry flavors with other natural flavors, hydroxypropyl cellulose

Vitamin D₃ 10 mcg (400 IU)

SUPPORTS MUSCULOSKELETAL, CARDIOVASCULAR, NEUROCOGNITIVE, CELLULAR AND IMMUNE HEALTH[†]

Vitamin D promotes intestinal calcium and phosphorous absorption and reduces urinary calcium loss, essential mechanisms for maintaining proper calcium levels in the body and for healthy bone composition. Research indicates that it also promotes cellular health, including support for breast and prostate tissue, in part by helping to maintain healthy blood vessel function, supporting immune cell activity, and maintaining healthy cell metabolism. A role for vitamin D in supporting colon health by promoting healthy cellular function has also been suggested. Vitamin D's role in immune health has long been established; vitamin D receptors are found on a number of immune cells, including lymphocytes and macrophages, supporting healthy immune cell activation. Vitamin D also supports cardiovascular function in some individuals.[†]

1-5 capsules daily. Consume with food.

Each (size 3) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D₃) 10 mcg (400 IU)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Vitamin D₃ & K₂

SUPPORTS BONE AND VASCULAR HEALTH†

Vitamin K₂ (menaquinone-7) is a fat-soluble nutrient with an important role in maintaining arterial calcium balance and vascular elasticity. In a systematic review involving five studies, higher intakes of vitamin K₂ were associated with cardiovascular health. In an observational study involving 564 postmenopausal women, higher intake of vitamin K₂ was associated with calcium balance in the vascular tissue. One of the primary functions of vitamin K₂ is to support the carboxylation of matrix Gla-protein (MGP), a key protein involved in calcium balance. Accordingly, several studies indicate that Vitamin K₂ also supports proper utilization of calcium in bone. Clinical research indicates that obtaining adequate amounts helps to maintain bone health. Vitamin K₂ and vitamin D₃ both participate in the regulation of osteocalcin, a biomarker of bone formation.†

1 capsule daily, with a meal

One (size 3) capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	100 mcg (4,000 IU)
Vitamin K ₂ (menaquinone-7)	100 mcg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose)	

Warning: Vitamin K may be contraindicated with Coumadin (Warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood-thinning medication, consult your health professional before use. It is recommended that individuals taking more than 50 mcg (2,000 IU) vitamin D per day have their blood levels monitored.

Vitamin D₃ (Vegan)

VEGAN VITAMIN D₃ FROM ORGANIC ALGAE TO SUPPORT MUSCULOSKELETAL, CARDIOVASCULAR, NEUROCOGNITIVE, CELLULAR AND IMMUNE HEALTH†

Pure Encapsulations vitamin D₃ (vegan) is derived from organic algae. It is produced through a multistep process involving extraction, purification and concentration resulting in a vitamin D₃ cholecalciferol with the same molecular structure and conformation as lanolin and fish oil derived cholecalciferol. Research indicates that optimal vitamin D serum levels offer support for bone, breast, prostate, cardiovascular, colon and immune health†

1-2 capsules daily, with food

One (size 3) capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	50 mcg (2,000 IU)
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

It is recommended that individuals taking more than 50 mcg (2,000 IU) vitamin D per day have their blood levels monitored.

Vitamin D₃ (Vegan) liquid

LICHEN-DERIVED, VEGAN VITAMIN D₃ TO SUPPORT MUSCULOSKELETAL, CARDIOVASCULAR, NEUROCOGNITIVE, CELLULAR AND IMMUNE HEALTH†

Pure Encapsulations' Vitamin D₃ (Vegan) liquid is derived from naturally-occurring, sustainably-harvested lichen. It is produced through a multistep process involving extraction, purification and concentration resulting in a vitamin D₃ cholecalciferol with the same molecular structure and conformation as cholecalciferol derived from lanolin or fish. It is the only plant-derived source of vitamin D₃ that has been accepted by the UK Vegan Society.

5 drops (0.1 ml) daily, with a meal.

Serving size: 0.1 ml (five drops)

Servings per container: 100

Five drops (0.1 ml) contain:

Vitamin D (as cholecalciferol from lichen) (D ₃)	25 mcg (1,000 IU)
Other ingredients: medium-chain triglycerides, natural alpha tocopherol	

Made with Vitashine D₃.

CAUTION: Accidental overdose of liquid vitamin D products can lead to serious adverse side effects in infants. THIS PRODUCT IS NOT INTENDED FOR INFANTS. The recommended daily dose of vitamin D for infants is 10 mcg (400 IU). This product delivers 25 mcg (1,000 IU) of vitamin D per serving.

	10 ml (0.3 fl oz)	VD3VL

Vitamin D₃ liquid

SUPPORTS MUSCULOSKELETAL, CARDIOVASCULAR, NEUROCOGNITIVE, CELLULAR AND IMMUNE HEALTH IN AN EASY-TO-USE LIQUID FORM†

- Offered with child-proof cap for improved safety
- Drop-dispensing delivery system; allows for more reliable dosing and ease of use
- Free of preservatives, as well as artificial colors, flavors and sugars

Pure Encapsulations Vitamin D₃ liquid provides 25 mcg (1,000 IU) per drop. For individuals with greater short-term needs, this product allows for achieving 625-1,250 mcg (25,000-50,000 IU) vitamin D₃ per week without having to take multiple capsules. For the elderly, Vitamin D₃ liquid is an easy-to-use form. Vitamin D₃ is offered in a base of medium-chain triglycerides to support absorption.†

Children ages 3-8, take 1-2 drops daily.

Adults and children ages 9 and up, take 1-4 drops daily.

Consume with food.

Serving size: 1 drop (approximately 0.03 ml)

Servings per container: approximately 750

One drop contains:

Vitamin D (as cholecalciferol) (D₃) 25 mcg (1,000 IU)

Other ingredients: medium chain triglycerides

CAUTION: Accidental overdose of liquid vitamin D products can lead to serious adverse side effects in infants. This product is not intended for infants. The recommended daily dose of vitamin D for infants is 10 mcg (400 IU) per day. This product provides 25 mcg (1,000 IU) per drop.

It is recommended that individuals taking more than 50 mcg (2,000 IU) vitamin D per day have their blood levels monitored. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Vitamin E (with mixed tocopherols)

SUPPORTS ANTIOXIDANT PROTECTION AND OPTIMAL CELLULAR FUNCTION†

Vitamin E is a powerful chain-breaking antioxidant and free radical scavenger, helping to protect the integrity of the body's cellular membranes. Vitamin E plays a beneficial role in the cellular respiration of muscles, especially cardiac and skeletal muscles. It also supports healthy blood vessel function. In addition, vitamin E plays a role in nucleic acid and protein metabolism, mitochondrial function and hormone production.†

1 capsule daily, with a meal.

Each (size 10) softgel capsule contains:

Vitamin E (as natural d-alpha tocopherol) 260 mg

Other tocopherols 67 mg

Other ingredients: rapeseed oil, gelatin capsule (gelatin, glycerin, purified water), sunflower oil

Women's Nutrients

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX FOR WOMEN †

Women's Nutrients provides vitamins and minerals needed to support the needs of women of childbearing age, including women who are pregnant, may become pregnant or are lactating. It's best to consider using this formula along with EPA/DHA. This formula provides 1 mg of Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF) to support optimal neural and cellular development. Metafolin® is a naturally occurring, universally metabolized form of folate. The vitamin D included in our formula comes from an algae-derived vegan source. Women's Nutrients also includes vitamin K to support healthy carboxylation of proteins for blood-clotting and bone health. The iron (27 mg) in our formula promotes optimal iron status and supports cognitive function. Optimal iron status is also associated with athletic performance and mitochondrial function. Choline (100 mg) is included in our formula because it contributes to neurotransmitter production, DNA synthesis, protein metabolism, energy metabolism and fetal central nervous system development.

2 capsules daily, with a meal.

Two (size 00) capsules contain:

Vitamin A (as beta carotene)	2,400 mcg
Vitamin C (as ascorbic acid)	70 mg
Vitamin D (as cholecalciferol) (D ₃)	25 mcg (1,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	12 mg
Vitamin K (as vitamin K ₁)	90 mcg
Thiamin (as thiamin HCl) (B ₁)	1.6 mg
Riboflavin (as vitamin B ₂)	1.7 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl)	2.2 mg
Folate (as Metafolin®, L-5-MTHF)	1,667 mcg DFE (1,000 mcg L-5-MTHF)

Vitamin B ₁₂ (as methylcobalamin)	2.6 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	6 mg
Choline (as choline bitartrate)	100 mg
Calcium (as di-calcium malate)	200 mg
Iron (as iron glycinate)	27 mg
Iodine (as potassium iodide)	150 mcg
Magnesium (as magnesium citrate)	80 mg
Zinc (as zinc citrate)	15 mg
Selenium (as selenomethionine)	70 mcg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	120 mcg
Molybdenum (as molybdenum glycinate)	75 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene and zeaxanthin)	450 mcg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Metafolin® is a registered Trademark of Merck KGaA, Darmstadt, Germany.

ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza, registered in USA

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

Vitamin K may be contraindicated with Coumadin (Warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood thinning medication, consult your health professional before use.

Women's Nutrients 40+

With Metafolin® L-5-MTHF

MULTIVITAMIN/MINERAL COMPLEX FOR WOMEN OVER 40

Indications:

- Women over 40

Vitamin/Mineral Distinctions:

- 200 mg calcium as calcium citrate (highest of all our multivitamins), vitamin D₃ and vitamin K₁ for healthy bones[†]
- 1,000 mcg biotin for healthy hair, skin and nails[†]

Special Features:

BreastHealth Plus[‡]

- Supports breast cell health with HMRLignan™, calcium-D-glucarate, green tea and Curcumin C3 Complex®. HMRLignan™ also provides support for hot flashes.[†]

Cardio Polyphenol Complex[‡]

- Maintains healthy blood vessel function with polyphenols from pomegranate, red wine concentrate and grape seed extract.[†]

MacularSynergy Complex[‡]

- Enhances the integrity of the macula and retina with lutein and zeaxanthin. Synergistic cofactors include vitamin C, vitamin E, zinc and carotenoids.[†]

Urinary Health Support[‡]

- Combines the time-tested support of cranberry with vitamin C to maintain healthy urinary tract ecology.[†]

StressCalm Blend[‡]

- Helps moderate occasional stress with the adaptogenic properties of Rhodiola rosea and the calming properties of lemon balm.[†]

3 capsules, 1-2 times daily, with meals.

Three (size 00) vegetarian capsules contain:

Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	125 mg
Vitamin D (as cholecalciferol) (D ₃)	12.5 mcg (500 IU)
Vitamin E (as d-alpha tocopherol succinate)	34 mg

Women's Pure Pack

Daily Packet

With Metafolin® L-5-MTHF

Indications:

- Supports bone, cardiovascular, macular, breast and emotional health[†]
- For women over 40

Vitamin/Mineral Distinctions:

- Vitamins and minerals in highly bioavailable forms
- Activated B vitamins, including Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate
- 500 mg calcium and 37.5 mcg (1,500 IU) vitamin D₃ to support healthy bone[†]

Special Features:

- Maintains healthy cardiovascular function with omega-3 fatty acids, CoQ₁₀, and polyphenols from açai, cranberry, pomegranate, red wine concentrate and grape seed extract[†]
- Supports breast cell health with HMRlignan™, calcium-d-glucarate, green tea and curcumin[†]
- Helps moderate occasional stress with the adaptogenic properties of rhodiola and lemon balm[†]
- Enhances the integrity of the macula and retina with lutein, zeaxanthin and nutrient cofactors[†]
- Convenient, once-daily packet

Each Packet Contains:

Women's Nutrients 3 vegetarian capsules »See page 200

- Multivitamin/mineral complex for women over 40

EPA/DHA essentials 1 softgel capsule »See page 77

- Ultra-pure, molecularly distilled fish oil concentrate for broad omega-3 essential fatty acid support[†]

Vitamin D₃ 1 vegetarian capsule »See page 197

- Supports musculoskeletal, cardiovascular, neurocognitive, cellular and immune health[†]

CoQ₁₀ 1 vegetarian capsule »See page 58

- Natural, fermented, trans-isomer CoQ₁₀

Calcium (citrate) 2 vegetarian capsules »See page 48

- Highly absorbable calcium; supports cardiovascular, bone and colon health[†]

Açai 600 1 vegetarian capsule »See page 24

- Açai berry extract combined with a fruit blend to support healthy cellular function[†]

Take 1 packet daily (9 capsules), with a meal.

Nine capsules contain:

Calories	10
Total fat	1 g
Cholesterol	< 5 mg
Vitamin A (as beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	125 mg
Vitamin D (as cholecalciferol) (D ₃)	37.5 mcg (1,500 IU)
Vitamin E (as d-alpha tocopherol succinate and natural tocopherols)	34 mg
Vitamin K (as vitamin K ₁)	50 mcg
Thiamin (as thiamin HCl) (B ₁)	12.5 mg
Riboflavin (as vitamin B ₂ and 28% riboflavin 5' phosphate (activated B ₂))	17.4 mg
Niacin (as niacin and 67% niacinamide)	37.5 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	10.4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	250 mcg
Biotin	1,000 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	25 mg
Choline (as choline bitartrate)	20 mg
Calcium (as calcium citrate)	500 mg
Iodine (as potassium iodide)	100 mcg
Magnesium (as magnesium citrate)	50 mg
Zinc (as zinc citrate)	7.5 mg
Selenium (from selenium yeast)	100 mcg
Manganese (as manganese citrate)	1 mg
Chromium (as chromium polynicotinate)	100 mcg
Potassium (as potassium citrate)	49 mg
Boron (as boron glycinate)	1 mg
Vanadium (as bis-glycinato oxo vanadium)	50 mcg
Proprietary mixed carotenoid blend (as lutein, lycopene, zeaxanthin)	212 mcg
Inositol	62.5 mg
Alpha lipoic acid	37.5 mg
Coenzyme Q ₁₀	60 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Red wine grape (<i>Vitis vinifera</i>) concentrate (whole fruit) (standardized to contain 25% total polyphenols)	50 mg
Grape (<i>Vitis vinifera</i>) extract (seed) (standardized to contain 92% polyphenols)	50 mg
Pomegranate (<i>Punica granatum</i>) extract (whole fruit) (standardized to contain 40% punicosides)	50 mg
Cranberry (<i>Vaccinium macrocarpon</i>) concentrate (fruit)	60 mg
Assai palm (Açai) (<i>Euterpe oleracea</i>) extract (whole fruit)	600 mg
Blueberry (<i>Vaccinium angustifolium</i>) extract (fruit)	15 mg

HMRlignin™ (7-hydroxymatairesinol) (from Norway spruce knot wood)	5 mg
Green tea (<i>Camellia sinensis</i>) extract (leaf) (standardized to contain 65% total tea catechins and 23% epigallocatechin (EGCG))	50 mg
Turmeric (<i>Curcuma longa</i>) extract (root) (standardized to contain 95% curcuminoids)	50 mg
Calcium-D-glucarate	25 mg
Rhodiola (<i>Rhodiola rosea</i>) extract (root) (standardized to contain 3% total rosavins and 1% salidroside)	50 mg
Lemon balm (<i>Melissa officinalis</i>) extract (leaf) (standardized to contain 5% rosmarinic acid)	25 mg
Fish oil concentrate (from anchovies, sardines, mackerel)	1,000 mg
Providing:	
EPA (eicosapentaenoic acid)	300 mg
DHA (docosahexaenoic acid)	200 mg
Other ingredients: vegetarian capsule (cellulose, water), gelatin capsule (gelatin, glycerin, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, cranberry fiber, cranberry seed oil, guar gum, sunflower lecithin	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.
 ChromeMate® brand niacin-bound chromium. ChromeMate® & logo are trademarks of Lonza or its affiliates.
 HMRlignin™ is a trademark of Linnea Inc.
 ®FloraGLO is a registered trademark of Kemin Industries, Inc.
 Curcumin C3 Complex is a registered trademark and patented product of Sabinsa Corporation.
 Zeaxanthin is sourced from OPTISHARP® brand. OPTISHARP® is a trademark of DSM.
 Kaneka Q10® is a trademark of Kaneka Corporation.
 CranMax® is a registered trademark of Pharmachem Laboratories, LLC.
 This product contains calcium D-glucarate, the use of which is licensed from Applied Food Sciences, Inc. and protected by U.S. Patent 7,662,863.

Contains fish (anchovies, sardines, mackerel)

Take with food. If you have liver problems, consult your health professional before use. Vitamin K may be contraindicated with Coumadin (warfarin). If you are pregnant or lactating, have any health condition or are taking any medication, particularly blood-thinning medication, consult your health professional before use.

Zinc (citrate)

OFFERS BROAD PHYSIOLOGICAL SUPPORT, INCLUDING IMMUNE FUNCTION AND EMOTIONAL WELLNESS*

Zinc plays an important role in supporting the body's natural defense system, as well as nutrient utilization. It is a constituent of over two dozen enzymes involved in digestion and metabolism, including carbonic anhydrase, which is vital to tissue respiration. Zinc is essential for the healthy storage and metabolism of carbohydrates, as well as the absorption and function of B vitamins. Zinc plays a fundamental role in collagen formation and healthy tissue development. This mineral contributes to healthy prostatic function, and is essential for normal fetal and reproductive development.¹

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Zinc (as zinc citrate) 30 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Immune Support    		
Zinc (citrate)	Quantity	Order Code
	180	ZC1
	60	ZC6

Zinc 15

1 capsule, 1-2 times daily, with a meal.

Each (size 3) vegetarian capsule contains:

Zinc (as zinc picolinate) 15 mg

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Immune Support    		
Zinc 15	Quantity	Order Code

Zinc chewables

OFFERS BROAD PHYSIOLOGICAL SUPPORT, INCLUDING IMMUNE FUNCTION AND EMOTIONAL WELLNESS[†]

Our sugar-free chewable offers 10 mg zinc per tablet in a lightly sweetened, natural orange flavor. Zinc plays an important role in immune function, including support for the body's natural defense system. It is a cofactor in over 300 enzymes and many biological processes, including DNA and protein synthesis, regulation of gene expression, neurotransmitter synthesis and nutrient utilization.¹

Children ages 4-13, take 1 chewable tablet daily, with a meal.
Adults and children ages 14 and up, take 1 chewable tablet, 1-3 times daily, with a meal.

Each chewable tablet contains:

Zinc (as zinc citrate) _____ 10 mg

Other ingredients: xylitol, mannitol, hydroxypropyl cellulose, ascorbyl palmitate, citric acid, natural orange flavor with other natural flavors

Immune Support

Zinc chewables	Quantity	Order Code
	100	ZNC1

Zinc liquid 15 mg

Children age 4 and up, take 2 ml (2 full droppers) daily, with a meal.
Adults, take 4 ml (4 full droppers) daily, with a meal.

Serving size: 4 ml (0.14 fl oz) (4 full droppers)
Servings per container: 30

Four ml (0.14 fl oz) (4 full droppers) contain:

Zinc (as zinc gluconate) _____ 15 mg

Other ingredients: purified water, apple juice concentrate, cranberry juice concentrate, purified stevia leaf extract, potassium sorbate, citric acid

Immune Support

Zinc liquid 15 mg	Quantity	Order Code
	120 ml (4 fl oz)	Z15L

EASY ORDERING

HOW TO ORDER

 Enjoy secure online ordering at PureEncapsulationsPro.com

 Contact customer service

Orders Are Accepted

Monday - Friday: 8:30 a.m. - 6:00 p.m. (ET)

Toll-free: 800-753-2277 • Fax: 888-783-2277

Email: customerservice@PureEncapsulations.com

HOW TO REGISTER FOR AN ACCOUNT

- 1 Visit PureEncapsulationsPro.com and click "Register" at the top of the homepage.
- 2 Enter your information in the fields provided and click "Apply for Account".
- 3 You will receive an email immediately after registering to complete your account activation.

Only healthcare practitioners may order directly from Pure Encapsulations. The most important link between our professional-strength supplements and consumers is the presence and guidance of a qualified health practitioner.

SHIPPING AND PAYMENT INFORMATION

Same-Day Shipping

Orders received by 3:00 p.m. (ET) are shipped that day, via UPS 2-day service.

Shipping Charges/Delivery

Shipping is FREE for orders over \$300 (U.S. phone orders only). To enjoy free shipping on online orders over \$100 delivered within the continental U.S., enter code **WEBFREESHIP** at checkout.** Phone orders under \$300 please add \$10 for shipping. Please note that UPS does not deliver to P.O. boxes.

Volume Discounts

Shipments over \$2,000 — 10%

Shipments over \$1,000 — 7%

Shipments over \$500 — 5%

Shipments over \$300 — FREE shipping

For Hawaii, Puerto Rico and Alaska there is a \$12 flat rate shipping fee and free shipping is at \$500.

Payment Terms

Orders are shipped pre-paid by Discover®, MasterCard®, VISA® or American Express®.

SALES TAX INFORMATION

Pure Encapsulations is required to collect and remit sales tax for orders shipped to the following states:

AL, AZ, AR, CA, CO, GA, HI, ID, IL, IN, IA, KS, KY, LA, ME, MA, MI, MN, MS, MO, NE, NV, NM, NC, ND, OH, OK, RI, SC, SD, TN, UT, VA, WA, WI.

If you are tax exempt, please contact Customer Service at 800-753-2277 to discuss the documentation needed to make your account tax-exempt. If your order is placed before these documents are sent in, we unfortunately will not be able to refund you the applicable sales tax.

OUR GUARANTEE/RETURN POLICY

All Pure Encapsulations products are guaranteed for quality, purity and potency through their expiration date. Returns must be made within 30 days of receipt and require preauthorization. Any claims of shortage or damage must be made within 7 days of receiving package. Authorized returns must be received by our warehouse within 14 days of authorization. They will be credited upon receipt and are subject to a 15% processing fee plus the cost of shipping. Please refer to our website for more information.

**Valid in USA for online orders only. Cannot be combined with other promotions. Free standard shipping will apply to entire order and become available at checkout.
