PureResponse™

Self-Tissue Response Protocol

Developed with Dr. Samuel Yanuck, D.C.⁺

This three-step protocol is intended for patients with an immune response directed at self-tissue. Each step supports a key aspect of the immune system and cumulatively helps promote a balanced immune response. Follow this protocol in a stepwise fashion. Once implemented, the formulas and dosages may be used indefinitely or modified as needed to maintain immune homeostasis.¹

Ongoing use of the formulas in this guide is recommended. Re-evaluate patient needs as necessary.

Promotes a healthy Th1
immune response^t

2 capsules, 1-2 times daily

Helps modulate the Th2 immune response and balance mast cell activity[†]

2 capsules, 1-2 times daily

Modulate Cytokine Activation[‡]

At the start of Week 3, add the following three formulas to support cytokine balance, promote neuroimmune health, and modulate self-tissue response:

Balanced Immune

Order Code: BIM6

Modulates cytokine production¹ 2 capsules, 1-2 times daily
