GOODNESS ENCAPSULATED

At Pure Encapsulations®, we're dedicated to providing nutritional supplements you can trust. That's why our products are formulated using high-quality, pure ingredients **FREE FROM** unnecessary additives and many common allergens, and backed by verifiable science.

Everything you need and nothing you don't — that's goodness encapsulated.

THE PURE DIFFERENCE

We take high standards seriously, which is why we're the **most recommended professional supplement brand, ranked highest in quality and trust.**¹ What makes us different is the promise of goodness that goes into every one of our supplements. We source high-quality ingredients from trusted suppliers, conduct research and clinical trials to promote efficacy and safety, and undergo laboratory testing to ensure product purity and potency.

COMMITTED TO SCIENCE

Pure Encapsulations® has a long-standing commitment to scientific innovation, and the proof is in our products. From supporting key research initiatives and partnering with leading, global academic research institutions, to providing study products and technical expertise, we are making significant contributions in the advancement of nutritional science.

WHAT YOU SEE IS WHAT YOU GET

We believe in transparency throughout our entire process, from our capsules to our labels. Every ingredient we put into our products, even if it's just a trace amount, is listed on the label. If there's an ingredient sourced from a possible allergen—we call that out too. We also list minerals by their true elemental weight and standardizations of herbal extracts.

GOOD FROM START TO FINISH

QUALITY PROMISE

To ensure only pure goodness ends up in our bottles, our products must meet the most stringent testing standards to confirm their quality.

- We ensure the integrity of every product with the promise of premium sourced ingredients, verifiable science and significant testing by certified independent laboratories of our raw materials and final products, to verify their potency and purity.
- All of our raw materials are tested for identity, potency, microbial contaminants, heavy metals (including mercury, arsenic, cadmium and lead), 32 solvent residues and allergens, depending on risk.
- Herbal ingredients are tested for 70 different pesticide compounds.
- Essential fatty acids and fish/krill oils are tested for dioxins, furans, PCBs and other agents.
- We utilize a comprehensive Allergen SOP (Standard Operating Procedure) that prevents ingredient cross-contamination by flagging allergen-containing ingredients.

We do all of this so you can feel confident knowing only the best of the best makes it into your hands.

Pure Encapsulations® is NSF-GMP registered in the U.S., GMP certified in Canada and exceeds the standards of the United States Pharmacopeia (USP) for supplement manufacturing.

STRONG CONNECTIONS

Our strength lies in our partnerships with leaders in the most important nutritional health areas: mental health, weight management, immune support, gastrointestinal health and more. To help guide us on this journey, we work with an extensive and experienced Scientific Advisory Board who not only help us formulate products, but also create educational tools that help support your optimal health and wellness.*
