GOODNESS ENCAPSULATED

We've spent **over 30 years** researching, innovating and developing our comprehensive line of premium supplements, made with high-quality, pure ingredients, backed by verifiable science to complement your plan of care.

Everything your patients need and nothing they don't—that's goodness encapsulated.

IT'S WHAT'S INSIDE THAT COUNTS

What makes us different is the promise of goodness that goes into every one of our supplements. We take high standards seriously, which is why we're the **most recommended professional supplement brand, ranked highest in quality and trust.**²

Our supplements are made with only **premium ingredients** sourced from **trusted suppliers** and guided by our **medical and nutritional experts**, then carefully manufactured and tested to ensure they are **FREE FROM** unnecessary additives and many common allergens.

PURE TRANSPARENCY

Every ingredient we put into our products, even if it's just a trace amount, is listed on the label. If there's an ingredient sourced from a possible allergen—we call that out too.

We ensure the integrity of every product with the promise of **premium-sourced ingredients**, backed by **verifiable science**. Our raw materials and final products undergo **significant testing** by accredited and cGMP compliant laboratories to verify their potency and purity. You can feel confident knowing **only the best of the best ever make it into your patients' hands**.

PURE SCIENCE

Scientific research raises the bar for everything we do. That's why we've published more than 50 product-specific clinical studies in leading peer-reviewed journals highlighting our **commitment to research** and our **collaboration with top academic institutions**, including Cleveland Clinic Foundation, Université Laval, and Brigham and Women's Hospital of Harvard Medical School.

Every one of our supplements is made using only **premium ingredients** sourced from **trusted suppliers** and guided by our team of **nutritional and medical experts**.

We do all of this so your patients can feel as confident about what they put into their bodies as you are recommending it.
