This protocol was designed with our clinician partners to help you deliver the most effective care and support for your patients. Included are recommendations to support foundational health and focused interventions to support gastrointestinal health in patients with occasional diarrhea, occasional constipation or a mixture of both.

**FOUNDATIONAL SUPPORT**

In addition to a healthy diet and lifestyle, consider the following foundational supplements to support overall health and well-being:

- **O.N.E.™ Multivitamin** (ONE1 / ONE6 / ONE3)
- **O.N.E.™ Omega** (ONO6 / ONO3)

**FOCUSED SUPPORT**

The products in this category support common clinical objectives related to functional GI health.

Choose from the options listed below:
