HIGH-QUALITY NUTRITIONAL SUPPLEMENTS YOU CAN TRUST

1. Among professional supplement brands surveyed, Nutrition Business Journal® 2016, 2020, 2023

pure
encapsulations[®]

WHY PURE ENCAPSULATIONS®

Our comprehensive line of supplements is **FREE FROM:**

Wheat, Soy*,
Dairy*, Eggs

Tree Nuts, Peanuts
& Sesame

Gluten

Artificial Colors,
Flavors &
Sweeteners

Coatings
& Shellacs

GMOs¹

Unnecessary
Binders, Fillers
& Preservatives

Magnesium
Stearate

Trans Fat &
Hydrogenated Oils

GOODNESS ENCAPSULATED

At Pure Encapsulations®, we're dedicated to providing nutritional supplements you can trust. That's why our products are formulated using high-quality, pure ingredients **FREE FROM** unnecessary additives and many common allergens, and backed by verifiable science.

Everything your patients need and nothing they don't — that's goodness encapsulated.

THE PURE DIFFERENCE

We take high standards seriously, which is why we're the **#1 most recommended professional supplement brand**.¹ What makes us different is the promise of goodness that goes into every one of our supplements. We source high-quality ingredients from trusted suppliers, conduct research and clinical trials to promote efficacy and safety, and undergo laboratory testing to ensure product purity and potency.

1. Among professional supplement brands surveyed, Nutrition Business Journal® 2016, 2020, 2023

[†]Visit PureEncapsulationsPro.com for more information on our GMO policy.

*Except where labeled.

COMMITTED TO SCIENCE

Pure Encapsulations has a long-standing commitment to scientific innovation, and the proof is in our products. From supporting key research initiatives and partnering with leading, global academic research institutions, to providing study products and technical expertise, we are making significant contributions in the advancement of nutritional science.

WHAT YOU SEE IS WHAT YOU GET

We believe in transparency throughout our entire process, from our capsules to our labels. Every ingredient we put into our products, even if it's just a trace amount, is listed on the label. If there's an ingredient sourced from a possible allergen — we call that out too. We also list minerals by their true elemental weight and standardizations of herbal extracts.

GOOD FROM START TO FINISH

QUALITY PROMISE

To ensure only pure goodness ends up in our bottles, our products must meet the most stringent testing standards to confirm their quality.

- We ensure the integrity of every product with the promise of premium sourced ingredients, verifiable science and significant testing by accredited and cGMP compliant laboratories of our raw materials and final products, to verify their potency and purity.
- All of our raw materials are tested for identity, potency, microbial contaminants, heavy metals (including mercury, arsenic, cadmium and lead), 32 solvent residues and allergens, depending on risk.
- Herbal ingredients are tested for 70 different pesticide compounds.
- Essential fatty acids and fish/krill oils are tested for dioxins, furans, PCBs and other agents.
- We utilize a comprehensive Allergen SOP (Standard Operating Procedure) that prevents ingredient cross-contamination by flagging allergen-containing ingredients.

We do all of this so you can feel confident knowing only the best of the best makes it into your patients' hands.

GMP CERTIFIED
NSF/ANSI 455.2
Dietary Supplements

Pure Encapsulations is NSF GMP certified in the U.S.

Pure Encapsulations is GMP certified in Canada and exceeds the standards of the United States Pharmacopeia (USP) for supplement manufacturing.

ACCOUNT BENEFITS

TAKE ADVANTAGE OF ALL THE BENEFITS PURE ENCAPSULATIONS HAS TO OFFER:

- Purchase products at **50%** off suggested retail price* and **get preferred pricing**
- Access to **Pure Patient Direct**, our **FREE virtual dispensary**
- Practitioner-exclusive access to our **NEW Drug-Nutrient Interaction Checker**
- Gain **exclusive access** to clinical protocols
- **One Cart / One Account** allows you to order from all of our brands on one order, making it easier for you to reach **volume discounts**
Volume discounts: 5% > \$500 7% > \$1K 10% > \$2K
- **First to know** about our new product launches

PURE VALUES

At Pure Encapsulations, we don't just focus on making something good, but doing good as well. Our commitment to the health and wellness of others doesn't stop when we've put the cap on the bottle. That's why we're proud to support non-profit organizations that are dedicated to supporting global wellness, improving the health of those most in need, and enriching lives around the world, while we work toward creating a more sustainable future for our planet.

Sustainable Goodness.

At Pure Encapsulations, our commitment began with a pure purpose, to improve the wellness of others. Today, this heartfelt commitment extends to the planet. We're striving for recyclable packaging by 2025 and for 100% net zero greenhouse gas (also known as GHGs) emissions by 2050.

It's our planet.
Together, our
future is green.

O.N.E.™ Multivitamin

With Metafolin® L-5-MTHF

ONCE-DAILY NUTRIENT ESSENTIALS WITH SUSTAINED-RELEASE COQ₁₀

Indications:

- Men and women age 18 and over

Vitamin Distinctions:

- Provides vitamins A, B, C, D and E in highly bioavailable forms
- Includes Metafolin® L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate

Special Features:

- Convenient one-capsule-per-day dosing
- Antioxidant complex includes alpha lipoic acid and a blend of CoQ₁₀ and sustained-release, water-soluble, MicroActive® Q₁₀
- Choline and inositol for healthy cognitive function[†]
- Supports cellular health with 500 mcg lycopene and 50 mcg (2,000 IU) vitamin D[†]
- Helps maintain macular and retinal health with 3 mg lutein and 500 mcg zeaxanthin[†]

1 capsule daily, with a meal.

Each (size 00) vegetarian capsule contains:

Vitamin A (as vitamin A acetate and 73% beta carotene)	1,125 mcg
Vitamin C (as ascorbic acid)	180 mg
Vitamin D (as cholecalciferol) (D ₃)	50 mcg (2,000 IU)
Vitamin E (as d-alpha tocopherol succinate)	20 mg
Thiamin (as thiamin HCl) (B ₁)	3 mg
Riboflavin (as vitamin B ₂ and 43% riboflavin 5' phosphate (activated B ₂))	3 mg
Niacin (as niacinamide)	20 mg
Vitamin B ₆ (as pyridoxine HCl and 38% pyridoxal 5' phosphate (activated B ₆))	4 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	500 mcg
Biotin	300 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	10 mg

Choline (as choline bitartrate)	25 mg
Iodine (as potassium iodide)	150 mcg
Zinc (as zinc citrate)	25 mg
Selenium (as selenomethionine)	70 mcg
Manganese (as manganese citrate)	2 mg
Chromium (as chromium polynicotinate)	200 mcg
Molybdenum (as TRAACS™ molybdenum glycinate chelate)	75 mcg
Boron (as boron glycinate)	1 mg
Inositol	25 mg
CoenzymeQ ₁₀ (as CoQ ₁₀ and as 18% from MicroActive® CoQ ₁₀ -cyclodextrin complex)	50 mg
Alpha lipoic acid	50 mg
FloraGLO® lutein	3 mg
Zeaxanthin	500 mcg
Lycopene	500 mcg
Other ingredients: vegetarian capsule (cellulose, water), hypoallergenic plant fiber (cellulose), ascorbyl palmitate, potato starch	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

®FloraGLO is a registered trademark of Kemin Industries, Inc.

Zeaxanthin is sourced from OPTISHARP® brand. OPTISHARP® is a trademark of DSM.

Ascorbic Acid capsules

VITAMIN C SUPPORTS A WIDE RANGE OF PHYSIOLOGICAL FUNCTIONS, INCLUDING IMMUNE FUNCTION, ANTIOXIDANT DEFENSE AND VASCULAR INTEGRITY[‡]

Vitamin C, one of the most well-known sources of dietary antioxidants, offers a wide range of support for the human body. It is an antioxidant and free radical scavenger. It supports the body's defense system by promoting white blood cell function and activity, interferon levels, antibody responses, and secretion of thymic hormones. It is essential for the formation and maintenance of intercellular ground substance and collagen. Vitamin C aids in the absorption of iron and the metabolism of folate. It maintains healthy mast cell function and supports lymphocyte formation. Vitamin C is also required for the synthesis of carnitine and steroids.[‡]

1 capsule, 1-4 times daily, with meals.

Each (size 00) vegetarian capsule contains:

Vitamin C (as ascorbic acid)	1,000 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

	30 ml (1 fl oz)

B-Complex Plus

With Metafolin® L-5-MTHF

BROAD-SPECTRUM B VITAMIN SUPPORT FOR MULTIPLE LEVELS OF HEALTH†

B vitamins play important roles in the body helping out with energy metabolism, brain health, nerve health and more. The balanced combination of B vitamins — and we're talking B₁, B₂, B₃, B₅, B₆, B₁₂, biotin and folate — play a role in converting carbs into energy and helping our bodies metabolize fats and protein.‡

- Assists cellular, cardiovascular and neurological health‡
- Supports healthy cognitive function as well as memory, mood, cellular energy production and emotional well-being‡
- Supports nervous system function‡
- Maintains integrity of tissues‡

1 capsule, 1-2 times daily, with meals.

Each (size 1) vegetarian capsule contains:

Thiamin (as thiamin HCl) (B ₁)	100 mg
Riboflavin (as vitamin B ₂ and 60% riboflavin 5' phosphate (activated B ₂))	12.7 mg
Niacin (as niacinamide and 8% inositol hexaniacinate (no-flush niacin))	108 mg
Vitamin B ₆ (as pyridoxine HCl and 40% pyridoxal 5' phosphate (activated B ₆))	16.7 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Vitamin B ₁₂ (as methylcobalamin)	400 mcg
Biotin	400 mcg
Pantothenic acid (as calcium pantothenate) (B ₅)	100 mg
Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

Vitamin D₃ 125 mcg (5,000 IU)

SUPPORT FOR BONE, BREAST, PROSTATE, CARDIOVASCULAR, COLON AND IMMUNE HEALTH†

Vitamin D can be found in fortified foods and supplements. It plays an important role in supporting colon health, too, by promoting healthy cellular function. What's more, Vitamin D helps with immune cell activation.¹

- Supports healthy bone composition‡
- Promotes cellular support for breast and prostate tissue‡
- Supports colon health by promoting healthy cellular function‡
- Promotes cardiovascular and immune health‡

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Vitamin D (as cholecalciferol) (D ₃)	125 mcg (5,000 IU)
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)	

Not to be taken by pregnant or lactating women. If you have any health condition or are taking any medication, consult your health professional before use. It is recommended that individuals taking more than 50 mcg (2,000 IU) vitamin D per day have their blood levels monitored.

Hair/Skin/Nails Ultra

With Metafolin® L-5-MTHF

SUPPORTS SKIN ELASTICITY AND HYDRATION, HEALTHY HAIR, AND NAIL STRENGTH AND THICKNESS†

Vitamin C, zinc, copper, manganese and silica are integral collagen and keratin cofactors, promoting skin elasticity. Optimal levels of these nutrients, as well as folate, have been associated with healthy hair, skin and nails. Vitamin C supports skin resiliency and helps counter the effects of oxidative stress along with sustained-release CoQ10 complex. Niacinamide and zinc promote immune function in the skin. The proanthocyanidins in grape seed extract help to stabilize collagen and elastin by moderating the proteolytic enzymes collagenase and elastase. Clinical studies indicate that biotin may help reinforce the keratin structure of the nails, promoting strength and thickness. PABA supports the appearance of healthy hair through its effects on melanin metabolism. BioCell Collagen® is a patented, hydrolyzed and denatured low molecular weight collagen, providing a naturally occurring matrix of hyaluronic acid (HA), chondroitin sulfate and amino acids including lysine, proline and hydroxyproline. These structural components support the elasticity and firmness of skin. Furthermore, HA attracts water, promoting hydration and moisture retention within the dermal matrix. Case reports have revealed that BioCell Collagen® helped moderate the appearance of wrinkles and blemishes in the skin.†

2 capsules daily, with a meal.

Two (size 00) vegetarian capsules contain:

Vitamin C (as ascorbic acid)	250 mg
Niacin (as niacinamide)	20 mg
Folate (as Metafolin®, L-5-MTHF)	667 mcg DFE (400 mcg L-5-MTHF)
Biotin	6,000 mcg
Zinc (as zinc citrate)	30 mg
Copper (as copper glycinate)	1 mg
Manganese (as manganese citrate)	2 mg
Silica (from bamboo)	30 mg
PABA (para-aminobenzoic acid)	150 mg
BioCell Collagen® hydrolyzed collagen complex (chicken sternal cartilage)	500 mg
Providing (typical):	
Hydrolyzed collagen 60%	300 mg
Chondroitin sulfate 20%	100 mg
Hyaluronic acid 10%	50 mg
Grape (Vitis vinifera) extract (seed) (standardized to contain 92% polyphenols)	140 mg
CoQ10 (as CoQ10 and as 33% from MicroActive® CoQ10-cyclodextrin complex)	60 mg
Other ingredients: vegetarian capsule (cellulose, water), potato starch, ascorbyl palmitate	

Metafolin® is a registered trademark of Merck KGaA, Darmstadt, Germany.

BioCell Collagen® is a registered trademark of BioCell Technology LLC, Irvine, California USA (Protected by US and International Patents).

MicroActive® is a registered trademark of BioActives, LLC.

Biotin may interfere with certain blood tests. Wait at least 8 hours between biotin consumption and blood testing. Inform your health professional about all biotin-containing supplements you are taking. If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

Melatonin 3 mg

DESIGNED TO HELP THE BODY'S NATURAL SLEEP CYCLE†

Melatonin is a hormone produced by the pineal gland, which regulates the body's sleep/wake cycle. Melatonin's primary role is regulation of the body's circadian rhythm, endocrine secretions and sleep patterns. Studies indicate that it facilitates the onset of sleep, as well as sleep efficiency.‡

- Promotes the body's natural sleep cycle†
- Helps augment the natural functioning of the pineal gland which secretes melatonin, that plays a role in the body's internal clock†
- Designed to assist in the duration of sleep‡

1 capsule daily, 1/2 to 1 hour before bedtime.

Each (size 3) vegetarian capsule contains:	Melatonin	3 mg
Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)		

Consult a healthcare professional if you are experiencing long-term sleep difficulties, before use in children, before use in pregnant or lactating women, those with a medical condition, and those taking medication. Do not drive or operate machinery when taking melatonin. This product may be contraindicated for individuals taking corticosteroids.

DRUG-NUTRIENT INTERACTION CHECKER

Did you know that common medications have the potential to **deplete critical nutrients** in your body?

Around **66%** of U.S. adults take prescription drugs¹

81% of adults use OTC medicines²

Nearly 4 in 5 consume dietary supplements³

Nutrient Depletion

Drug-induced nutrient depletions occur when a prescription or over-the-counter medication reduces the body's ability to absorb, process, store or use a nutrient.

Nutrient Interaction

Drug-nutrient interactions occur when a nutrient, herb or other ingredient in a dietary supplement changes the way the body absorbs, processes or responds to a prescription or over-the-counter medication.

OUR DRUG-NUTRIENT INTERACTION CHECKER:

- Is easy to understand and kept up to date
- Provides considerations on whether to avoid, monitor or consult with prescriber about adjustments to dose or timing
- Has scientifically supported, clinically relevant information
- Includes a patient-friendly description of each interaction
- Includes high-quality product suggestions based on verifiable science

LESS NOISE. MORE CLINICAL RELEVANCE.

Unlike other Drug-Nutrient Interaction checkers, we provide a unique experience by **reducing noise** and **delivering clinically relevant interactions** that can:

HAPPEN IN REAL LIFE.

Most interactions are hypothetical. Many are studied in vitro (in a test tube or cell culture) without validation in human studies. We take a rigorous, clinical evidence-focused approach to deliver those interactions that could happen in realistic clinical situations.

OCCUR AT TYPICAL DOSES.

All interactions are dose-dependent. Many interactions are based on unrealistically high doses or intravenous administration of a dietary supplement to occur. Our tool excludes these irrelevant situations, delivering alerts that pertain to doses commonly used in dietary supplements.

AFFECT THE BODY IN A SIGNIFICANT WAY.

Many interactions have insignificant effects on the body. We alert you to meaningful interactions that may have an impact on drug efficacy, safety, risks and/or key clinical parameters.

The following types of data are preferentially analyzed to bring you clinically relevant alerts without the burden of hypothetical noise:

- **Clinical trials on drug-nutrient combinations.** These studies are the “gold standard” for confirming clinically relevant interactions, but only a small number have been performed to date. We rely on these whenever possible.
- **Clinical trials on the ingredient or nutrient** showing redundant or antagonistic effects relative to known drugs may suggest potential theoretical interactions.
- **Human pharmacokinetic data** are often the “missing link” when only in vitro data are available. These interactions may be clinically relevant if sufficient blood concentrations can be achieved. By comparing blood levels with the amount required to interact with a drug target, we can exclude clinically irrelevant interactions.*
- **Published case reports** are considered when an interaction is detected as a probable cause of an adverse event.

*In Vitro Drug Interaction Studies — Cytochrome P450 Enzyme- and Transporter-Mediated Drug Interactions Guidance for Industry. U.S. Food & Drug Administration, May 7, 2020.
The Drug-Nutrient Interaction Checker is for educational and general wellness information purposes only and is not intended to provide any diagnosis, cure, mitigation, prevention or recommendation for medical treatment of any disease.
