PureResponse[™] Self-Tissue Response Protocol[‡]

DEVELOPED WITH IMMUNOLOGY THOUGHT LEADER SAMUEL YANUCK, DC+

This three-step protocol is intended for patients with an immune response directed at self-tissue. Each step supports a key aspect of the immune system and cumulatively helps promote a balanced immune response. Follow this protocol in a stepwise fashion. Once implemented, the formulas and dosages may be used indefinitely or modified as needed to maintain immune homeostasis.⁺ Ongoing use of the formulas in this guide is recommended. Re-evaluate patient needs as necessary.
