

Liposomal Glutathione liquid

A PLEASANT-TASTING LIQUID GLUTATHIONE IN A UNIQUE LIPOSOMAL DELIVERY FORM FOR ENHANCED ABSORPTION TO SUPPORT ANTIOXIDANT DEFENSE, DETOXIFICATION, AND CELLULAR FUNCTION[†]

Liposomal Glutathione liquid offers the antioxidant glutathione in an enhanced-absorption liposomal form to target cellular health and function. Your patients get all the benefits of this essential supplement in a pleasant-tasting, lemon-mint formulation that provides 100 mg of glutathione per serving.[‡]

- Protects from free radicals to support tissue health[†]
- Supports liver health and detoxification[†]
- Plays a critical role in cellular function, including protein synthesis, enzyme function, and cell maturation[†]

Antioxidant Defense[†]

Detoxification Support[†]

Cellular Health[†]

Enhanced Liposomal Glutathione liquid to support your patients' **cellular health and function**[†]

Enhanced liposomal liquid delivery system for optimal benefits

The digestive process can compromise efforts to achieve beneficial glutathione levels from supplementation. This advanced liposomal form helps protect the glutathione bonds from degradation that can occur in digestion.

- Delivery system utilizes phosphatidylcholine from non-GMO sunflower oil and tight manufacturing control
- Controlled processing procedure results in very small, highly stable, spherical liposomes
- Small liposomes allow for increased diffusion across mucus membranes and better absorption

Supplement Facts

Take 2 pumps by mouth, 2 times daily, or as directed by a health professional. Hold in mouth 30 seconds before swallowing. Take on an empty stomach, at least 10 minutes before meals.

Two pumps contain:

Sodium	7 mg
