Multi-Mineral liquid

A BLEND OF NATURALLY DERIVED MINERALS TO SUPPORT CELLULAR FUNCTION[‡]

Multi-Mineral liquid contains a concentrated seawater mineral complex to support important physiological and cellular functions. Sourced from the Great Salt Lake in Utah, this concentrate offers the natural enrichment of mineral water from soil and rocks and is particularly rich in magnesium, boron and lithium.

Minerals act as cofactors for numerous physiological and cellular functions, including cellular energy production, and the synthesis of hormones, neurotransmitters and DNA.[‡]

Enhances optimal mineral intake[‡]

Supports nutrient metabolism[‡]

Promotes cellular function[‡]

Formulated for patients who need support with **mineral intake** and **cellular function**.[‡]

Supplement Facts
