

AdipoLean II

Promotes adiponectin expression to support nutrient utilization and healthy weight management[†]

INDICATIONS

- Ages 18 and up
- Healthy weight management[†] and body composition support[†]

BENEFITS

- Supports healthy weight management[†]
- Promotes healthy adipocyte function to support optimal glucose uptake and fat utilization[†]
- Promotes adiponectin and moderates ghrelin production[†]
- Maintains antioxidant defenses and cytokine balance[†]

FEATURES

- Formulated with a blend of the clinically researched LOWAT[®] blend of Ayurvedic herbal extracts combined with Oligonol[®], a lychee and green tea complex
- Part of the PureLean[®] product line
- Made with high-quality vegetarian ingredients backed by verifiable science

VERIFIABLE SCIENCE

AdipoLean II offers a combination of the clinically researched LOWAT[®] blend of Ayurvedic herbal extracts combined with Oligonol[®], a lychee and green tea complex containing low molecular weight polyphenols for enhanced efficacy. Research indicates that both LOWAT[®] and Oligonol[®] help maintain healthy adiponectin expression, offering support for healthy insulin function, glucose uptake and fat utilization.¹ LOWAT[®] (LI10903F) is a proprietary blend of *Piper betle* leaf extract and *Dolichos biflorus* seed extract combined in a specific ratio. Both herbs have been traditionally used to support healthy glucose metabolism and lipid metabolism. In vitro and animal research determined that this combination and ratio provided maximal efficacy.² Research indicates that LOWAT[®] targets fat breakdown and helps maintain healthy weight management[†], at least in part due to promoting adiponectin and moderating ghrelin production. In an eight-week, randomized, double-blind, placebo-controlled trial involving 50 overweight subjects following a standard 2,000-

calorie-per-day diet, supplementation with 300 mg of the LOWAT[®] blend three times daily promoted healthy lean mass ratio and an average weight loss of 9.4 pounds, compared to 3.9 pounds in the placebo group (p=0.00005). Supplementation also resulted in an increase in serum adiponectin levels by 15.35% (p=0.0076) and a decrease in serum ghrelin levels by 20.85% (p=0.0066).³ Ghrelin is a peptide hormone associated with appetite. The mechanisms of action for Oligonol[®] include support for healthy insulin function, adiponectin synthesis and lipolysis. In a double-blind, placebo-controlled study involving 19 individuals, Oligonol[®] supported healthy visceral fat composition.^{4†}

SUGGESTED USE

As a dietary supplement, take 1 capsule, 3 times daily, 30 minutes before meals.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition, particularly liver problems, or are taking any medication, consult your health professional before use.

SOURCE

- LOWAT[®] (LI10903F) is a proprietary blend of *Piper betle* leaf extract and *Dolichos biflorus* seed extract
- Oligonol[®] is a proprietary blend of lychee fruit extract (*Litchi chinensis*) and green tea leaf extract (*Camellia sinensis*) and standardized to contain 10% monomeric phenols
- Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil

NOTES

Size 1 caps

Bottle count 90

Order code ADL9

Bottle size 120 cc

AdipoLean II

Promotes adiponectin expression to support nutrient utilization and healthy weight management[†]

SUPPLEMENT FACTS

1 capsule, 3 times daily, 30 minutes before meals.

Each (size 1) vegetarian capsule contains:

LOWAT[®] proprietary blend of catjang cowpea (*Dolichos biflorus*) 300 mg
extract (seed) and betel (*Piper betle*) extract (leaf)

Oliginol[®] proprietary blend of lychee (*Litchi chinensis*) 17 mg
extract (fruit) and green tea (*Camellia sinensis*) extract (leaf)
(standardized to contain 10% total monomeric phenols)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

LOWAT[®] is exclusively distributed by Lonza or its affiliates.

Oliginol[®] is a registered trademark of the Amino Up Chemical Company, Sapporo, Japan.
