VERIFIABLE SCIENCE

VisionPro Nutrients[†] is a gentle formula providing a comprehensive profile of highly bioavailable vitamins, fully chelated minerals and antioxidants to support eye integrity, healthy visual function and overall health.¹ The importance of nutrients for eye health has been particularly evident since the publication of a long-term multicenter, prospective study involving more than 5,000 individuals ages 55-80. The study revealed that high amounts of vitamin C, vitamin E, zinc and copper support the health of the retina and macula.^{2,3} Additional research suggests that optimal vitamin D levels may also promote macular health.⁴ Contains 750 mcg (2,500 IU) of vitamin A per serving to support night vision and healthy tear production.⁵ Provides Metafolin[®] L-5-methyltetrahydrofolate (L-5-MTHF), the naturally occurring, universally metabolized form of folate.⁶ Helps maintain macular and retinal health with 10 mg lutein, 2 mg zeaxanthin and 1 mg lycopene per serving.⁷ Supports visual function and healthy photoreceptor activity with taurine, alpha lipoic acid and resveratrol.^{8,9,10†}
