

# Colostrum

Highly concentrated immune support<sup>†</sup>

## INDICATIONS

- Ages 18 and up
- Concentrated immune support<sup>†</sup>
- Intestinal support<sup>†</sup>

## BENEFITS

- Promotes immune function<sup>†</sup>
- Supports intestinal health<sup>†</sup>

## FEATURES

- A highly concentrated, synergistic source of immune support and growth factors<sup>†</sup>
- Standardized to contain 40% IgG
- Processed to remove the fat content and to preserve nutritional activity of the proteins

## VERIFIABLE SCIENCE

Colostrum is a highly concentrated source of immune and growth factors produced from mammary glands shortly after giving birth. Pure Encapsulations Colostrum is derived from BSE-, hormone-, pesticide- and antibiotic-free USDA certified dairy farms in the U.S. It is collected after the first 24 hours, defatted and standardized to contain 40% IgG. Colostrum contains immunoglobulins G (IgG), A (IgA), E (IgE), D (IgD) and M (IgM). Each has a specific role in immune health. IgG is naturally found in the highest concentration. Other naturally occurring immune-support compounds include lactoferrin, proline-rich polypeptide (PRP), lymphokines, interferons, interleukins, oligosaccharides, lysozymes, insulin growth factors (IGF-1 and IGF-2) and transforming growth factors (TGF-alpha and TGF-beta).<sup>1-6†</sup>

## SUGGESTED USE

As a dietary supplement, take 2 capsules, 2-3 times daily, on an empty stomach or at least 30 minutes before a meal, with 8-12 oz of water.

## STORAGE

Store in a cool, dry place.

## WARNING

If pregnant or lactating, have any health condition or are using any medication, consult your health professional before use.

## SOURCE

Pure Encapsulations Colostrum 40% IgG, derived from USDA and FDA certified dairy farms in the U.S., is defatted and processed at low heat to preserve nutritional activity.

## NOTES

Size 00 caps

Bottle count 90/180

Order code COL49/COL41

Bottle size 290 cc/20 oz
