

NAC (N-Acetyl-L-Cysteine)

Supports respiratory function, glutathione production and detoxification[†]

INDICATIONS

- Ages 18 and up
- Lung health and respiratory function support[†]
- Antioxidant immune system support[†]
- Detoxification support[†]

BENEFITS

- Promotes healthy lung tissue and respiratory function[†]
- Supports cellular antioxidant defense system as a radical scavenger that supports glutathione levels in tissues[†]
- Helps support tissue detoxification[†]

FEATURES

- Convenient, easy-to-swallow capsule
- Made with high-quality ingredients backed by verifiable science

VERIFIABLE SCIENCE

N-Acetyl-L-Cysteine (NAC) is a derivative of the dietary amino acid L-cysteine.¹ NAC has a high affinity for lung tissue, which it supports through mucolytic and antioxidant action. Due to its sulfur content, NAC is able to disrupt disulfide bonds within mucus, thinning and easing its expulsion.² NAC is a free radical scavenger and thus supports epithelial cell health and healthy cilia activity in the respiratory tract.³ NAC is also a precursor to the antioxidant glutathione, and supplemental NAC increases tissue levels of glutathione.⁴ As fundamental components of the immune system, lymphocytes rely on glutathione to function properly. Tissues enhanced with glutathione support overall antioxidant protection and help to maintain a healthy immune response.⁵ A multicenter, randomized, double-blind trial with 262 participants indicated that NAC supplementation for six months supported upper respiratory tract and immune system health.⁶ A recent meta-analysis of eight double-blind, placebo-controlled trials provided additional support for NAC's ability to support respiratory tract health.⁷

SUGGESTED USE

As a dietary supplement, take 1 capsule, 1-3 times daily, between meals.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- N-acetyl-L-cysteine is synthetically derived.
- Vitamin C (as ascorbyl palmitate) is derived from corn dextrose fermentation and palm oil.

NOTES

NAC 600 mg Notes

Size 0 caps

Bottle counts 90/180/360

Order codes NA69/NA61/NA63

Bottle size 190 cc/ 290 cc/ 20 oz

NAC (N-Acetyl-L-Cysteine)

Supports respiratory function, glutathione production and detoxification[†]

SUPPLEMENT FACTS

1 capsule, 1-3 times daily, between meals.

Each (size 0) vegetarian capsule contains:

N-Acetyl-L-cysteine (free-form) 600 mg

Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate

NAC 600 mg	Quantity	Order Code
	360	NA63
	180	NA61
	90	NA69
