## VERIFIABLE SCIENCE

VESIsorb® is a patented, lipid-based delivery system that increases bioavailability of fat soluble bioactives. A cross-over pharmacokinetic pilot study (single oral dose) in humans compared an oil-based CoQ<sub>10</sub> preparation to CoQ<sub>10</sub> in the VESIsorb® delivery system and demonstrated a 308% increase in peak blood levels (C<sub>max</sub>) and a 622% increase in area under the curve (AUC<sub>(0-10hr)</sub>), a measure of 10-hour bioavailability. In the same study, AUC<sub>(0-10 hr)</sub> values were 285% and 499% greater with VESIsorb® CoQ<sub>10</sub> compared to two other solubilized, bio-enhanced preparations.<sup>1</sup>
