

Lutein/Zeaxanthin

Dual support for ocular health and vision[†]

INDICATIONS

- Ages 18 and up
- Eye health and vision support[†]

BENEFITS

- Supports the health of the optical lens as well as the retina[†]
- Promotes the integrity and density of the macular pigment[†]
- Helps maintain healthy photoreceptor function in the macula[†]
- Enhances total retinal health, photoreceptor health and color vision[†]

FEATURES

- Offers clinically researched FloraGLO[®] and OPTISHARP[®] ingredients
- Made with high-quality vegan ingredients backed by verifiable science

VERIFIABLE SCIENCE

Lutein and zeaxanthin are the two major carotenoid pigments stored in the macula, the central part of the retina. They promote the integrity and density of the macular pigment, in part through their antioxidant properties.¹ In addition, they help form a protective layer that filters light, maintaining healthy photoreceptor function in the macula.² Higher dietary intake of these carotenoids is associated with increased macular concentration.³ Numerous double-blind, placebo-controlled trials indicate that lutein and zeaxanthin support the health of the optical lens as well as the retina.⁴ Additionally, research shows that the combination may target different areas in the retina to enhance total retinal health, photoreceptor health and color vision.^{5†}

SUGGESTED USE

As a dietary supplement, take 1 capsule daily, with a meal.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- Lutein is sourced from FloraGLO[®] brand, which is derived from marigold flower extract
- Zeaxanthin is sourced from OPTISHARP[®] brand

NOTES

Size 0 caps

Bottle counts 60, 120

Order codes LZ6, LZ1

Bottle sizes 120 cc, 190 cc
