

NSK-SD[®] (Nattokinase) 100 mg

Supports healthy fibrinolytic activity and blood flow[†]

INDICATIONS

- Ages 18 and up
- Healthy fibrinolytic, blood flow and clotting support[†]

BENEFITS

- Helps maintain the body's natural fibrinolytic processes[†]
- Promotes healthy blood flow[†]
- Supports healthy clotting function[†]

FEATURES

- Based on traditional Japanese practices
- Small capsules for easy swallowing
- Made with vegan ingredients

VERIFIABLE SCIENCE

Nattokinase, a fibrinolytic enzyme isolated from Japanese natto, helps to maintain healthy activity of the body's natural clotting and fibrinolytic processes.¹ In an animal study conducted by Biotechnology Research Laboratories and JCR Pharmaceuticals of Kobe, Japan, nattokinase promoted healthy blood flow.² Furthermore, researchers from JCR Pharmaceuticals, Oklahoma State University and Miyazaki Medical College indicated that nattokinase supports healthy clotting function compared to placebo.³ In 1995, scientists at the Miyazaki Medical College and Kurashiki University in Japan demonstrated the potential for nattokinase to support blood vessel health in human subjects.⁴ This product is contraindicated for individuals with a history of bleeding tendency or with conditions associated with bleeding. Due to potential synergistic effects, concurrent use with anticoagulant and blood pressure medications should be closely supervised by a health professional.[†]

SUGGESTED USE

As a dietary supplement, take 1 capsule 2 times daily, 12 hours apart, with or between meals.

STORAGE

Store in a cool, dry place.

WARNING

Not to be taken by pregnant or lactating women. If you have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- Natto is produced by a fermentation process when *Bacillus natto* (also known as *Bacillus subtilis natto*) is added to boiled soybeans. Nattokinase, a fibrinolytic enzyme, is isolated from natto. NSK-SD[®] is a registered trademark of Japan Bio Science Laboratories

NOTES

Size 2 caps

Bottle count 60, 120

Order codes NS16, NS11

Bottle size 75 cc, 120 cc
