

Reduced Glutathione

Supports antioxidant defenses and detoxification[†]

INDICATIONS

- Ages 18 and up
- Detoxification, antioxidant defense and liver health support[†]

BENEFITS

- Protects the body from free radicals at the cellular level[†]
- Supports detoxification[†]
- Helps maintain healthy cell function[†]
- Promotes healthy liver function[†]
- Supports the synthesis and repair of DNA, and enhances the antioxidant activity of vitamin C[†]

FEATURES

- A key component of the antioxidant system[†]
- Small capsules for easy swallowing
- Made with high-quality ingredients backed by verifiable science

VERIFIABLE SCIENCE

Glutathione is a key component of the antioxidant system which protects the body from free radicals at the cellular level.¹ Reduced glutathione is involved in the synthesis and repair of DNA, and enhances the antioxidant activity of vitamin C, the transport of amino acids and the detoxification of harmful compounds. In addition, an intracellular abundance of reduced glutathione, as compared to oxidized glutathione, helps ensure healthy cell function.^{2,3} It is especially important for liver function.^{4†}

SUGGESTED USE

As a dietary supplement, take 1 capsule, 1-2 times daily, between meals.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- Reduced glutathione is derived naturally from corn glucose fermentation
- Hypo-allergenic plant fiber is derived from pine cellulose

NOTES

Size 1 caps

Bottle counts 60, 120

Order codes RG6, RG1

Bottle sizes 120 cc, 190 cc
